Introduction to High Energy Physics 2000-04-13 Donald H. Perkins This highly-regarded text provides a comprehensive introduction to modern particle physics. Extensively rewritten and updated, this 4th edition includes developments in elementary particle physics, as well as its connections with cosmology and astrophysics. As in previous editions, the balance between experiment and theory is continually emphasised. The stress is on the phenomenological approach and basic theoretical concepts rather than rigorous mathematical detail. Short descriptions are given of some of the key experiments in the field, and how they have influenced our thinking. Although most of the material is presented in the context of the Standard Model of quarks and leptons, the shortcomings of this model and new physics beyond its compass (such as supersymmetry, neutrino mass and oscillations, GUTs and superstrings) are also discussed. The text includes many problems and a detailed and annotated further reading list.

The Pennsylvania Trusts Handbook 2020-02-28 Edward L. Perkins The Pennsylvania Trusts Handbook is a comprehensive, basic-level introduction to trusts in Pennsylvania. Author Ted Perkins presents topics in easy-to-understand language, offering an overview of all the issues involved with trusts, trustees, and taxation, and giving guidance and practical examples on which kind of trust to use, sample drafting provisions, and tips for the novice drafter. Also includes electronic download of the book in PDF and sample forms in word-processing format.

Mineralogy 1998 Dexter Perkins Introduces mineralogy within a casual, relevant, and accessible approach. Rather than being dry and dull, the book is oriented to the way readers actually learn a new subject. This represents an entirely new approach to the study of mineralogy. Relating mineralogy to everyday life, the book introduces large, understandable topics first, then explains why the "little things" are important to show how minerals fit into the larger picture. Emphasizes petrology, chemistry, and other sciences not normally considered part of mineralogy to place the subject in context. Presents the history and human aspects of mineralogy with individuals and their contributions that provide an historical context. It also provides short, concise mineral descriptions. A valuable introduction to the study of mineralogy for every reader with an interest in the subject.

Charlotte Perkins Gilman and Her Contemporaries 2004-04-16 Cynthia J. Davis By placing Charlotte Perkins Gilman in the company of her contemporaries, this collection seeks to correct misunderstandings of the feminist writer and lecturer as an isolated radical. Gilman's highly public and combative stances as a critic and social activist brought her into contact and conflict with many of the major thinkers and writers of the period. Gilman wrote on subjects as wide ranging as birth control, eugenics, race, women's rights and suffrage, psychology, Marxism, and literary aesthetics. Her many contributions to social, intellectual, and literary life at the turn of the 20th century raised the bar for future discourse, but at great personal and professional cost. -- From publisher's description.

Mrs. Perkins's Electric Quilt 2009-08-17 Paul J. Nahin An incomparable collection of stimulating math puzzles from bestselling author Paul Nahin What does

quilting have to do with electric circuit theory? The answer is just one of the fascinating ways that best-selling popular math writer Paul Nahin illustrates the deep interplay of math and physics in the world around us in his latest book of challenging mathematical puzzles, Mrs. Perkins's Electric Quilt. With his trademark combination of intriguing mathematical problems and the historical anecdotes surrounding them, Nahin invites readers on an exciting and informative exploration of some of the many ways math and physics combine to create something vastly more powerful, useful, and interesting than either is by itself. In a series of brief and largely self-contained chapters, Nahin discusses a wide range of topics in which math and physics are mutually dependent and mutually illuminating, from Newtonian gravity and Newton's laws of mechanics to ballistics, air drag, and electricity. The mathematical subjects range from algebra, trigonometry, geometry, and calculus to differential equations, Fourier series, and theoretical and Monte Carlo probability. Each chapter includes problems—some three dozen in all—that challenge readers to try their hand at applying what they have learned. Just as in his other books of mathematical puzzles, Nahin discusses the historical background of each problem, gives many examples, includes MATLAB codes, and provides complete and detailed solutions at the end. Mrs. Perkins's Electric Quilt will appeal to students interested in new math and physics applications, teachers looking for unusual examples to use in class—and anyone who enjoys popular math books.

