## **The Wheel**

A Treatise On Carriages Pdf upload Suny t Robertson

2016-01-19 Richard W. Bulliet In this book, Richard W. Bulliet focuses on three major phases in the evolution of the wheel and their relationship to the needs and ambitions of human society. He begins in 4000 B.C.E. with the first wheels affixed to axles. He then follows with the innovation of wheels turning independently on their axles and concludes five thousand years later with the caster, a single rotating and pivoting wheel. Bulliet's most interesting finding is that a simple desire to move things from place to place did not drive the wheel's development. If that were the case, the wheel could have been invented at any time almost anywhere in the world. By dividing the history of this technology into three conceptual phases and focusing on the specific men, women, and societies that brought it about, Bulliet expands the social, economic, and political significance of a tool we only partially understand. He underscores the role of gender, combat, and competition in the design and manufacture of wheels, adding vivid imagery to illustrate each stage of their development.

## **The IMLI Treatise On Global Ocean Governance**

2018-07-12 Malgosia Fitzmaurice The 1982 United Nations Convention on the Law of the Sea (UNCLOS) remains the cornerstone of global ocean governance. However, it lacks effective provisions or mechanisms to ensure that all ocean space and related problems are dealt with holistically. With seemingly no opportunity for revision due to the Conventions burdensome amendment provisions, complementary mechanisms dealing with such aspects of global ocean governance including maritime transport, fisheries, and marine environmental sustainability, have been developed under the aegis of the United Nations and other relevant international organizations. This approach is inherently fragmented and unable to achieve sustainable global ocean governance. In light of the Sustainable Development Goals (SDGs), particularly Goal 14, the IMLI Treatise proposes a new paradigm on the basis of integrated and cross-sectoral approach in order to realise a more effective and sustainable governance regime for the oceans. This volume focuses on the role of the UN Specialized Agencies towards the development of effective and sustainable ocean governance by looking at the more elaborate mechanisms they developed in order to achieve the desired objectives laid down in UNCLOS. From FAO to UNODC, the volume examines how they ensure sustainable development and how

much coordination exists among them.

First Love that Never Fades

Anna could never erase from memory her first love, Leo. Their paths had crossed when they were both 16, at a idyllic summer camp. They were utterly smitten, spending every day laughing, engaging in deep conversations, and experiencing the thrill of first love. Their bond was solid, and they vowed to stay connected, to wait for each other, and to never let their love fade. But life, as it often does, had a different path in store for them. They lost contact, they moved on with their lives, and they eventually married other people. Years passed, and the whirlwind of life took them in different directions. But fate, it seems, had not forgotten their undeniable connection. At a chance encounter, at a sentimental reunion, their paths crossed once again. The moment they laid eyes on each other, the embers of their affection rekindled. The same electric spark that had drawn them together years ago was still unmistakable. They felt the same joy that had fueled their teenage romance, but they also felt the burden of their past. Their souls ached for the unconditional love they had shared, but their minds grappled with the tangled web of their current lives. They were caught in a conflict of the heart, torn between the passion of their past and the comfort and familiarity of their present. They stood at a critical juncture, forced to make a heartbreaking choice. Would they choose the all-consuming passion of their first love, risking the uncertainty that lay ahead, or would they hold onto the predictability of their current lives, forever wondering what could have been? Only time would tell if their unwavering connection would overcome the challenges.
