Modernizing IBM i Applications from the Database up to the User Interface and Everything in Between 2015-12-07 Nadir K. Amra This IBM® Redbooks® publication is focused on melding industry preferred practices with the unique needs of the IBM i community and providing a holistic view of modernization. This book covers key trends for application structure, user interface, data access, and the database. Modernization is a broad term when applied to applications. It is more than a single event. It is a sequence of actions. But even more, it is a process of rethinking how to approach the creation and maintenance of applications. There are tangible deliveries when it comes to modernization, the most notable being a modern user interface (UI), such as a web browser or being able to access applications from a mobile device. The UI, however, is only the beginning. There are many more aspects to modernization. Using modern tools and methodologies can significantly improve productivity and reduce long-term cost while positioning applications for the next decade. It is time to put the past away. Tools and methodologies have undergone significant transformation, improving functionality, usability, and productivity. This is true of the plethora of IBM tools and the wealth of tools available from many Independent Solution Providers (ISVs). This publication is the result of work that was done by IBM, industry experts, and by representatives from many of the ISV Tool Providers. Some of their tools are referenced in the book. In addition to reviewing technologies based on context, there is an explanation of why modernization is important and a description of the business benefits of investing in modernization. This critical information is key for line-of-business executives who want to understand the benefits of a modernization project. This book is appropriate for CIOs, architects, developers, and business leaders. Related information Making the Case for Modernization, IBM Systems Magazine

Managing Knowledge 1996-10-03 Georg von Krogh Using both established as well as more recent modes of inquiry, this book sheds new light on an increasingly important dimension of organizational cooperation and competition - that of knowledge and knowledge transfer. Based on research and practice, the book addresses a wide range of issues concerning the management of knowledge, from knowledge transfer between organizations to knowledge management within organizations. Divided into two parts, Managing Knowledge reflects a fundamental conceptual distinction between two world-views. The first part is characterized by representationism, or traditional approaches to viewing knowledge, knowledge transfer and cooperative strategies. The contributors provide a clear overview of the current research on knowledge management, and bring together studies on the sociology of knowledge, strategic management and learning theory. The second part focuses on anti-representationism, or new perspectives on knowledge and knowledge transfer in organizational cooperation. These perspectives, based on autopoiesis theory, go far beyond conventional ways of perceiving and managing knowledge and their implications for management theory and practice are fully examined.

Co-verification of Hardware and Software for ARM SoC Design 2004-09-04 Jason Andrews Hardware/software co-verification is how to make sure that embedded system software works correctly with the hardware, and that the hardware has been properly designed to run the software successfully -before large sums are spent on prototypes or manufacturing. This is the first book to apply this verification technique to the rapidly growing field of embedded systems-on-a-chip(SoC). As traditional embedded system design evolves into single-chip design, embedded engineers must be armed with the necessary information to make educated decisions about which tools and methodology to deploy. SoC verification requires a mix of expertise from the disciplines of microprocessor and computer architecture, logic design and simulation, and C and Assembly language embedded software. Until now, the relevant information on how it all fits together has not been available. Andrews, a recognized expert, provides in-depth information about how co-verification really works, how to be successful using it, and pitfalls to avoid. He illustrates these concepts using concrete examples with the ARM core - a technology that has the dominant market share in embedded system product design. The companion CD-ROM contains all source code used in the design examples, a searchable e-book version, and useful design tools. * The only book on verification for systems-on-a-chip (SoC) on the market * Will save engineers and their companies time and money by showing them how to speed up the testing process, while still avoiding costly mistakes * Design examples use the ARM core, the dominant technology in SoC, and all the source code is included on the accompanying CD-Rom, so engineers can easily use it in their own designs

