Star Wars that Transformed History

It had been the time 2023, and the world was at the edge of war. The USA and Peoples Republic of China, the two world powers, were engaged in a ferocious rivalry, competing for supplies, influence, and dominance. They had both engineered high-tech armaments, such as laser weapons, drones, and spacecrafts, which could hit any location, any moment. They had covertly constructed space stations, that can deploy nuclear missiles, that could obliterate the planet. They were set to employ these weapons, if needed. But they were not alone. There existed a 3rd power, a hidden power, which had been observing them both, waiting for them, preparing for them. They were the ETs, and they had come come to stop them both. They had come arrived to protect the earth, or to end it. They had arrived to initiate the star wars that transformed past.
