Return of the Junta 2023-01-26 Oliver Slow On
the first day of February 2021, Myanmar's military
grabbed power in a coup d'etat, ending a decade
of reforms that were supposed to break the

shackles of military rule in Myanmar. Protests
across the country were met with a brutal
crackdown that shocked the world but were a
familiar response from an institution that has ruled
the country with violence and terror for decades.
Return of the Junta is a detailed account of the
ways that Myanmar's military – the Tamatdaw -
has maintained control over its people despite a
decade of supposed reform. In this detailed
account, drawing on first-hand accounts from

activists, journalists and politicians, Oliver Slow explores the measures the military has used to keep hold of power and the motivations of those now rising up against its rule. The book asks the question: what needs to be done to remove the military from power in Myanmar once and for all?

Myanmar (Burma) since the 1988 Uprising
2022-01-24 Andrew Selth Updated by popular demand, this is the fourth edition of this important bibliography. It lists a wide selection of works on or about Myanmar published in English and in hard copy since the 1988 pro-democracy uprising,

which marked the beginning of a new era in Myanmar's modern history. There are now 2,727 titles listed. They have been written, edited, translated or compiled by over 2,000 people, from many different backgrounds. These works have been organized into thirty-five subject chapters containing ninety-five discrete sections. There are also four appendices, including a comprehensive reading guide for those unfamiliar with Myanmar or who may be seeking guidance on particular topics. This book is an invaluable aid to officials, scholars, journalists, armchair travellers and others with an interest in this fascinating but

deeply troubled country.

The Moral Democracy 2019-03-12 Michał Lubina
Aung San Suu Kyi spoke passionately about non-violence, she wrote involved articles about compatibility of democracy with Buddhism and she won the hearts and minds of so many with her call for the freedom from fear (...) It seemed – for more than two decades – that Suu Kyi was a perfect, non-Western propagator of democracy, human rights, rule of law (...) Yet a deeper analysis reveals that Suu Kyi intellectually, indeed, has been a democrat all along, but a

Burmese democrat (...) Suu Kyi understands democracy in a Buddhist way and she reasons about politics using Buddhist ideas, idioms and concepts (...) This Buddhist dominance of her political thought had several consequences, the most important one being that her approach to politics has first and foremost been a moral one (...) her vision of democracy (and of politics in general) is a moral vision. It is something I propose to call “the moral democracy.” The same reason that made her famous and admired worldwide, now contributed to her fall from grace. For too many outside Burma/Myanmar it is

impossible to understand how Suu Kyi – yesterday’s global personification of good and morality – can now silently endorse crimes against humanity conducted in her country and accept forced relocation of 700 thousand people. A cynic would quote Bertrand Russell’s words (“we have two kinds of morality side by side: one which we preach but do not practice and another which we practice but seldom preach”) and add a commentary that it applies especially to politicians. One, however, may offer a more favourable explanation: that Suu Kyi represents a tragic clash of ideas, including moral ideas, with

political reality. Whatever the case, it was morality that made her famous, it was the same moralistic attitude that contributed to her removal from international Olympus and it is this moral understanding of politics that is the hallmark of her political thought, which is here to stay for longer, as political ideas last longer than changing political circumstances and fashions. From the Preface The dramatic fall from grace of Burma's human rights icon Aung San Suu Kyi shocked the world. Michael Lubina's magisterial account of Aung San Suu Kyi's political education demystifies the behavior in power of this

otherwise enigmatic leader. This is the indispensable book for anyone who wants to understand the mind of one of the world's most controversial women. Prof. Salvatore Babones, University of Sydney Dr. Michał Lubina, known in Poland for portraying Aung San Suu Kyi not as a human rights activist, but as a realist politician in the very footsteps of her father, now comes out with his research to the international audience. Following the example of Mahbubani's *Can Asian Think?* Lubina shows the intellectual and philosophical tradition of Myanmar through the case study of Suu Kyi's political thought. It's a

unique undertaking that presents Suu Kyi from an unexpected angle: as a theoretician and political thinker or sage. Both the scope of research done and the material presented are very impressive and rather unique, even on international scene. Prof. Bogdan Góralczyk, University of Warsaw, Former Ambassador to Myanmar This book is a well-documented and well-constructed, multilayered, complex, analytical work based on very rich research, interviews with Suu Kyi and personal observations of the Author, who displays unquestioned analytical skills. As such the book represents a pioneer work in Burmese studies.

Prof. Agnieszka Kuszewska, Jagiellonian University in Cracow None of the numerous books and articles that I have read about Daw Aung San Suu Kyi dissects her political thoughts and background as thoroughly as the book written by Dr. Michał Lubina. He shows the political construction of her character, her struggle, her idealism, her sources of inspiration and her weaknesses. It is a necessary publication to read in order to understand historical and contemporary policymaking in today's Burma. Dr. Marion Sabrié, University of Rouen Normandy

OECD Development Pathways Multi-dimensional Review of Myanmar Volume 1. Initial Assessment 2013-07-18 OECD This assessment shows that Myanmar's success in achieving growth will depend on developing the institutional/social capital necessary for economic/financial stability, to ensure the rule of law, to achieve environmentally sustainable development, and creating an enabling private sector environment.

