Bella Tuscany 2003-08-05 Frances Mayes Frances Mayes, whose enchanting #1 New York Times bestseller Under the Tuscan Sun made the world fall in love with Tuscany, invites readers back for a delightful new season of friendship, festivity, and food, there and throughout Italy. Having spent her summers in Tuscany for the past several years, Frances Mayes relished the opportunity to experience the pleasures of primavera, an Italian spring. A sabbatical from teaching in San Francisco allowed her to return to Cortona—and her beloved house, Bramasole—just as the first green appeared on the rocky hillsides. Bella Tuscany, a companion volume to Under the Tuscan Sun, is her passionate and lyrical account of her continuing love affair with Italy. Now truly at home there, Mayes writes of her deepening connection to the land, her flourishing friendships with local people, the joys of art, food, and wine, and the rewards and occasional heartbreaks of her villa's ongoing restoration. It is also a memoir of a season of change, and of renewed possibility. As spring becomes summer she revives Bramasole's lush gardens, meets the challenges of learning a new language, tours regions from Sicily to the Veneto, and faces transitions in her family life. Filled with recipes from her Tuscan kitchen and written in the sensuous and evocative prose that has become her hallmark, Bella Tuscany is a celebration of the sweet life in Italy. Now with an excerpt from Frances Mayes's latest southern memoir, Under Magnolia.

Frustrated by the lack of progress, Chief Superintendent Michele Ferrara, head of Florence's elite Squadra Mobile, decides to step in. Because toxins were discovered in the girl's body, many assumed that she died of a self-inflicted drugs overdose. But Ferrara quickly realises that the truth is darker than that: he believes that the girl was murdered. And when he delves deeper, there are many aspects to the case that convince Ferrara that the girl's death is part of a sinister conspiracy - a conspiracy that has its roots in the very foundations of Tuscan society... Wine and Identity 2014-01-10 Matt Harvey In an increasingly competitive global market, winemakers are seeking to increase their sales and wine regions to attract tourists. To achieve these aims, there is a trend towards linking wine marketing with identity. Such an approach seeks to distinguish wine products - whether wine or wine tourism - from their competitors, by focusing on cultural and geographical attributes that contribute to the image and experience. In essence, marketing wine and wine regions has become increasingly about telling stories - engaging and provocative stories which engage consumers and tourists and translate into sales. This timely book examines this phenomena and how it is leading to changes in the wine and tourism industries for the first time. It takes a global approach, drawing on research studies from around the world including old and new world wine regions. The volume is divided into three parts. The first - branding - investigates cases where established regions have sought to strengthen their brands or newer regions are striving to create effective emerging brands. The second - heritage - considers cases where there are strong linkages between cultural heritage and wine marketing. The third section - terroir - explores how a 'sense of place' is inherent in winescapes and regional identities and is increasingly being used as a distinctive selling proposition. This significant volume showcasing the connections between place, identity, variety and wine will be valuable reading for students, researchers and academics interested in tourism, marketing and wine studies.

Merchants of Innovation 2017-05-08 Esther-Miriam Wagner Traders around the world use particular spoken argots, to guard commercial secrets or to cement their identity as members of a certain group. The written registers of traders, too, in correspondence and other commercial texts show significant differences from the language used in official, legal or private writing. This volume suggests a clear cross-linguistic tendency that mercantile writing displays a greater degree of language mixing, code-switching and linguistic innovations, and, by setting precedents, promote language change. This interdisciplinary volume aims to place the traders' languages within a wider sociolinguistic context. Questions addressed include: What differences can be observed between mercantile registers and those of court or legal scribes? Do the traders' texts show the early emergence of features that take longer to permeate into the 'higher' varieties of the same language? Do they anticipate language change in the standard register or influence it by setting linguistic precedents? What sets traders' letters apart from private correspondence and other 'low' registers? The book will also examine bilingualism, semi-bilingualism, reasons for code-switching and the choice of particular languages over others in commercial correspondence.

