A Man of the People

2016-09-30 Chinua Achebe From the renowned author of The African Trilogy, a political satire about an unnamed African country navigating a path between violence and corruption As Minister for Culture, former school teacher M. A. Nanga is a man of the people, as cynical as he is charming, and a roguish opportunist. When Odili, an idealistic young teacher, visits his former instructor at the ministry, the division between them is vast. But in the eat-and-let-eat atmosphere, Odili's idealism soon collides with his lusts—and the two men's personal and political tauntings threaten to send their country into chaos. When Odili launches a vicious campaign against his former mentor for the same seat in an election, their mutual animosity drives the country to revolution. Published, prophetically, just days before Nigeria's first attempted coup in 1966, A Man of the People is an essential part of Achebe's body of work.

Things Fall Apart

2009-06-05 Chinua Achebe THINGS FALL APART tells two overlapping, intertwining stories, both of which center around Okonkwo, a "strong man" of an Ibo village in Nigeria. The first of these stories traces Okonkwo's fall from grace with the tribal world in which he lives, and in its classical purity of line and economical beauty it provides us with a powerful fable about the immemorial conflict between the individual and society. The second story, which is as modern as the first is ancient, and which elevates the book to a tragic plane, concerns the clash of cultures and the destruction of Okonkwo's world through the arrival of aggressive, proselytizing European missionaries. These twin dramas are perfectly harmonized, and they are modulated by an awareness capable of encompassing at once the life of nature, human history, and the mysterious compulsions of the soul. THINGS FALL APART is the most illuminating and permanent monument we have to the modern African experience as seen from within.

Home and Exile

2000-07-27 Chinua Achebe Chinua Achebe is Africa's most prominent writer, the author of Things Fall Apart, the best known--and best selling--novel ever to come out of Africa. His fiction and poetry burn with a passionate commitment to political justice, bringing to life not only Africa's troubled encounters with Europe but also the dark side of contemporary African political life. Now, in Home and Exile, Achebe reveals the man behind his powerful work. Here is an extended exploration of the European impact on African culture, viewed through the most vivid experience available to the author--his own life. It is an extended snapshot of a major writer's childhood, illuminating his roots as an artist. Achebe discusses his English education and the relationship between colonial writers and the European literary tradition. He argues that if colonial writers try to imitate and, indeed, go one better than the Empire, they run the danger of undervaluing their homeland and their own people. Achebe contends that to redress the inequities of global oppression, writers must focus on where they come from, insisting that their value systems are as legitimate as any other. Stories are a real source of power in the world, he concludes, and to imitate the literature of another culture is to give that power away. Home and Exile is a moving account of an exceptional life. Achebe reveals the inner workings of the human conscience through the predicament of Africa and his own intellectual life. It is a story of the triumph of mind, told in the words of one of this century's most gifted writers.

The Impact of women oppression on the societal destruction. A case study of Chinua Achebe's "Things Fall Apart"

2018-02-14 Jean Damascene Ngendahayo Academic Paper from the year 2014 in the subject Sociology - Gender Studies, , language: English, abstract: The research's concern here is on women oppression in the Igbo society and with its impact on the societal destruction. When carrying the research, the forms of women oppression were investigated in this Achebe's Things Fall Apart whereby inequality, inheritance deprivation for female gender, women beating and other abuses against femininity were mainly based on in this research to investigate the reasons of Igbo societal destruction. Okonkwo who ruled his wives and children with a heavy hand was both a woman hater and oppressor. Hence, this behavior and belief have to be searched on for the purpose of finding out how it might lead his society to get destroyed. This research bears the following objectives: To identify the forms of oppression in Things Fall Apart, to examine in which ways the society gets destroyed due to women oppression and to emphasize what women can do so as to get equal chances to their counterparts. Referring to the objectives mentioned above, the researcher wanted to answer these questions: the first question was how has the Igbo society demonstrated the forms of women oppression in „Things Fall Apart?“ The forms of oppression were based on women beating, deprivation of inheritance for female gender and different abuse against women. The second one is, where did the society get destroyed in the Igbo society in „Things Fall Apart?“ It is identified that women role is limited to households and children bearing not in economic and political whereby the women are not able to possess anything like men. The third is how the women oppression contributed to the societal destruction? The protagonist of Things Fall Apart, Okonkwo, a woman hater and oppressor led his society to destruction whereby his son Nwoye abused by him to behave like women became one of the people who got converted into Christianity unlike traditional and other hatred and violence against the femininity contributed much to the society destruction. The findings identified that the Igbo society practiced different women oppression such as inequality, lack of inheritance for girls' children, and women beating. It was also noticed here that women were socially and economically undermined by men through their patriarchal culture and society. The violence against the femininity pushed Okonkwo to hung himself so that he could not be called a weak or woman for handing himself in white men's hands after killing the white man messenger.