Myanmar's Changing Political Landscape 2023-04-05 Makiko Takeda Myanmar has faced numerous divisions that hinder its democratization

and peacebuilding processes since emerging out of decades of military dictatorship. The coup d'état in 2021 terminated Myanmar's limited and nascent democratization under the civilian leadership of the National League for Democracy (NLD); not only did the coup regime resurface old struggles, but also created new ones. Against the backdrop of Myanmar's changing political landscapes from military to quasi-civilian to civilian rule in 2016, and back to military rule in 2021, the book discusses the various forms of interconnected struggles, both old and new. In this process, the contributed chapters come

together to highlight the changing dynamics of stakeholders, relations between agents and beneficiaries, and the generated evolutionary processes in Myanmar's democratization and its reversal. This book brings an even mix of researchers both within and outside of Myanmar to critically discuss how different agents and their interactions, in the form of center-periphery as well as state-non-state relations, continuously shape today's political landscape. Its interdisciplinary composition also invites readers from various backgrounds to grasp with engaged research that identifies the various challenges

and addresses ways in which to facilitate change from local and international perspectives.

Serving Library Users from Asia 2019-06-12 John Hickok Asian populations are among some of the fastest growing cultural groups in the US. This book is a comprehensive guide to serving library users from 24 specific Asian countries. It begins with a broad overview of how libraries can better serve Asian communities and then devotes a chapter to each country, providing wealth of valuable resources.

International Pressures, Strategic Preference, and Myanmar's China Policy since 1988 2020-09-08 Nian Peng This book mainly explored the driving forces and evolvement of Myanmar's China policy since 1988 by adopting a neo-classical realist approach, an emerging theoretical paradigm aiming at analyzing state's foreign behaviour by connecting systemic and unit variables which refers to external environments and domestic restraints respectively. It is the first book that seeks to give a theoretical explanation of Myanmar's diplomacy, thereby bridging the gap from basic research to the deep one with

theories. It also introduced the concept of strategic preference and argued that the competing strategic preference that the Burmese leaders have, namely “integration” and “isolation”, determines Myanmar’s responses to China in the Post-Cold War era, which not only demonstrates the neo-classical realism as an useful instrument of looking into state’s foreign policy and deepens the understanding on Myanmar-China relations. The main content of this book is divided into seven parts, in which the first chapter introduces the background, the present study on Myanmar’s China policy and China’s

Myanmar policy, the analytical framework, and the arrangement of the content. Chapter 2 focuses on the roots and changes of Myanmar’s competing strategic preference as well as its influences on Myanmar’s foreign policy. The following four chapters examine the international pressures and benefits imposed by systemic imperatives, and Burmese leaders’ specific strategic preference since 1988, and investigate Myanmar’s policy towards China in different periods. Finally, it provides a comprehensive conclusion that outlines and reviews the origins and evolution of Myanmar’s China policy, and

predicts its future directions. This book is suitable for the graduates and experts who are interested in international relations, the Asian studies and neo-classical realism in particular, and Myanmar politics and foreign relations, as well as China's relation with neighboring countries.

Debating Democratization in Myanmar

2014-04-14 Nick Cheesman Is Myanmar (Burma) democratizing, or is it moving towards a new form of authoritarianism, perhaps one more consonant with other contemporary authoritarian regimes in Asia? Coming at a critical time, and one of

growing interest in this Southeast Asian country among researchers and policy-makers, *Debating Democratization in Myanmar* addresses this complex question from a range of disciplinary and professional perspectives. Chapters by leading international scholars and practitioners, activists and politicians from Myanmar and around the world cover political and economic updates, as well as the problems of democratization; the re-engagement of democratic activists and exiles in domestic affairs; the new parliament, the electoral system, and everyday politics; prospects for the economy; ethnic cooperation, contestation and

conflict; the role of the army and police forces; and conditions for women. Together they constitute an empirically deep and analytically rich source of readable and relevant material for anyone keen to obtain a greater understanding of what is happening in Myanmar today, and why.

Social Transformations in India, Myanmar, and Thailand: Volume I 2021-01-02 Chosein Yamahata “This book focuses on the different challenges and opportunities for social transformation in India, Myanmar and Thailand, by centering communities and individuals as the

main drivers of change. In doing so, it includes discussions on a wide array of issues including women’s empowerment and political participation, ethno-religious tensions, plurilingualism, education reform, community-based healthcare, climate change, disaster management, ecological systems, and vulnerability reduction. Two core foundations are introduced for ensuring broader transformations. The first is the academic diplomacy project – a framework for an engaged academic enquiry focusing on causative, curative, transformative, and promotive factors. The second is a community driven collective struggle

that serves as a grassroots possibility to facilitate positive social transformation by using locally available resources and enabling the participation of the resident population. As a whole, the book conveys the importance of a diversification of engagement at the grassroots level to strengthen the capacity of individuals as decisive stakeholders, where the process of social transformation makes communities more interconnected, interdependent, multicultural and vital in building an inclusive society.”

Buddhism and Comparative Constitutional Law

2022-12 Tom Ginsburg Filling a gap in the fields of comparative law, religious studies, and political science, this is the first comprehensive account of Buddhism's complex entanglement with constitutional law, written by experts from across Asia and beyond.

