Comparazione e diritto positivo. Un dialogo tra saperi giuridici 2021-05-18 Alessandro Somma Da tempo la comparazione non è l'occupazione esclusiva dei cultori del diritto comparato: vi ricorrono oramai tutti i cultori del diritto positivo. Ai giuscomparatisti spetta allora lo studio dei fondamenti della disciplina e dunque la riflessione sugli oggetti, gli scopi e il metodo della comparazione. Questo si deve però realizzare in dialogo con i cultori del diritto positivo, le cui ricerche costituiscono un punto di riferimento fondamentale, indispensabile a verificare e sviluppare i fondamenti della disciplina. Il volume discute le possibilità e l'agenda di una simile collaborazione e a tal fine raccoglie il punto di vista di cultori del diritto positivo particolarmente sensibili all'utilizzo della comparazione.

The Boundaries of Europe 2015-04-24 Pietro Rossi Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. The Boundaries of Europe, edited by Pietro Rossi, is the first installment in the ALLEA book series Discourses on Intellectual Europe, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

In the Sea There are Crocodiles 2011-08-09 Fabio Geda When ten-year-old Enaiatollah Akbari's small village in Afghanistan falls prey to Taliban rule in early 2000, his mother shepherds the boy across the border into Pakistan but has to leave him there all alone to fend for himself. Thus begins Enaiat's remarkable and often punishing five-year ordeal, which takes him through Iran, Turkey, and Greece before he seeks political asylum in Italy at the age of fifteen. Along the way, Enaiat endures the crippling physical and emotional agony of dangerous border crossings, trekking across bitterly cold mountain pathways for days on end or being stuffed into the false bottom of a truck. But not everyone is as resourceful, resilient, or lucky as Enaiat, and there are many heart-wrenching casualties along the way. Based on Enaiat's close collaboration with Italian novelist Fabio Geda and expertly rendered in English by an award-winning translator, this novel reconstructs the young boy's memories, perfectly preserving the childlike perspective and rhythms of an intimate oral history. Told with humor and humanity, In the Sea There Are Crocodiles brilliantly captures Enaiat's moving and engaging voice and lends urgency to an epic story of hope and survival.

Books-in-Brief: Anthropomorphic Depictions of God 2012-01-01 Zulfiqar Ali Shah This monumental study examines issues of anthropomorphism in the three Abrahamic Faiths, as viewed through the texts of the Hebrew Bible, the New Testament and the Qur'an. Throughout history Christianity and Judaism have tried to make sense of God. While juxtaposing the Islamic position against this, the author addresses the Judeo-Christian worldview and how each has chosen to framework its encounter with God, to what extent this has been the result of actual scripture and to what extent the product of theological debate, or church decrees of later centuries and absorption of Hellenistic philosophy. Shah also examines Islam's heavily anti-anthropomorphic stance and Islamic theological discourse on Tawhid as well as the Ninety-Nine Names of God and what these have meant in relation to Muslim understanding of God and His attributes. Describing how these became the touchstone of Muslim discourse with Judaism and Christianity he critiques theological statements and perspectives that came to dilute if not counter strict monotheism. As secularism debates whether God is dead, the issue of anthropomorphism has become of immense importance. The quest for God, especially in this day and age, is partly one of intellectual longing. To Shah, anthropomorphic concepts and corporeal depictions of the Divine are perhaps among the leading factors of modern atheism. As such he ultimately draws the conclusion that the postmodern longing for God will not be quenched by pre-modern anthropomorphic and corporeal concepts of the Divine which have simply brought God down to this cosmos, with a precise historical function and a specified location, reducing the intellectual and spiritual force of what God is and represents, causing the soul to detract from a sense of the sacred and thereby belief in Him.

The Periodic Table 1996-10-01 Primo Levi The Periodic Table is largely a memoir of the years before and after Primo Levi's transportation from his native Italy to Auschwitz as an anti-Facist partisan and a Jew. It recounts, in clear, precise, unflinching beautiful prose, the story of the Piedmontese Jewish community from which Levi came, of his years as a student and young chemist at the inception of the Second World War, and of his investigations into the nature of the material world. As such, it provides crucial links and backgrounds, both personal and intellectual, in the tremendous project of remembrance that is Levi's gift to posterity. But far from being a prologue to his experience of the Holocaust, Levi's masterpiece represents his most impassioned response to the events that engulfed him. The Periodic Table celebrates the pleasures of love and friendship and the search for meaning, and stands as a monument to those things in us that are capable of resisting and enduring in the face of tyranny.

