

## American Creation Joseph J Ellis Pdf Pdf

The volume provides overviews of the literature at specific junctures of society and health (e.g., the effectiveness of preschool obesity prevention programs), as well as commentaries that shape our understanding of particular parts of the ...

**American Creation 2007-10-30** Joseph J. Ellis From the first shots fired at Lexington to the signing of the Declaration of Independence to the negotiations for the Louisiana Purchase, Joseph J. Ellis guides us through the decisive issues of the nation's founding, and illuminates the emerging philosophies, shifting alliances, and personal and political foibles of our now iconic leaders—Washington, Jefferson, Madison, Hamilton, and Adams. He casts an incisive eye on the founders' achievements, arguing that the American Revolution was, paradoxically, an evolution—and that part of what made it so extraordinary was the gradual pace at which it occurred. He explains how the idea of a strong federal government was eventually embraced by the American people, and details the emergence of the two-party system, which stands as the founders' most enduring legacy. Ellis is equally incisive about their failures, and he makes clear how their inability to abolish slavery and to reach a just settlement with the Native Americans has played an equally important role in shaping our national character. With eloquence and insight, Ellis strips the mythic veneer of the revolutionary generation to reveal men both human and inspired, possessed of both brilliance and blindness. American Creation is an audiobook that delineates an era of flawed greatness, at a time when understanding our origins is more important than ever.

**The Cause 2022** Joseph J. Ellis George Washington claimed that anyone who attempted to provide an accurate account of the war for independence would be accused of writing fiction. At the time, no one called it the "American Revolution" former colonists still regarded themselves as Virginians or Pennsylvanians, not Americans, while John Adams insisted that the British were the real revolutionaries, for attempting to impose radical change without their colonists' consent. With *The Cause*, Ellis takes a fresh look at the events between 1773 and 1783, recovering a war more brutal than any in American history save the Civil War and discovering a strange breed of "prudent" revolutionaries, whose prudence proved wise yet tragic when it came to slavery, the original sin that still haunts our land. Written with flair and drama, *The Cause* brings together a cast of familiar and forgotten characters who, taken together, challenge the story we have long told ourselves about our origins as a people and a nation.

**Founding Brothers 2003-12-16** Joseph J. Ellis PULITZER PRIZE WINNER • NATIONAL BESTSELLER • A landmark work of history explores how a group of greatly gifted but deeply flawed individuals—Hamilton, Burr, Jefferson, Franklin, Washington, Adams, and Madison—confronted the overwhelming challenges before them to set the course for our nation. “A splendid book—humane, learned, written with flair and radiant with a calm intelligence and wit.” —The New York Times Book Review The United States was more a fragile hope than a reality in 1790. During the decade that followed, the Founding Fathers—re-examined here as Founding Brothers—combined the ideals of the Declaration of Independence with the content of the Constitution to create the practical workings of our government. Through an analysis of six fascinating episodes—Hamilton and Burr's deadly duel, Washington's precedent-setting Farewell Address, Adams' administration and political partnership with his wife, the debate about where to place the capital, Franklin's attempt to force Congress to confront the issue of slavery and Madison's attempts to block him, and Jefferson and Adams' famous correspondence—Founding Brothers brings to life the vital issues and personalities from the most important decade in our nation's history.

**American Dialogue 2019-11-26** Joseph J. Ellis The award-winning author of *Founding Brothers* and *The Quartet* now gives us a deeply insightful examination of the relevance of the views of George Washington, Thomas Jefferson, James Madison, and John Adams to some of the most divisive issues in America today. The story of history is a ceaseless conversation between past and present, and in *American Dialogue* Joseph J. Ellis focuses the conversation on the often-asked question "What would the Founding Fathers think?" He examines four of our most seminal historical figures through the prism of particular topics, using the perspective of the present to shed light on their views and, in turn, to make clear how their now centuries-old ideas illuminate the disturbing impasse of today's political conflicts. He discusses Jefferson and the issue of racism, Adams and the specter of economic inequality, Washington and American imperialism, Madison and the doctrine of original intent. Through these juxtapositions—and in his hallmark dramatic and compelling narrative voice—Ellis illuminates the obstacles and pitfalls paralyzing contemporary discussions of these fundamentally important issues.