RohingyasInsecurity and Citizenship in Myanmar

2016-01-21 Trevor Gibson The Rohingyas, a Muslim minority group living in the Rakhine State in western Myanmar (Burma) have been denied citizenship, which has made them insecure in their homelands. Many have fled persecution and

limitations on basic rights, their plight being highlighted in international media. This book presents new information about the nexus between citizenship and insecurity, and concludes that full citizenship would accord with the UN and other international conventions. Granting of citizenship rights as prescribed by the 2008 Union of Myanmar Constitution is seen as essential to the alleviation of insecurity and suffering of the Rohingyas. As elsewhere, the benefits of citizenship come the obligations to abide by the law of the land. This book is therefore a contribution to Myanmar's modernization program

of integrating all of its peoples.

Adapting International Criminal Justice in Southeast Asia 2020-05-14 Emma Palmer How is international criminal law adapted across time and space? Which actors are involved and how do those actors seek to prosecute atrocity crimes? States in Southeast Asia exhibit a range of adapted approaches toward prosecuting international crimes. By examining engagement with international criminal justice especially in Cambodia, the Philippines, Indonesia, and Myanmar, this book offers a fresh and

comprehensive approach to the study of international criminal law in the region. It nuances categories of the 'global' and 'local' and demonstrates how norms can be adapted in multiple spatial and temporal directions beyond the International Criminal Court. It proposes a shift in the focus of those interested in international criminal justice toward recognising the opportunities and expertise presented by existing adaptive responses to international crimes. This book will appeal to scholars, practitioners and advocates interested in international criminal law, international relations,

transitional justice, civil society, and law in Southeast Asia.

Universities and Conflict 2017-11-08 Juliet

Millican This book uses a series of case studies to examine the roles played by universities during situations of conflict, peacebuilding and resistance. While a body of work dealing with the role of education in conflict does exist, this is almost entirely concerned with compulsory education and schooling. This book, in contrast, highlights and promotes the importance of higher education, and universities in particular, to

situations of conflict, peacebuilding and resistance. Using case studies from Europe, Africa, Asia and the Middle East, this volume considers institutional responses, academic responses and student responses, illustrating these in chapters written by those who have had direct experience of these issues. Looking at a university's tripartite functions (of research, teaching and service) in relation to the different phases or stages of conflict (pre conflict, violence, post conflict and peacebuilding), it draws together some of the key contributions a university might make to situations of instability, resistance and

recovery. The book is organised in five sections that deal with conceptual issues, institutional responses, academic-led or discipline-specific responses, teaching or curriculum-led responses and student involvement. Aimed at those working in universities or concerned with conflict recovery and peacebuilding it highlights ways in which universities can be a valuable, if currently neglected, resource. This book will be of much interest to students of peace studies, conflict resolution, education studies and IR in general.

India and Myanmar Borderlands 2019-11-11 Pahi

Saikia This book explores the India–Myanmar relationship in terms of ethnicity, security and connectivity. With the process of democratic transition in Myanmar since 2011 and the ongoing Rohingya crisis, issues related to cross-border insurgency are one of the most important factors that determine bilateral ties between the two neighboring countries. The volume discusses a diverse range of themes – historical dimensions of cooperation; contested territories, resistance and violence in India–Myanmar borderlands; ethnic linkages; political economy of India–Myanmar cooperation; and Act East Policy

– to examine the prospects and challenges of the strategic partnership between India and Myanmar, and analyzes further possibilities to move forward. The chapters further look at cross-border informal commercial exchanges, public health, population movements, and problems of connectivity and infrastructure projects. Comprehensive, topical and with its rich empirical data, the volume will be useful to scholars and researchers of political studies, international relations, security studies, foreign policy, contemporary history, and South Asian studies as well as government bodies and think tanks.

Futures of International Criminal Justice
2021-12-22 Emma Palmer This collection identifies and discusses problems and opportunities for the theory and practice of international criminal justice. The International Criminal Court and project of prosecuting international atrocity crimes have faced multiple challenges and critiques. In recent times, these have included changes in technology, the conduct of armed conflict, the environment, and geopolitics. The mostly emerging contributors to this collection draw on diverse socio-legal research frameworks to discuss proposals for the

futures of international criminal justice. These include addressing accountability gaps and under-examined or emerging areas of criminality at, but also beyond, the International Criminal Court, especially related to technology and the environment. The book discusses the tensions between universalism and localisation, as well as the regionalisation of international criminal justice and how these approaches might adapt to dynamic organisational, political and social structures, at the ICC and beyond. The book will be of interest to students, researchers and academics. It will also be a useful resource for

civil society representatives including justice advocates, diplomats and other government officials and policy-makers.

Myanmar's Rohingya Genocide 2021-01-28

Ronan Lee The genocide in Myanmar has drawn global attention as Nobel Peace Prize laureate Aung San Suu Kyi appears to be presiding over human rights violations, forced migrations and extra-judicial killings on an enormous scale. This unique study draws on thousands of hours of interviews and testimony from the Rohingya themselves to assess and outline the full scale of

the disaster. Casting new light on Rohingya identity, history and culture, this will be an essential contribution to the study of the Rohingya people and to the study of the early stages of genocide. This book adds convincingly to the body of evidence that the government of Myanmar has enabled a genocide in Rakhine State and the surrounding areas.