Iran 2017 Michael Axworthy Since the beginning of recorded history, Iran/Persia has been one of the most important world civilizations. Iran remains a distinct civilization today despite its status as a major Islamic state with broad regional influence and its deep integration into the global economy through its vast energy reserves. Yet the close attention paid to Iran in recent decades stems from the impact of the 1979 revolution, which unleashed ideological shock waves throughout the Middle East that reverberate to this day. Many observers look at Iran through the prism of the Islamic Republic's adversarial relationship with the US, Israel, and Sunni nations in its region, yet as Michael Axworthy shows in Iran: What Everyone Needs to Know(R), there is much more to contemporary Iran than its fraught and complicated foreign relations. He begins with a concise account of Iranian history from ancient times to the late twentieth century, following that with sharp summaries of the key events since the 1979 revolution. The final section of the book focuses on Iran today--its culture, economy, politics, and people--and assesses the challenges that the nation will face in coming years. Iran will be an essential overview of a complex and important nation that has occupied world headlines for nearly four decades.

Persian Letters 2020-03-13 Baron Charles De Secondat Montesquieu, Bar Immensely popular throughout France and Europe upon its first publication in 1721, "Persian Letters" exemplifies the spirit of eighteenth-century libertinism and Enlightenment. Written by Charles de Montesquieu, this epistolary novel is told through a collection of letters and recounts the observations and experiences of two Persian noblemen traveling through France. The various writers of the letters are astute observers and this satirical story of eighteenth-century French society touches on fundamental questions of human nature, the manners and flirtations of polite society, attitudes on morality, the structures of power, and the hypocrisy of religion. Montesquieu's subtle, witty criticisms of government and social customs are softened through the lens of his central character, Usbek, a young courtier who has travelled to Europe to escape persecution along with Rica, his good-humored travel companion. This brilliant work is a colorful interpretation of early eighteenth-century society as well as an enduring exploration of morality and societal customs in an increasingly modern world. This edition is printed on premium acid-free paper.

Understanding the Qur'an Today 2013-03-11 Mahmoud Hussein The prevailing belief among Muslims is that, because the Qur'an is the Word of God and God is eternal, it follows that His Word is also eternal. The belief is based on the postulate that the Word of God must be of the same nature as God Himself. Mahmoud Hussein refutes this by showing that it contradicts the very teachings of the Qur'an. Whereas God transcends time, His Word is inscribed within time. It is not a monologue, but a living exchange, through which God reveals to His Prophet different orders of truth, weaving together the absolute and the relative, the general and the particular, the eternal and the contingent. An international bestseller, Understanding the Qur'an today offers a new perspective on one of the world's most influential texts and adds an invaluable contribution to the debate on Islam and modernity.

Islam in Inter-war Europe 2008 Nathalie Clayer In the enormous literature on the Muslim world, one of the few gaps in our knowledge is the status of Islam in inter-war Europe, an imbalance this book aims to address. The Muslim population of

Europe in the period from 1918-1939 was not one of isolated islands of belief and practice. Rather, there was far more interaction between Muslim communities than had hitherto been imagined. For example, there was much correspondence and exchange of ideas between the Ahmadi-Lahori missions of Berlin and Woking, near London, and Albanian religious leaders. Other topics discussed in this book include the earlier than imagined emergence of notions of a distinctly 'European' Islam, the fraught interplay of politics and Islam, especially the development by some governments of Muslim 'agendas', the richness and importance of debates within Europe's Muslim community, the attempts by the Nazis to foment 'jihad' and the modus operandi of trans-national networks.

Studies in Religious Fundamentalism 1987-01-01 Lionel Caplan This book examines the specific circumstances that nurture fundamentalist beliefs and practices. It studies contemporary fundamentalist developments in several continents, involving groups associated with five major religions. The authors answer important questions regarding the irrationality of fundamentalism, its complex link with modernism, the nature of its relationship to a sacred text, and its perspectives on history and knowledge. No fixed set of qualities defines fundamentalism. Since it implies a view of the universe and a discourse about the nature of truth, it encompasses and transcends the religious domain. For that reason, every movement or cause is potentially fundamentalist.