**Passionate Sage: The Character and Legacy of John Adams 2011-02-14** Joseph J. Ellis An absorbing, insightful profile of the revolutionary leader, president, husband, and father from one of our best historians, now in a beautiful new package. John Adams was unique among the nation's founders in leaving a record of his most intimate thoughts and feelings. Instinctively candid and politically incisive, Adams offers the clearest view of the ambitions and principles that drove the revolutionary generation. *Passionate Sage* offers a brilliant introduction to the second president: his politics, his affinities for family and friendship even with political opponents like Jefferson, and his enduring significance. “Ellis’s palpable affection lends a pleasing glow to his profile of Adams, which is why *Passionate Sage* is his best book.”—Judith Shulevitz, *New York Times Book Review* “Impassioned and erudite. . . . A captivating portrait of this Massachusetts native as a wonderfully contrary genius possessed of an uncommon moral intelligence and farsighted political wisdom.”—Michiko Kakutani, *New York Times* “The best portrait of a Revolutionary-era statesman.”—Evan Thomas, *Wall Street Journal*

**His Excellency 2005-11-08** Joseph J. Ellis National Bestseller To this landmark biography of our first president, Joseph J. Ellis brings the exacting scholarship, shrewd analysis, and lyric prose that have made him one of the premier historians of the Revolutionary era. Training his lens on a figure who sometimes seems as remote as his effigy on Mount Rushmore, Ellis assesses George Washington as a military and political leader and a man whose “statue-like solidity” concealed volcanic energies and emotions. Here is the impetuous young officer whose miraculous survival in combat half-convinced him that he could not be killed. Here is the free-spending landowner whose debts to English merchants instilled him with a prickly resentment of imperial power. We see the general who lost more battles than he won and the reluctant president who tried to float above the partisan feuding of his cabinet. His *Excellency* is a magnificent work, indispensable to an understanding not only of its subject but also of the nation he brought into being.

**The Quartet by Joseph J. Ellis | Summary & Analysis 2015-07-27** Instaread The Quartet by Joseph J. Ellis | Summary & Analysis Preview: The Quartet is an historical account of the debates and events leading up to, during, and immediately following the creation of the Constitution of the United States of America. The quartet is four politicians that played an integral role in the creation, shaping, and implementation of the Constitution and early federal government in the US. These include George Washington, James Madison, Alexander Hamilton, and John Jay. Each man had some involvement in the American Revolution, which lent credence to their cause and ability to establish a national government. Washington served as the head of the Continental Army. Hamilton served as Washington's aide de camp and later served as commander of his own troops. Madison was a commissioned colonel of the Orange County militia from Virginia and served on the Continental Congress. Jay also served on the Continental Congress and negotiated the terms of the Treaty of Paris that ended the American Revolutionary War... PLEASE NOTE: This is a summary and analysis of the book and NOT the original book. Inside this Instaread Summary & Analysis of The Quartet • Summary of book • Introduction to the Important People in the book • Analysis of the Themes and Author's Style

**American Sphinx 1998-11-19** Joseph J. Ellis Following Thomas Jefferson from the drafting of the Declaration of Independence to his retirement in Monticello, Joseph J. Ellis unravels the contradictions of the Jeffersonian character. He gives us the slaveholding libertarian who was capable of decrying mescegenation while maintaining an intimate relationship with his slave, Sally Hemmings; the enemy of government power who exercised it audaciously as president; the visionary who remained curiously blind to the inconsistencies in his nature. American Sphinx is a marvel of scholarship, a delight to read, and an essential gloss on the Jeffersonian legacy.

**Revolutionary Summer 2013-06-04** Joseph J. Ellis The Pulitzer Prize and National Book Award-winning author of *First Family* presents a revelatory account of America's declaration of independence and the political and military responses on both sides throughout the summer of 1776 that influenced key decisions and outcomes.

**The Quartet 2016-05-03** Joseph J. Ellis NATIONAL BESTSELLER • The Pulitzer Prize-winning author of *Founding Brothers* tells the unexpected story of America's second great founding and of the men most responsible—Alexander Hamilton, George Washington, John Jay, and James Madison. Ellis explains of why the thirteen colonies, having just fought off the imposition of a distant centralized governing power, would decide to subordinate themselves anew. These men, with the help of Robert Morris and Gouverneur Morris, shaped the contours of American history by diagnosing the systemic dysfunctions created by the Articles of Confederation, manipulating the political process to force the calling of the Constitutional Convention, conspiring to set the agenda in Philadelphia, orchestrating the debate in the state ratifying conventions, and, finally, drafting the Bill of Rights to assure state compliance with the constitutional settlement, created the new republic. Ellis gives us a dramatic portrait of one of the most crucial and misconstrued periods in American history: the years between the end of the Revolution and the formation of the federal government. The Quartet unmasks a myth, and in its place presents an even more compelling truth—one that lies at the heart of understanding the creation of the United States of America.