Confessions of an Economic Hit Man 2004-11-09 John Perkins "Economic hit men," John Perkins writes, "are highly paid professionals who cheat countries around the globe out of trillions of dollars. Their tools include fraudulent financial reports, rigged elections, payoffs, extortion, sex, and murder." John Perkins should know—he was an economic hit man. His job was to convince countries that are strategically important to the U.S.—from Indonesia to Panama—to accept enormous loans for infrastructure development, and to make sure that the lucrative projects were contracted to U. S. corporations. Saddled with huge debts, these countries came under the control of the United States government, World Bank and other U.S.-dominated aid agencies that acted like loan sharks—dictating repayment terms and bullying foreign governments into submission. This New York Times bestseller exposes international intrigue, corruption, and little-known government and corporate activities that have dire consequences for American democracy and the world. It is a compelling story that also offers hope and a vision for realizing the American dream of a just and compassionate world that will bring us greater security.

Go, Cat, Go! 1997-06-01 Carl Perkins He wrote the songs that made rock immortal--including the all-time classic "Blue Suede Shoes." Now, in a book that "reads like timeless Southern fiction" (Washington Post Book World), Carl Perkins beautifully tells his story. From a life beset with tragedies--including the suicide of his brother--Perkins emerges as a man made stronger through trial and sustained by his lifelong love affair with music. of photos.

Particle Astrophysics, Second Edition 2009 D.H. Perkins The close relation between particle interactions and large scale development of the cosmos is a constant theme in the text, with emphasis on the interplay between experiment and theory."--Jacket.

Charlotte Perkins Gilman and a Woman's Place in America 2017-02-07 Jill Bergman Charlotte Perkins Gilman and a Woman's Place in America probes how depictions of space, confinement, and liberation establish both the difficulty and necessity of female empowerment. Turning Victorian notions of propriety and a woman's place on its ear, this essay collection studies Gilman's writings and the manner in which they push back against societal norms and reject male-dominated confines of space. The contributors present readings of some of Gilman's most significant works. By examining the settings in "The Yellow Wallpaper" and Herland, for example, the volume analyzes Gilman's construction of place, her representations of male dominance and female subjugation, and her analysis of the rules and obligations that women feel in conforming to their assigned place: the home. Additionally, this volume delineates female resistance to this conformity. Contributors highlight how Gilman's narrators often choose resistance over obedient captivity, breaking free of the spaces imposed upon them in order to seek or create their own habitats. Through biographical interpretations of Gilman's work that focus on the author's own renouncement of her "natural" role of wife and mother, contributors trace her relocation to the American West in an attempt to appropriate the masculinized spaces of work and social organization. --

Moving The Mountain 2016-07-23 Charlotte Perkins Gilman ONE of the most distinctive features of the human mind is to forecast better things. ""We look before and after And pine for what is not."" This natural tendency to hope, desire, foresee and then, if possible, obtain, has been largely diverted from human usefulness since our goal was placed after death, in Heaven. With all our hope in ""Another World,"" we have largely lost hope of this one.

The New Confessions of an Economic Hit Man 2016-02-09 John Perkins Featuring 15 explosive new chapters, this new edition of the New York Times bestseller brings the story of Economic Hit Men up-to-date and, chillingly, home to the U.S.—but it also gives us hope and the tools to fight back. Former economic hit man John Perkins shares new details about the ways he and others cheated countries around the globe out of trillions of dollars. Then he reveals how the deadly EHM cancer he helped create has spread far more widely and deeply than ever in the US and everywhere else—to become the dominant system of business, government, and society today. Finally, he gives an insider view of what we each can do to change it. Economic hit men are the shock troops of what Perkins calls the corporatocracy, a vast network of corporations, banks, colluding governments, and the rich and powerful people tied to them. If the EHM’s can’t maintain the corrupt status quo through nonviolent coercion, the jackal assassins swoop in. The heart of this book is a completely new section, over 100 pages long, that exposes the fact that all the EHM and jackal tools—false economics, false promises, threats, bribes, extortion, debt, deception, coups, assassinations, unbridled military power—are used around the world today exponentially more than during the era Perkins exposed over a decade ago. As dark as the story gets, this reformed EHM also provides hope. Perkins offers specific actions each of us can take to transform what he calls a failing Death Economy into a Life Economy that provides sustainable abundance for all.

