Dark Light Consciousness 2012-06-19 Edward Bruce Bynum How to awaken the Ureaus--the serpent power of spiritual transcendence within each of us--and connect to the superconscious of the universe • Reveals the biochemistry of how the body's melanin provides the template for the subtle energy body or light body • Shows how embracing the dark light consciousness of the awakened Ureaus opens a portal to the sacred darkness of the superconscious • Provides illustrated instructions for meditation practices, breathing exercises, and yoga postures to safely awaken Ureaus/Kundalini energy Within each of us lies the potential to activate a personal connection to the superconscious. Called "Ureaus" in ancient Egyptian texts and "Kundalini" in ancient Hindu yoga traditions, our innate serpent power of spiritual transcendence inhabits the base of the spine in its dormant state. When awakened, it unfurls along the spinal column to the brain, connecting individual consciousness to the consciousness of the universe enfolded within the dark matter of space. At the root of creativity and spiritual genius across innumerable cultures and civilizations, this intelligent force reveals portals that unfold time, space, and the luminous matrix of reality itself. Combining physics, neuroscience, and biochemistry with ancient traditions from Africa and India, Edward Bruce Bynum, Ph.D., explores the ancient Egyptian science of the Ureaus and reveals how it is intimately connected to dark matter and to melanin, a light-sensitive, energy-conducting substance found in the brain, nervous system, and organs of all higher life-forms. He explains how the dark light of melanin serves as the biochemical infrastructure for the subtle energy body, just as dark matter, together with gravity, holds the galaxies and constellations together. With illustrated instructions, he shows how to safely awaken and stabilize the spiritual energy of the Ureaus through meditation practices, breathing exercises, and yoga postures as well as how to prepare the subtle body for transdimensional soul travel. By embracing the dark light of the shining serpent within, we overcome our collective fear of the vast living darkness without. By embracing the dark, we transcend reality to the dimension of light.

Our African Unconscious 2021-09-07 Edward Bruce Bynum • Examines the Oldawan, the Ancient Soul of Africa, and its correlation with what modern psychologists have defined as the collective unconscious • Draws on archaeology, DNA research, history, and depth psychology to reveal how the biological and spiritual roots of religion and science came out of Africa • Explores the reflections of our African unconscious in the present confrontation in the Americas, in the work of the Founding Fathers, and in modern psychospirituality The fossil record confirms that humanity originated in Africa. Yet somehow we have overlooked that Africa is also at the root of all that makes us human--our spirituality, civilization, arts, sciences, philosophy, and our conscious and unconscious minds. In this extensive look at the unfolding of human history and culture, Edward Bruce Bynum reveals how our collective unconscious is African. Drawing on archaeology, DNA research, depth psychology, and the biological and spiritual roots of religion and science, he demonstrates how all modern human beings, regardless of ethnic or racial categorizations, share a common deeper identity, both psychically and genetically--a primordial African unconscious. Exploring the beginning of early religions and mysticism in Africa, the author looks at the Egyptian Nubian role in the rise of civilization, the emergence of Kemetic Egypt, and the Oldawan, the Ancient Soul, and its correlation with what modern psychologists have defined as the collective unconscious. Revealing the spiritual and psychological ramifications of our shared African ancestry, the author examines its reflections in the present confrontation in the Americas, in the work of the Founding Fathers, and in modern Black spirituality, which arose from African diaspora religion and philosophy. By recognizing our shared African unconscious--the matrix that forms the deepest luminous core of human identity--we learn that the differences between one person and another are merely superficial and ultimately there is no real separation between the material and the spiritual.

Family Unconscious an Invisible Bond 2006-09-01 Edward Bruce Bynum From the foreword by Stanley Krippner author of "Realms of Healing": ." . . these pages may provide a route of mending and healing for many families . . . conveys the richness of shared imagery and emotionality that operates in the life of each family member." The family group, the individual, clinical psychologists, all will find this book enormously helpful. Dr. Taub-Bynum, himself a clinical psychologist, appears to be the long needed catalyst to bring the family, as a unit, under the umbrella of the collective unconscious. In addition, he relates family behavior to documented case histories of telepathy, clairvoyance and second-sight. Writes Carl A. Whitaker, Professor of Psychiatry at the University of Wisconsin Medical School, Madison: "This capacity to combine concepts of family therapy, the wisdom of the East, and the wisdom of higher mathematics and physics puts (the author) in a unique position to formulate things which I respect, admire, and follow ... I am firmly convinced that members of the same family read each other in great detail and that most of that information never reaches consciousness." Comments Erik Peper, Director Biofeedback and Family Therapy Institute, Berkeley, California: ." . . offers both layman and therapist new underlying concepts in individual and family dynamics ..." EDWARD BRUCE BYNUM, Ph.D., is a clinical psychologist and Director of the Behaviorial Medicine Program at the University of Massachusetts Health Services. He is also the author of Families and the Interpretation of Dreams. He has published widely in both popular and professional journals. Some of his work has been translated into German, Japanese, and Russian. He is a student and practitioner of Kundalini Yoga.

Melanin 2012-03-03 Richard D. King A Study of ancient African history reveals an early African definition of the human Melanin System as a whole body Black Melanin System that serves as the eye of the soul to produce inner vision, true spiritual consciousness, creative genius, beatific vision, to become Godlike, and to have conversation with the immortals (Ancestors). The purpose of ancient African education was to provide knowledge and development of the will of the student that allowed salvation (freedom) of the soul from the fetters (chains) of the physical body (George G. The Dreamlife of Families 2017-07-11 Edward Bruce Bynum How our unconscious minds connect with our families through dreams • Shows how the connected dreamlife of families reveals itself in nightmares and unusual dreams, during critical times such as pregnancy, conflicts, and medical emergencies, and in shared, telepathic, and precognitive dreams • Explains how dreamwork can help heal our psychospiritual selves and aid in both family and couples therapy • Examines ancient dream traditions from Africa, Europe, Asia, South America, Australia, and the ancient Egyptian Mystery Schools Our dreams, the most intimate part of us, form the truest expressions of our feelings and emotional beliefs about the world. Our dreams also reflect the complex connections of our unconscious minds with those of our families and close friends, connecting us through our dreams to loved ones near and far, living and passed on. Integrating traditional dream analysis with family psychology, clinical science, and parapsychology, Edward Bruce Bynum, Ph.D., ABPP, details how our personal unconscious is interwoven into our larger family unconscious. He shows how these dreamlife connections and patterns are as old as humanity itself, exploring ancient dream traditions from around the world. He explains how the dreamlife of a family can be viewed as a shared field or hologram, where each family member is enfolded into the dreams of the other members. This shared reality reveals itself in family and personal illnesses, in nightmares and unusual dreams, and during critical times such as crisis, pregnancy, conflicts, and medical emergencies. It also reveals itself in cases of simultaneous shared dreams and telepathic and precognitive dreams, explaining why so many people have dreams in which a family member appears to say good-bye, waking the next day to discover the same loved one has passed away. Sharing clinical case studies from his Family Dream Research Project, the author shows how the intimate labyrinth of our dream lives is always flowing beneath the surface of our waking lives, shaping and influencing our relationships and our deep core experiences. He reveals how dreams can be healing factors as well as diagnostic signals, detailing how dreamwork can aid in both family and couples therapy. Showing how our family's dreamlife connects us to our ancestors and weaves us into the messages we send to our children's children, the author offers an opportunity to identify personal and family patterns, heal our psychospiritual selves, and grow our understanding of our own minds.