**Crisis Point 2016-01-19** Trent Lott With a new afterword on the 2016 election Trent Lott and Tom Daschle, two of the most prominent senators of recent time, served as leaders of their respective parties from the 1990s to the current century. Their congressional tenure saw the Reagan tax cuts, the Clinton impeachment, 9/11, and the Iraq War. Despite stark ideological differences, the two have always maintained a positive working relationship--even a warm friendship--the kind that in today's hyper-partisan climate has become unthinkable. In *Crisis Point*, Lott and Daschle come together to sound an alarm on the current polarization that has made governing all but impossible; never before has faith in government been so dismally low. The senators itemize damaging forces--the permanent campaign, unprecedented money, the 24/7 news cycle--and offer practical recommendations, pointing the way forward. Most crucially, they recall the American people, especially our leaders, to the principles enshrined in the Constitution, and to the necessity of debate but also the imperative of compromise--which will take vision and courage to bring back. Illustrated with personal stories from their eminent careers and events cited from deeper in American history, *Crisis Point* is an invaluable work--one of conscience as well as duty, written with passion and eloquence by two men who have dedicated their lives to public service and share the conviction that all is far from lost.

**Democratization in Africa 2010-03-29** Larry Diamond Weiss, Christopher Wyrod, Daniel J. Young

**Revolutionary Characters 2006-05-18** Gordon S. Wood In this brilliantly illuminating group portrait of the men who came to be known as the Founding Fathers, the incomparable Gordon Wood has written a book that seriously asks, "What made these men great?" and shows us, among many other things, just how much character did in fact matter. The life of each—Washington, Adams, Jefferson, Franklin, Hamilton, Madison, Paine—is presented individually as well as collectively, but the thread that binds these portraits together is the idea of character as a lived reality. They were members of the first generation in history that was self-consciously self-made men who understood that the arc of lives, as of nations, is one of moral progress.

**The British Are Coming 2019-05-14** Rick Atkinson Winner of the George Washington Prize Winner of the Barbara and David Zalaznick Book Prize in American History Winner of the Excellence in American History Book Award Winner of the Frances Tavern Museum Book Award From the bestselling author of the *Liberation* Trilogy comes the extraordinary first volume of his new trilogy about the American Revolution Rick Atkinson, author of the Pulitzer Prize-winning *An Army at Dawn* and two other superb books about World War II, has long been admired for his deeply researched, stunningly vivid narrative histories. Now he turns his attention to a new war, and in the initial volume of the *Revolution* Trilogy he recounts the first twenty-one months of America's violent war for independence. From the battles at Lexington and Concord in spring 1775 to those at Trenton and Princeton in winter 1777, American militiamen and then the ragged Continental Army take on the world's most formidable fighting force. It is a gripping saga alive with astonishing characters: Henry Knox, the former bookseller with an uncanny understanding of artillery; Nathanael Greene, the blue-eyed bumpkin who becomes a brilliant battle captain; Benjamin Franklin, the self-made man who proves to be the wiliest of diplomats; George Washington, the commander in chief who learns the difficult art of leadership when the war seems all but lost. The story is also told from the British perspective, making the mortal conflict between the redcoats and the rebels all the more compelling. Full of riveting details and untold stories, *The British Are Coming* is a tale of heroes and knaves, of sacrifice and blunder, of redemption and profound suffering. Rick Atkinson has given stirring new life to the first act of our country's creation drama.

Summoned to Lead 2009-12-15 Leonard Sweet Leadership Re-VisionedCast a vision, set a strategy, rally the troops, and take the hill—you don't need another book to rehash the well-worn principles of modern leadership. But if you're looking for something different, something that . . . approaches leadership as an art as well as a scienceinspires hope and expectation in those of us who aren't born leaderschallenges those with leadership roles to explore new possibilities. . . . then Leonard Sweet wants to help you discover a very different kind of leadership vision. It's one you hear if your ears are open, and it could summon you at any time. When you respond, the puzzle pieces of who you are will fit together into a leader others follow because you've answered a call, not trained for a position. "The church has it all wrong. It is trying to train leaders. Instead, it ought to train everyone to listen and to develop their own soundtrack."Leaders don't see a vision, says Sweet, they hear one. "Sound becomes sight. Leaders hear life."For a sonogram of "acoustic leadership," Sweet takes us inside the incredible account of Sir Ernest Shackleton, the celebrated polar explorer who led his entire crew of twenty-seven from disaster in the Antarctic to safety. Called "the greatest leader that ever came on God's earth, bar none," Shackleton objectifies the goals of Sweet's own exploration in search of wisdom for today and tomorrow's truly compelling, voice-activated leaders.Right now, you may be leading many people or just yourself. But who knows what tomorrow—or a minute from now—will call forth in you. Are your ears open?