You Bring the Distant Near 2017-09-12 Mitali Perkins This elegant young adult novel captures the immigrant experience for one Indian-American family with humor and heart. Told in alternating teen voices across three generations, You Bring the Distant Near explores sisterhood, first loves, friendship, and the inheritance of culture—for better or worse. From a grandmother worried that her children are losing their Indian identity to a daughter wrapped up in a forbidden biracial love affair to a granddaughter social-activist fighting to preserve Bengali tigers, award-winning author Mitali Perkins weaves together the threads of a family growing into an American identity. Here is a sweeping story of five women at once intimately relatable and yet entirely new.

Horses, Power and Place 2023-12-05 Neil Ward Horses, Power and Place explores the evolution of humanity’s relationship with horses, from early domestication through to the use of the horse as a draught animal, an agricultural, industrial and military asset, and an animal of sport and leisure. Taking an historical approach, and using Britain as a case study, this is the first book-length exploration of the horse in the more-than-human geography of a nation. It traces the role and implications of horse-based mobility for the evolution of settlement structure, urban morphology and the rural landscape. It maps the growth and various uses of horses to the point of ‘peak horse’ in the early twentieth century before considering the contemporary place of the horse in twenty-first century economy and society. It assesses the role of the horse in the formation of places within Britain and in the formation of the nation. The book reflects on the implications of this historical and contemporary equine geography for animal geographies and animal studies. It argues for the study of animals in general in how places are made, not just by humans. Written in a clear and accessible style, this book will be essential reading for students and scholars of animal geography and animal studies more widely.

Secret Keeper 2009-01-13 Mitali Perkins From National Book Award finalist, Mitali Perkins, comes a dramatic tale about a displaced Indian family in the 1970s. When Asha’s father loses his job and leaves India to look for work in America, Asha Gupta, her older sister, Reet, and their mother must wait with Baba’s brother and his family, as well as their grandmother, in Calcutta. Uncle is welcoming, but in a country steeped in tradition, the three women must abide by his decisions. Asha knows this is temporary—just until Baba sends for them. But with scant savings and time passing, the tension builds: Ma, prone to spells of sadness, finds it hard to submit to her mother- and sister-in-law; Reet’s beauty attracts unwanted marriage proposals; and Asha’s promise to take care of Ma and Reet leads to impulsive behavior. Asha’s only solace is her rooftop hideaway, where she pours her heart out in her diary, and where she begins a clandestine friendship with Jay Sen, the boy next door—against the rules of the house. Asha can hardly believe that she, and not Reet, is the object of Jay’s attention. But when tragedy strikes, Asha must make a painful choice that will change their lives forever “Well-developed characters, funny dialogue, and the authentic depiction of spunky Asha’s longing for romance and female self-determination, set in a culture that restrains women’s choices, make this book an attractive pick.”—School Library Journal "Achingly realistic."—Kirkus "An intimate and absorbing drama."—Publisher's Weekly "Heartbreaking and hopeful."—ALA Booklist

Anthony Perkins 2006 Charles Winecoff Perkins was being groomed to replace the late James Dean as a romantic leading man in Hollywood. But his landmark performance as Norman Bates in Hitchcock’s Psycho destroyed his chance and off-screen life equally as secretive, conflicted, and fractured. Compelling and surprising, here is the first in-depth look at the double life of one of the world’s most recognisable film stars. Insightfully documents the life of Anthony Perkins, who was forced to act the part of ladies' man while struggling with his own homosexuality. 27/10/2005

In this Our World (Esprios Classics) 2022-07-05 Charlotte Perkins Gilman Charlotte Perkins Gilman (née Perkins; July 3, 1860 - August 17, 1935), also known by her first married name Charlotte Perkins Stetson, was an American humanist, novelist, writer, lecturer, advocate for social reform, and eugenicist. She was a utopian feminist and served as a role model for future generations of feminists because of her unorthodox concepts and lifestyle. She has been inducted into the National Women’s Hall of Fame. Her best remembered work today is her semi-autobiographical short story "The Yellow Wallpaper", which she wrote after a severe bout of postpartum psychosis.