Anthills of the Savannah

But in a world where each day brings a new betrayal, hope is hard to cling on to.

Things Fall Together

2021-06-15 Skylar Tibbits From the visionary founder of the Self-Assembly Lab at MIT, a manifesto for the dawning age of active materials Things in life tend to fall apart. Cars break down. Buildings fall into disrepair. Personal items deteriorate. Yet today's researchers are exploiting newly understood properties of matter to program materials that physically sense, adapt, and fall together instead of apart. These materials open new directions for industrial innovation and challenge us to rethink the way we build and collaborate with our environment. Things Fall Together is a provocative guide to this emerging, often mind-bending reality, presenting a bold vision for harnessing the intelligence embedded in the material world. Drawing on his pioneering work on self-assembly and programmable material technologies, Skylar Tibbits lays out the core, frequently counterintuitive ideas and strategies that animate this new approach to design and innovation. From furniture that builds itself to shoes printed flat that jump into shape to islands that grow themselves, he describes how matter can compute and exhibit behaviors that we typically associate with biological organisms, and challenges our fundamental assumptions about what physical materials can do and how we can interact with them. Intelligent products today often rely on electronics, batteries, and complicated mechanisms. Tibbits offers a different approach, showing how we can design simple and elegant material intelligence that may one day animate and improve itself—and along the way help us build a more sustainable future. Compelling and beautifully designed, Things Fall Together provides an insider's perspective on the materials revolution that lies ahead, revealing the spectacular possibilities for designing active materials that can self-assemble, collaborate, and one day even evolve and design on their own.

Nelson Mandela stands as one of the most esteemed leaders of the 20th century. His life journey began on July 18, 1918, in the tranquil village of Mvezo, South Africa. Born into the Thembu royal family, he was bestowed with the name Rolihlahla, meaning "troublemaker" in Xhosa. Mandelas upbringing unfolded amidst a backdrop of racial inequality, where he witnessed firsthand the unjust treatment inflicted upon the Black majority by the ruling white minority government. Driven by a deep sense of fairness, he dedicated his life to the struggle for freedom and justice, joining the African National Congress (ANC), a political organization dedicated to dismantling apartheid, the system of racial separation that plagued South Africa. Emerging as a inspiring lawyer, activist, and leader, Mandela faced numerous arrests and imprisonments for his unwavering resistance and defiance. For 27 years, he endured the harsh conditions and isolation of Robben Island, a notorious prison island, where his optimism never wavered. His unwavering commitment to justice continued to inspire and mobilize his people and the world at large. In 1990, he walked out of prison, free at last, and in 1994, he made history as South Africas first democratically elected Black president. Mandelas leadership ushered in a period of peaceful transition, transforming South Africa into a nation of equal opportunity. His global impact extended far beyond South Africas borders, as he became a beacon of human rights, recognized for his unwavering dedication to these ideals. In 1993, he was awarded the Nobel Peace Prize, alongside numerous other accolades and honors. On December 5, 2013, at the age of 95, Mandela passed away, leaving behind a legacy of courage, wisdom, and compassion. Revered as the father of the nation and one of historys greatest heroes, Mandelas legacy continues to inspire generations to come.