Illuminations 2013 Arthur Rimbaud This uncompleted suite of poems by French poet Arthur Rimbaud was first published serially in the Paris literary review magazine "La Vogue." The magazine published part of "Illuminations" from May to June 1886. Paul Verlaine, Rimbaud's lover, suggested the publication of these poems, written between 1873 and 1875, in book form. All forty-two of the poems generally considered as part of "Illuminations" are collected together here in this edition. Of these forty-two poems almost all are in a prose poem format, the two exceptions are "Seapiece" and "Motion," which are vers libre. There is no universally defined order to the poems in "Illuminations," while many scholars believe the order of the poems to be irrelevant, this edition begins traditionally with "Après Le Deluge" or "After the Flood." Albert Camus hailed Rimbaud as "the poet of revolt, and the greatest." The worth of this praise for Rimbaud can be seen in "Illuminations," one of the most exemplary works of his poetic talent.

Kissinger's intimate portraits of world leaders, many from personal experience, provide the reader with a unique insight into what really goes on -- and why -- behind the closed doors of the corridors of power. It is certainly one of the best, and most enjoyable [books] on international relations past and present ... DIPLOMACY should be read for the sheer historical sweep, the characterisations, the story-telling, the ability to look at large parts of the world as a whole' Malcolm Rutherford in the FINANCIAL TIMES

The Psychology of Terrorism 2014-06-16 John G. Horgan This new edition of John Horgan's critically acclaimed book is fully revised and expanded. The book presents a critical analysis of our existing knowledge and understanding of terrorist psychology. Despite the on-going search for a terrorist pathology, the most insightful and evidence-based research to date not only illustrates the lack of any identifiable psychopathology in terrorists, but demonstrates how frighteningly 'normal' and unremarkable in psychological terms are those who engage in terrorist activity. By producing a clearer map of the processes that impinge upon the individual terrorist, a different type of terrorist psychology emerges, one which has clearer implications for efforts at countering and disrupting violent extremism in today's world. In this 2nd edition, Horgan further develops his approach to the arc of terrorism by delving deeper into his IED model of Involvement, Engagement and Disengagement - the three phases of terrorism experienced by every single terrorist. Drawing on new and exciting research from the past decade, with new details from interviews with terrorists ranging from al-Qaeda to left-wing revolutionaries, biographies and autobiographies of former terrorists, and insights from historic and contemporary terrorist attacks since 2005, Horgan presents a fully revised and expanded edition of his signature text. This new edition of The Psychology of Terrorism will be essential reading for students of terrorism and political violence, and counterterrorism studies, and recommended for forensic psychology, criminology, international security and IR in general.

The Orient Under the Caliphs 1920 Alfred Freiherr von Kremer Von Kremer's Kulturgeschichte des Orients will be welcome to all English-knowing lovers of Islamic history and culture. Von Kremer still stands unsurpassed. He has had no competitors; he alone occupies the field. His researches patient, laborious, thorough have illumined every aspect of Muslim life. He is the most trustworthy interpreter of the social, political, economic, literary, and legal problems of Islam. The volume before us opens with an account of the death of the Prophet, and the trouble that arose over the question of succession. Faction fought faction. Heavy banks of cloud loomed up menacingly on the political horizon of Arabia. The spirit of tribal faction theretofore checked and kept in restraint asserted itself; and, in its very infancy, Islam was threatened with division, disunion, ruin and disruption. Omar saw the danger, and felt the need of prompt and vigorous action. He did as a practical and sagacious statesman would do. He settled the question of succession at a stroke; and with that the clouds rolled away, and the danger which had confronted Islam was at once averted. -- From <https://www.amazon.co.uk> (Sep. 21, 2016).

Bonney covers topics such as interpretations of the Qu'ran, historical reactionaries, Sufi alternatives to political Islam, colonialism, twentieth century Jihadists, the Shia depiction of jihad and martyrdom, the jihadi ideology of the 1980s and 1990s, the Palestine Intifada, Osama Bin Laden, and more.

Hamlet's Mill 2020-02-10 Hertha Von Dechend The main argument of the book may be summarized as the claim of an early (Neolithic) discovery of the precession of the equinoxes (usually attributed to Hipparchus, 2nd century BCE), and an associated very long-lived Megalithic civilization of "unsuspected sophistication" that was particularly preoccupied with astronomical observation. The knowledge of this civilization about precession, and the associated astrological ages, would have been encoded in mythology, typically in the form of a story relating to a millstone and a young protagonist--the "Hamlet's Mill" of the book's title, a reference to the kenning Amlóða kvren recorded in the Old Icelandic Skáldskaparmál.[1] The authors indeed claim that mythology is primarily to be interpreted as in terms of archaeoastronomy ("mythological language has exclusive reference to celestial phenomena"), and they mock alternative interpretations in terms of fertility or agriculture.[2]
