Building a Special with Ant Anstead Master Mechanic 2021-07-20 Ant Anstead Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction,

culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.

**Crossing the Congo 2016-12-01 Mike Martin** In 2013, three friends set off on a journey that they had been told was impossible: the north-south crossing of the Congo River Basin, from Kinshasa, in the Democratic Republic of Congo, to Juba, in South Sudan. Traversing 2,500 miles of the toughest terrain on the planet in a twenty-five year-old Land Rover, they faced repeated challenges, from kleptocracy and fire ants to non-existent roads and intense suspicion from local people. Through imagination and teamwork -- including building rafts and bridges, conducting makeshift surgery in the jungle and playing tribal politics -- they got through. But the Congo is raw, and the journey took an unexpected psychological toll on them all. Crossing the Congo is an offbeat travelogue, a story of friendship and what it takes to complete a great journey against tremendous odds, and an intimate look into one of the world's least-developed and most fragile states, told with humor and sensitivity.

BMW Z3 Roadster 2017-05-18 James Michael Fishwick This book releases one of the best-kept secrets of the sports car world – the BMW Z3, the latest generation of the traditional small sports car, with the advantages of being based on a tried and tested model range produced by a manufacturer of high quality cars with enviable service and spares support. Designed in Bavaria, styled in California, and built in South Carolina, the Z3 caused generations of motoring writers to dismiss it as a toy sports car, fit only for 'Estate agents, hairdressers and footballers wives,' but is it really so bad? As the Z3 becomes a modern classic, potential buyers have little information to help them sort out the best cars from the others, most Z3 books being a combination of history and data. This guide shows what to expect and what to look for, written against a background of prolonged ownership and Z3 knowledge. Containing a wealth of Z3 information, practical inspection and driving evaluation hints, this book will help potential buyers through the process of finding the car they want, whether it is to be a summer runner or a car to keep and cherish.