Asia on the Move 2015-11-24 Mely Caballero-

Anthony Globalization has led to a surge in crossborder migration, and the population of international migrants in East Asia has more than

doubled over the past two decades. Today, governments in the region are grappling with these expanding and increasingly complex flows of people as well as the human security challenges that they bring, but as a result, they too often overlook the potential opportunities that accompany skillfully managed migration. In this volume, experts from "sending" and "receiving" countries in Asia outline current trends in China, Japan, Korea, and Southeast Asia; analyze existing government efforts to manage migration; and explore the unique role that nongovernmental organizations can play in helping to protect

migrants and to harness migration to the benefit of the region.

Myanmar's Enemy Within 2017-08-15 Francis Wade For decades Myanmar has been portrayed as a case of good citizen versus bad regime – men in jackboots maintaining a suffocating rule over a majority Buddhist population beholden to the ideals of non-violence and tolerance. But in recent years this narrative has been upended. In June 2012, violence between Buddhists and Muslims erupted in western Myanmar, pointing to a growing divide between religious communities

that before had received little attention from the outside world. Attacks on Muslims soon spread across the country, leaving hundreds dead, entire neighbourhoods turned to rubble, and tens of thousands of Muslims confined to internment camps. This violence, breaking out amid the passage to democracy, was spurred on by monks, pro-democracy activists and even politicians. In this gripping and deeply reported account, Francis Wade explores how the manipulation of identities by an anxious ruling elite has laid the foundations for mass violence, and how, in Myanmar's case, some of the most

respected and articulate voices for democracy have turned on the Muslim population at a time when the majority of citizens are beginning to experience freedoms unseen for half a century.

Routledge Handbook of Asian Parliaments
2023-03-24 Po Jen Yap This handbook showcases the rich varieties of legislatures that exist in Asia and explains how political power is constituted in 17 jurisdictions in East, Southeast and South Asia. Legislatures in Asia come in all stripes. Liberal democracies co-exist cheek by jowl with autocracies; semi-democratic and

competitive authoritarian systems abound. While all legislatures exist to make law and confer legitimacy on the political leadership, how representative they are of the people they govern differs dramatically across the continent, such that it is impossible to identify a common Asian prototype. Divided into thematic and country-by-country sections, this handbook is a one-stop reference that surveys the range of political systems operating in Asia. Each jurisdiction chapter examines the structure and composition of its legislature, the powers of the legislature, the legislative process, thereby providing a clear

picture of how each legislature operates both in theory and in practice. The book also thematically analyses the following political systems operating in Asia: communist regimes, liberal democracies, dominant party democracies, turbulent democracies, presidential democracies, military regimes and protean authoritarian rule. This handbook is a vital and comprehensive resource for scholars of constitutional law and politics in Asia.

Myanmar's Education Reforms 2020-11-02 Marie Lall This book reviews the state of education in

Myanmar over the past decade and a half as the country is undergoing profound albeit incomplete transformation. Set within the context of Myanmar's peace process and the wider reforms since 2012, Marie Lall's analysis of education policy and practice serves as a case study on how the reform programme has evolved. Drawing on over 15 years of field research carried out across Myanmar, the book offers a cohesive inquiry into government and non-government education sectors, the reform process, and how the transition has played out across schools, universities and wider society. It casts scrutiny on

changes in basic education, the alternative monastic education, higher education and teacher education, and engages with issues of ethnic education and the debate on the role of language and the local curriculum as part of the peace process. In so doing, it gives voice to those most affected by the changing landscape of Myanmar's education and wider reform process: the students and parents of all ethnic backgrounds, teachers, teacher trainees and university staff that are rarely heard.

I Feel No Peace 2023-02-16 Kaamil Ahmed

Rohingya men, women and children have been fleeing their homes for forty years. The tipping point came in August 2017, when almost 700,000 were wrung from Myanmar in a single military operation. Today, very few members of this Muslim minority remain in the country. Instead, they live mostly in Bangladesh's refugee camps; or precariously in Malaysia, India, Thailand, Saudi Arabia and elsewhere. With the Rohingya almost entirely in exile, *I Feel No Peace* is the first book-length exploration of their lives abroad, drawing on hundreds of hours of interviews and long-standing relationships within the diaspora. Kaamil

Ahmed speaks to the families of snatched children, and people kidnapped to feed the human trafficking nourished by Rohingya suffering. Most disturbingly, he reveals the complicity of NGOs and the UN in the refugees' plight. But Ahmed also uncovers resilience and hope; stories of how a scattered community survives. The lives uncovered in *I Feel No Peace* are complex, heart-breaking and unforgettable.

