They had created sophisticated armaments, like laser weapons, drones, and orbiters, which could attack any place, anytime. They had also clandestinely built space stations, which could deploy nuclear missiles, that can annihilate the earth. They were both ready to employ them, if ever required. But they were not alone. There was a third power, a hidden power, which had monitoring them, waiting for them, preparing for them. They were ETs, and they had come to stop them.
