The Science of Happiness

Happiness is one of the most sought-after and elusive goals of human existence. We all want to be happy, but how do we achieve it? What are the factors that influence our happiness? How can we measure it? How can we enhance it? This book aims to answer these questions, by presenting the science of happiness. It will introduce the main theories and models of happiness, the methods and tools of measuring and assessing happiness, the findings and discoveries of happiness research, and the applications and interventions of happiness promotion. It will also provide practical tips and advice for readers, on how to increase their happiness and well-being, based on scientific evidence and principles.

The morning sun painted the sky in hues of pink and gold as it climbed above the horizon, casting a warm glow over the sleepy town nestled between rolling hills. The air was crisp and invigorating, carrying with it the promise of a new day. In the heart of this quaint town, a young man named Jonathan awoke to the gentle melody of birdsong outside his window. His eyes fluttered open, adjusting to the soft light filtering through the curtains.