Governance, Natural Resources and Post-Conflict Peacebuilding 2016-04-07 Carl Bruch When the guns are silenced, those who have survived

armed conflict need food, water, shelter, the means to earn a living, and the promise of safety and a return to civil order. Meeting these needs while sustaining peace requires more than simply having governmental structures in place; it requires good governance. Natural resources are essential to sustaining people and peace in post-conflict countries, but governance failures often jeopardize such efforts. This book examines the theory, practice, and often surprising realities of post-conflict governance, natural resource management, and peacebuilding in fifty conflict-affected countries and territories. It includes thirty-

nine chapters written by more than seventy researchers, diplomats, military personnel, and practitioners from governmental, intergovernmental, and nongovernmental organizations. The book highlights the mutually reinforcing relationship between natural resource management and good governance. Natural resource management is crucial to rebuilding governance and the rule of law, combating corruption, improving transparency and accountability, engaging disenfranchised populations, and building confidence after conflict. At the same time, good governance is essential

for ensuring that natural resource management can meet immediate needs for post-conflict stability and development, while simultaneously laying the foundation for a sustainable peace. Drawing on analyses of the close relationship between governance and natural resource management, the book explores lessons from past conflicts and ongoing reconstruction efforts; illustrates how those lessons may be applied to the formulation and implementation of more effective governance initiatives; and presents an emerging theoretical and practical framework for policy makers, researchers, practitioners, and

students. Governance, Natural Resources, and Post-Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post-conflict peacebuilding and natural resource management. The project has generated six books of case studies and analyses, with contributions from practitioners, policy makers, and researchers. Other books in this series address high-value resources, land, water, livelihoods, and assessing and restoring natural resources.

The context of REDD+ in Myanmar 2020-03-16

Oo, T.N. The Republic of the Union of Myanmar is a forest resource-rich country, but is also facing serious deforestation and forest degradation problems. Currently, Myanmar's forest still covers more than 40% of the country's land area (Aung (2001) but 70% of its population live in rural areas, and the agricultural sector is the main contributor to the country's gross domestic product (GDP) (30%) (World Bank 2014). The country faces the all-too-common dilemma of how to develop its economy while at the same time curbing environmental degradation and contributing to carbon emissions reduction. In

2013, Myanmar adopted a REDD+ program and started its preparatory phase. Myanmar established and developed its National Forest Monitoring System (NFMS) and Reference Emission Levels (RELS) for REDD+ following the guidance and modalities set out by the United Nations Framework Convention on Climate Change (UNFCCC). Implementing REDD+ requires political commitment to address direct and indirect drivers of deforestation, an adequate funding mechanism that is based on a thorough analysis of all costs and benefits, a transparent and equitable benefit-sharing mechanism, and a

participatory decision-making approach in which all stakeholders can take part in REDD+. The Global Comparative Study on REDD+, together with its country partners, is compiling profiles of 14 countries to better understand the socioeconomic contexts in which REDD+ policies and processes emerge.

Routledge Handbook of Human Rights in Asia
2018-12-12 Fernand de Varennes The Routledge
Handbook of Human Rights in Asia provides a
rich study of human rights challenges facing
some of the most vulnerable people in Asia.

While formal accession to core international human rights instruments is commonplace across the region, the realisation of human rights for many remains elusive as development pressure, violent conflict, limited political will and discrimination maintain human rights volatility. This Handbook explores the underlying causes of human rights abuse in a range of contexts, considers lessons learnt from global, regional and domestic initiatives and provides recommendations and justifications for reform. Comprising 23 chapters, it examines the strengths and weaknesses of human rights

institutions in Asia and covers issues such as: Participation, marginalisation, detention and exclusion Private sector responsibility and security Conflict and post-conflict rehabilitation Trafficking, displacement and citizenship Ageing populations, identity and sexuality. Drawing together a remarkable collection of leading and emerging scholars, advisers and practitioners, this Handbook is essential reading for students, scholars, policy makers and advocates of human rights in Asia and the world.

The Authoritarian Public Sphere 2017-01-20

Alexander Dukalskis Authoritarian regimes craft and disseminate reasons, stories, and explanations for why they are entitled to rule. To shield those legitimating messages from criticism, authoritarian regimes also censor information that they find threatening. While committed opponents of the regime may be violently repressed, this book is about how the authoritarian state keeps the majority of its people quiescent by manipulating the ways in which they talk and think about political processes, the authorities, and political alternatives. Using North Korea, Burma (Myanmar) and China as case studies,

this book explains how the authoritarian public sphere shapes political discourse in each context. It also examines three domains of potential subversion of legitimating messages: the shadow markets of North Korea, networks of independent journalists in Burma, and the online sphere in China. In addition to making a theoretical contribution to the study of authoritarianism, the book draws upon unique empirical data from fieldwork conducted in the region, including interviews with North Korean defectors in South Korea, Burmese exiles in Thailand, and Burmese in Myanmar who stayed in the country during the

military government. When analyzed alongside state-produced media, speeches, and legislation, the material provides a rich understanding of how autocratic legitimation influences everyday discussions about politics in the authoritarian public sphere. Explaining how autocracies manipulate the ways in which their citizens talk and think about politics, this book will be of interest to students and scholars of Asian politics, comparative politics and authoritarian regimes.

