Achtung-Panzer! 1995 Heinz Guderian This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Employment and Development 2019-01-15 Gary S. Fields Employment and Development brings together the contributions of 2014 IZA Prize in Labor Economics award winner Gary S. Fields to address global employment and poverty problems. Most of the poor in developing countries live in households in which people work, but still they are poor because the best available work pays so little. Employment and Development: How Work Can Lead From and Into Poverty questions how economic growth affects standards of living, how labor markets work in developing countries, and how different labor market policies affect well-being. Through a collection of essays, this book tackles major questions in development and labor economics. Who benefits from economic growth and who is hurt by economic decline? Why are distributional factors and labor market conditions improving in some countries but not in others? How do developing countries' labor markets work? How would labor market conditions change if different policies were to be put into effect? What are the welfare consequences of these changes? Through distributional analysis, Fields examines inequality, poverty, income mobility, and economic well-being, and through analysis of changing labor market conditions he examines employment and unemployment, employment composition, and labor earnings. By concentrating on the poor and understanding how the labor markets work for them and how their labor market earnings might be raised in response to different policy interventions, Fields addresses questions of first-order importance for human well-being.

In My Shoes 2014-09-30 Tamara Mellon A juicy true story about sex, drugs, money, power, high heels, and overcoming adversity. Tamara Mellon used her business savvy, creative eye, and flair for design to build Jimmy Choo into a premier name in global fashion. But despite her eventual fame and fortune, Mellon didn't have an easy road to success. Her seemingly glamorous beginnings were marked by a tumultuous family life, battles with anxiety and depression, and a stint in rehab. Now Mellon shares the whole larger-than-life story—from her time as a young editor at Vogue to her partnership with cobbler Jimmy Choo to her very public relationships. In creating the shoes that became a fixture on Sex and the City and red carpets around the world, Mellon relied on her own impeccable sense of what her customers wanted. What she didn't know at the time was that success would come at a high price: struggles with an obstinate business partner, a conniving first CEO, a turbulent marriage, and a mother who tried to steal her hard-earned wealth.

comprehensive healing system called 'Omega healing'. This preventative system has been acknowledged as one of the most powerful healing techniques currently available. It tackles the root cause of problems – not just the symptoms. Balancing the emotional body and returning to our core essence restores us to greater health, ease and happiness. This fantastic CD package collects together some of Roy's most powerful teachings on this subject, along with meditations that will allow you to implement its incredible effects in your life. The first section provides an excellent introduction to Roy's background and how he came to heal himself using his Omega Healing technique. The second section features four incredible meditations that will allow you to heal every aspect of your life. The first provides energy and vitality. The second is a relaxing visualisation for the end of the day. The third helps with releasing feelings. The fourth helps heal traumas in our past lives. These meditations, recorded live in London and exclusively for Hay House showcase one of the brightest new voices in healing.

Scanderbeide 2007-11-01 Margherita Sarrocchi The first historical heroic epic authored by a woman, Scanderbeide recounts the exploits of fifteenth-century Albanian warrior-prince George Scanderbeg and his war of resistance against the Ottoman sultanate. Filled with scenes of intense and suspenseful battles contrasted with romantic episodes, Scanderbeide combines the action and fantasy characteristic of the genre with analysis of its characters' motivations. In selecting a military campaign as her material and epic poetry as her medium, Margherita Sarrocchi (1560?-1617) not only engages in the masculine subjects of political conflict and warfare but also tackles a genre that was, until that point, the sole purview of men. First published posthumously in 1623, Scanderbeide reemerges here in an adroit English prose translation that maintains the suspense of the original text and gives ample context to its rich cultural implications.

All Other Nights: A Novel 2010-03-08 Dara Horn
"Slam-bang... superb... masterful... gripping... marvelous."—Washington Post How is tonight different from all other nights? For Jacob Rappaport, a Jewish soldier in the Union Army, it is a question his commanders have answered for him: on Passover, 1862, he is ordered to murder his own uncle, who is plotting to assassinate Abraham Lincoln. After this harrowing mission, Jacob is recruited to pursue another enemy agent—this time not to murder the spy, but to marry her. Based on real historical figures, this eagerly awaited novel from award-winning author Dara Horn delivers multilayered, page-turning storytelling at its best.

