Swee' Pea and Other Playground Legends 1990-01 John Valenti Explains how some of basketball's best players throw away big-money careers, and why others succeed

Swee'pea 2016-07-05 John Valenti "An earlier version was published in 1990 as Swee'pea and Other Playground Legends"--T.p. verso.

Swee'pea 2016-07-05 John Valenti "If you care about basketball or about people, you will care about this book." —(John Feinstein, author of Season on the Brink) "[Daniels's] story was quite powerful in an age before the Internet and social media and is a fantastic read for this generation's basketball players, parents, and lovers of the game." —(Ronnie Flores, Ball is Life) In this updated edition of a lost classic of sports writing, authors John Valenti and Ron Naclerio chronicle the life of Lloyd Daniels, one of New York City's most legendary basketball players. Lloyd Daniels learned to hoop on the playgrounds of Brooklyn and Queens during the 1980s. "Swee'pea" they called him. His rep on the court traveled all the way to the Bronx, and across the country, earning him enthusiastic comparisons to the likes of Magic Johnson. Swee'pea was sure to make it to the big time and out of a New York City where drugs and violence had gripped many of its neighborhoods. And eventually he did, leaving the city's asphalt courts for the shiny hardwoods of NCAA programs, minor

pro-leagues, and eventually the NBA. He took with him, however, a drug habit, a learning disability, and a reputation for self-destruction. With Swee'pea, Newsday reporter John Valenti and celebrated New York City high school basketball coach Ron Naclerio brilliantly capture how an athletic phenom becomes both a product of his environment, and his own worst enemy. Supplementing Daniels's enigmatic story are profiles of basketball successes like former NBA stars Kenny Anderson, John Salley, and Mark Jackson—and tragedies like Earl "The Goat" Manigault, Richie Adams, and Tony "Red" Bruin—who never made the league. Timeless, gritty, and hard-hitting, Swee'pea is a classic tale that illuminates why so many of basketball's best players throw away multimillion dollar careers, and a journey back to a time when the humble playground courts of New York City were giving rise to some of the finest players in the world.

The New Plantation 2010-02-15 B. Hawkins The New Plantation examines the controversial relationship between predominantly White NCAA Division I Institutions (PWI s) and black athletes, utilizing an internal

colonial model. It provides a much-needed in-depth analysis to fully comprehend the magnitude of the forces at work that impact black athletes experiences at PWI s. Hawkins provides a conceptual framework for understanding the structural arrangements of PWI s and how they present challenges to Black athletes academic success; yet, challenges some have overcome and gone on to successful careers, while many have succumbed to these prevailing structural arrangements and have not benefited accordingly. The work is a call for academic reform, collective accountability from the communities that bear the burden of nurturing this athletic talent and the institutions that benefit from it, and collective consciousness to the Black male athletes that make of the largest percentage of athletes who generate the most revenue for the NCAA and its member institutions. Its hope is to promote a balanced exchange in the athletic services rendered and the educational services received.

Racism in Contemporary America 1996-05-23 Meyer Weinberg Racism in Contemporary America is the largest and most up-to-date bibliography available on current research on the topic. It has been compiled by award-winning researcher Meyer Weinberg, who has spent many years writing and researching contemporary and historical aspects of racism. Almost 15,000 entries to books, articles, dissertations, and other materials are organized under 87 subject-headings. In addition, there are author and ethnic-racial indexes. Several aids help the researcher access the materials included. In addition to the subject organization of the bibliography, entries are annotated whenever the title is not self-explanatory. An author index is followed by an ethnic-racial index which makes it convenient to follow a single group through any or all the subject headings. This is a source book for the serious study of America's most enduring problem; as such it will be of value to students and researchers at all levels and in most disciplines.

Learning to Win 2003-04-03 Pamela Grundy Over the past century, high school and college athletics have grown into one of America's most beloved--and most controversial--institutions, inspiring great loyalty while sparking fierce disputes. In this richly detailed book, Pamela Grundy examines the many meanings that school sports took on in North Carolina, linking athletic programs at state universities, public high schools, women's colleges, and African American educational institutions to social and economic shifts that include the expansion of industry, the advent of woman suffrage, and the rise and fall of Jim Crow. Drawing heavily on oral history interviews, Grundy charts the many pleasures of athletics, from the simple joy of backyard basketball to the exhilaration of

a state championship run. She also explores conflicts provoked by sports within the state--clashes over the growth of college athletics, the propriety of women's competition, and the connection between sports and racial integration, for example. Within this chronicle, familiar athletic narratives take on new meanings, moving beyond timeless stories of courage, fortitude, or failure to illuminate questions about race, manhood and womanhood, the purpose of education, the meaning of competition, and the structure of American society.

Basketball Jones 2000-09 Todd Boyd It began with Magic, Bird, and Dr. J. Then came Michael. The Dream Team. The WNBA. And, most recently, "Spree" Latrell Sprewell--American Dream or American Nightmare?--the embodiment of everything many believe is wrong--and others believe is exciting--about the game. Today, despite the NBA strike, despite home run derbies, despite football's headlock on network television ratings, despite the much-heralded return of baseball, basketball has assumed a role in American culture and consciousness impossible to imagine 20 years ago, when arenas were empty and the NBA finals were broadcast via tape delay in the wee hours. So what happened? How did a "black sport," plagued by drug scandal and decimated by white flight, come to achieve such prominence? What are the subtle and not-so-subtle racial codes that define how the game is played and perceived, and the reception of its high-profile stars? What does the shift in popularity from the predominantly white, working-class ethos of baseball to the black, urban ethos of basketball suggest about contemporary life in America? What linkages exist between basketball and hip-hop culture and how did these develop? How has the arrival of women on the scene changed the equation? Bringing together journalists, cultural critics, and academics, this wide-ranging anthology has something for everyone, from hard-core fan to casual observer. Contributors: Todd Boyd, Kenneth L. Shropshire, Gerald Early, James Peterson, Susan J. Rayl, Davis W. Houck, Mark Conrad, Charles J. Ogletree, Jr., Earl Smith, Sohail Daulatzi, Larry Platt, Tina Sloan Green, Alpha Alexander, Tara McPherson, Aaron Baker.