Teaching Peace amidst Conflict and Postcolonialism 2023-05-26 Christopher P. Davey

In a world where post-conflict and postcolonial countries struggle to heal from the past and meet new challenges, peace education is often neglected and instrumentalized for political agendas. Drawing on case studies from Afghanistan, Bolivia, Burundi, Colombia, Myanmar, Nepal, New Zealand, Northern Ireland, Sri Lanka, and Uruguay, this book shows that cultural and structural violence can, in turn, lead to direct violence. An effective program of peace education responds to these dynamics meeting our urgent problems and opening up new opportunities for peacebuilding. With this direction

in mind, this book addresses the practices of peace education from around the world. The fundamental question answered here is: can peace be taught, especially where the scars of war and legacies of colonialism are entrenched in society? Peace education is foundational to a more equitable future where global citizens share a planet in justice, equity, with human security, and all the elements of sustainable, resilient peace. Foremost, it is an essential pillar for societies scarred by violence.

Business and Human Rights in Southeast Asia

2014-09-25 Mahdev Mohan Business and human rights has emerged as a distinct field within the corporate governance movement. The endorsement by the United Nations Human Rights Council of a new set of Guiding Principles for Business and Human Rights in 2011 reinforces the State's duty to protect against human rights abuses by third parties, including business; the corporate responsibility to respect human rights; and greater access by victims to effective remedy, both judicial and non-judicial. This book draws on the UN Guiding Principles and recent national plans of action, to provide an

overview of relevant developments within the ASEAN region. Bridging theory and practice, the editors have positioned this book at the intersection of human rights risk and its regulation. Chapter authors discuss the implications of key case-studies undertaken across the region and various sectors, with a particular focus on extractive industries, the environment, and infrastructure projects. Topics covered include: due diligence and the role of audits; businesses' responsibilities to women and children; and the mitigation of human rights risks in the region's emerging markets. The book

sheds light on how stakeholders currently approach business and human rights, and explores how the role of ASEAN States, and that of the institution itself, may be strengthened. In doing so, the book identifies critical challenges and opportunities that lie ahead for the region in relation to business and human rights. This book will be of excellent use and interest to scholars, practitioners and students of human rights, business and company law, international law, and corporate governance.

Comparing Peace Processes 2019-03-18

Alpaslan Özerdem This book offers a comparative survey of 18 contemporary peace processes conducted by leading international scholars. There is no standard model of peace processes and all will vary according to the context, type of conflict, timing, national and global economic climate, and factors like natural disasters. Therefore, making comparisons between peace processes is difficult, but it is beneficial – indeed, imperative – and is the principal motivation behind this volume. What works in one context may not work in another, but it can be modified and adapted to fit another context. The book is

structured to maximise comparison between processes, and the case studies chosen are topical and span the major regions of the world. The concluding chapter systematically compares the case studies around 11 variables that cover the conflict context, peace process procedures, the responsiveness of the peace process to demands, and levels of participation and inclusion. Each peace process is then given a numeric score according to each of these variables, and the book thereby reaches judgements on whether each case can be termed a 'success' or a 'failure'. This book will be

essential reading for students of peace studies, conflict resolution, war and conflict studies, security studies, and IR.

Constitutionalism and Legal Change in Myanmar
2017-01-26 Andrew Harding Myanmar's
Constitution of 2008 was the 'road map' for the reform process that began in 2011. Despite extensive criticism of this Constitution for its emphasis on the role of the military, much progress has been made towards constitutional government and law reform. With the election of the opposition NLD to government in the general

election of November 2015 and the presidential electoral college election of March 2016, now is the time to consider the Constitution, and prospects and needs for constitutional change as Myanmar moves towards democracy and the rule of law. Much has been made of the Constitution's rigidity, which is seen as an obstacle to reform and inconsistent with embracing the rule of law, human rights and multi-party democracy, especially with a rapidly transforming state and society. Nonetheless, the Constitution is also seen as having potential to be a very positive force for reform. Many issues arise now for

constitutionalism and constitutional change: presidency; federalism and territorial governance; the status of minorities and freedom of religion; civil liberties in what is described as a 'discipline-flourishing democracy'; the courts, justice and the rule of law; the electoral system; and many more. This book is an attempt to gauge the extent and potential for the entrenchment of constitutionalism in Myanmar in a rapidly changing environment. Migration, Regional Autonomy, and Conflicts in Eastern South Asia 2023-05-26 Amit Ranjan Delving into the past and present of various

secessionist movements in Northeast India, political conflict in Chittagong Hill Tracts in Bangladesh, a political movement for autonomy in Darjeeling hills in Eastern India, and the Rohingya migration crisis affecting India and Bangladesh, this book examines the volatile co-existence of competing population groups in Eastern South Asia. Through the conceptual lens of the 'home' and feeling of 'homeland' in Eastern South Asia, the authors seek answers to three complex but interrelated questions: why is Eastern South Asia facing so many political movements and conflicts? How have the political movements affected the

region and people? Why is the number of migrants in this region so high? Answers to these questions are vital to those studying South Asia and interested in understanding this region.