Hame 2017-09-12 Annalena McAfee A rich, sultry, ambitious novel about a young American writer/curator, fleeing a crumbling marriage in New York who travels with her nine-year old daughter to one of the remote islands in the north of Scotland, birthplace of her grandfather. Commissioned to set up a museum there and to write the biography of the island's celebrated poet and chronicler, Mhairi McPhail is slowly drawn in by the complicated life she is uncovering and writing about--the Bard of Fascaray--as she finds herself being transformed, awakened by the ferocity and power of the island. Who was the celebrated poet, Grigor McWatt, The Bard of Fascaray? What was his past? Details of his life are elusive. As Mhairi struggles to adapt to her island life and put her disappointment and troubles behind her, she begins to unearth the astonishing secret history of the poet, regarded by many as the custodian of Fascaray's--and Scotland's--soul. In McAfee's rich novel of invented island life, she interweaves extracts from Mhairi's journal entries, her discoveries and writings of McWatt, and tales of Fascaray itself into a resonant, compelling, dimensional narrative that at its heart explores identity, love, belonging and the universal quest for home.

Wargaming and Simulation as Tools for CONOPS Development 2004-09-01 Russell A. Rhoads The purpose of this thesis is to use wargaming and simulation to gain insight into the effective employment of a new Command Control Communications Computers Intelligence Surveillance and Reconnaissance (C4ISR) system the Adaptive Joint C4ISR Node (AJCN). The AJCN provides the supported commander with several capabilities to include: range extension waveform bridging signal intelligence

electronic warfare and information operations. Two methods are used to gain insight to the support generation of the concept of operations for the AJCN's employment. The first method is wargaming. The wargaming method utilized a class of NPS students and the JCATS combat simulation model. The wargaming generated insights concerning the AJCN's employment. The second method is the use of a constructive simulation model POA 2. Insights gained from the two methods include: the need for commanders to differentiate the AJCN and its supporting platform; the need for effective information processing techniques; the importance of maintaining at least two-tiers of AJCN coverage to enhance situational awareness of the supported units.

Dancing Arabs 2007-12-01 Sayed Kashua In this “slyly subversive, semi-autobiographical” novel “of Arab Israeli life,” a Palestinian man struggles against the strict confines of identity (Publishers Weekly). In Sayed Kashua’s debut novel, a nameless anti-hero contends with the legacy of a grandfather who died fighting the Zionists in 1948, and a father who was jailed for blowing up

a school cafeteria in the name of freedom. When the narrator is granted a scholarship to an elite Jewish boarding school, his family rejoices, dreaming that he will grow up to be the first Arab to build an atom bomb. But to their dismay, he turns out to be a coward devoid of any national pride; his only ambition is to fit in with his Jewish peers who reject him. He changes his clothes, his accent, his eating habits, and becomes an expert at faking identities, sliding between different cultures, schools, and languages, and eventually a Jewish lover and an Arab wife. With refreshing candor and self-deprecating wit, *Dancing Arabs* is a "chilling, convincing tale" of one man's struggle to disentangle his personal and national identities, only to tragically and inevitably forfeit both (Publishers Weekly). "Rings out on every page with a compelling sense of human truth" —Kirkus Reviews "Despite its dark prognosis, there is a lightness and dry humor that lifts it with the kind of wings its protagonist once hoped for." —Booklist

Kant on Representation and Objectivity 2003-11-06 A. B. Dickerson This book is a study of the second-edition version of the 'Transcendental Deduction' (the so-called 'B-Deduction'), which is one of the most important and obscure sections of Kant's *Critique of Pure Reason*. By way of a close analysis of the B-Deduction, Adam Dickerson makes the distinctive claim that the Deduction is crucially concerned with the problem of making intelligible the unity possessed by complex representations - a problem that is the representationalist parallel of the semantic problem of the unity of the proposition. Along the way he discusses most of the key themes in Kant's theory of knowledge, including the nature of thought and representation, the notion of objectivity, and the way in which the mind structures our experience of the world.