At Least You're in Tuscany 2012-10 Jennifer Criswell Criswell's move from New York City to Tuscany was not supposed to go like this. She had envisioned lazy mornings sipping espresso while penning a bestselling novel and jovial group dinners, just like in the movies and books about expatriate life in Italy. Then she met reality: no work, constant struggles with Italian bureaucracy to claim citizenship, and becoming the talk of the town after her torrid affair with a local fruit vendor.

Under the Tuscan Sun 1998 Frances Mayes Frances Mayes - widely published poet, gourmet cook and travel writer - opens the door on a wondrous new world when she buys and restores an abandoned villa in the spectacular Tuscan countryside. She finds faded frescoes beneath the whitewash in the dining room, a vineyard under wildly overgrown brambles - and even a wayward scorpion under her pillow. And from her traditional kitchen and simple garden she creates dozens of delicious seasonal recipes, all included in this book. In the vibrant local markets and neighbouring hill towns, the author explores the nuances of the Italian landscape, history and cuisine. Each adventure yields delightful surprises - the perfect panettone, an unforgettable wine, or painted Etruscan tombs. Doing for Tuscany what Peter Mayle did for Provence, Mayes writes about the tastes and pleasures of a foreign country with gusto and passion. A celebration of the extraordinary quality of life in Tuscany, UNDER THE TUSCAN SUN is a feast for all the senses.

I Found Myself in Tuscany 2016-12-14 Lisa Condie When Lisa Condie's marriage and a subsequent relationship disintegrated, she traveled to Italy to lick her wounds and implored her angels to help her discover what her next chapter of life might hold. As Lisa explored the streets of Florence, she felt invigorated and fulfilled wandering through the famed architecture and spectacular galleries; a deep sense of peace enveloped her as she discovered the rolling hills of the Tuscan countryside, where Condie sought out wineries and olive groves, and monasteries and churches for answers and inspiration. The imposing Duomo that dominated the Florence skyline and the city's awe-inspiring bridges and meandering rivers beckoned her to leave her Utah home. The sights of Florence not only healed her, they became her muse.

Bankruptcy and Reorganization in the Digital Business Era 2023-03-13 Özsungur, Fahri The arrangement of bankruptcy, which is a critical issue for the debtors whose financial structure has deteriorated, protects the debtors from bankruptcy and enables the creditors to collect their receivables, albeit partially. Although the concordat is intended to protect bona fide debtors and creditors, it can be said that payments not made during the concordat deadlines put the creditors in financial distress and harm the economy at the macro level. In this context, it is necessary to examine the subject in depth to prevent abuse of concordat requests and to obtain better results both legally and financially. Bankruptcy and Reorganization in the Digital Business Era examines the basic structure of the arrangement of bankruptcy within various countries and the evaluation of the financial results of the enterprises that have declared the arrangement of bankruptcy. Covering key topics such as economics, financial distress, risk management, and banking, this premier reference source is ideal for business owners, managers, industry professionals, researchers, scholars, academicians, practitioners, instructors, and students.

Food and Wine Events in Europe 2014-03-26 Alessio Cavicchi Food and wine events have gained popularity internationally. Their importance in local economic development has grown, especially in Europe, as they are seen as a source of income for local economic systems, a way for creating new job positions and effective tools for promoting and increasing typical product awareness and demand. This book for the first time illustrates the positive and negative impacts of food and wine events from a stakeholder perspective by highlighting several critical aspects such as: (1) advantages and disadvantages of food and wine events; (2) best practice adoption for maximising benefits flowing from event creation; (3) community involvement and knowledge diffusion; (4) effectiveness in promoting local products and creating consumer awareness about products; (5) factors that promote or inhibit the success or achievements of wine and food events. Although the volume primarily focuses on events in Europe, comparisons are made to other regions in the world. Case studies are integrated throughout to illustrate the system of economic and social impacts linked to food and wine events, as well as best practices to achieve effective event management and maximize expected results. Written by leading academics, this timely and important volume will be valuable reading for all students, researchers and academics interested in Events, Tourism, Hospitality, Gastronomy and Development Studies.