Polygamy in the Monogamous World 2010-05-20 Martha Bailey This fact-filled book on polygamy and plural unions around the world supports an in-depth consideration of policy options for Western countries. Polygamy and plural marriage have become front-and-center issues in Europe, Canada, and the United States, notably on two religious fronts: among some splinter groups of

the Church of Jesus Christ of Latter-Day Saints and in Islam. Polygamy in the Monogamous World: Multicultural Challenges for Western Law and Policy takes both groups into account as it provides a careful examination of legal polygamy in non-Western countries and plural unions in North America. Comparing these similar, but legally distinct forms of union, it offers a fresh perspective on how Western countries should respond to these relationships. Specifically, the book surveys non-Western countries where polygamy is legally practiced, then provides an overview of plural unions in North America. The

problems of polygamy and plural unions are examined, including the potential for the abuse of wives. The responses of Western governments to such relationships are reviewed, and the most effective solutions are identified to ascertain what policies should be adopted going forward.

Interdependent Yet Intolerant 2021-07-27 Robert Mandel People everywhere are more dependent than ever on foreign migrants, products, and ideas—and more xenophobic. Intolerance and hate-based violence is on the rise in countries from Hungary to South Africa, threatening global

security. With *Interdependent Yet Intolerant*, Robert Mandel explains why we live in an unexpectedly and increasingly hateful world, why existing policies have done little to help, and what needs to be done. Through an in-depth analysis of case studies from twelve diverse countries that have experienced violence between native citizens and foreign migrants, Mandel finds that the interdependence of the current liberal international order does not breed mutual understanding between groups through increased contact, but rather, under specific conditions, stimulates boomerang effects in the exact

opposite direction. And the very policy measures intended to decrease violence—from heightened border enforcement intended to minimize instability, to intergovernmental payoffs to other countries to keep foreigners away, as in the EU—only inflame intolerance and promote global insecurity. Providing practical policy recommendations for managing identity-based violence in an age of mass migration and globalization, *Interdependent Yet Intolerant* calls on societies around the world to rethink their predominant notions of national identity and control.

Myanmar Media in Transition 2019-05-13 Lisa Brooten Myanmar Media in Transition: Legacies, Challenges and Change is the first volume to overview the country's contemporary media landscape, providing a critical assessment of the sector during the complex and controversial political transition. Moving beyond the focus on journalism and freedom of the press that characterizes many media-focused volumes, Myanmar Media in Transition also explores developments in fiction, filmmaking, social movement media and social media. Documenting changes from both academic and practitioner

perspectives, the twenty-one chapters reinforce the volume's theoretical arguments by providing on-the-ground, factual and experiential data intended to open useful dialogue between key stakeholders in the media, government and civil society sectors. Providing an overview of media studies in the country, Myanmar Media in Transition addresses current challenges, such as the use of social media in spreading hate speech and the shifting boundaries of free expression, by placing them within Myanmar's broader historic social, political and economic context.

Routledge Handbook of Global Land and Resource Grabbing 2023-06-12 Andreas Neef

This handbook provides a cutting-edge, comprehensive overview of global land and resource grabbing. Global land and resource grabbing has become an increasingly prominent topic in academic circles, among development practitioners, human rights advocates, and in policy arenas. The Routledge Handbook of Global Land and Resource Grabbing sustains this intellectual momentum by advancing methodological, theoretical and empirical insights. It presents and discusses resource grabbing

research in a holistic manner by addressing how the rush for land and other natural resources, including water, forests and minerals, is intertwined with agriculture, mining, tourism, energy, biodiversity conservation, climate change, carbon markets, and conflict. The handbook is truly global and interdisciplinary, with case studies from the Global South and Global North, and chapter contributions from practitioners, activists and academics, with emerging and Indigenous authors featuring strongly across the chapters. The handbook will be essential reading for students and scholars interested in land and

resource grabbing, agrarian studies, development studies, critical human geography, global studies and natural resource governance. The Open Access version of this book, available at www.taylorfrancis.com, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

Shifting Cultivation Policies 2017-11-13 Malcolm Cairns Shifting cultivation supports around 200 million people in the Asia-Pacific region alone. It is often regarded as a primitive and inefficient form of agriculture that destroys forests, causes

soil erosion and robs lowland areas of water. These misconceptions and their policy implications need to be challenged. Swidden farming could support carbon sequestration and conservation of land, biodiversity and cultural heritage. This comprehensive analysis of past and present policy highlights successes and failures and emphasizes the importance of getting it right for the future. This book is enhanced with supplementary resources. The addendum chapters can be found at: www.cabi.org/openresources/91797

Land Conflicts Across Frontiers 2018-11-12

Reshmi Banerjee Land Conflicts Across Frontiers compares Myanmar's journey with North East India on the critical and contested issue of land. It examines concerns related to land in pre-colonial and colonial history, causes and consequences of land conflicts today, the socioeconomic dynamics attached to land, along with attempted community-based institutional interventions and rural activism. As Myanmar takes its steps towards a democratic future, it becomes critical for the country to be aware of North East India's experiences, as they could provide valuable

lessons of what to 'implement' and what to 'avoid'. Loss of common property resources, non-recognition of customary rights, ambiguous land laws and inadequate attention to people's grievances have led to a rural landscape which has witnessed livelihood vulnerability, displacement and conflict. The book not only tries to capture cross-border experiences in order to have a better understanding of land alienation, agrarian discontent and peripheral marginalization but also notes recent trends in rural spaces and suggests policy measures.