The Roots of Transcendence 2006-09-01 Edward Bruce Bynum Critical Acclaim for The Roots of Transcendence... From the Scholars: "This is a powerful book... A true picture of the cross-fertilization of human history and culture...A major book, one of the signposts of the time." -Molefi Kete Asante, PhD, Chairman, Department of African-American Studies, Temple University; Author, Afrocentricity, and Rhythms Unity From the Psychiatrists: "A PIONEERING TEXT in Transego Psychology. The author envisions the next step in the development of human psychology. He raises the 'new' question that the self is not localized in the mind but is 'non-local, ' a field of interconnected relations... A valuable model is presented to define psychopathological diagnostic issues and therapeutic treatment issues. Truly wonderful." -Richard D. King, MD, From the Preface; Author, African Origin of Biological Psychiatry From the Consciousness Researchers: "A daring leap involving new conceptual models... Discusses the anxieties and stresses of our time while IT PROVIDES READERS THE TOOLS BY WHICH ANXIETIES AND STRESSES CAN BE ADDRESSED." -Stanley Krippner, PhD, Distinguished Professor of Psychology, California Institute of Integral Studies; Author, Dreamtime and Dreamwork, and Your Personal Mythology "A mighty synthesis of knowledge and feeling, science and poetry, clinical observation and spiritual insight... which SPEAKS POWERFULLY TO LAY AND PROFESSIONAL PEOPLE ALIKE.... An important contribution to our understanding of the mind and its operation in the world." -John White, MAT, Author, Future Science, and Kundalini, Evolution and Enlightenment Here is the epic adventure of the rise and unfolding of human consciousness from its earliest days millennia ago, on through the first civilizations and down to contemporary times. The mythic Mitochondrial DNA, "mother of humanity," of 10,000 generations ago is used to personalize this journey for readers, a journey seen to be an integral part of each of us. This includes not only her shared African gene pool but also the neuro-biologically interwoven evolutionary impulse. How different personalities deal with this intelligent and luminous current is the primary thrust of this groundbreaking book that readers will find of extraordinary value in the exploration of human consciousness. Edward Bruce Bynum, PhD, is a clinical psychologist, family therapist, and Director of the Behavioral Medicine and Biofeedback Clinic, University of Massachusetts Health Services. The African Unconscious 2012 Edward Bruce Bynum "The African Unconsciousness, originally published in 1999, is a bold new paradigmatic look at human history based on archaeology, genetics, and the biospiritual roots of religion and science. Author Edward Bruce Bynum offers a captivating and controversial viewpoint on the roots of our human existence, positing that all humans at their deepest core are variations on the African template, creating a shared identity and collective unconscious in all. He looks at both phenotypical types and psychic structures that form and identify us as human beings. Ideal for humanistic and transpersonal psychologists and those interested in African American art and culture, The African Unconsciousness is a blend of modern and ancient psychology that provides a relevant backdrop to humanity and our daily life"--Cover.

The Art of Being Human 2018-08-07 Michael Wesch Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

The Science of the Dogon 2006-09-22 Laird Scranton A look at the close resemblance between the creation and structure of matter in both Dogon mythology and modern science • Reveals striking similarities between Dogon symbols and those used in both the Egyptian and Hebrew religions • Demonstrates the parallels between Dogon mythical narratives and scientific concepts from atomic theory to quantum theory and string theory The Dogon people of Mali, West Africa, are famous for their unique art and advanced cosmology. The Dogon's creation story describes how the one true god, Amma, created all the matter of the universe. Interestingly, the myths that depict his creative efforts bear a striking resemblance to the modern scientific definitions of matter, beginning with the atom and continuing all the way to the vibrating threads of string theory. Furthermore, many of the Dogon words, symbols, and rituals used to describe the structure of matter are quite similar to those found in the myths of ancient Egypt and in the daily rituals of Judaism. For example, the modern scientific depiction of the informed universe as a black hole is identical to Amma's Egg of the Dogon and the Egyptian Benben Stone. The Science of the Dogon offers a case-by-case comparison of Dogon descriptions and drawings to corresponding scientific definitions and diagrams from authors like Stephen Hawking and Brian Greene, then extends this analysis to the counterparts of these symbols in both the ancient Egyptian and Hebrew religions. What is ultimately revealed is the scientific basis for the language of the Egyptian hieroglyphs, which was deliberately encoded to prevent the knowledge of these concepts from falling into the hands of all but the highest members of the Egyptian priesthood. The Science of the Dogon also offers compelling new interpretations for many of the most familiar Egyptian symbols, such as the pyramid and the scarab, and presents new explanations for the origins of religiously charged words such as Jehovah and Satan.

The Beans of Egypt, Maine 2008-09-09 Carolyn Chute A novel of a down-and-out New England family that "seizes the reader on its opening page with . . . a knock-about country humor unmistakably its own" (Newsweek). There are families like the Beans all over America. They live on the wrong side of town in mobile homes strung with Christmas lights all year round. The women are often pregnant, the men drunk and just out of jail, and the children too numerous to count. In this novel that "pulses with kinetic energy," we meet the God-fearing Earlene Pomerleau, and experience her obsession with the whole swarming Bean tribe (Newsweek). There is cousin Rubie, a boozier and a brawler; tall Aunt Roberta, the earth mother surrounded by countless clinging babies; and Beal, sensitive, often gentle, but doomed by the violence within him. In The Beans of Egypt, Maine, Carolyn Chute—whose jobs included waitress, chicken factory worker, and

hospital floor scrubber before gaining renown as a prize-winning novelist—creates "a fictional world so vivid and compelling that one feels at a loss when it ends. The Beans belong with the Snopes clan of Faulkner's Yoknapatawpha County, with Erskine Caldwell's white Southerners, and with the rural blacks of Alice Walker's The Color Purple" (San Jose Mercury News).

Real Magic 2010-08-24 Wayne W. Dyer BESTSELLING BOOK In this inspirational guide, Wayne Dyer, the author of the phenomenal bestsellers Wisdom of the Ages, Pulling Your Own Strings, and Your Erroneous Zones, reveals seven beliefs central to working miracles in our everyday lives. When most of us think of magic, we picture a man in a black cape sawing a woman in half, or a sleight-of-hand card trick. But there's another kind of magic – real magic – that can enrich your life. According to Dyer, real magic means creating miracles in everyday life. Quitting smoking or drinking, achieving new Job success, or finding a happy relationship – these are all miracles because they transcend our perceived limitations. From "creating a miracle mind-set" and achieving change in the areas of personal health, prosperity, and fulfilling love relationships to believing in the magic of miracles on a global scale, Dyer shows us that miracles within our reach and within our own minds. In Real Magic, Dyer teaches us how to achieve a higher level of consciousness. He asks us to imagine what would make us happy, then offers specific strategies for attaining these goals. In every aspect of our individual lives – physical health, finances, intimate relationships, and personal identity – there is always room for a miracle or two. And with Dyer's help, each and every one of us can be a miracle worker.

