By following Dr. Sha's teachings, readers can learn to clear up these blockages, particularly using such simple notions such as unconditional love, forgiveness and service. As Dr. Sha puts it, 'Love melts all blockages and forgiveness brings peace.' And most importantly, you have the ability to heal yourself. John Philip Newell shares the long, hidden tradition of Celtic Christianity, explaining how this earth-based spirituality can help us rediscover the natural rhythms of life and deepen our spiritual connection with God, with each other, and with the earth. Newell introduces some of Celtic Christianity's leading practitioners, both saints and pioneers of faith, whose timeless wisdom is more necessary than ever, including: Pelagius, who shows us how to look beyond sin to affirm our sacredness as part of all God's creation, and courageously stand up for our principles in the face of oppression. Brigid of Kildare, who illuminates the interrelationship of all things and reminds us of the power of the sacred feminine to overcome those seeking to control us. John Muir, who encourages us to see the holiness and beauty of wilderness and what we must do to protect these gifts. Teilhard de

Chardin, who inspires us to see how science, faith, and our future tell one universal story that begins with sacredness. By embracing the wisdom of Celtic Christianity, we can learn how to listen to the sacred and see the divine in all of creation and within each of us. Human beings are inherently spiritual creatures who intuitively see the sacred in nature and within one another, but our cultures—and at times even our faiths—have made us forget what each of us already know deep in our souls but have learned to suppress. Sacred Earth, Sacred Soul offers a new spiritual foundation for our lives, once centered on encouragement, guidance, and hope for creating a better world.

Divinity and Humanity 2007-02-15 Oliver D. Crisp The doctrine of the Incarnation lies at the heart of Christianity. But the idea that 'God was in Christ' has become a much-debated topic in modern theology. Oliver Crisp addresses six key issues in the Incarnation defending a robust version of the doctrine, in keeping with classical Christology. He explores perichoresis, or interpenetration, with reference to both the Incarnation and Trinity. Over two chapters Crisp deals with the human nature of Christ and then provides an argument against the view, common amongst some contemporary theologians, that Christ had a fallen human nature. He considers the notion of divine kenosis or self-emptying, and discusses non-

synagogues and churches, including the First and Second Temples of the Hebrews, follow an archetypal design first used in the Ohel Moed, or Tent of Meeting, and its sacred Tabernacle, which housed the Ark of the Covenant and the Ten Commandments. Drawing from a wealth of sources including the Hebrew Bible, the oral Mishnaic tradition of Judaism, and 16th-century Judaic texts, Zohara Hieronimus explains how, like the Ohel Moed, we are designed to receive and reflect the divine qualities of the Creator. Exploring the kabbalistic initiatory teachings within the Chassidic tradition of Judaism and the lives and writings of the Hebrew prophets, she reveals how our physical and spiritual worlds are not separate but interdependent, one affecting the other, often in unexpected and sometimes miraculous ways. Starting from Malchut (Kingdom) at the bottom of the Tree of Life and ascending to Keter (Crown) at the top, the author discusses related biblical and scholarly texts and traditional Hebrew practices and teachings that can lead to spiritual enlightenment, illumination, and peace, allowing each of us to become a sanctuary for God's presence through self-refinement, ritual devotion, and prayer, as practiced since biblical times.

Working with Oneness 2002-05-02 Llewellyn Vaughan-Lee Humanity has been given access to the secrets of oneness, but we need to learn how to work with them. Working with Oneness brings mysticism into the center of the marketplace, into the world of business and technology, and shows how we can work with it in everyday life. The dynamic energy of oneness has the potential to heal the planet and revolutionize life more than we can imagine, but it requires our individual participation and awareness to become fully alive. The energy of oneness is already present but waiting to be lived, and Llewellyn Vaughan-Lee provides a blueprint for working consciously with this energy. As we

understand how our consciousness affects the whole fabric of life, the potential for real global change comes alive. Llewellyn Vaughan-Lee stresses the need to change from hierarchical, patriarchal power structures to organic patterns that allow for the free flow of energy and ideas. Through these patterns the dynamic energy of oneness can become part of everyday life. Working with Oneness includes a number of additional important topics, including: the changing energy structure of the planet and how to work with it; the power of individual consciousness; the danger of the desire for spiritual security; the return of joy to everyday life; the awakening of the heart of the world; a new understanding of magic; the use of the imagination; and mystical participation in life with the energy of oneness. It challenges readers to join other kindred souls in a mystical activism that can bring new hope to humanity.” —Spirituality & Health “A book filled with wonder and the kind of insights that can leap out to your heart and gladden you for having read them. It's words are simple and straightforward—always a blessing—but its message is the most vital and important for the time in which we live.