Citizenship in Myanmar 2018-05-24 Ashley South
Myanmar is going through a period of profound -
and contested - transition. The country has
experienced widespread if sometimes uneven
reforms, including the start of a peace process
between the government and Myanmar Army,
and some two dozen ethnic armed organizations,
which had long been fighting for greater
autonomy from the militarized and Burman-
dominated state. This book brings together
chapters by Burmese and foreign experts, and
contributions from community and political
leaders, who discuss the meaning of citizenship

in Myanmar/Burma. The book explores citizenship
in relation to three broad categories: issues of
identity and conflict; debates around concepts
and practices of citizenship; and inter- and intra-
community issues, including Buddhist-Muslim
relations. This is the first volume to address these
issues, understanding and resolving which will be
central to Myanmar's continued transition away
from violence and authoritarianism.

Women and Violence in India 2017-02-28 Tamsin
Bradley India's endemic gender-based violence
has received increased international scrutiny and

provoked waves of domestic protest and activism. In recent years, related studies on India and South Asia have proliferated but their analyses often fail to identify why violence flourishes. Unwilling to simply accept patriarchy as the answer, Tamsin Bradley presents new research examining how different groups in India conceptualise violence against women, revealing beliefs around religion, caste and gender that render aggression socially acceptable. She also analyses the role that neoliberalism, and its corollary consumerism, play in reducing women to commodity objects for barter or exchange.

Unpacking varied conservative, liberal and neoliberal ideologies active in India today, Bradley argues that they can converge unexpectedly to normalise violence against women. Due to these complex and overlapping factors, rates of violence against women in India have actually increased despite decades of feminist campaigning. This book will be crucial to those studying Indian gender politics and violence, but also presents new data and methodologies which have practical implications for researchers and policymakers worldwide.

The Politics of Aid to Burma 2015-11-19 Anne Decobert For over sixty years, conflict between state forces and armed ethnic groups was ongoing in parts of the borderlands of Burma. Ethnic minority communities were subjected to systematic and widespread abuses by an increasingly complex patchwork of armed state and non-state actors. Populations in more remote and disputed border areas typically had little to no access to even basic healthcare and education services. As part of its counter-insurgency campaign, the military state also historically restricted international humanitarian access to

civilian populations in unstable border areas. It was in this context that "cross-border aid" to Burma had developed, as an alternative mechanism for channelling assistance to populations denied aid through more conventional systems. Yet by the late 2000s, national and international changes had significant impacts on an aid debate, which had important political and ethical implications. Through an ethnographic study of a cross-border aid organisation working on the Thailand-Burma border, this book focuses on the political and ethical dilemmas of "humanitarian government". It explores the ways

in which aid systems come to be defined as legitimate or illegitimate, humanitarian or "un-humanitarian", in an international context that has witnessed the multiplication of often-conflicting humanitarian systems and models. It examines how an "embodied history" of violence can shape the worldviews and actions of local humanitarian actors, as well as institutions created to mitigate human suffering. It goes on to look at the complex and often-invisible webs of local organisations, international NGOs, donors, armed groups and other actors, which can develop in a cross-border and extra-legal context – a context

where competing constructions of systems as legitimate or illegitimate are highlighted. Exploring the history of humanitarianism from the local aid perspective of Burma, this book will be of interest to students and scholars of Southeast Asian Studies, Anthropology of Humanitarian Aid and Development Studies.

Rohingya Camp Narratives 2022-05-31 Imtiaz A. Hussain This book presents thirteen chapters which probe the “tales less told” and “pathways less traveled” in refugee camp living. Rohingya camps in Bangladesh since August 2017 supply

these “tales” and “pathways”. They dwell upon/reflect camp violence, sexual/gender discrimination, intersectionality, justice, the sudden COVID camp entry, human security, children education, innovation, and relocation plans. Built largely upon field trips, these narratives interestingly interweave with both theoretical threads (hypotheses) and tapestries (net-effects), feeding into the security-driven pulls of political realism, or disseminating from humanitarian-driven socioeconomic pushes, but mostly combining them. Post-ethnic cleansing and post-exodus windows open up a murky future for

Rohingya and global refugees. We learn of positive offshoots (of camp innovations exposing civil society relevance) and negative (like human and sex trafficking beyond Bangladeshi and Myanmar borders), as of navigating (a) local–global linkages of every dynamic and (b) fast-moving current circumstances against stoic historical leftovers.

The work “Analyzing Casual Conversation” by Suzanne Eggins and Diana Slade, originally published in 1997, establishes a organized model for the analysis and description of casual conversation in English. The authors assert that despite its occasionally aimless seeming and apparently unstructured substance, casual conversation is a highly structured activity and performs a vital part in the social formation of reality. The book proceeds through real examples of casual conversations entailing participants diverging in age, gender, ethnicity, and socio-economic class¹². Deriving on understandings from sociology, linguistics, and critical semiotics, the book furnishes readers with the analytical skills to describe the levels of structure and critical interpretive structures to explain the ‘social work’ that occurs on through chat.

As Eva opened the book, a torrent of magic coursed through her veins. She realized that the book held the hidden mysteries of her familys magical lineage, and that she was the last descendant of a long line of mighty witches. But she also discovered that she was not alone. There were others like her, individuals who possessed similar abilities, and some of them sought to wield their magic for evil purposes.
