Migrant Conversions

2020-03-10 Erica Vogel A free open access ebook is available upon publication. Learn more at www.luminosoa.org. Peruvian migrant workers began arriving in South Korea in large numbers in the mid 1990s, eventually becoming one of the largest groups of non-Asians in the country. Migrant Conversions shows how despite facing unstable income and legal exclusion, migrants come to see Korea as an ideal destination. Some even see it as part of their divine destiny. Faced with looming departures, Peruvians develop cosmopolitan plans to transform themselves from economic migrants into pastors, lovers, and leaders. Set against the backdrop of 2008's global financial crisis, Vogel explores the intersections of three types of conversions— money, religious beliefs and cosmopolitan plans—to argue that conversions are how migrants negotiate the meaning of their lives in a constantly changing transnational context. At the convergence of cosmopolitan projects spearheaded by the state, churches, and other migrants, Peruvians change the value and meaning of their migrations. Yet, in attempting to make themselves at home in the world and give their families more opportunities, they also create potential losses. As Peruvians help carve out social spaces, they create complex and uneven connections between Peru and Korea that challenge a global hierarchy of nations and migrants. Exploring how migrants, churches and nations change through processes of conversion reveals how globalization continues to impact people's lives and ideas about their futures and pasts long after they have stopped moving, or that particular global moment has come to an end.

Orientalism

2014-10-01 Edward W. Said More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, Orientalism remains one of the most important books written about our divided world.

History of Coca

2000 W. Golden Mortimer Originally published in 1901, the following description comes from the first edition: This work, although of a scientific nature, has not been written exclusively for scientists, for the theme is of so universal a scope as to be worthy the attention of all who are concerned in lessening the trials of humanity, or who wish to shape the necessities of life through a more useful and consequently a more happy being. Centuries before the introduction of cocaine to anaesthetic uses, the world had been amazed by accounts of the energy creating properties ascribed to a plant intimately associated with the rites and customs of the ancient Peruvians, and first made known through the chroniclers of Spanish conquest in America. The history of this plant, known as Coca, is the history of the Incan race and is entwined throughout the associations of the vast socialistic Empire of those early people of Peru. The characteristics and botanical peculiarities of Coca, and the economic uses of plants of the family to which it belongs are described, and an effort is made to harmonize the early uses of the substance -- which are now shown to be of necessity, and not of luxury -- with its present employment, through facts of modern physiology. No effort has been made to make this work in any sense a book of Coca therapy, but a study of the early necessities and the hypothesis here advanced as to the rationale of its empirical uses will doubtless be ample to impress the true status of Coca, and will suggest its application in the affairs of modern life for conditions similar to those which originally demanded.

And no one saw them, no one heard them, no one recognized who they were. They departed from no mark, no lead, no testimony. They faded into the darkness, with the African Star. And the mystery of the missing diamond began.
