Making Meaning in Popular Song

2022-06-16 Theodore Gracyk For Theodore Gracyk meaning in popular music depends as much on the context of reception and

performer's intentions as on established musical and semantic practices. Songs are structures that serve as the scaffolding for meaning production, influenced by the performance decisions of the performer and their intentions. Arguing against prevailing theories of meaning that ignore the power of the performance, Gracyk champions the contextual relevance of the performer as well as novel messaging through creative repurposing of recordings. Extending the philosophical insight that meaning is a function of use, Gracyk explains how both the performance persona and the personal life of a song's performer can contribute to (or undercut) ethical and political aspects of a performance or recording. Using Carly Simon's

“You're So Vain”, Pink Floyd, the emergence of the musical genre of post-punk and the practice of “cover” versions, Gracyk explores the multiple, sometimes contradictory, notions of authenticity applied to popular music and the conditions for meaningful communication. He places popular music within larger cultural contexts and examines how assigning a performance or recording to one music genre rather than another has implications for what it communicates. Informed by a mix of philosophy of art and philosophy of language, Gracyk's entertaining study of popular music constructs a theoretical basis for a philosophy of meaning for songs.

Voicing Girlhood in Popular Music
2016-06-10 Jacqueline Warwick This interdisciplinary volume explores the girl's voice and the construction of girlhood in contemporary popular music, visiting girls as musicians, activists, and performers through topics that range from female vocal development during adolescence to girls' online media culture. While girls' voices are more prominent than ever in popular music culture, the specific sonic character of the young female voice is routinely denied authority. Decades old clichés of girls as frivolous, silly, and deserving of contempt prevail in mainstream popular image and sound. Nevertheless, girls find ways to raise their voices and make themselves heard. This volume explores the contemporary girl's voice to illuminate the way ideals of girlhood are historically specific, and the way adults frame

and construct girlhood to both valorize and vilify girls and women. Interrogating popular music, childhood, and gender, it analyzes the history of the all-girl band from the Runaways to the present; the changing anatomy of a girl's voice throughout adolescence; girl's participatory culture via youtube and rock camps, and representations of the girl's voice in other media like audiobooks, film, and television. Essays consider girl performers like Jackie Evancho and Lorde, and all-girl bands like Sleater Kinney, The Slits and Warpaint, as well as performative 'girliness' in the voices of female vocalists like Joni Mitchell, Beyoncé, Miley Cyrus, Taylor Swift, Kathleen Hanna, and Rebecca Black. Participating in girl studies within and beyond the field of music, this book unites scholarly perspectives from disciplines such as musicology, ethnomusicology, comparative literature, women's and gender studies, media studies, and education to investigate the importance of girls' voices in popular music, and

to help unravel the complexities bound up in music and girlhood in the contemporary contexts of North America and the United Kingdom.

Women's Music for the Screen

2021-08-26 Felicity Wilcox Women's Music for the Screen: Diverse Narratives in Sound shines a long-overdue light on the works and lives of female-identifying screen composers. Bringing together composer profiles, exclusive interview

excerpts, and industry case studies, this volume showcases their achievements and reflects on the systemic gender biases women have faced in an industry that has long excluded them. Across 16 essays, an international array of contributors present a wealth of research data, biographical content, and musical analysis of film, television, and video game scores to understand how the industry excludes women, the consequences of these deficits, and why such inequities persist – and to document women’s rich contributions to screen music in diverse styles and genres. The chapters amplify the voices of women composers including Bebe Barron, Delia Derbyshire, Wendy Carlos, Anne Dudley, Rachel Portman, Hildur Guðnadóttir, Mica Levi, Winifred Phillips, and more. From the mid-twentieth century to the present, and from classic Hollywood scores to pioneering electronic music, these are the stories and achievements of the women who have managed to forge successful careers in a male-dominated arena. Suitable for researchers,

educators, and students alike, Women’s Music for the Screen urges the screen music industry to consider these sounds and stories in a way it hasn’t before: as voices that more accurately reflect the world we all share.