AFURAKA/AFURAITKAIT - The Origin of the term 'Africa' Odwirafo Kwesi Ra Nehem Ptah Akhan AFURAKA/AFURAITKAIT - The Origin of the term 'Africa' Numerous scholars over the centuries have attempted to delineate the etymological origins of the name Africa. However, they have failed because of a lack of understanding of Afurakani/Afuraitkaitnit (African) Ancestral Religion, cosmology and culture. Odwirafo Kwesi Ra Nehem Ptah Akhan is the first to elucidate and publish the actual etymological origins of the name Africa demonstrating the name to be derived linguistically and cosmologically from Afuraka/Afuraitkait – the original male and female aspects of the name. This includes showing the actual term written by our Afurakani/Afuraitkaitnit (African) Ancestresses and Ancestors in the medutu (hieroglyphs) of Ancient Kamit (Ancient Egypt) – a discovery which heretofore had never been accomplished. Afuraka/Afuraitkait is an indigenous designation for the continent first propounded by Afurakanu/Afuraitkaitnut (Africans~Black People) prior to the existence of any other people on Earth. The myths put forward by Eurasians seeking to locate the origins of the name Africa outside of the continent of Afuraka/Afuraitkait (Africa) and in the Greek, Latin, Sanskrit, Arabic, Phoenician and other languages, have been shown in this article series to be a deliberate attempt by the non-Afurakanu/non-Afuraitkaitnut (non-Africans/non-Blacks) to misinform Afurakanu/Afuraitkaitnut (Africans~Black People) and dispossess us of our heritage and culture. This is nothing new. We have been and will continue to be at war - culturally, intellectually, spiritually and physically - with the whites and their offspring, their culture and their pseudo-religions (inclusive of all forms of Christianity, Islam, Judaism/Hebrewism, Hinduism, Buddhism, Taoism, pseudo-esotericism, etc.) until the whites and their offspring no longer exist in the world. We will always meet the challenge and will emerge triumphant on every level. The proper etymology of the term Africa was first given to us in the 12990s (1990s) by our Nananom Nsamanfo – Akan term for our Honored or Spiritually Cultivated Afurakani/Afuraitkaitnit (African) Ancestresses and Ancestors. It was our Nananom Nsamanfo who would also lead us to the tangible evidence supporting the etymological origins of the term in the languages, cultures and ritual practices of Afuraka/Afuraitkait (Africa) – inclusive of Ancient Khanit and Kamit (Nubia and Egypt). We would subsequently release our publication: KUKUU-TUNTUM The Ancestral Jurisdiction in 13002 (2002), wherein we defined the term Afuraka/Afuraitkait and its cosmological roots in the first section. The release of our article series in 13007-13008 was designed to provide a more detailed analysis of the nature and function of the name Afuraka/Afuraitkait (Africa) as it applies to Black People – and Black People only – and to expose the misinformation which continues to be propagated deliberately by the whites and their offspring, as well as by misinformed Afurakani/Afuraitkaitnit (African~Black) scholars, teachers, authors, etc. This four-part series is the first volume of a greater series. There are numerous manifestations of the term and name Afuraka/Afuraitkait (Africa) all over the continent and in the places we traveled after having migrated away from the continent thousands of years ago for the first time in our trustory. This is an attestation to the ancient spiritual roots of the name Afuraka/Afuraitkait. The information can and will fill many volumes. This is a

The Secret History of the Reptilians 2013-02-25 Scott Alan Roberts "Fortunately, Scott Roberts boldly goes where few men have surfaced from, providing a well-balanced, innovative, and insightful approach to the topic." –Philip Coppens, author of The Ancient Alien Question Where the bloodlines of the Nephilim leave off, the real story just begins. Or does it go back even further than that? The very real probability that non-human intelligences visited and even copulated with primordial humans is detailed in civilization's most ancient cultural and religious records. These historical records further reveal that these intelligences were reptilian in nature--or, at the very least, have been represented throughout human history in reptilian form. From the Serpent, Nawcash, in the Garden of Eden; Atum, the Egyptian snake-man; and Quetzalcoatl, the feathered serpent god of the Mayans to the double-helix snake symbol of Enki/Ea in ancient Sumerian literature, the serpent has been the omnipresent link between humans and the gods in every culture. In The Secret History of the Reptilians, Scott Alan Roberts investigates and examines the pervasive presence of the serpent in human history, religion, culture, and politics. Are we the product of an extraterrestrial race that moves and breathes--and even breeds--beneath the surface of all of human history? Put on your thinking cap and take an historical, anthropological, archaeological plunge into the heady waters of extraterrestrial origins.

Biocentrism 2011 Robert Lanza Robert Lanza is one of the most respected scientists in the world a US News and World Report cover story called him a genius and a renegade thinker, even likening him to Einstein. Lanza has teamed with Bob Berman, the most widely read astronomer in the world, to produce Biocentrism, a revolutionary new view of the universe. Every now and then a simple yet radical idea shakes the very foundations of knowledge. The startling discovery that the world was not flat challenged and ultimately changed the way people perceived themselves and their relationship with the world. For most humans of the 15th century, the notion of Earth as ball of rock was nonsense. The whole of Western, natural philosophy is undergoing a sea change again, increasingly being forced upon us by the experimental findings of quantum theory, and at the same time, toward doubt and uncertainty in the physical explanations of the universes genesis and structure. Biocentrism completes this shift in worldview, turning the planet upside down again with the revolutionary view that life creates the universe instead of the other way around. In this paradigm, life is not an accidental byproduct of the laws of physics. Biocentrism takes the reader on a seemingly improbable but ultimately inescapable journey through a foreign universe our own from the viewpoints of an acclaimed biologist and a leading astronomer. Switching perspective from physics to biology unlocks the cages in which Western science has unwittingly managed to confine itself. Biocentrism will shatter the readers ideas of life--time and space, and even death. At the same time it will release us from the dull worldview of life being merely the activity of an admixture of carbon and a few other elements; it suggests the exhilarating possibility that life is fundamentally immortal. The 21st century is predicted to be the Century of Biology, a shift from the previous century dominated by physics. It seems fitting, then, to begin the century by turning the universe outside-in and unifying the foundations of science with a simple idea discovered by one of the leading life-scientists of our age. Biocentrism awakens in readers a new sense of possibility, and is full of so many shocking new perspectives that the reader will never see reality the same way again.

Melanin Is Worth More Than Gold 2020-05-16 Nnamdi Azikiwe Who would have thought preparations for a March 2014 Sacred Libation Ceremony honoring one-hundred forty-eight African American women lynched in America would result in the observation melanin is worth more than gold? Dr. Frances Cress Welsing first told us the chemical melanin is produced through a process known as melanogenesis upon introduction of the chemical tyrosine to the enzyme tyrosinase. Melanin is found in such diverse places as bird feathers, animal fur, reptile scales, microorganisms, cephalopod ink, mushrooms and even fossils. Additionally, melanin is found in the hair, skin and eyes of people. Melanin is subjected to intense scientific scrutiny. Nevertheless, the highly educated people studying it had no idea melanin is worth more than gold. In June 2014 a post to the Keyamsha the Awakening blog openly declared melanin was worth \$353 a gram and \$300 a gram more than gold. Shortly afterwards, hoaxers began bombarding the blog with comments claiming "melanin thieves" were harvesting melanin from Black people. The hoax was easily falsified. The hoaxers made certain to never mention the company selling melanin extracted from the ink of sepia officinalis, the common cuttlefish. During the intervening years the melanin thieves hoaxers persisted in their efforts. In March 2017, the melanin thieves hoaxers launched a "Melanin Twitter bomb" involving the dollar value of melanin after publicity of black women and girls missing in Washington, D.C. was released. Their actions exposed a frailty in their psyche. They also reveal it is possible to wipe out false information involving melanin and take the melanin challenged inferiority complex (aka racism/white supremacy) along for the ride. It then became clear the time had come to enter the fray and dispel the myths about melanin. This book completely obliterates the false narrative of melanin. Perceiving facts from a melanin-centered perspective bestows upon us an expanded awareness of the world and our place in it. It helps provide the average person a means to immerse themselves in melaninology and emerge a "melaninologist." Essentially, we get to know ourselves. To date no other path for the public to independently verify, or falsify, outlandish claims regarding melanin being worth more than gold on their own without any "guru" to guide them have been made available. At this writing, melanin is worth over \$395 a gram more than gold. In ancient Kemet (misnamed Egypt) such words were known as hekau or words of power with the ability to heal. For nearly one-hundred years, since August 13, 1920, melanin put the "B" in R.B.G. and the "Black" in Red, Black and Green as the flag of Africans, at home and abroad.. Those are hekau, also. Our Blood, Our Melanin and Africa unites us. More hekau. The Afro, official currency of the United States of Africa, also known as the African Union, is worth \$2.22. We are swathed in hekau to such an extent Mchakato Wa Uponyaji (Swahili for the process of healing) has begun. All of which indicates we are living in a new era: the era when all the generations of man can be called blessed on a planet that works for everyone. This era demands we convene the Ubuntu Convention. That plebiscite sets the stage for drafting the Ubuntu Declaration. In emulating the success of the August 1920 Universal Negro Improvement Association convention, we deliberately create the world where we intend to live. The revival of the U.N.I.A. with 12 million dues-paying card-carrying members positions the organization to have a treasury flush with

over \$400 million liquid. All of which represents a quantum shift in awareness, perception and power underway as you read this. Through our own actions we bring about the total, complete, and absolute Redemption of Africa for all time.