The Crux 2021-05-21 Charlotte Perkins Gilman When a group of New England women move to the western frontier, they encounter a new set of problems testing their love, friendship and spirits. In The Crux, Gilman highlights women’s need for economic independence and sexual autonomy. The strain of New England life pushes a group of progressive women to move to Colorado. Together, they open a boarding house and create a bustling business that supports both men and women. When one of the ladies fall in love with a male resident, it dramatically changes the group’s dynamic. His poor health and questionable standing make their relationship a point of contention. The author uses their scenario to examine self-determination theory, and its connection to other ideologies that may influence a woman’s choice. The Crux is a powerful exploration of contemporary feminist ideals. It focuses on the many disparities between genders both personally and professionally. This is an intriguing look at the long-term effects of different social conventions.

Coloured 2023-09-01 Tessa Dooms 'This is a book for Coloured people, by Coloured people, a book of Coloured and colourful stories from varied corners of the South African vista, past, present and future.' What does it mean to be Coloured? Who are Coloured people? Are they San or Khoe, Malay or mixed, and where in South Africa do they fit in? And then the enduring, but also insulting, question: do Coloured people even have a culture? In this book, Tessa Dooms and Lynsey Ebony Chutel challenge the notion that Coloured people do not have a distinct heritage or culture – that they are neither Black nor White enough – and present a different angle to that narrative. They delve into the history of Coloured people as descendants of indigenous Africans and as a people whose identity has been shaped by colonisation and slavery, and unpack the racial and political hierarchies these forces created. Although this book examines a difficult history, it is also about the culture that Coloured communities have created for themselves through food, music and shared lived experiences. This culture is an act of defiance and resilience. Coloured is a reflection on, and celebration of, Coloured identities as lived experiences. It is a call to Coloured communities to reclaim their identity – and an invitation to understand the history of Coloured people and their place in the making of South Africa's future.

The field of Engineering Economics and Cost Estimation is a crucial aspect of any engineering project. It involves current and upcoming economic factors, making it critical to obtain reliable estimates of future costs, benefits, and other economic parameters. Engineers regularly deal with projects whose scale, complexity, and uncertainty call for sophisticated approaches to planning and budgeting<sup>[1]</sup>. Various methods are used for cost estimation, including rough estimates, semi-detailed estimates, or detailed estimates, depending on the needs for the estimates<sup>[2]</sup>. Key concepts in this field include overhead costs, cost driver identification, cost allocation methods, capital budgeting, flexible budgeting, zero-based budgeting, budgets, and estimates. Various models are available for developing cost (or benefit) estimates, such as the per-unit model, the segmenting model, cost indexes, the power-sizing model, and learning curve cost estimating. The quality of a cost estimate typically increases as the resources allocated to developing the estimate increase.

The publication "Analyzing Casual Conversation" by Suzanne Eggins and Diana Slade, originally published in 1997, develops a methodical model for the study and description of casual conversation in English. The authors argue that in spite of its at times aimless look and ostensibly unstructured material, casual conversation is a very structured undertaking and performs a crucial part in the social building of reality. The book works through genuine samples of casual conversations involving participants differing in age, gender, ethnicity, and socio-economic class<sup>12</sup>. Drawing on insights from sociology, linguistics, and critical semiotics, the book provides readers with the analytical skills to portray the layers of structure and critical interpretive frameworks to elucidate the 'social work' that happens on through chat.