The Fascist Revolution in Tuscany, 1919-22 2004-03-11 Frank Snowden This 1989 book is a detailed study of the social origins of the fascist reaction in Tuscany, which played a key role in the rise of Italian fascism to power. Tuscan fascism was second to none in its violence, organisational strength, intransigence and missionary zeal. The central question is who supported fascism, and why. To what extent did Tuscany, a major agricultural region, conform to national patterns? What are the implications of the pattern of support for fascism in Tuscany for the wider interpretation of the movement? Dr Snowden offers a thematic approach, discussing in turn agrarian fascism, industrial and urban activity, and relations between the black-shirts and state officials. Thus the significance of the fascist militancy of particular social groups and classes can be assessed for the period between the mass strikes in 1919 and the end of labour militancy marked by the beginning of the fascist dictatorship.

The Nature of Business Transformation 2022-03-17 Richard Kelly This book is a practical guide for business professionals to develop and improve business intelligence and collective decision-making within their organisation. It proposes a progressive reconfiguration of the traditional business operating system using a nature-inspired framework called swarm facilitation that enables and facilitates collective decision-making. Organisations have followed the same rigid formula of problem-solving and decision-making for over 100 years. It is dominated by centralised governance and pyramid decision-making. Such an approach is no longer fit for purpose in an environment of employee disengagement, artificial intelligence (AI)/superintelligence, and Covid-19 fallout. By the end of this book, readers will be able to: • solve organisational problems and challenges collectively using swarm intelligence; • upgrade and future-proof business operating systems to reflect a more collective decision-making approach fit for the new connected economy and Industry 4.0; • embrace mindset quotients that support people working in a more networked, self-organising, and collective environment. The book is important reading for leaders and managers who are focused on building organisational capital and engagement and gaining value from the emerging technology by evolving their business operating system into a digital ecosystem as part of an ongoing digital transformation strategy. It will also appeal to experts working in the field of organisational change and development, both within the organisation and as consultants.

The Free Port of Livorno and the Transformation of the Mediterranean World 2017-10-13 Corey Tazzara In the twilight of the Renaissance, the grand duke of Tuscany—a scion of the fabled Medici family of bankers—invited foreign merchants, artisans, and ship captains to settle in his port city of Livorno. The town quickly became one of the most bustling port cities in the Mediterranean, presenting a rich tableau of officials, merchants, mariners, and slaves. Nobody could have predicted in 1600 that their activities would contribute a chapter in the history of free trade. Yet by the late seventeenth century, the grand duke's invitation had evolved into a general program of hospitality towards foreign visitors, the liberal treatment of goods, and a model for the elimination of customs duties. Livorno was the earliest and most successful example of a free port in Europe. The story of Livorno shows the seeds of liberalism emerging, not from the studies of philosophers such as Adam Smith, but out of the nexus between commerce, politics, and identity in the early modern Mediterranean.

Blockchain Applications in Food Supply Chain Management 2023-03-31 Chen Zhang This book contributes to blockchain applications in food supply chain management from both theoretical and practical perspectives. By using the case study research method, it empirically investigates why and how food companies implement blockchain technology. Moreover, it proposes a conceptual framework based on the case findings and extant literature. The book provides empirical evidence to verify academic findings such as critical success factors and barriers. Furthermore, it identifies the implementation process to answer the 'how' question. Uniquely, it applies the innovation process model and the practice-based view (PBV) to studies on food supply chains and blockchain. Thus, building on the original model and theory, it enriches the theory on blockchain implementation, making it a valuable asset for all researchers and practitioners interested in blockchain adoption and food supply chain management.