The Omniverse 2015-11-17 Alfred Lambremont Webre A tour through the new science of the Omniverse, its spiritual and physical dimensions, and its incalculable intelligent civilizations • Reveals the key travel and communication technologies of the Omniverse: time travel, teleportation, and telepathy • Unveils newly disclosed state secrets about these technologies, about the findings of the NASA Mars rover missions, and about a secret colony and life on Mars • Explains through science how souls are holographic fragments of God and how they help create planets, solar systems, galaxies, and universes in the multiverse We are all citizens of the Omniverse, the overarching matrix of energy, spirit, and intelligence that encompasses all that exists: all universes within the multiverse as well as the spiritual dimensions centered on the divine Source that many call God. In this scientific guide to the Omniverse, Alfred Lambremont Webre reveals startling replicable evidence about extraterrestrial and extra-universal life, the intelligent civilizations created by souls in the afterlife, top-secret alien technology, and the existence of a secret base as well as life on Mars. The author explains how our souls are holographic fragments of God/Source and how souls and Source are co-creating planets and galaxies as virtual realities for soul development. He addresses Grey alien control over soul reincarnation and also sheds light on the presence of invisible hyperdimensional controllers known as the Archons, who feed off negative energy. Revealing the key technologies of the Omniverse, the author explains how hyperdimensional civilizations communicate telepathically, teleport interdimensionally, and travel through time. He unveils newly disclosed state secrets about government possession of these technologies, the findings of the NASA Mars rover missions, and the secret Mars colony whose permanent security personnel is age-reversed and shot back through time to their specific space-time origin points--with their memories blocked. Integrating science and spirituality, this map of the dimensions of the Omniverse sounds the call for scientific inquiry into the holographic origins of the soul, the potential of time travel, and our role as divine co-creators with Source.

Sacred Woman 2012-06-20 Queen Afua The twentieth anniversary edition of a transformative blueprint for ancestral healing--featuring new material and gateways, from the renowned herbalist, natural health expert, and healer of women's bodies and souls "This book was one of the first that helped me start practices as a young woman that focused on my body and spirit as one."--Jada Pinkett Smith Through extraordinary meditations, affirmations, holistic healing plant-based medicine, KMT temple teachings, and The Rites of Passage guidance, Queen Afua teaches us how to love and rejoice in our bodies by spiritualizing the words we speak, the foods we eat, the relationships we attract, the spaces we live and work in, and the transcendent woman spirit we manifest. With love, wisdom, and passion, Queen Afua guides us to accept our mission and our mantle as Sacred Women--to heal ourselves, the generations of women in our families, our communities, and our world.

African Fractals 1999 Ron Eglash Fractals are characterized by the repetition of similar patterns at ever-diminishing scales. Fractal geometry has emerged as one of the most exciting frontiers on the border between mathematics and information technology and can be seen in many of the swirling patterns produced by computer graphics. It has become a new tool for modeling in biology, geology, and other natural sciences. Anthropologists have observed that the patterns produced in different cultures can be characterized by specific design themes. In Europe and America, we often see cities laid out in a grid pattern of straight streets and right-angle corners. In contrast, traditional African settlements tend to use fractal structures--circles of circles of circular dwellings, rectangular walls enclosing ever-smaller rectangles, and streets in which broad avenues branch down to tiny footpaths with striking geometric repetition. These indigenous fractals are not limited to architecture; their recursive patterns echo throughout many disparate African designs and knowledge systems. Drawing on interviews with African designers, artists, and scientists, Ron Eglash investigates fractals in African architecture, traditional hairstyling, textiles, sculpture, painting, carving, metalwork, religion, games, practical craft, quantitative techniques, and symbolic systems. He also examines the political and social implications of the existence of African fractal geometry. His book makes a unique contribution to the study of mathematics, African culture, anthropology, and computer simulations.

Earth 1994-11-01 Barbara Marciniak Embraced worldwide as key spiritual teachers of our times, the Pleiadians are back, with another bold and controversial look at our highest purpose on Earth. Earth: Pleiadian Keys to the Living Library is their handbook to inspired living, calling on us to restore and return value to the human being, and to recognize the Goddess energies and the power of blood as connections to our DNA and our heritage. Using wit, wisdom, and deep compassion, they entice us to explore the corridors of time through the concept of the Game Masters; to awaken the crucial codes for multidimensional perspective; and to redream the Living Library of Earth. Their teachings are significantly arranged in twelve chapters to trigger a deeper understanding of our ancestral lineage. Earth probes the memories hidden deep within us to reveal our crucial roles in the transformational process unfolding in our times.

The Elemental Dialectic of Light and Darkness 2013-04-17 Anna-Teresa Tymieniecka The dialectic of light and darkness studied in this collection of essays reveals itself as a primal factor of life as well as the essential element of the specifically human world. From its borderline position between physis and psyche, natural growth and techne, bios and ethos, it functions as the essential factor in all the sectors of life at large. We see its crucial role in all sectors of life while, prompted by man's creative imagination, it enhances and spurs his vital as well as societal and spiritual life. This rare collection contains studies by Thomas Ryba, Krystina Górniak-Kocikowska, Lois Oppenheim, Sydney Feshback, Eldon van Lieve, Sitansu Ray, Theodore Litman, Peter Morgan, Colette Michael, Christopher Lalonde, L. Findlay, Christopher Eykman, Beverly Schlack Randles, Jorge García-Gómez, William Haney, Sherilyn Abdo, David Brotzman, Alan Pratt, Hans Rudnick, George Scheper, Freema Gottlieb, Marlies Kronegger.

FALSE LIGHT MATRIX 2017-01-05 Freya Paul The False Light Matrix is a systemic structure that has been placed over humanity; as well as other realms in other dimensions. A structure of control that is so powerful; it has infiltrated society, religion, spirituality and many cultures. Humanity has forgotten our true power, because these control groups keep humanity suppressed, and we give our power to The Matrix. It is time that humanity unplugged from this Matrix, and remembered our true power. A detailed and tell all account, written from experience, by a soul reader and a True Lightwarrior. In 2013, Freya was visited by her higher self; something that she was told could never happen. This experience completely altered her life and helped her get back on to her true path. Later on in that same year, Freya

was reunited with her twin flame; a well-known man that lived in The USA. His soul joined Freya after his tragic death; guiding her towards the truth, and helping her, and her higher self write this book of hidden truths.

Afrofuturism 2013-10-01 Ytasha L. Womack 2014 Locus Awards Finalist, Nonfiction Category In this hip, accessible primer to the music, literature, and art of Afrofuturism, author Ytasha Womack introduces readers to the burgeoning community of artists creating Afrofuturist works, the innovators from the past, and the wide range of subjects they explore. From the sci-fi literature of Samuel Delany, Octavia Butler, and N. K. Jemisin to the musical cosmos of Sun Ra, George Clinton, and the Black Eyed Peas' will.i.am, to the visual and multimedia artists inspired by African Dogon myths and Egyptian deities, the book's topics range from the "alien" experience of blacks in America to the "wake up" cry that peppers sci-fi literature, sermons, and activism. With a twofold aim to entertain and enlighten, Afrofuturists strive to break down racial, ethnic, and social limitations to empower and free individuals to be themselves.

