The Pinball Price Guide

2013 Pinballer Continuing the tradition of pinball collecting, The Pinball Price Guide, Ninth Edition by Pinballer(TM) is the ideal reference for anyone-collector, buyer, or seller-trying to determine the current value and fair price of a pinball machine. The Price Guide, which covers the price values of over 2000 collectible games produced for the U.S. market from 1931-2012, is unique in that it breaks down pricing into three classes (1-Best, 2-Good, 3-OK), determined by the condition of a game's backglass, playfield, and cabinet. In addition to pricing averages, the book lists the most collectible games for each era of machine. In the "Collector's Corner," there are four new articles written by industry experts who discuss collecting specific types of games: Prewar (Flipperless), Bingo-style, Woodrails, and Electro-Mechanical. Besides tips on caring for and maintaining games and a list of resources of interest to pinball enthusiasts, the book provides a useful worksheet to help get organized and understand the actual costs of buying or selling a game-beyond the game itself. Whether you are an established or beginning collector, selling a game found in the basement, or looking for an addition to your home game room, The Pinball Price Guide by Pinballer(TM) is an essential resource for buying or selling a pinball machine.

Mind/Body Integration

2012-12-06 S. Ancoli Biofeedback training is a research methodology and training procedure through which people can learn voluntary control over their internal physiological systems. It is a merger of mUltiple disciplines with interest deriving from many sources-from basic understanding of psychophysiology to a desire for enhanced self-awareness. The goals of biofeedback are to develop an increased awareness of relevant internal physiological functions, to establish control over these functions, to generalize control from an experimental or clinical setting to everyday life, and to focus attention on mind/body integration. Biofeedback is explored in many different settings. In the university, biofeed back equipment and applications can be found

in the departments of experimental and clinical psychology, counseling, physiology, biology, education, and the theater arts, as well as in the health service (student infirmary). Outside the university, biofeedback may be found in different departments of hospitals (such as physical medicine), private clinics, education and self-awareness groups, psychotherapy practices, and elsewhere. Its growth is still expanding, and excitement is still rising as a result of biofeedback's demonstration that autonomic functions can be brought under voluntary control and that the long-standing artificial separation between mind, body, and consciousness can be disproven.
