How to Tell a Joke

2021-03-30 Marcus Tullius Cicero "Everyone knows that Marcus Tullius Cicero was one of the great statesmen, lawyers, and effective orators in the history of Rome. But did you also know he was regarded as one of the funniest people in Roman society as well? Five hundred years after his death, in the twilight of antiquity, the writer Macrobius ranks him alongside the comic playwright Plautus as the one of the two greatest wits ever. In this book, classicist Michael Fontaine, proposes to translate selections from Cicero's great rhetorical treatise, On the Ideal

Orator (De Oratore). That larger work covered the whole of rhetoric and effective public speaking and debate. However, contained within it, is a long section focused on the effective use of humor in public speaking. In it, Cicero is concerned not just with various kinds of individual jokes, but with jokes that are advantageous in social situations. He advises readers on how to make the most effective use of wit to win friends, audiences, and achieve their overall ambitions. Cicero wants to teach his readers how to tell a joke without looking like a buffoon, and how to prevent or avoid jokes from backfiring. Hence, he does give scores of examples of jokes-some of which are timeless and translate easily, others that involve puns in Latin that challenged the translator's creativity. But overall, this work brings to the fore a little known, but important part of Cicero's classic work."--

2012-10 Frank Verano For a starter, let's face it; I made it to 94 years and frankly, that is an achievement that dwarf s anything else I can say about my long life so far, (and I ain't through yet.) If I were to point to the most significant event of my life I would have to say that I was a witness to a critical event in American history and perhaps in world history, the devastating attack on our Navy at Pearl Harbor on December 7, 1941. The rest of my life was somewhat nondescript in the overall scheme of things in this world. I was born (just like everyone else) in Holland Michigan, way back, a good 200 years ago.' I was a musician from the start, playing the harmonica at 10 years old. (Also, later the ukulele, mandolin, Hawaiian guitar, orchestral guitar, and marimba.) My first performance was with the harmonica before my 8th grade class! Later on as a teenager I played in an orchestra and performed at dances, night clubs and church events. Currently, I duo on the classical guitar with my flute player playing occasional concerts. Now that I think of it, I was pretty good. Being a small 109 pound guy I joined the Navy in 1940 so as to not get drafted. WW2 was already raging in Europe. I had to enlist for 6 years. That put me in WW2 from the beginning to the end and then some. Hey, I also performed on the guitar in the Navy aboard ship (between naval battles!) Upon discharge in 1946 I joined with my high school buddy to get the first printed circuit patent. I am really proud of that because printed circuits are in everything that's electronic. And we started it! It was particularly smart of me because 40 years later I needed the printed circuit in my pacemaker! Such foresight! At the same time I entered college at MIT. Our patent royalties helped pay for tuition. As long as I am being proud, I may as well include graduating from that top technical school in the country, which is pretty good for a son of an immigrant from Italy. From thereon my engineering career included teaching at Cal Poly in San Luis Obispo lecturing at USC and work in computers and programming. But of course, most of my work was in the Defense industry. Now in retirement I am doing things I like to do: play music and write. Looking back I think that getting an engineering degree was a big mistake. I should have been a gigolo. Look at what I missed! Alas, it is too late!

Acupuncture treatment for smokers should only be done by a license professional. You can do some research online to find out if they are accredited by the National Commission for Acupuncture and Oriental Medicine, ask how long they have been in the profession, find out how many smokers they have helped and how much will they charge.

Once you have found one, you have to commit yourself to the program because both you and the acupuncturist have to work together to give up this habit.

Acupuncture can help smokers in the same way that it has helped addicts and alcoholics quit their addictions. You just have to try it even if you may not believe in it.

What is acupuncture?

Acupuncture has surged in popularity for the last few decades as brought on by the recent health trend. Mostly known as a traditional Chinese medical technique, acupuncture is seen as a homeopathic method of treatment. While alternative medicine does raise a lot of eyebrows for the scientifically-inclined, it does merit attention before being dismissed as a quack cure.

Basic Procedure

Basically, needles are inserted into the skin, each corresponding to one of the numerous pressure points located throughout the body. According to Traditional Chinese Medicine, by inserting a needle into the pressure point, an acupuncturist can manipulate the flow of chi or life force, thus relieving pain and gradually treating the patient. While most would say that the whole chi thing is a bunch of nonsense, science has suggested that with the needles inserted, the body's natural painkillers called endorphins are released, thus helping with pain relief.