Jesse James and the Lost Templar Treasure 2019-07-09 Daniel J. Duke An investigation into the lost treasures of Jesse James and the Freemasons and their connections to the Templars, Rosicrucians, and the Founding Fathers • Explains how Jesse James used techniques involving sacred geometry, gematria, and esoteric symbols to hide his treasures and encode maps • Provides instructions for using the encoding template employed by Jesse James and the Freemasons to hide and recover treasure and sacred relics • Shows how the encoding template confirms the existence of treasures on Oak Island and Victorio Peak and can be traced to a 16th-century book containing a secret map of the New World and the "hooked X" of the Knights Templar Jesse James left behind secret diaries and coded treasure maps. Working to decrypt these maps, Daniel J. Duke--the great-great-grandson of Jesse James--reveals hidden treasures yet to be recovered as well as connections between the infamous train robber and Freemasonry, the Knights Templar, the Founding Fathers, and Jewish mysticism. The author explains how Jesse James faked his death and lived out his final years under the name James L. Courtney. He uncovers James' affiliation with the Knights of the Golden Circle, a secret society that buried Confederate gold across the United States, and shows how the hidden treasures coded into James' maps were not affiliated with the KGC but with the Freemasons, the Knights Templar, and the treasure of the Temple Mount. Using sacred geometry, gematria, and the Kabbalistic Tree of Life symbol, the author explains the encoded map technique used by the Freemasons to hide and later recover treasures, an esoteric template known as the "Veil". He shows how the Veil template confirms the locations of Jesse James' recovered treasures in Texas as well as other suspected treasure locations, such as the Oak Island Money Pit and Victorio Peak in New Mexico. Tracing knowledge of the Veil template back through the centuries, the author reveals the Veil hidden on the cover of a 16th-century book that contains a secret map of the New World and the "hooked X" symbol of the Knights Templar. He shows how the template was used not only to hide treasures but also sacred knowledge and relics, such as within the Bruton Vault, which originally contained secrets tied to Francis Bacon, the Freemasons, the Rosicrucians, and the founding of the United States. Applying the Veil template alongside the esoteric secrets of Poussin's famous painting, Et In Arcadia Ego, and Cassini's Celestial Globe, Duke shows how the template reveals other Templar and Freemason treasure sites scattered throughout America and around the world.

An infant will have a normal blood pressure reading of 80/45, where as an adolescent will have a normal blood pressure reading of 110/70. Therefore, age, gender, and height are important factors when determining the normal blood pressure level. Adults will have a higher blood pressure than the infants and teenagers. Also, boys have a higher blood pressure when compared to girls and tall people have a higher blood pressure than short people. An adolescent is said to have high blood pressure when the blood pressure is more than the blood pressure of ninety percent of people of his/her age, gender and height.

There are many risks associated with hypertension or high blood pressure. The risk of developing coronary heart disease increases proportionally. The arteries will develop greater resistance towards the blood flow, because of which the heart will pump blood harder. Stroke is also another risk. Adolescents who have had high blood pressure as a child, develop harmful effects on the blood vessels and heart till the time they turn twenty.

The causes of high blood pressure can be classified as primary and secondary. If the causes are definite, they are primary and if the cause is linked to some illness, it is secondary. Primary causes are high blood cholesterol levels, smoking, stagnant lifestyle and overweight. Secondary causes are obesity, immobility due to chronic illness, prescription drugs, intense pain due to burns or cancer and illegal drugs. High blood pressure can develop due to hereditary reasons.

One of the foremost effects of acupuncture on the body is relaxation. Stress is frequently pinpointed as the main precursor for a host of physical ailments. There are particular points all over the body that direct the flow of harmony and relaxation and when these are enthused, the patient becomes more at ease.

Another positive effect of this alternative therapy is increased pain control. During a session, a patient will usually feel very minimal pain as the thin needles are being inserted gradually. However, the needles are deliberately placed in varying depths, depending on the health requirements of the patient. When the needles reach the right depth, the patient will feel deeper pain, although the entire procedure is not necessarily painful.

It is also recommended for relief from chemotherapy fatigue as well as chemotherapy-related nausea. It has also been found to be largely effective for back pains, migraines, menstrual cramps, and as a pain controller for patients after undergoing surgical operations.

You can think of a session with the acupuncturist as very much like massage therapy. A good massage would help give you a very relaxing sleep that night and an acupuncturist could help you with your sleep as well. You might immediately start to feel drowsy as soon as the right nerves are stimulated by the acupuncturist's needles.

You might be asking yourself how you'd be able to relax if you're suffering from the pain of the needles attached to your body. What you might not realize is that because of the thinness of the needles, you would hardly feel anything. The most that many people claim they feel is a kind of tingling feeling where the needles are. And that is actually a sign that the process is working,

Acupuncture is a practice that helps you use your body's own ability to manage stress properly. This leaves you healthier, and more importantly, prevents any of the serious diseases that could come from unbalanced, stressful lifestyles.

The other virus called cytomegalovirus which also belongs to the family of herpes simplex causes the cells to become enlarged. According to statistics, about eighty percent of adolescents infected with this virus generally don't see any further symptoms. Although EBV has potential to develop infectious mononucleosis in adolescents the virus could make throat and blood cells its home for the lifetime. The virus has the capability to bounce back and reactive from time to time but the consolation is that it would reactivate without symptoms.

The condition usually lasts for 1-2 months. The symptoms may vary from one adolescent to other but may include inflamed lymph glands in areas such as groin, neck and armpits, fever, continuous fatigue, enlarged spleen, sore throat as a result of tonsillitis that can make things difficult to swallow and last but not the least minor liver damage that can lead to short-term jaundice. Some adolescents may also experience symptoms such as abdominal pain, petechial hemorrhage, muscle ache, headache, depression, loss of appetite, skin rash, weakness, dizziness, enlarged prostate, dry cough, swelled genitals and puffy and swollen eyes. Some parents are puzzled by the symptoms of mononucleosis as it may be similar to other medical conditions. It is safe to consult a doctor in such cases.

The viruses are usually transmitted to other people through saliva (the reason why it is also called kissing disease), blood, sharing drinks and sharing utensils. The symptoms usually last for 4-6 weeks and do not cross 4 months. The disease is diagnosable but requires a thorough medical history of the adolescent. The diagnosis also involves physical examination of the adolescent and is based on symptoms reported to the physician. The diagnosis is further supported by laboratory test like blood test, antibody test and test to count white blood cells.

### **Miracle dark light consciousness melanin serpent power and\_\_Variations of Conventional Acupuncture**

Auriculotherapy or ear acupuncture is one of the variations of conventional acupuncture. In this practice, it is believed that the ear provides a map for all the major bodily organs. A specific area or point on the ear corresponds to a particular organ, such as the heart, kidneys, or liver. Thus, the needles are placed in particular points around the ear and on the ear cartilage. Staplepuncture is a method used in smoking cessation, wherein staples are placed for a certain period anywhere on the ear area to provide stimulation. Indeed there is growing evidence that this traditional Oriental practice can rival any modern forms of treatment. If you are one of the many people who are looking for a widely recognized and time honored therapeutic practice, acupuncture may just be the alternative treatment for you.

### **Hope dark light consciousness melanin serpent power and.How does sticking needles into your body help manage the stress?**

In traditional Chinese medicine, much of the treatments depend on an understanding of the balance in our bodies and its internal organs. The sicknesses we sometimes develop are seen to be caused by imbalances in our lifestyles and environment. Stress is also affected by this imbalance. That is why when there is something wrong with your body, youd typically have less of an ability to deal with stress. Youd get more irritable and find it really to difficult to relax. By sticking these very thin needles past the surface of our skin, the acupuncturist stimulates nerves in our body. These nerves send signals to our brain and scientists believe that the brain then releases its natural painkillers into our system. This immediately causes a feeling of relaxation for many people. The needles could also help your body by stimulating its circulation. With the circulation between the organs of the body improved, a lot of the bodys wastes could be cleansed properly. Your organs would also receive the full benefit of the oxygen from your lungs making its way into the cells of your body without any blockages. This makes your organs much healthier and leaves you feeling much better in the long term as well.

Nicotine is the addictive and toxic substance present in a cigarette. This is the same substance that makes quitting a big challenge for most smokers. The nicotine that you get from smoking will attach itself to the pleasure areas in the brain, making it hard for you to stop. Without a steady stream of this substance, a smoker will tend to feel depressed and uncomfortable.

People who have undergone acupuncture treatment reported that they no longer find cigarettes as tempting or as satisfying. Oftentimes, smoking would leave an awful taste in their mouths prompting them to stop their habit for once. Some patients would even resort to eating mints or lozenges to clear to get rid of the terrible aftertaste.