For Kicks 1988-09-19 Dick Francis A classic mystery from Dick Francis, the champion of English storytellers. Daniel Roke owns a stud farm in Australia. He's young, smart, hard-working and desperate for some excitement - all of which makes him the ideal candidate for the Earl of October, who has come visiting. The Earl is concerned about a horse-doping scandal that is destroying English racing. He wants to pay Daniel to come back with him, pose as a highly corruptible stable lad and discover who is behind it. Unfortunately, when Daniel agrees he doesn't realise how close he'll have to get to find the truth. Nor how determined the criminals will be to prevent him living long enough to tell anyone... Praise for Dick Francis: 'As a jockey, Dick Francis was unbeatable when he got into his stride. The same is true of his crime writing' Daily Mirror 'Dick Francis's fiction has a secret ingredient - his inimitable knack of grabbing the reader's attention on page one and holding it tight until the very end' Sunday Telegraph 'The narrative is brisk and gripping and the background researched with care . . . the entire story is a pleasure to relish' Scotsman 'Francis writing at his best' Evening Standard 'A regular winner . . . as smooth, swift and lean as ever' Sunday Express 'A super chiller and killer' New York Times Book Review Dick Francis was one of the most successful post-war National Hunt jockeys. The winner of over 350 races, he was champion jockey in 1953/1954 and rode for HM Queen Elizabeth, the Queen Mother, most famously on Devon Loch in the 1956 Grand National. On his retirement from the saddle, he published his autobiography, The Sport of Queens, before going on to write forty-three bestselling novels, a volume of short stories (Field of 13), and the biography of Lester Piggott. During his lifetime Dick Francis received many awards, amongst them the prestigious Crime Writers' Association's Cartier Diamond Dagger for his outstanding contribution to the genre, and three 'best novel' Edgar Allan Poe awards from The Mystery Writers of America. In 1996 he was named by them as Grand Master for a lifetime's achievement. In 1998 he was elected a fellow of the Royal Society of Literature, and was awarded a CBE in the Queen's Birthday Honours List of 2000. Dick Francis died in February 2010, at the age of eighty-nine, but he remains one of the greatest thriller writers of all time.

Snookered 2014-12-30 Ishy Din Snookered probes into the lives of young Muslim men and their fragile masculinity, burdened by cultural expectations yet charged with personal dreams. In a volatile political climate, Ishy Din opens a timely window into a strand of British Muslim life that often remains unseen. The plot follows four friends who, every year, meet on the anniversary of their mate's death for a game of pool and a few drinks. As they excavate the past and measure their own lives, secrets are revealed and allegiances shift as quickly as the drinks are downed. Can they put to rest their guilt over the untimely death of their friend? And will their friendship survive the final betrayal? One of the very few plays written both by and about British Muslims, Snookered explores their camaraderie, life decisions, and their self identity within their close-knit Muslim community of extended families and network of friends. The sharp, pace-filled dialogue captures the Punjabi-English urban patois that is currently developing in northern towns but is rarely seen onstage. The result is that the characters are both alive and relevant, and moments of sharp wit collide with emotionally searing exchanges. Developed by the theatre company Tamasha, whose manifesto is to explore British Asian perspectives and identities, Snookered is unafraid to feature difficult and significant themes such as religion, drug addiction, misogyny, poverty and racism. Against this backdrop, Snookered is first and foremost a psychologically detailed but razor-sharp depiction of young men finding their paths in life, whilst navigating what it means to be young, British and Muslim.

The English Teacher's Companion 2008 Jim Burke Teachers and teacher educators asked for: the latest research on literacy more information about national standards ways to consider gender in instruction advice for teaching Advanced Placement classes ideas for teaching media literacy and incorporating technology effectively into instruction even more resources for mentoring new teachers analysis of how trends in society, culture, and politics impact teachers and their classrooms. And Jim delivers. He has revamped his introductory chapters on literacy learning to include up-to-the-minute thinking from the field, and he has incorporated lists of key standards and helpful suggestions for reaching them. His practical strategies turn recent findings on literacy and gender into well-designed, research-based instruction, and his ideas help you meet the very different needs of AP students by understanding their goals and providing them with appropriate challenges.