**In Reason We Trust 2009-10-23** John Chrysochoos Focuses on the political, historical, social, economic, and religious concepts that had great effects on the country, particularly those that manipulated the populace into thinking and acting a certain way. The author argues that reason needs to play a larger role in public discourse.

**Journey into America 2010-06-01** Akbar Ahmed Nearly seven million Muslims live in the United States today, and their relations with non-Muslims are strained. Many Americans associate Islam with figures such as Osama bin Laden, and they worry about "homegrown terrorists." To shed light on this increasingly important religious group and counter mutual distrust, renowned scholar Akbar Ahmed conducted the most comprehensive study to date of the American Muslim community. Journey into America explores and documents how Muslims are fitting into U.S. society, placing their experience within the larger context of American identity. This eye-opening book also offers a fresh and insightful perspective on American history and society. Following up on his critically acclaimed Journey into Islam: The Crisis of Globalization (Brookings, 2007), Ahmed and his team of young researchers traveled for a year through more than seventyfive cities across the United States—from New York City to Salt Lake City; from Las Vegas to Miami; from the large Muslim enclave in Dearborn, Michigan, to small, predominantly white towns like Arab, Alabama. They visited homes, schools, and over one hundred mosques to discover what Muslims are thinking and how they are living every day in America. In this unprecedented exploration of American Muslim communities, Ahmed asked challenging questions: Can we expect an increase in homegrown terrorism? How do American Muslims ofArab descent differ from those of other origins (for example, Somalia or South Asia)? Why are so many white women converting to Islam? How can a Muslim become accepted fully as an "American," and what does that mean? He also delves into the potentially sticky area of relations with other religions. For example, is there truly a deep divide between Muslims and Jews in America? And how well do Muslims get along with other religious groups, such as Mormons in Utah? Journey into America is equal parts anthropological research, listening tour, and travelogue. Whereas Ahmed's previous book took the reader into homes, schools, and mosques in the Muslim world, his new quest takes us into the heart of America and its Muslim communities. It is absolutely essential reading for anyone trying to make sense of America today.

**A Leap in the Dark 2003-06-12** John Ferling It was an age of fascinating leaders and difficult choices, of grand ideas eloquently expressed and of epic conflicts bitterly fought. Now comes a brilliant portrait of the American Revolution, one that is compelling in its prose, fascinating in its details, and provocative in its fresh interpretations. In *A Leap in the Dark*, John Ferling offers a magisterial new history that surges from the first rumblings of colonial protest to the volcanic election of 1800. Ferling's swift-moving narrative teems with fascinating details. We see Benjamin Franklin trying to decide if his loyalty was to Great Britain or to America, and we meet George Washington when he was a shrewd planter-businessman who discovered personal economic advantages to American independence. We encounter those who supported the war against Great Britain in 1776, but opposed independence because it was a "Leap in the dark." Following the war, we hear talk in the North of secession from the United States. The author offers a gripping account of the most dramatic events of our history, showing just how closely fought were the struggle for independence, the adoption of the Constitution, and the later battle between Federalists and Democratic-Republicans. Yet, without slowing the flow of events, he has also produced a landmark study of leadership and ideas. Here is all the erratic brilliance of Hamilton and Jefferson battling to shape the new nation, and here too is the passion and political shrewdness of revolutionaries, such as Samuel Adams and Patrick Henry, and their Loyalist counterparts, Joseph Galloway and Thomas Hutchinson. Here as well are activists who are not so well known today, men like Abraham Yates, who battled for democratic change, and Theodore Sedgwick, who fought to preserve the political and social system of the colonial past. Ferling shows that throughout this period the epic political battles often resembled today's politics and the politicians--the founders--played a political hardball attendant with enmities, selfish motivations, and bitterness. The political stakes, this book demonstrates, were extraordinary: first to secure independence, then to determine the meaning of the American Revolution. John Ferling has shown himself to be an insightful historian of our Revolution, and an unusually skillful writer. *A Leap in the Dark* is his masterpiece, work that provokes, enlightens, and entertains in full measure.