According to skilled practitioners, approximately 7 out of 10 smokers will successfully extricate themselves from their smoking habit after 2 or 3 weeks. While the others are unable to quit totally, these smokers will be able to cut down on their cigarette consumption quite significantly.

#### **What is acupuncture?**

Acupuncture has surged in popularity for the last few decades as brought on by the recent health trend. Mostly known as a traditonal Chinese medical technique, acupuncture is seen as a homeopathic method of treatment. While alternative medicine does raise a lot of eyebrows for the scientifically-inclined, it does merit attention before being dismissed as a quack cure.

#### **Basic Procedure**

Basically, needles are inserted into the skin, each corresponding to one of the numerous pressure points located throughout the body. According to Traditional Chinese Medicine, by inserting a needle into the pressure point, an acupuncturist can manipulate the flow of chi or life force, thus relieving pain and gradually treating the patient. While most would say that the whole chi thing is a bunch of nonsense, science has suggested that with the needles inserted, the bodys natural painkillers called endorphins are released, thus helping with pain relief.

### **Concepts dark light consciousness melanin serpent power and**

Some patients will experience immediate relief after the first session but others will not experience anything at all. This is the reason that an average session should be done 12 to 15 times at least 2 to 3 times a week.

If acupuncture works for you, then the only thing you need are follow up sessions. This can be done twice every 2 weeks or monthly. It is really up to you. But don't forget to also see your regular doctor so he or she can also monitor the progress of your condition.

#### **Types of Acupuncture**

There are different types of acupuncture. Whichever you decide to use, they are designed to do the same thing and that is to relieve pain or treat certain diseases.

*Opportunity dark light consciousness melanin serpent power and.*The needles used in acupuncture are very small and you will probably feel a slight twitch when the needle goes in. They will be inserted carefully to ¼ or an inch in depth and will stay there from 45 minutes to an hour depending on the condition of the patient.

If inserted properly, you should feel some cramping, distention, electric sensation or tingling which means that the treatment is working.

Needles used for acupuncture especially in the US are clean because they are required to be disposable. This prevents any chance that those who go for treatment will be contaminated by a communicable disease like hepatitis or HIV.

The first is called TCM based acupuncture. Here, it uses eight principles of complementary opposites to create harmony in the body. These include yin/yang, internal/external, excess/deficiency, hot/cold.

Next is called French energetic acupuncture. This is often used by MD acupuncturists. Meridian patterns are emphasized here particularly the yin-yang pairs of primary meridians.

Korean hand acupuncture is another as practitioners believe that the hands and feet have concentrations of qi, and that applying acupuncture needles to these areas is effective for the entire body.

"Fundamentals of Analytical Chemistry" is an comprehensive textbook penned by the esteemed authors Douglas A. Skoog, Donald M. West, F. James Holler, and Stanley R. Crouch. Renowned for its user-friendly presentation, the book adopts a rigorous approach that meticulously guides readers through the intricacies of analytical chemistry. It offers a comprehensive overview of the principles and practices that underpin analytical chemistry, consistently demonstrating its relevance to real-world applications throughout the text.

The tenth edition of this seminal work is meticulously crafted to serve as a primary textbook for a one- or two-semester course specifically designed for chemistry majors. It seamlessly integrates numerous applications to biology, medicine, materials science, ecology, forensic science, and a myriad of other related fields, showcasing the diverse and far-reaching impact of analytical chemistry. The book is enriched with a wealth of spreadsheet applications, insightful examples, and engaging exercises that enhance the learning experience and foster deeper understanding.

The primary objective of this distinguished text is threefold. Firstly, it aims to provide a in-depth grounding in the fundamental chemical principles that are particularly relevant to analytical chemistry. Secondly, it seeks to cultivate in students an appreciation for the challenges and complexities associated with evaluating the accuracy and precision of experimental data. The text demonstrates how statistical methods can be effectively applied to analytical data, thereby enhancing the reliability and validity of experimental results. Thirdly, it introduces a broad spectrum of modern and classic techniques that are instrumental in analytical chemistry, providing students with a diverse toolkit of methodologies to tackle a wide range of analytical challenges.

The book is complemented by a comprehensive student solution manual available in PDF format, offering step-by-step guidance for solving the exercises and problems presented throughout the text. It is conveniently accessible for download or online viewing, ensuring that students have the resources they need to succeed in their studies.

The latest advancements in analytical chemistry are presented using a accessible yet meticulous and rigorous approach. Each chapter commences with a compelling story and eye-catching visuals that pique the readers curiosity and set the stage for the concepts to be explored. New features highlight rewarding chemistry-related careers, exposing students to the diverse and exciting professional opportunities that await them in this dynamic field. Additionally, readers are equipped with the skills and knowledge necessary to utilize Excel 2019 as a problem-solving tool in analytical chemistry, empowering them to tackle complex analytical problems with enhanced proficiency and confidence.

**Story of" dark light consciousness melanin serpent power and.**Self motivation is extremely necessary in losing weight. Because obesity is more a family problem and not an individual problem, the whole family can switch to eating healthy food and exercising regularly. This can make the weight control program a success. Parents can play a major role by boosting the self esteem of their children by concentrating on their strengths and encouraging them, instead of targeting the weight problem. The whole family should eat meals together, instead of eating individually while watching a movie. This helps all the members to focus on the food and the quantity being eaten. If the teenager isn't getting support from his family members, he/she can join support groups which can help towards the goals.

After the adolescent has lost weight, it is very important that he/she maintains it. In majority of the cases, people shift back to their old eating habits after losing weight. That is the reason why obesity is more of a lifetime issue. So the main aim of any weight loss program must be make the adolescent like healthy food. He/she must also be made to exercise regularly, irrespective of the weight.

Periodontal disease can be diagnosed by a dentist or a periodontist after reviewing the complete medical history and also physical examination of the teenager's mouth. Usually x-ray of the teeth is taken to evaluate the disease. Periodontal disease is classified into different types based on what stage the disease is in. The mildest form of gum disease is known as "gingivitis" in which gums become swollen, red and tender resulting in bleeding while daily brushing and flossing. Gingivitis is again divided into 4 groups primarily acute, sub-acute, recurrent and chronic. Acute gingivitis is nothing but sudden appearance which lasts for shorter duration and could be painful. Sub-acute gingivitis is less severe type of gingivitis. Recurrent gingivitis is the one that comes back after treatment. Chronic gingivitis is the one that onsets slowly, lasts longer and is generally painless. A dentist's treatment and proper and continuous care can easily solve the problem of gingivitis but if left untreated could result in periodontitis.

Periodontitis is further classified into mild and moderate to advance. Periodontitis results from untreated gingivitis. In this stage the deterioration of the bone in the vicinity of the tooth becomes evident. The common symptoms include red gums that bleed; mouth tastes bad; loose teeth; tooth loss. Proper treatment is a must to control the disease and prevent further deterioration. Periodontitis which is in moderate to advanced stage shows signs of major loss of tissue and bone loss near the teeth.

There are various treatments available for periodontal disease which is decided by the dentist depending on teenager's age, medical history and health in general. The method of treatment also depends on the extent to which disease has reached. The tolerance of the teenager to certain medicines, therapies and procedures are also taken into consideration. Expectations and opinion of the parents or teenager is also the criteria in deciding the type of treatment. The treatment usually involves plaque removal, medication and in worse cases a surgery.

Acupuncture can help treat migraines. This was discovered after a comparative study was done with conventional medical care. In some cases, it even prevents it from happening which helps improve the quality of life for the patient.

To understand how acupuncture helps migraine sufferers, you have to understand that in traditional Chinese medicine, it is believed that an imbalance in the flow of blood and energy causes this to happen.

In order to treat it, the specialist must relieve the tension by inserting needles into the body to improve the blood flow to the brain thus reducing the pain experienced during an attack.