Across the River 2021-08-10 Kent Babb On the west bank of the Mississippi lies the New Orleans neighborhood of Algiers. Short on hope but big on dreams, its mostly poor and marginalized residents find joy on Friday nights when the Cougars of Edna Karr High School take the field. For years, this football program has brought glory to Algiers, winning three consecutive state championships and sending dozens of young men to college on football scholarships. Although he is preparing for a fourth title, head coach Brice Brown is focused on something else: keeping his players alive. An epidemic of gun violence plagues New Orleans and its surrounding communities and has claimed many innocent lives, including Brown's former star quarterback, Tollette "Tonka" George, shot near a local gas station. In Across the River, award-winning sports journalist Kent Babb follows the Karr football team through its 2019 season as Brown and his team—perhaps the scrappiest and most rebellious group in the program's history—vie to again succeed on and off the field. What is sure to be a classic work of sports journalism, Across the River is a necessary investigation into the serious realities of young athletes in struggling neighborhoods: gentrification, eviction, mental health issues, the drug trade, and gun violence. It offers a rich and unflinching portrait of a coach, his players, and the West Bank, a community where it's difficult—but not impossible—to rise above the chaos, discover purpose, and find a way out.

Lecture Notes on Bucket Algorithms 1986 DEVROYE Hashing algorithms scramble data and create pseudo-uniform data distributions. Bucket algorithms operate on raw untransformed data which are partitioned into groups according to membership in equal-sized d-dimensional hyperrectangles, called cells or buckets. The bucket data structure is rather sensitive to the distribution of the data. In these lecture notes, we attempt to explain the connection between the expected time of various bucket algorithms and the distribution of the data. The results are illustrated on standard searching, sorting and selection problems, as well as on a variety of problems in computational geometry and operations research. The notes grew partially from a graduate course on probability theory in computer science. I wish to thank Elizabeth Van Gulick for her help with the manuscript, and David Avis, Hanna A Yukawa, Vasek Chvatal, Beatrice Devroye, Hossam El Gindy, Duncan McCallum, Magda McCallum, Godfried Toussaint and Sue Whitesides for making the School of Computer Science at McGill University such an enjoyable place. The work was supported by NSERC Grant A3456 and by FCAC Grant EQ-1679. INTRODUCTION 1 INTRODUCTION It is not a secret that methods based upon the truncation of data have good expected time performance. For example, for nice distributions of the data, searching is often better done via a hashing data structure instead of via a search tree. The speed one observes in practice is due to the fact that the truncation operation is a constant time operation.

Soul Love Connections 2001-11 Sandra Jane Edward R. Barstone - Through a friend following her psychic guidance I am introduced to another psychic; a potential boyfriend. A dating situation and ensuing love develops. I feel finally I have found a soulmate who is an equal partner that can relate on the multi-levels of awareness a psychic functions on. As the story plays out I once again am faced with a character type who is like my mother. I use my psychic abilities to sort through deception that is invisible to the naked eye. Edward is faced with two very different probable futures based on his choice of woman. Bo - I receive a phone call letting me know a former boyfriend has recently died. The reader is taken through my experience of reconnecting with Bo's family and spirit. After experiencing soul love as intensely as I have ever felt I build a channel, ask for his guides to come through and send Bo's spirit into the light...he awaits for me at heaven's door where I told him he could be my king once more. Shadow - After being misdiagnosed and given a drug that was toxic to her my cat Shadow nearly dies. My psychic channel is clear with guidance coming through in various forms and I begin to take note of "coincidences", dreams, chance meetings and strong psychic guidance. I change treatment approach. All local traditional vets feel I am killing my cat by choosing the treatment plan that goes against "orthodox procedure" in treating hyperthyroidism. The drug Shadow is put on creates a strain on her heart at the same time the hyperthyroidism is still at a deadly (9.1) level. I show the reader through the use of God source energy and an energy of love how I work with the cat as energy and lead her through the medication stabilization time. She adjusts to the high dosage of the very

