Class Acts 2007 Rachel Sherman "Sherman's insightful ethnography sheds light on the interactional dimension of symbolic boundaries and class relations as they are lived by luxury hotel clients and the workers who serve them. We learn how both groups perform class through emotion work and deepen our understanding of the role played by "niceness" in constituting equality and reversing hierarchies. As such, Class Acts is a signal contribution to a growing literature on the place of the self concept in class boundaries. It will gain a significant place in a body of work that broadens our understanding of class by moving beyond structural de

and taking into consideration the performative, emotional, cognitive, and expressive dimensions of inequality."--Michele Lamont, author of *The Dignity of Working Men: Morality and the Boundaries of Race, Class, and Immigration* "Eye-opening, amusing, and appalling, Rachel Sherman's *Class Acts* explains how class inequality is normalized in the refined atmosphere of luxury hotels. This beautifully observed and engagingly written ethnography describes what kinds of deference and personal recognition money can buy. Moreover, it shows how workers who provide luxury service avoid seeing themselves as subordinate and how those whose whims are catered to are made comfortable with their privilege. *Class Acts* is a sobering and timely

Mobility Justice 2018-09-25 Mimi Sheller
Mobility justice is one of the crucial political and ethical issues of our day We are in the midst of a global climate crisis and experiencing the extreme challenges of urbanization. In Mobility Justice, Mimi Sheller makes a passionate argument for a new understanding of the contemporary crisis of movement. Sheller shows how power and inequality inform the governance and control of movement. She connects the body, street, city, nation, and planet in one overarching theory of the modern, perpetually shifting world.

of mobility are examined on a local level in the circulation of people, resources, and information, as well as on an urban scale, with questions of public transport and "the right to the city." On the planetary level, she demands that we rethink the reality where tourists and other elites are able to roam freely, while migrants and those most in need are abandoned and imprisoned at the borders. Mobility Justice is a new way to understand the deep flows of inequality and uneven accessibility in a world in which the mobility commons have been enclosed. It is a call for a new understanding of the politics of movement and a demand for justice for all.

Gagarin This volume presents the Greek text of approximately 200 stone inscriptions, which detail the laws of ancient Crete in the archaic and classical periods, c.650-400 BCE. The texts of the inscriptions, many of which are fragmentary and relatively unknown, are accompanied by an English translation and also two commentaries; one focused on epigraphical and linguistic issues, and the other, requiring no knowledge of Greek, focused on legal and historical issues. The texts are preceded by a substantial introduction, which surveys the geography, history, writing habits, social and political structure, economy, religion, and law of Crete in this period.
