The Peabody Picture Vocabulary Test 4th Edition (PPVT-4) is a widely recognized vocabulary assessment that has been in operation for close to 50 years. Created by Lloyd M. Dunn and Douglas M. Dunn, the evaluation is made to measure receptive vocabulary for American English. It is quick and effortless to carry out, saving valuable time so that focus can be set on applying effective interventions.

The PPVT-4 test material encompasses a broad scope of vocabulary comprehension ranks, ranging from pre-kindergarten through adult age. The assessment questions extensively sample words that depict 20 topic areas (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and school vocabulary.

The assessment gives two equivalent editions which contain various vocabulary words, making sure that the individual has not “memorized” the assessment. One edition can be used ahead of intervention to evaluate individuals’ vocabulary knowledge and the alternative form can be employed for re-testing to assess and document progress. The PPVT-4 also contains a special Growth Scale Value (GSV) which is sensitive to small changes in time.
