Ten Ways of Thinking About Samuel Beckett 2013-06-13 Enoch Brater Beckett is acknowledged as one of the greatest playwrights and most innovative fiction writers of the twentieth century with an international appeal that bridges both general and more specialist readers. This collection of essays by renowned Beckett scholar Enoch Brater offers a delightfully original, playful and intriguing series of approaches to Beckett's drama, fiction and poetry. Beginning with a chapter entitled "Things to Ponder While Waiting for Godot", each essay deftly illuminates aspects of Beckett's thinking and craft, making astute and often suprising discoveries along the way. In a series of beguiling discussions such as 'From Dada to Didi: Beckett and the Art of His Century', 'Beckett's Devious Interventions, or Fun with Cube Roots' and 'The Seated Figure on Beckett's Stage', Brater proves the perfect companion and commentator on Beckett's work, helping readers to approach it with fresh eyes and a renewed sense of the author's unique aesthetic.

Beckett's Industrial Chocolate Manufacture and Use 2017-05-08 Steve T. Beckett Since the publication of the first edition of Industrial Chocolate Manufacture and Use in 1988, it has become the leading technical book for the industry. From the beginning it was recognised that the complexity of the chocolate industry means that no single person can be an expert in every aspect of it. For example, the academic view of a process such as crystallisation can be very different from that of a tempering machine operator, so some topics have more than one chapter to take this into account. It is also known that the biggest selling chocolate, in say the USA, tastes very different from that in the UK, so the authors in the book were chosen from a wide variety of countries making the book truly international. Each new edition is a mixture of updates, rewrites and new topics. In this book the new subjects include artisan or craft scale production, compound chocolates and sensory. This book is an essential purchase for all those involved in the manufacture, use and sale of chocolate containing products, especially for confectionery and chocolate scientists, engineers and technologists working both in industry and academia. The new edition also boasts two new co-editors, Mark Fowler and Greg Ziegler, both of whom have contributed chapters to previous editions of the book. Mark Fowler has had a long career at Nestle UK, working in Cocoa and Chocolate research and development – he is retiring in 2013. Greg Ziegler is a professor in the food science department at Penn State University in the USA.

The book "Analyzing Casual Conversation" by Suzanne Eggins and Diana Slade, first released in 1997, establishes a methodical model for the examination and depiction of casual conversation in English. The writers assert that notwithstanding its at times aimless look and seemingly unstructured material, casual conversation is a very structured activity and performs a critical function in the social formation of reality. The work goes through real instances of casual conversations including participants varying in age, gender, ethnicity, and socio-economic class¹². Pulling on insights from sociology, linguistics, and critical semiotics, the publication equips readers with the analytic skills to portray the levels of structure and critical interpretive frameworks to elucidate the 'social work' that happens on through chat.
