Microbiology
2016-05-30 Nina Parker "Microbiology covers the scope and sequence requirements for a single-semester microbiology course for non-majors. The book presents the core concepts of microbiology with a focus on applications for careers in allied health. The pedagogical features of the text make the material interesting and accessible while maintaining the career-application focus and scientific rigor inherent in the subject matter. Microbiology's art program enhances students' understanding of concepts through clear and effective illustrations, diagrams, and photographs. Microbiology is produced through a collaborative publishing agreement between OpenStax and the American Society for Microbiology Press. The book aligns with the curriculum guidelines of the American Society for Microbiology."--BC Campus website.

True Story of a Serial Killer
This is not a fiction. This is not a movie. This is the true story of a serial killer, who killed 17 people in cold blood, and was never caught. He was known as the Zodiac, and he taunted the police and the public with cryptic messages and clues. He claimed to have a motive, a plan, a purpose. He said he was killing for a higher cause, for a divine mission. He said he was smarter than anyone, and he would never be stopped. He was wrong. This is the story of how he was finally caught, by the one person who knew him better than anyone. His own brother.
