## The Great Controversy

2022-05-29 Ellen G. White The Great Controversy is a work by Ellen G. ## Oromo Indigenous Religion and Oromo Christianity

2018-05-31 Ujulu Tesso Benti The early non-Oromo writers have distorted the history of the Oromo. Without scientific research, they were speaking of the so-called Oromo migration of the 16th century. Against the unscientific thesis, of the early scholars, this work confirmed the Oromo to be not only the indigenous African peoples, but also belong to the Cushitic Africans who invented the first world civilization. Their egalitarian and holistic culture, the gadaa system is part of the ancient Cushitic civilization. It is the base for modern democratic system of governance. The root word of 'gadaa' is originated from 'Ka', the creator God of the ancient religion of the Cushitic Africans. From this very name, Ka originated the Oromo word "Waaqa", which also means creator of everything. This shows that the Oromo are among the first nations who came up with the idea of monotheism. Therefore, this work disqualifies the missionary assumptions describing the Oromo Indigenous Religion (OIR) as Satanism and its religious experts, the Qaalluus as witchdoctors or sorcerers. This dissertation discovered many identical, similar, partial similar and few differing elements between the Oromo Indigenous Religion (OIR) and Oromo Christianity (OC). Also, the study identified many Oromo cultural elements that are compatible to Christianity, therefore must be adopted by the Oromo Christianity. According modern scholarship God revealed himself in every human culture and religion is part of human culture. Therefore, no religion can claim to be "the only true religion". Based on this principle, this dissertation calls all leaders of religious institutions in Oromia, to change their attitude, develop culture of tolerance, conduct constructive religious dialogue, create the atmosphere of peaceful coexistence of all religions and establish sustainable peace that serves humanity.

## You Can Understand the Bible

2017-04-25 Dr Bob Utley Biblical interpretation is a rational and spiritual process that attempts to understand an ancient inspired writer in such a way that the message from God may be understood and applied in our day. The spiritual process is crucial but difficult to define. It does involve a yieldedness and openness to God. There must be a hunger (1) for Him, (2) to know Him, and (3) to serve Him. This process involves prayer, confession, and the willingness for lifestyle change. The Spirit is crucial in the interpretive process, but why sincere, godly Christians understand the Bible differently is a mystery. The rational process is easier to describe. We must be consistent and fair to the text and not be influenced by our personal, cultural, or denominational biases. We are all historically conditioned. None of us are objective, neutral interpreters. This commentary offers a careful rational process containing four interpretive principles structured to help us attempt to overcome our biases. First Principle The first principle is to note the historical setting in which a biblical book was written and the particular historical occasion for its authorship (or when it was edited). The original author had a purpose and a message to communicate. The text cannot mean something to us that it never meant to the original, ancient, inspired author. His intent-not our historical, emotional, cultural, personal, or denominational need-is the key. Application is an integral partner to interpretation, but proper interpretation must always precede application. It must be reiterated that every biblical text has one and only one meaning. This meaning is what the original biblical author intended through the Spirit's leadership to communicate to his day. This one meaning may have many possible applications to different cultures and situations. These applications must be linked to the central truth of the original author. For this reason, this study guide commentary is designed to provide a brief introduction to each book of the Bible. Second Principle The second principle is to identify the literary units. Every biblical book is a unified document. Interpreters have no right to isolate one aspect of truth by excluding others. Therefore, we must strive to understand the purpose of the whole biblical book before we interpret the individual literary units. The individual parts-chapters, paragraphs, or verses-cannot mean what the whole unit does not mean. Interpretation must move from a deductive approach of the whole to an inductive approach to the parts. Therefore, this study guide commentary is designed to help the student analyze the structure of each literary unit by paragraphs. Paragraph and chapter divisions are not inspired, but they do aid us in identifying thought units. Third Principle The third principle is to read the Bible in different translations in order to grasp the widest possible range of meaning (semantic field) that biblical words or phrases may have. Often a phrase or word can be understood in several ways. These different translations bring out these options and help to identify and explain the manuscript variations. These do not affect doctrine, but they do help us to try to get back to the original text

penned by an inspired ancient writer. Fourth Principle The fourth principle is to note the literary genre. Original inspired authors chose to record their messages in different forms (e.g., historical narrative, historical drama, poetry, prophecy, gospel [parable], letter, apocalyptic). These different forms have special keys to interpretation. This Textbook offers a quick way for the student to check his interpretations. It is not meant to be definitive, but rather informative and thought-provoking. These principles have helped me to overcome much of my historical conditioning by forcing me to struggle with the ancient text. My hope is that it will be a blessing to you as well. Dr. Bob Utley

## Children of Hope

2018-08-20 Sandra Rowoldt Shell In Children of Hope, Sandra Rowoldt Shell traces the lives of sixty-four Oromo children who were enslaved in Ethiopia in the late-nineteenth century, liberated by the British navy, and ultimately sent to Lovedale Institution, a Free Church of Scotland mission in the Eastern Cape, South Africa, for their safety. Because Scottish missionaries in Yemen interviewed each of the Oromo children shortly after their liberation, we have sixty-four structured life histories told by the children themselves. In the historiography of slavery and the slave trade, first passage narratives are rare, groups of such narratives even more so. In this analytical group biography (or prosopography), Shell renders the experiences of the captives in detail and context that are all the more affecting for their dispassionate presentation. Comparing the children by gender, age, place of origin, method of capture, identity, and other characteristics, Shell enables new insights unlike anything in the existing literature for this region and period. Children of Hope is supplemented by graphs, maps, and illustrations that carefully detail the demographic and geographic layers of the children's origins and lives after capture. In this way, Shell honors the individual stories of each child while also placing them into invaluable and multifaceted contexts.
