The work "Analyzing Casual Conversation" by Suzanne Eggins and Diana Slade, originally published in 1997, establishes a systematic model for the analysis and depiction of casual conversation in English. The authors assert that despite its occasionally aimless appearance and seemingly unstructured content, casual conversation is an extremely structured activity and plays a critical part in the social formation of reality. The work goes through real samples of casual conversations involving participants diverging in age, gender, ethnicity, and socio-economic class¹². Pulling on perspectives from sociology, linguistics, and critical semiotics, the book provides readers with the analytical skills to depict the layers of structure and critical interpretive structures to elucidate the 'social work' that goes on through chat.
