Gravel Roads 2000 Ken Skorseth The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the

questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

Elective Affinities 2009-01 Catriona MacLeod This volume presents the impressive range of scholarly affinities, approaches, and subjects that characterize today's word and image studies. The essays, a selection of papers first presented in 2005 at the seventh international conference of the International Association of Word and Image Studies/Association Internationale pour l'Étude des Rapports entre Texte et Image that took place in Philadelphia, are case studies of the diverse configurations of the textual and the iconic. "Elective affinities" — a notion originally borrowed by Goethe for his 1809 novel of the same title from eighteenth-century chemistry — here refers to the active role of the two partners in the relationship of the pictorial and the verbal. Following the experimental modalities opened up by Goethe, the present volume is divided into three sections, which explore, respectively, how words and images can merge in harmony, engage in conflicts and contestations, and, finally, interact in an experimental way that self-consciously tests the boundaries and relations among verbal and visual arts. New perspectives on word and image relationships emerge, in periods, national traditions, works, and materials as different as (among many others) an installation by Marcel Duchamp and the manual accompanying it; the impact of artificial light sources on literature and art; nineteenth-century British illustrations of Native Americans; the contemporary comic book; a seventeenth-century Italian devotional manuscript uniting text, image, and music; Chinese body and performance art..

Data-Intensive Text Processing with MapReduce
2022-05-31 Jimmy Lin Our world is being revolutionized by data-driven methods: access to large amounts of data has generated new insights and opened exciting new opportunities in commerce, science, and computing applications. Processing the enormous quantities of data necessary for these advances requires large clusters, making distributed computing paradigms more crucial than ever. MapReduce is a programming model for expressing distributed computations on massive datasets and an execution framework for large-scale data processing on clusters of commodity servers. The programming model provides an easy-to-understand abstraction for designing scalable algorithms, while the execution framework

transparently handles many system-level details, ranging from scheduling to synchronization to fault tolerance. This book focuses on MapReduce algorithm design, with an emphasis on text processing algorithms common in natural language processing, information retrieval, and machine learning. We introduce the notion of MapReduce design patterns, which represent general reusable solutions to commonly occurring problems across a variety of problem domains. This book not only intends to help the reader "think in MapReduce", but also discusses limitations of the programming model as well. Table of Contents: Introduction / MapReduce Basics / MapReduce Algorithm Design / Inverted Indexing for Text Retrieval / Graph Algorithms / EM Algorithms for Text Processing / Closing Remarks

Some of the numerous useful rules and common mistakes pointed out in the guide include: *Which informs, that defines. This is the house that Jack built. But: This house, which Jack built, is now falling down. •Discreet means circumspect or prudent; discrete means separate or distinct. Remember that "Questions are never indiscreet. Answers sometimes are" (Oscar Wilde). •Flaunt means display, flout means disdain. If you flout this distinction you will flaunt your ignorance •Forgo means do without; forego means go before. •Fortuitous means accidental, not fortunate or well-timed. •Times: Take care. Three times more than X is four times as much as X. •Full stops: Use plenty. They keep sentences short. This helps the reader.

The Peabody Picture Vocabulary Test 4th Edition (PPVT-4) is a highly regarded vocabulary assessment that has been in practice for almost 50 years. Formulated by Lloyd M. Dunn and Douglas M. Dunn, the assessment is made to evaluate vocabulary comprehension for Standard American English. It is swift and

simple to conduct, preserving important time so that concentration can be set on executing effective approaches.

The PPVT-4 test content encompasses a broad range of receptive vocabulary grades, ranging from preschool through adult age. The test questions widely include words that portray 20 subject fields (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and school vocabulary. The evaluation provides two equivalent editions which include distinct vocabulary terms, guaranteeing that the person has not "learned" the assessment. One edition can be used ahead of intervention implementation to evaluate people's vocabulary comprehension and the other edition can be utilized for re-testing to evaluate and note progress. The PPVT-4 also contains a special Growth Scale Value (GSV) which is sensitive to minor changes over time.
