The Peabody Picture Vocabulary Test Fourth Edition (PPVT-4) is a well-respected vocabulary evaluation that has been in operation for close to half a century. Formulated by Lloyd M. Dunn and Douglas M. Dunn, the evaluation is made to evaluate receptive vocabulary for Standard American English. It is quick and easy to administer, conserving valuable time so that focus can be put on applying successful approaches.

The PPVT-4 assessment material covers a wide array of receptive vocabulary levels, extending from preschool through adult age. The evaluation questions extensively feature words that depict 20 content domains (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and school vocabulary.

The evaluation gives two equivalent editions which contain different vocabulary items, making sure that the person has not “mastered” the evaluation. One version can be utilized prior to intervention implementation to evaluate people’s vocabulary comprehension and the other form can be utilized for re-evaluation to assess and document advancement. The PPVT-4 also contains a unique Growth Scale Value (GSV) which is reactive to slight changes over time.