**The Birth of the Republic, 1763-89 1977** Edmund Sears Morgan Here are the events of that remarkable quarter-century which transformed thirteen quarrelsome colonies into a nation. The author's account of the Revolutionary period shows how the challenge of British taxation started the Americans on a search for constitutional principles to protect their freedom.

**A Companion to the History of the Book 2011-08-24** Simon Eliot A COMPANION TO THE HISTORY OF THE BOOK A COMPANION TO THE HISTORY OF THE BOOK Edited by Simon Eliot and Jonathan Rose “As a stimulating overview of the multidimensional present state of the field, the Companion has no peer.” Choice “If you want to understand how cultures come into being, endure, and change, then you need to come to terms with the rich and often surprising history Of the book ... Eliot and Rose have done a fine job. Their volume can be heartily recommended. ” Adrian Johns, Technology and Culture From the early Sumerian clay tablet through to the emergence of the electronic text, this Companion provides a continuous and coherent account of the history of the book. A team of expert contributors draws on the latest research in order to offer a cogent, transcontinental narrative. Many of them use illustrative examples and case studies of well-known texts, conveying the excitement surrounding this rapidly developing field. The Companion is organized around four distinct approaches to the history of the book. First, it introduces the variety of methods used by book historians and allied specialists, from the long-established discipline of bibliography to newer IT-based approaches. Next, it provides a broad chronological survey of the forms and content of texts. The third section situates the book in the context of text culture as a whole, while the final section addresses broader issues, such as literacy, copyright, and the future of the book. Contributors to this volume: Michael Albin, Martin Andrews, Rob Banham, Megan L Benton, Michelle P. Brown, Marie-Francoise Cachin, Hortensia Calvo, Charles Chadwyck-Healey, M. T. Clanchy, Stephen Colclough, Patricia Crain, J. S. Edgren, Simon Eliot, John Feather, David Finkelstein, David Greetham, Robert A. Gross, Deana Heath, Lotte Hellinga, T. H. Howard-Hill, Peter Kornicki, Beth Luey, Paul Luna, Russell L. Martin Ill, Jean-Yves Mollier, Angus Phillips, Eleanor Robson, Cornelia Roemer, Jonathan Rose, Emile G. L Schrijver, David J. Shaw, Graham Shaw, Claire Squires, Rietje van Vliet, James Wald, Rowan Watson, Alexis Weedon, Adriaan van der Weel, Wayne A. Wiegand, Eva Hemmungs Wirtén.

**Black Identities 2009-06-30** Mary C. WATERS The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different story. She finds that the values that gain first-generation immigrants initial success—a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save—are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation.

**Healing the Heart of Democracy 2014-07-31** Parker J. Palmer Hope for American democracy in an era of deep divisions In *Healing the Heart of Democracy*, Parker J. Palmer quickens our instinct to seek the common good and gives us the tools to do it. This timely, courageous and practicalwork—intensely personal as well as political—is notabout them, “those people” in Washington D.C., or in ourstate capitals, on whom we blame our political problems. It’s aboutus, “We the People,” and what we can do in everyday settingslike families, neighborhoods, classrooms, congregations andworkplaces to resist divide-and-conquer politics and restore agovernment “of the people, by the people, for the people.” In the same compelling, inspiring prose that has made him abestselling author, Palmer explores five “habits of the heart” thatcan help us restore democracy’s foundations as we nurture them inourselves and each other: An understanding that we are all in this together An appreciation of the value of “otherness” An ability to hold tension in life-giving ways A sense of personal voice and agency A capacity to create community Healing the Heart of Democracy is an eloquent andempowering call for “We the People” to reclaim ourdemocracy. The online journal Democracy & Educationcalled it “one of the most important books of the early 21stCentury.” And Publishers Weekly, in a Starred Review, said“This beautifully written book deserves a wide audience that willbenefit from discussing it.”

**Patrick Henry 2011-11-22** Thomas S. Kidd Historian Thomas S. Kidd shows how the fiery Patrick Henry cherished a vision of America as a virtuous republic with a clearly circumscribed central government. These ideals brought him into bitter conflict with other Founders and were crystallized in his vociferous opposition to the U.S. Constitution.