potent drug prednisone. The "key" that God sent me proves to be the right one and Shadow defies veterinary science. I am a psychic and teacher of psychic ability development. It is my belief that every individual having a desire to develop psychic abilities has the potential to do so. Almost everyone at some time in their life has reached out to something beyond themselves and asked for assistance. Higher guidance comes through to people by change in thought perspective, new ideas, symbols that appear in the mind's eye, strong feeling impressions or even repeating song phrases within the mind. "Coincidences" that happen in life after requests for guidance are made are often not consciously recognized as answers to requested guidance. Through my writing and life experience I hope to make people more aware of the subtleties of what is going on around them. Everyone has the potential to quiet their minds, set a quiet meditative space and receive feedback after requesting assistance from whatever higher source they believe is available. Soul Love Connections illustrates practical examples of guided imagery, visualization, and demonstrates the use of love as energy to create a healing channel. It is my sincere hope my readers will integrate some of these techniques into their own lives. If broken down into step-by-step examples EVERY person can receive and interpret psychic guidance, empower themselves and enrich their lives. I believe we have great ability to influence outcome and create harmony, healing and balance in our lives through the use of "God source" energy, angels, guides, etc. This, of course needs to be combined with the understanding of how our thoughts, feelings and beliefs are manifesting our current life experience. In this book you will be taken on three journeys of love, exploration and growth. I share these experiences to demonstrate the multi-levels of depth there is to the energy of love... NACADA Academic Advising Core Competencies Guide 2022-08 Barbara Smith At the request of the association's leadership, the NACADA Academic Advising Core Competencies Model (2017) was developed by NACADA's Professional Development Committee. The purpose of the model is to identify the broad range of understanding, knowledge, and skills that support academic advising, to guide professional development, and to promote the contributions of advising to student development, progress, and success. The language of the model is broadly designed to be applicable to all academic advising personnel in any of the myriad advising situations found throughout the Global Advising Community. To achieve excellence in their work, regardless of the specifics of their individual campus' advising mission, all academic advisors must understand the model's three components-conceptual, informational, and relational- and be able to synthesize and apply them as needed in academic advising interactions. The 2nd edition of this publication provides updates and expansions to explanations of the 20 core competencies in the three component areas to guide advising personnel on their professional development journey.

The Rise and Fall of a Pop Star
She had a goal. She wished to be a performer. She wished to sing, to groove, to entertain, to amuse. She wished to be famous, to be cherished, to be worshipped. She desired to have it all, recognition, wealth, glory. She labored tirelessly, she trained, she auditioned, she astonished. She got a deal, a music contract, an agent, a creator. She made a record, a hit, a sensation. She became an icon, a famous person, a marvel. She had it all, followers, fortune, awards. She was on seventh heaven, she was realizing her vision. But she also had a dark side. She had a secret, a dilemma, an addiction. She started to fall apart, to blunder, to cause scandals. She faced condemnation, fallout, lawsuits. She forfeited her fans, her wealth, her accolades. She tumbled down, she became a joke, a catastrophe. She gave up it all, her recognition, her riches, her glory. She was the rise and downfall of a pop star.

Nightmare that Never Ends

Sam awoke with a jump, his body drenched in sweat. The same terrifying nightmare had once again tormented his sleep, the one where he was pursued by a ominous figure wielding a blade. He glanced at the clock; it was 3:15 am. He tried to soothe his thundering heart, attempting to convince himself that it was merely a dream. Yet, deep down, he knew it was far more than that. He knew the elusive figure was real, and it was approaching towards him. He had seen it before, in the horrific news reports, in the precise police sketches, in the despairing faces of the victims. It was the notorious serial killer that had been plaguing the city for what seemed like an eternity. And Sam was the killers next victim.