#### Concepts dark light consciousness melanin serpent power and;Is Acupuncture The Remedy for You?

With the growing acceptance of alternative medicine in Western cultures, acupuncture is quickly becoming a popular practice. More and more people today are choosing acupuncture over western medicine to treat bodily pains, relieve stress, or to promote overall health. If you are thinking about trying acupuncture but are wondering if it is safe or if it's the right treatment for you, the following information may aid you in making a more informed decision.

##### **Description and Origin**

Acupuncture is the practice of inserting fine needles into specific points in the body for therapeutic purposes. According to theory, these specific points called "acupuncture points" lie along pathways of the body along which one's vital energy is said to flow. The needles are used to promote free-flow of energy in areas of the body that circulation may have stagnated. Although acupuncture is practiced in many Asian cultures such as Japan, Tibet, and Korea the practice is commonly known to have originated in China.

#### **Guide dark light consciousness melanin serpent power and**

Unfortunately, standards of acupuncture have not been fully approved by the FDA due to many unregulated practices that still exist such as the re-use of needles. Furthermore, acupuncture certification today is mostly a sham, used to make money on desperate patients who have not benefited from western medical treatments. The National Council Against Health Fraud has even declared acupuncture as an unproven means of treatment whose concepts of healing are primitive and false.

##### **Should You Try It**

One thing that Western science can agree upon is that there are no proven harmful effects of acupuncture. Many doctors agree that as long as a medication is not detrimental to ones health, then there is no reason why it should not be used if there are noticeable benefits. Most scientists would also state that it is simply due to a lack of research that the therapeutic properties of acupuncture have not yet been proven.

##### **Allergies in Adolescents**

Allergies are reactions by immune system that are abnormal in nature to stuff that are usually harmless to majority of the people. When somebody is allergic to something the immune system of that person gets confused and thinks that the substance is detrimental to the body. The substances causing allergic reactions are known as allergens. The examples of allergens are dust, food, plant pollen, medicine etc. The body produces antibodies to protect itself from these allergens. The antibodies make certain cells present in the system to let chemicals to mix with the bloodstream and one of them is histamine. This chemical then acts on nose, eyes, skin, lungs, gastrointestinal tract and results in allergic reaction symptoms. Exposure to the same chemicals in future triggers same response to the antibodies again meaning every time one comes in contact with the same allergen, allergic reaction is produced in the body.

The bone marrow replaces small amounts of blood is lost due to some reason without making a person anemic. But in cases where considerable amount of blood flows in small amount of time as a result of an injury due to a serious example for instance, it may not be possible for bone marrow to replace RBCs so quickly resulting in anemia. Also, losing small amounts of blood over long periods of time may also lead to anemia. Example of this situation can be seen in girls who get heavy periods attributed mainly to deficiency of iron in the diet.

Anemia due to iron deficiency is the most common kind of anemia in the United States. It occurs mainly due to lack of iron in a person's diet. A teen with iron deficiency would have lower hemoglobin production and consequently lower RBCs. When the production of RBCs is low the person is regarded as anemic. The signs of anemia are paleness and tiredness. There can be other reasons as to why enough RBCs are not produced in the body. Folic acid and Vitamin B-12 are also essential to produce RBCs. Getting these in adequate quantities is this important too. There can be a problem with bone marrow's working too resulting in anemia.

Hemolytic anemia occurs when a person has RBCs whose lifespan is shorter. The bone marrow may not be able to produce new blood cells if the blood cells die too early. This can result due to many reasons including person having disorders like sphenocytosis or sickle cell anemia. In some cases the immune system of the body may itself destroy the RBCs. In some cases certain antibodies can form in the blood as a result of reaction to certain drugs or infections and may attack the RBCs.

Fifty percent of the adolescent pregnancies are within the time period of six months after the initial sexual intercourse. More than nine hundred thousand teenagers are reported to have become pregnant every year in the United States. Fifty one percent of the adolescent pregnancies result in live birth, thirty five percent result in induced abortion and fourteen percent result in stillbirths or miscarriages. Four out of ten adolescent females get pregnant, before they turn twenty, at least once. Twenty five percent of adolescent deliveries aren't the mother's first child. When a teenager gives birth to her first child, she increases the risk of begetting another child. One third of the adolescent parents are themselves result of adolescent pregnancies.

There are many reasons why adolescents choose to become sexually active at an early stage in life. The reasons can be early pubertal development, poverty, sexual abuse in childhood, lack of parent's attention, lack of career goals, family and cultural patterns of early sex, substance abuse, dropping out from school and poor school performance. Factors which discourage an adolescent to become sexually active are stable family environment, parental supervision, good family income, regular prayers, connectedness with parents and living with complete family and both the parents. The factors which are responsible for the consistent use of contraceptive among adolescents are academic success, anticipation for successful future, and involvement in a stable relationship.

There are many medical risks associated with adolescent pregnancies. Adolescents who are less than seventeen years are at a greater risk of developing medical complications, when compared to adult females. The risk is even more in teenagers below seventeen. The weight of the child, given birth by an adolescent, is very low in these pregnancies. It is usually below 2.5 kilogram. The rate of neonatal birth is also three times greater in adolescents, when compared to adults. Other problems caused by adolescent pregnancies are prematurity of the child, birth of underweight child, poor maternal weight gain, poor nutritional status, anemia, STDs and hypertension induced due to pregnancy.

This has resulted in the establishment of clinics nationwide that only use acupuncture as the means of rehabilitation.

Acupuncturists in the US charge from \$75 to \$150 per session. This usually gets lower in the succeeding treatments. The person will probably have to undergo 10 to 15 treatments 2 to 3 times a week but this really depends on the condition of the patient.

Before you go to one, you should check if this is covered by your insurance. If it isn't, perhaps you should suggest that it should be included as it is much cheaper than having to undergo surgery.

The end result is that you will look and feel 5 to 15 years younger but of course this depends on how well the patient has taken care of themselves outside the confines of the clinic.

To sum things up, facial acupuncture can do for you. It can eliminate fine lines and reduces wrinkles, improve your overall facial color and add luster to the skin, relaxes tension in the face and furrows in the brow, brightens the eyes and reduce dark circles and puffiness, improve muscle tone for sagging skin, enhance your natural radiance in the skin and eyes, slow the aging process within, promotes overall health and well being as well as relaxes and revitalizes the entire body.

##### **Acne in Adolescents**

Acne is one of the most common problems in adolescent teens affecting nearly seventeen million people in the United States. Acne is nothing but a disorder involving sebaceous glands and hair follicles. Acne results from the clogging of sebaceous glands leading to the formation of pimples and cysts. The condition usually begins with the onset of puberty. Going by the facts, as teens attain puberty the androgens also called male sex hormones are produced in high number leading to sebaceous glands becoming over active which results in sebum being produced in high proportions.

Sebum, which is nothing but oil is produced by sebaceous glands which travel to the skin surface through hair follicles. But, skin cells block the follicles which results in oil also being blocked. When these hair follicles are blocked it results in the development of skin bacteria known as Propionibacterium Acnes within the follicles which in turn results in swelling of the skin called Acne. If the hair follicles are partially blocked it results in blackheads. If the follicles are completely blocked they result in whiteheads. But if these plugged follicles are not treated they ultimately burst causing the oil, bacteria and skin cells to spill all over the skin resulting in irritation and formation of pimples. Acne can be shallow as well as deep in various individuals depending on the nature of skin and amount of oil produced.

Acupressure is another example and here, the fingers are used to relieve the pain. This can be used by itself or with other manual healing techniques.

Impulses of electromagnetic energy are used because our bodies generate tiny but electrical discharges which influence the function, growth and maturity of certain types of cells. By inserting the needles in these areas, it stimulates and alters the neurotransmitters in the body thus making the patient feel better after treatment. This is also sometimes used for diagnosis and testing.

