The Peabody Picture Vocabulary Test 4th Edition (PPVT-4) is a well-respected vocabulary assessment that has been in practice for almost 50 years. Created by Lloyd M. Dunn and Douglas M. Dunn, the assessment is designed to measure vocabulary comprehension for American English. It is quick and effortless to conduct, preserving important time so that focus can be placed on implementing intelligent approaches.

The PPVT-4 evaluation content covers a extensive array of vocabulary comprehension ranks, spanning from pre-kindergarten through adulthood. The assessment items extensively sample words that portray 20 subject fields (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and school vocabulary.

The test provides two equivalent versions which hold different vocabulary items, ensuring that the individual has not “memorized” the test. One edition can be used ahead of intervention to measure test-takers’ vocabulary knowledge and the other edition can be used for re-assessment to measure and document progress. The PPVT-4 also includes a special Growth Scale Value (GSV) which is sensitive to slight changes in time.
