The Makings of Indonesian Islam

2013-12 Michael Laffan Indonesian Islam is often portrayed as being intrinsically moderate by virtue of the role that mystical Sufism played in shaping its traditions. According to Western observers--from Dutch colonial administrators and orientalist scholars to modern anthropologists such as the late Clifford Geertz--Indonesia's peaceful interpretation of Islam has been perpetually under threat from outside by more violent, intolerant Islamic traditions that were originally imposed by conquering Arab armies. The Makings of Indonesian Islam challenges this widely accepted narrative, offering a more balanced assessment of the intellectual and cultural history of the most populous Muslim nation on Earth. Michael Laffan traces how the popular image of Indonesian Islam was shaped by encounters between colonial Dutch scholars and reformist Islamic thinkers. He shows how Dutch religious preoccupations sometimes echoed Muslim concerns about the relationship between faith and the state, and how Dutch-Islamic discourse throughout the long centuries of European colonialism helped give rise to Indonesia's distinctive national and religious culture. The Makings of Indonesian Islam presents Islamic and colonial history as an integrated whole, revealing the ways our understanding of Indonesian Islam, both past and present, came to be.

2000 Ghazzālī Although Abu Hamid Muhammad al-Ghazali lived a relatively short life (1058-1111), he established himself as one of the most important thinkers in the history of Islam. The Incoherence of the Philosophers, written after more than a decade of travel and ascetic contemplation, contends that while such Muslim philosophers as Avicenna boasted of unassailable arguments on matters of theology and metaphysics, they could not deliver on their claims; moreover, many of their assertions represented disguised heresy and unbelief. Despite its attempted refutation by the twelfth-century philosopher Ibn Rushd, al-Ghazali's work remains widely read and influential.

In this quest for Truth, spanning many centuries and diverse civilizations, organized religion has shaped human life and determined to a large extent, the course of history. While some religions have been based on books, claimed by their adherents to be divinely inspired, others have relied solely on human experience. Al-Qur''an, the main source of the Islamic faith, is a book believed by Muslims, to be of completely Divine origin. Muslims also believe that it contains Divine guidance for all humankind. Since the message of the Qur''an is believed to be for all times, it should be relevant to every age. Does the Qur''an pass this test? In this booklet, I intend to give an objective analysis of the Muslim belief regarding the Divine origin of the Qur''an, in the light of established scientific discoveries. There was a time, in the history of world civilization, when ''miracles'', or what was perceived to be a miracle, took precedence over human reason and logic. But how do we define the term ''miracle''? A miracle is anything that takes place out of the normal course of life and for which humankind has no explanation. However, we must be careful before we accept something as a miracle. An article in `The Times of India'', Mumbai, in 1993 reported that ''a saint'' by the name ''Baba Pilot'' claimed to have stayed continuously submerged under water in a tank for three consecutive days and nights. However, when reporters wanted to examine the base of the tank of water where he claimed to have performed this ''miraculous'' feat, he refused to let them do so. He argued by asking as to how one could examine the womb of a mother that gives birth to a child. The `Baba'' was hiding something. The Islamic Invasion

2011-08 Ph. D. Robert a. Morey The Islamic Turks were poised to overrun Europe at The Battle of Vienna on September 11/12 of 1683, but were defeated. The Islamic Invasion As Mosques appear across the country people are asking-"What do I need to Know about Islam?" Islam-once an obscure Middle Eastern religion-has rapidly grown into the second largest religion in the world. There are now more Muslims than Episcopalians in the United States! What attraction does Islam hold for its followers? What part does it play in shaping the outlook and attitudes of nearly one billion people? Noted author Dr. Robert A. Morey, internationally recognized authority on the origins of the teachings and rituals of Islam- - explores the pre-Islamic history of Allah, and the doctrines and customs of Islam - reveals Islam's teaching about current issues such as religious freedom and the role of women The Islamic Invasion will give you the insight you need to understand Islam and the challenge it poses today. Dr. Morey warned the United States and Europe about Islam during the early 1980's long before 9/11. Most books on Islam since 9/11 have used his analysis of the Qur'an or Hadith. Special thanks to Professor Colin Akridge-who is a Vietnam Veteran and black scholar in the field of comparative religions-for his valuable and insightful contributions and working with him for researching and writing the section entitled The Black Muslim Movement in America. De Anima

2008-12-01 Aristotle Knowledge, however, is an attribute of the soul, and so are perception, opinion, desire, wish, and appetency generally; animal locomotion also is produced by the soul; and likewise growth, maturity, and decay. Shall we then say that each of these belongs to the whole soul, that we think, that is, and perceive and are moved and in each of the other operations act and are acted upon with the whole soul, or that the different operations are to be assigned to different parts?-from Book IThe writings of Greek philosopher ARISTOTLE (384BC-322BC)-student of Plato, teacher of Alexander the Great-are among the most influential on Western thought, and indeed upon Western civilization itself. From theology and logic to politics and even biology, there is no area of human knowledge that has not been touched by his thinking.In De Anima-which means, literally, On the Soul-the philosopher ponders the very nature of life itself. What is the essence of the lifeforce? Can we consider that plants and animals have souls? How does human intellect divide us from other animals? Is the human mind immortal?All these questions, and others that seem unanswerable, are explored in depth in this, one of the most important works ever written on such eternal questions. Students and armchair philosophers will find it a challenging-and rewarding-read.