**Maneuver and Firepower 1998** John B. Wilson

**The First American 2010-05-26** H. W. Brands PULITZER PRIZE FINALIST • Benjamin Franklin, perhaps the pivotal figure in colonial and revolutionary America, comes vividly to life in this “thorough biography of . . . America’s first Renaissance man” (The Washington Post) by the two-time Pulitzer Prize finalist, bestselling historian, and author of *Our First Civil War*. “The authoritative Franklin biography for our time.” —Joseph J. Ellis, author of the Pulitzer Prize-winning *Founding Brothers* Wit, diplomat, scientist, philosopher, businessman, inventor, and bon vivant, Benjamin Franklin’s “life is one every American should know well, and it has not been told better than by Mr. Brands” (The Dallas Morning News). From penniless runaway to highly successful printer, from ardently loyal subject of Britain to architect of an alliance with France that ensured America’s independence, Franklin went from obscurity to become one of the world’s most admired figures, whose circle included the likes of Voltaire, Hume, Burke, and Kant. Drawing on previously unpublished letters and a host of other sources, acclaimed historian H. W. Brands has written a thoroughly engaging biography of the eighteenth-century genius. A much needed reminder of Franklin’s greatness and humanity, *The First American* is a work of meticulous scholarship that provides a magnificent tour of a legendary historical figure, a vital era in American life, and the countless arenas in which the protean Franklin left his legacy. Look for H.W. Brands’s other biographies: ANDREW JACKSON, THE MAN WHO SAVED THE UNION (Ulysses S. Grant), TRAITOR TO HIS CLASS (Franklin Roosevelt) and REAGAN.

**The First Chief Justice 2022-03-01** Mark C. Dillon The first Chief Justice of the United States, John Jay faced many unique challenges. When the stability and success of the new nation were far from certain, a body of federalized American law had to be created from scratch. In *The First Chief Justice*, New York State Appellate Judge Mark C. Dillon uncovers, for the first time, how Jay's personal, educational, and professional experiences—before, during, and after the Revolutionary War—shaped both the establishment of the first system of federal courts from 1789 to 1795 and Jay's approach to deciding the earliest cases heard by the Supreme Court. Dillon takes us on a fascinating journey of a task accomplished by constant travel on horseback to the nation's far reaches, with Jay adeptly handling the Washington administration, Congress, lawyers, politicians, and judicial colleagues. The book includes the history of each of the nine cases decided by Jay when he was Chief Justice, many of which have proven with time to have enduring historical significance. *The First Chief Justice* will appeal to anyone interested in the establishment of the US federal court system and early American history.

**First Family 2010** Joseph J. Ellis Presents a narrative profile of the second president and his wife that traces their more than fifty-year partnership in such areas as civic and foreign affairs.

**The American Revolution 2002-03-05** Gordon S. Wood NEW YORK TIMES BESTSELLER “An elegant synthesis done by the leading scholar in the field, which nicely integrates the work on the American Revolution over the last three decades but never loses contact with the older, classic questions that we have been arguing about for over two hundred years.”—Joseph J. Ellis, author of *Founding Brothers* A magnificent account of the revolution in arms and consciousness that gave birth to

the American republic. When Abraham Lincoln sought to define the significance of the United States, he naturally looked back to the American Revolution. He knew that the Revolution not only had legally created the United States, but also had produced all of the great hopes and values of the American people. Our noblest ideals and aspirations-our commitments to freedom, constitutionalism, the well-being of ordinary people, and equality-came out of the Revolutionary era. Lincoln saw as well that the Revolution had convinced Americans that they were a special people with a special destiny to lead the world toward liberty. The Revolution, in short, gave birth to whatever sense of nationhood and national purpose Americans have had. No doubt the story is a dramatic one: Thirteen insignificant colonies three thousand miles from the centers of Western civilization fought off British rule to become, in fewer than three decades, a huge, sprawling, rambunctious republic of nearly four million citizens. But the history of the American Revolution, like the history of the nation as a whole, ought not to be viewed simply as a story of right and wrong from which moral lessons are to be drawn. It is a complicated and at times ironic story that needs to be explained and understood, not blindly celebrated or condemned. How did this great revolution come about? What was its character? What were its consequences? These are the questions this short history seeks to answer. That it succeeds in such a profound and enthralling way is a tribute to Gordon Wood's mastery of his subject, and of the historian's craft.