Nobility and Business in History 2023-03-31 Silvia A. Conca Messina This book reconsiders the role of nobility as influential economic players and provides new insights into the business activities of noblemen in Europe and Asia during the nineteenth century thus offering up opportunities for comparison in an age of economic expansion and globalisation. What was the contribution of the nobility to the economy? Can we consider noblemen to have been endowed with an entrepreneurial spirit? Research shows that far from being passive, throughout the century the European nobility were widely involved in business, carried on innovations, refined management strategies, and diversified their investments from agriculture to transport, industry and finance. Both in Europe and Asia businesses were embedded in social networks and personal relationships. In modern Japan after the Meiji Restoration - the unique case in Asia where a Western-style nobility was created - business, trust, personal connections and aristocratic marriages were intertwined and Japanese noblemen, especially the richer ones, acted as promoters of industrialisation, even though their role was certainly limited in time and space. This volume will be of great interest to scholars and researchers in the fields of economics, management, political science, sociology, public management and history. The chapters in this book were originally published as a special issue of Business History.

Small Businesses and Effective ICT 2016-07-07 Carmine Sellitto Small businesses make up some 90-95 percent of all global firms. Many undervalue the importance of information and communication technology (ICT). Within the small business segment there can be significant differences amongst the avid early adopters of ICT and the laggards. Research on early adopters tends to be more prevalent as they are perceived to have a more interesting and positive story. However, late adopters and 'laggards' also have their own interesting stories that are under-reported. Small Business and Effective ICT draws on research undertaken over several years and documents the adoption/use of ICT across 'better' users of ICT (Leaders), typical ICT users (Operationals) and late adopters (Laggards). The findings are presented using a re-formulation of the LIASE framework which addresses a number of areas that include ICT literacy (L), information content/communication (I), Access (A), Infrastructure (I), Support (S) and Evaluation (E). Some 60 businesses were investigated in Australia and the UK, with each business presented as a concise vignette. The vignettes serve to show that small businesses are not as conservative in their use of ICT as the literature suggests, with examples of innovative uses of ICT in small businesses provided. Lessons for the effective use of ICT by small businesses are presented. The research design, methods adopted, presentation of findings through the vignettes, and 'take away' lessons have been written in manner to appeal to a broad range of readers including academics, researchers, students and policy makers in the discipline.

The Farenzi Files 2014-09-17 Alberto Benet Noguera There's a secret hidden in The Farenzi Files A passionate love story. A fast-paced adventure. A spellbinding whodunit. An intriguing medical mystery. And a sweeping multigenerational epic that spans the twentieth century and much of the globe—from Mexico to Italy and beyond. The Farenzi Files is all these things and more. At once thrilling, heartbreaking, and inspiring, this is a deeply moving and gripping tale like no other you've ever read. We enter the world of The Farenzi Files in the Mexico City of the early 1970s, when Aurelio, a construction engineer, meets the love of his life, a brilliant psychiatry student named Ofelia. But the story really starts decades earlier, with the harrowing escape from war-torn Europe by a beautiful young Italian woman named Lucrezia Farenzi. She risks her life to cross Nazi-occupied France and the vast Atlantic Ocean, under constant threat of attack from German subs and bombers, trying to reach an unlikely destination that didn't even exist in the mental geography of most Europeans—the town of Tulancingo in the Mexican state of Hidalgo. All the while, Lucrezia's father, a good and honorable family doctor in Rome, has made an amazing medical discovery that has the capacity to change the world—for better or for worse, depending on whose hands it falls into. This is the long-lost secret that eventually dominates the lives of Aurelio and Ofelia, turning their ideal marriage into a fevered quest for the hidden formula. Through it all, their intense, almost-mystical love gives them strength-until tragedy strikes. Praise for The Farenzi Files "A detective story worthy of Agatha Christie. The Farenzi Files teems with intrigue and mystery, as unknown forces stop at nothing, including murder, to get their hands on a medical formula. Written in nimble, staccato-like prose, this is an engrossing novel that's a pleasure to read. I couldn't put it down until the final outcome." Oscar Pandal Graf, philologist and bibliophile