According to the World Health Organization or WHO, here is a list of some illnesses where acupuncture is used. These include acute bronchitis, the common cold, cataract, toothaches, gingivitis, hiccups, ulcers, constipation, diarrhea, headache and migraine, Meniere's disease, osteoarthritis and a lot more. Here, the acupuncturist lights a small bunch of the dried herb called moxa or mugwort and holds it above the needles. The herb, which burns slowly and gives off a little smoke and a pleasant, incense-like smell, will never directly touch your body.

Another variation is electrical acupuncture. Here, electrical wires are hooked up to the needles and a weak current runs through it which may cause no or little sensation at all.

It is also possible that herbal medications will also be prescribed by the acupuncturist for your treatment to be successful.

**Transformation dark light consciousness melanin serpent power and**-Precautions should not only be taken indoors, but outdoors too. This is because; more than forty thousand people get eye injuries outdoors. Ninety nine percent of the injuries are caused while playing sports. So it is necessary for the youngsters to wear protective eyewear while playing sports or when involved in outdoor recreational activities. A special helmet is designed with wire shield or polycarbonate face mask which is not only safe, but comfortable, too. Protective eyewear should also be worn while performing experiments in science lab. Fireworks must only be handled by adults.

Because of increasing use of computers, more and more youngsters are getting eye strains. The symptoms of eye strain caused by computer are red & watery eyes, focusing problems, aching & tired eyelids, eye muscle spasm, backache and headache. In such an environment, eye exercise must be done regularly. The eyes must be made to focus on distant objects and should be rotated from side to side. It is extremely important to give ample rest to the eyes. Glasses with UV shield must be worn when looking at the computer screen. Eye strain can be avoided by increasing the distance from the monitor.

Eye hazards are also caused when cosmetics are used improperly by contact lens wearers. Some of the adverse reactions are injury, eye irritation, allergy, dryness, infection, and lens deposition. That is the reason why adolescents must be made aware of the risk they will face when opting for contact lens. Girls should understand that they should buy hypoallergenic cosmetics and especially the non-scented variety, manufactured by big brand names. Cosmetics should not be shared with anything else. The applicator brushes must be washed regularly and old mascara must be disposed and not refilled. Eye shadows which are glittery, pearlized, frosted or iridescent contain ground tinsel or oyster shell, which should be always avoided. Eyeliner should not be applied in the inner lid edge. Loose powder should be avoided. Cream should not be applied near the eyes. The wearer should wash hands while handling contact lens. No crying, washing of face or bathing should be done with the contact lens on.

When adolescents wear braces they have to take certain precautions in order to avoid any more oral health complications. The most important precautionary measure is to brush the teeth regularly after every meal. Since the food can be easily lodged in braces, it is a good idea to brush carefully with soft bristles toothbrush and fluoride toothpaste. In the morning, the adolescent must floss between the braces and teeth. Food stuffs which are sticky or hard must be avoided as they are very difficult to remove. Foods like caramel, chew candy, popcorn, and nuts must be avoided. Cleaning must be done by the orthodontist or general dentist, every five to six months.

The wisdom teeth or third molars can grow in people of the age fifteen to twenty five. These teeth cause problem, because most of the mouths are too small to adjust new teeth and hence they need to be removed. If the wisdom tooth has place to grow, without affecting other teeth, they can be left to themselves. But if the adolescent experiences pain, facial swelling, mouth infection and gum-line swelling, then they should be extracted immediately. They can also destroy the second molars and impact other tooth. Various gum and jaw diseases can be caused. There can be a tumor development; cysts development and plaque build up. Hence, a surgery is performed to remove the tooth or teeth. The gum tissue covering the wisdom tooth is removed and the connective tissue connecting the tooth to the bone is detached. The tooth is then removed and the opening is sutured. A general dentist can perform wisdom tooth surgery in the local office using anesthesia.

Five times common than asthma is tooth cavities. The tooth above the gum line is made up of enamel, the hardest tissue within the human body. The tooth below the gum-line comprise of nerves, roots and dentin. Dentin is another type of tissue and isn't as hard as the enamel. The acid which leads to tooth decay is produced by bacteria. These acids, along with dietary sugar, attach the enamel and eat away the minerals within the enamel, until a cavity is formed. This is known as tooth cavity. The biggest prevention against dental cavities is brushing teeth twice a day and even better, after every meal with fluoride toothpaste and soft bristle toothbrush. Carbonated drinks must be avoided strictly and must be replaced with fruit juices and sugary food must be avoided. Intake of fluoridated water also helps a lot or fluoride supplements can be used as replacement.

There are basically two types of diabetes that will affect an adolescent. It is type 1 diabetes and type 2 diabetes. Type 1 diabetes affects the immune system's function as the systems attacks the pancreas' insulin producing cells, also known as the beta cells. Because of this, the pancreas loses the ability to manufacture insulin. This is the reason why people with type 1 diabetes take insulin everyday. The symptoms are weight loss, increase in urination & thirst, blurred vision, tiredness and constant hunger. And if the adolescent isn't treated at the right time, he/she can slip in to diabetic coma which can endanger his/her life. In type2 diabetes, the body is incapable of properly using the insulin produced by the body and requires insulin from an external source, too. The symptoms of type 2 diabetes are similar to type 1 diabetes. The teenager feels sick, tired, nauseated, and thirsty. The wounds will recover very slowly; he/she will get infections frequently, will develop blurred vision and will experience weight loss.

Parents play a vital role in determining the problem. They should constantly observe their child for eating disorders or signs of depression. Although cigarette, drugs and alcohol should be avoided by all adolescents and children, it is even more important that youngster with diabetes should stay away from these things as they can worsen the situation. A person with diabetes, who switches to smoking, is at risk of developing cardiovascular diseases and circulatory problems.

Consumption of alcohol can cause hypoglycemia or low blood sugar. It is the duty of the parents to make their child aware of the possible risk they would face if they start to smoke, drink alcohol or take drugs.

Children and adolescents, who have diabetes, face many challenges while trying to lead a normal life. They have to think twice before doing simple things as going to a party, playing sports and even when staying over with friends. This is because they require to intake oral medication or insulin. Their blood sugar level must be checked many times through out the day. Also, at gatherings, they have to avoid many food items. Because of this they will feel different from the crowd and can feel left out. Not only does diabetes pose behavioral challenges, but also emotional challenges.

Family and school support is necessary to tackle the depression of the adolescent. Parents can get their children admitted in emotional growth schools, boot camps or wilderness programs, to solve the behavioral problems. These programs consist of non medical staff and confrontational therapies. But care must be taken as some of the programs can in turn harm children who are depressed and sensitive. Adolescents, who get caught due to criminal offense, should be taken special care of by their parents. It is best that the child face the consequences and learn a lesson from it. Depressed adolescents respond well to treatment if they are treated comprehensively and early. More than half of the adults are

known to have depression when they were in their teens.

#### **Diabetes in adolescents**

Diabetes is a rapidly growing, serious health problem among youngster today. Above thirteen thousand adolescents are diagnosed for type 1 diabetes, every year in America. There has also been an increase in the number of teenagers with type 2 diabetes, which was more common among adults above forty and who were overweight. Clinics are reporting that nearly half of the new childhood diabetes cases are of type 2. Adolescents, who are obese and had type 2 diabetes in the family history, are at a greater risk of developing diabetes.

**Revenge dark light consciousness melanin serpent power and...**But acupuncture only reached the US in the early 80's with the establishment of a regulatory board called the National Commission for Acupuncture and Oriental Medicine. As a result, various schools have been built and those who want to become licensed acupuncturists are now able to practice their profession.

Despite that, there were a lot of people who are not yet convinced on the positive effects of alternative forms of medication. It was only in 1995 that the US Food and Drug Administration decided to classify the needles used for acupuncture as medical instruments and assured the public that they are both safe and effective.

To further promote acupuncture, the NIH or National Institute of Health in 1997 has stated that this technique is very useful in treating various health conditions. These include ear, nose, throat, respiratory, gastrointestinal, eye, nervous system and muscular disorders. In some cases, acupuncture is able to prevent some of them from happening.