From Wall Street to Bay Street 2018-01-01 Christopher Kobrak From Wall Street to Bay Street is the first book for a lay audience to tackle the similarities and differences between the financial systems of Canada and the United States. Christopher Kobrak and Joe Martin reveal the different paths each system has taken since the early nineteenth-century.

Remember the Ladies 2017-05-23 Angela P. Dodson Following the centennial celebrations of women first winning the right to vote, this book documents the milestones in the hard-won struggle and reflects on women's impact on politics since. From the birth of our nation to the recent crushing defeat of the first female presidential candidate, this book highlights women's impact on United States politics and government. It documents the fight for women's right to vote, drawing on historic research, biographies of leaders, and such original sources as photos, line art, charts, graphs, documents, posters, ads, and buttons. It presents this often-forgotten struggle in an accessible, conversational, relevant manner for a wide audience. Here are the groundbreaking convention records, speeches, newspaper accounts, letters, photos, and drawings of those who fought for women's right to vote, all in their own words, arranged to convey the inherent historical drama. The accessible almanac style allows this entertaining history speak for itself. It is full of little-known facts. For instance: When the Constitutional Convention of the thirteen colonies convened to draft the Constitution, Abigail Adams admonished her husband John Adams to "remember the ladies" (write rights for women into the Constitution!). Important for today's discussions, Remember the Ladies does not extract women's suffrage from the inseparable concurrent historic endeavors for emancipation, immigration, and temperance. Its robust research documents the intersectionality of women's struggle for the vote in its true context with other progressive efforts.

Elite White Men Ruling 2017-04-07 Joe R. Feagin This book examines the "who, what, when, where, and how" of elite-white-male dominance in U.S. and global society. In spite of their domination in the United States and globally that we document herein, elite white men have seldom been called out and analyzed as such. They have received little to no explicit attention with regard to systemic racism issues, as well as associated classism and sexism issues. Almost all public and scholarly discussions of U.S. racism fail to explicitly foreground elite white men or to focus specifically on how their interlocking racial, class, and gender statuses affect their globally powerful decisionmaking. Some of the power positions of these elite white men might seem obvious, but they are rarely analyzed for their extraordinary significance. While the principal focus of this book is on neglected research and policy questions about the elite-white-male role and dominance in the system of racial oppression in the United States and globally, because of their positioning at the top of several societal hierarchies the authors periodically address their role and dominance in other oppressive (e.g., class, gender) hierarchies.

One Person, One Vote 2022-06-14 Nick Seabrook A redistricting crisis is now upon us. This surprising, compelling book tells the history of how we got to this moment—from the Founding Fathers to today's high-tech manipulation of election districts—and shows us as well how to protect our most sacred, hard-fought principle of one person, one vote. Here is THE book on gerrymandering for citizens, politicians, journalists, activists, and voters. "Seabrook's lucid account of the origins and evolution of gerrymandering—the deliberate and partisan doctoring of district borders for electoral advantage—makes a potentially dry, wonky subject accessible and engaging for a broad audience." —The New York Times Nick Seabrook, an authority on constitutional and election law and an expert on gerrymandering (pronounced with a hard 'G'), begins before our nation's founding, with the rigging of American elections for partisan and political gain and the election meddling of George Burrington, the colonial governor of North Carolina, in retaliation against his critics. The author writes of Patrick Henry, who used redistricting to settle an old score with political foe and fellow Founding Father James Madison (almost preventing the Bill of Rights from happening), and of Elbridge Gerry, the Massachusetts governor from whose name "gerrymander" derives. One Person, One Vote explores the rise of the most partisan gerrymanders in American history, put in place by the Republican Party after the 2010 census. We see how the battle has shifted to the states via REDMAP—the GOP's successful strategy to control state governments and rig the results of state legislative and congressional elections over the past decade. Seabrook makes clear that a vast new redistricting is already here, and that to safeguard our republic, action is needed before it is too late.

The Court-Martial of Captain John Armstrong 2022-07-17 Ellen Denning Smith John Armstrong was destined to be a humble farmer on the Pennsylvania frontier until the American Revolution changed his life. Rising from private soldier to an officer in the Continental Army, he later served in the First American Regiment, forerunner of the U.S. Army, that was tasked to facilitate the settlement of the Northwest Territory. He endured the fledgling army's growing pains, was selected for a covert operation in Spanish territory to explore the Missouri River, and fought Native Americans in two disastrous military campaigns. The army subsequently evolved into a successful fighting force despite its second-in-command's quest to destroy the career of its commander, Maj. Gen. Anthony Wayne. Armstrong became an unwitting pawn in a treacherous game crafted by Brig. Gen. James Wilkinson, of whom Theodore Roosevelt once wrote, "He had no conscience and no scruples . . . In all our history there is no more despicable character." Rebuilding his life in Ohio and Indiana, Armstrong became a noted government official, militia officer, land speculator, and pioneer.