Going to the Mountain 2018-06-26 Ndaba Mandela The first-ever book to tell Nelson

Mandela's life through the eyes of the grandson who was raised by him, chronicling Ndaba Mandela's life living with, and learning from, one of the greatest leaders and humanitarians the world has ever known. To the rest of the world, Nelson Mandela was a giant: an anti-apartheid revolutionary, a world-renowned humanitarian, and South Africa's first black president. To Ndaba Mandela, he was simply "Granddad." In *Going to the Mountain*, Ndaba tells how he came to live with Mandela shortly after he turned eleven--having met each other only once, years before, when Mandela was imprisoned at Victor Verster Prison--and how the two of them slowly, cautiously built a relationship that would affect both their lives in extraordinary ways. It wasn't an easy transition. Mandela had high expectations for those around him, especially his family, and Ndaba chafed at the strict rules and exacting guidelines in his grandfather's home. But at the same time--through overheard calls from foreign dignitaries as well as the Xhosa folk wisdom that his grandfather shared with him at every opportunity--Ndaba was learning how to be a man. On a scale both personal and epic, Ndaba's extraordinary journey mirrors that of South Africa's coming of age--from the segregated Soweto ghettos into which he was born to the privileged life in which he grew up and the turbulent yet exciting times in which he carries on his grandfather's legacy. *Going to the Mountain* is, in the end, a story about unlocking the power within each of us. It's a cautionary tale about how a child's life can go one way or the other, depending upon the intervention of a caring soul--and about the awesome power of love to serve as a catalyst for change.

The Effects of Wal-Mart on Local Labor Markets 2007 David Neumark We estimate the effects of Wal-Mart stores on county-level retail employment and earnings, accounting for endogeneity of the location and timing of Wal-Mart openings that most likely biases the evidence against finding adverse effects of Wal-Mart stores. We address the endogeneity problem using a natural instrumental variables approach that arises from the geographic and time pattern of the opening of Wal-Mart stores, which slowly spread out from the first stores in Arkansas. The employment results indicate that

a Wal-Mart store opening reduces county-level retail employment by about 150 workers, implying that each Wal-Mart worker replaces approximately 1.4 retail workers. This represents a 2.7 percent reduction in average retail employment. The payroll results indicate that Wal-Mart store openings lead to declines in county-level retail earnings of about \$1.2 million, or 1.3 percent. Of course, these effects occurred against a backdrop of rising retail employment, and only imply lower retail employment growth than would have occurred absent the effects of Wal-Mart.

Fire in Montana 2006-05 Greg Martin In the summer of 1949 fifteen smokejumpers parachuted into a remote Montana canyon called Mann Gulch. It started as a very small fire in rugged country but within two hours after landing, thirteen of these young men were caught in a raging inferno and were killed. They died bravely, together with their friends, and in the service of their country. Everyone was young and attractive, healthy and strong, enthusiastic and in love. They were bursting into the prime of their lives. There were no malcontents here. Everyone did their best but events overtook them. Until now the actual time line has never been connected to the people involved. Fire in Montana connects the lives of young smokejumpers who lived with a joy of life and expectations of shining futures, the forest rangers and volunteers who fought valiantly to rescue them, and their families, lovers, and friends who were forced to wait and pray, then face the devastating and heart wrenching loss.

Stefan Zweig Reconsidered 2007-01-01 Mark H. Gelber This volume is comprised of 14 contributions, which are revised and expanded versions of lectures held at an international conference on Stefan Zweig that took place in Israel in 2004. The essays focus on Zweig's biographical writings (for example Erasmus and Fouché), as well as on several aspects of his literary works that have been neglected since the revival of academic studies of his writings and career commenced some 25 years ago. These include: Zweig's conception of the daemonic, Zweig and Christianity, the discourse of love in his writings, Zweig as an Austrian

eulogist, his understanding of theater, etc. Contributors from Austria, Germany, France, Belgium, Slovenia, and Israel bring refreshingly diverse perspectives and new concerns to this scholarly project. With contributions from Vera Apfelthaler, Matjaz Birk, Denis Charbit, Sarah Fraiman-Morris, Mark H. Gelber, Jacob Golomb, Bernhard Greiner, Gert Kerschbaumer, Hanni Mittelmann, Klaus Mueller, Michel Reffet, Ingrid Spoerk, Robert Wistrich.

The book "Analyzing Casual Conversation" by Suzanne Eggins and Diana Slade, originally issued in 1997, establishes a organized model for the examination and depiction of casual conversation in English. The writers assert that despite its sometimes aimless appearance and seemingly unstructured substance, casual conversation is a extremely structured activity and has a critical role in the social building of reality. The book works through genuine examples of casual conversations entailing participants varying in age, gender, ethnicity, and socio-economic class¹². Deriving on perspectives from sociology, linguistics, and critical semiotics, the work provides readers with the analytic skills to portray the layers of structure and critical interpretive frameworks to explain the 'social work' that goes on through chat.