From Poverty to Power 2008 Duncan Green Offers a look at the causes and effects of poverty and inequality, as well as the possible solutions. This title features research, human stories, statistics, and compelling arguments. It discusses about the world we live in and how we can make it a better place.

Air Force Combat Units of World War II 1961 Maurer Maurer

Introduction to Statistical Quality Control 2020-06-23 Douglas C. Montgomery Once solely the domain of engineers, quality control has become a vital business operation used to increase productivity and secure competitive advantage. Introduction to Statistical Quality Control offers a detailed presentation of the modern statistical methods for quality control and improvement. Thorough coverage of statistical process control (SPC) demonstrates the efficacy of statistically-oriented experiments in the context of process characterization, optimization, and acceptance sampling, while examination of the implementation process provides context to real-world applications. Emphasis on Six Sigma DMAIC (Define, Measure, Analyze, Improve and Control) provides a strategic problem-solving framework that can be applied across a variety of disciplines. Adopting a balanced approach to traditional and modern methods, this text includes coverage of SQC techniques in both industrial and non-manufacturing settings, providing fundamental knowledge to students of engineering, statistics, business, and management sciences. A strong pedagogical toolset, including multiple practice problems, real-world data sets and examples, and incorporation of Minitab statistics software, provides students with a solid base of conceptual and practical knowledge.

The War of the American Revolution 2002-05 Robert W. Coakley This reference work on the American Revolution consists of three parts--a brief narrative history of war, a chronology of military events, and a bibliography.

Friends Divided 2018-10-23 Gordon S. Wood A New York Times Book Review Notable Book of 2017 From the great historian of the American Revolution, New York Times bestselling and Pulitzer-winning Gordon Wood, comes a majestic dual biography of two of America's most enduringly fascinating figures, whose partnership helped birth a nation, and whose subsequent falling out did much to fix its course. Thomas Jefferson and John Adams could scarcely have come from more different worlds, or been more different in temperament. Jefferson, the optimist with enough faith in the innate goodness of his fellow man to be democracy's champion, was an aristocratic Southern slaveowner, while Adams, the overachiever from New England's rising middling classes, painfully aware he was no aristocrat, was a skeptic about popular rule and a defender of a more elitist view of government. They worked closely in the crucible of revolution, crafting the Declaration of Independence and leading, with Franklin, the diplomatic effort that brought France into the fight. But ultimately, their profound differences would lead to a fundamental crisis, in their friendship and in the nation writ large, as they became the figureheads of two entirely new forces, the first American political parties. It was a bitter breach, lasting through the presidential administrations of both men, and beyond. But late in life, something remarkable happened: these two men were nudged into reconciliation. What started as a grudging trickle of correspondence became a great flood, and a friendship was rekindled, over the course of hundreds of letters. In their final years they were the last surviving founding fathers and cherished their role in this mighty young republic as it approached the half century mark in 1826. At last, on the afternoon of July 4th, 50 years to the day after the signing of the Declaration, Adams let out a sigh and said, "At least Jefferson still lives." He died soon thereafter. In fact, a few hours earlier on that same day, far to the south in his home in Monticello, Jefferson died as well. Arguably no relationship in this country's history carries as much freight as that of John Adams of Massachusetts and Thomas Jefferson of Virginia. Gordon Wood has more than done justice to these entwined lives and their meaning; he has written a magnificent new addition to America's collective story.

Amusing Ourselves to Death 2005-12-27 Neil Postman What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil's Postman's essential guide to the modern media is more relevant than ever. "It's unlikely that Trump has ever read Amusing Ourselves to Death, but his ascent would not have surprised Postman." -CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell

phones to DVDs—it has taken on even greater significance. Amusing Ourselves to Death is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one." —Jonathan Yardley, The Washington Post Book World

Obesity Interventions in Underserved Communities 2014-12-08 Virginia M. Brennan Explores effective models for treating and preventing obesity, providing commentaries that shape our understanding of particular parts of the obesity epidemic and field reports on innovative approaches to combating obesity in racial/ethnic minority and other medically underserved populations in the United States.
