La città metropolitana nell'Unione europea. Programmazione comunitaria, esperienze europee a confronto e nuove prospettive 2013 Carmine Pacente

La città metropolitana nell'Unione europea 2013-07-22T00:00:00+02:00 Carmine Pacente Si dibatte da tempo in Italia sulla necessità di riformare assetti istituzionali e amministrativi per realizzare livelli di governo in grado di fornire risposte più efficaci ai bisogni dei cittadini. La discussione sull'abolizione delle province in favore delle città metropolitane nei principali agglomerati urbani sempre più intensa e i governi Monti e Letta hanno più volte sostenuto la necessità di operare in questa direzione. Anche in Europa la dimensione metropolitana è oggetto di attenzione crescente. Molte sfide che l'UE ha di fronte trovano infatti proprio nella dimensione urbana (che quasi sempre travalica i tradizionali confini amministrativi della città, estendendosi all'intero

agglomerato urbano) la loro migliore rappresentazione, e si vincono solo in una cornice di politiche e programmi comunitari coerenti, progetti e risorse europee addizionali, per la cui definizione è decisivo il protagonismo del livello metropolitano, oltre che regionale, attraverso strumenti e meccanismi da costruire. La Commissione europea, sin dal documento «Cities of tomorrow: Challenges, Visions, Ways Forward», sostiene che sarà lo sviluppo delle nostre città a determinare il futuro dell'Europa. Obiettivo della pubblicazione è accendere i riflettori sul rapporto tra dimensione metropolitana e Unione europea (programmazione di politiche, strumenti e risorse), partendo dall'analisi delle proposte di Bruxelles per la nuova programmazione comunitaria 2014 - 2020, e attraverso il coinvolgimento di esperti di importanti realtà (Barcellona, Lione, Stoccarda, Vienna e Zagabria), funzionari della Commissione UE, rappresentanti di network europei di aree metropolitane (METREX), vertici politici e istituzionali europei e locali.

Local Government and Urban Governance in Europe 2016-10-04 Carlos Nunes Silva This book discusses

innovative responses and reforms developed in critical areas of urban governance in European countries. It examines the impact of European Union's policies on the urban agenda and on local governance, and the impact of the transition to democracy in Central and in Southern Europe on local self-government systems. The book is divided into three parts: i) Crisis, Reform and Innovation in Local Government; ii) EU Policies, the Urban Agenda and Local Governance; and iii) Citizen Participation in Local Government. Providing an extensive and updated overview of key challenges in the governance of cities in Europe, the book will be of interest to students and researchers in the broader field of urban studies, and for policy-makers, especially those engaged in urban governance in European countries. /div

Il ruolo degli enti locali nella programmazione europea 2014-06-06T00:00:00+02:00 Carmine Pacente È possibile che il coinvolgimento reale – al di là della mera consultazione formale - di enti locali e città, nel processo di programmazione europea a livello nazionale e regionale, possa aiutare a migliorare impatto e utilizzo di opportunità e risorse europee nei territori? E quali autorità locali è più utile coinvolgere (ANCI, città metropolitane, altri livelli)? La Commissione europea ritiene il partenariato uno strumento fondamentale per realizzare la Strategia “Europa 2020” ed esso implica una stretta collaborazione, negli Stati membri, tra autorità pubbliche a livello nazionale, regionale e locale oltre che con il settore privato e il terzo settore. E a questo fine, sostenuta dal Comitato delle Regioni (CdR) e dal Parlamento europeo (PE) ma non dal Consiglio, ha deciso di integrare il regolamento

“Disposizioni comuni” con un Codice di condotta europeo sul partenariato (CCEP) proprio per stimolare la partecipazione dei partner al processo di programmazione. La questione si sviluppa lungo il crinale di una tensione costante tra l'esigenza di un approccio top down - che garantisca concentrazione delle risorse - e la necessità di un percorso bottom up - funzionale a ottenere impatto reale di politiche e interventi nei territori - la cui risoluzione è tutt'altro che a portata di mano. Per poter rispondere a queste domande, dopo aver delineato il protagonismo di territori subregionali e aree urbane nella programmazione 2014 - 2020 (capitolo 1), ci siamo chiesti quale sia – oggi – il ruolo reale (in contrapposizione a quello teorico) degli enti locali nella programmazione europea a livello nazionale e regionale nel nostro paese (capitolo 2) e in altri casi europei (capitolo 3). La collaborazione di ANCI e di colleghi di importanti autorità locali europee (Lione, Barcellona, Vienna, Budapest) ha consentito un'indagine empirica. L'attenzione del Commissario europeo per la politica regionale, Johannes Hahn, del Sottosegretario alla Presidenza del Consiglio dei Ministri con delega agli affari europei, Sandro Gozi, e del Sindaco di Milano, Giuliano Pisapia, sottolineano la bontà della riflessione proposta.

Solo raccontando una storia si costruisce relazione, solo raccontando la propria storia si riannoda identità. Ciò vale per le persone come per le aziende, per le città come per le nazioni. Il branding pubblico affronta il tema della costruzione dell'identità di città e territori, anche attraverso il cambiamento del racconto che questi soggetti sanno fare di se stessi. Alla luce di questa considerazione e attraverso il dialogo con alcuni protagonisti della «milanesità» sulle trasformazioni e le prospettive della città, il volume analizza il caso del brand Milano e la relazione tra istituzioni e società civile nell'ottica di rigenerare un'identità per il capoluogo lombardo. Ne esce un racconto capace di seguire l'evoluzione da borgo a città metropolitana, da città industriale a città industriosa e creativa, da locale a globale, da nazionale a multietnica, in un succedersi di confronti, negoziati, conflitti e in un grande sforzo di sintesi tra politica, economia, cultura e società. Il racconto della città si fa via via meno cornice e più mirato a presentare storie identitarie e caratteri di fondo della comunità, fino a stabilire una nuova percezione dei cambiamenti strutturali intervenuti nel territorio, nella sua economia, nella sua condizione urbanistica, nella valorizzazione delle sue vocazioni. Un saggio che restituisce conoscenze preziose e risponde a domande importanti per la società, l'economia e la cultura: chi siamo, come siamo diventati, come siamo percepiti.

sessanta relatori dell'omonimo Convegno Nazionale che ha preso le mosse dalla designazione della città di Reggio Calabria quale Città Metropolitana, realtà istituzionale che sollecita analisi ed approfondimenti in vaste aree culturali. Questo riconoscimento si inserisce peraltro in un contesto politico-sociale purtroppo caratterizzato da una preoccupante recessione civile e culturale. Comunque, pur non delineandosi la concretizzazione della previsione normativa in termini prossimi, è avvertito coralmemente il convincimento che la città di Reggio Calabria sarà proiettata verso un impatto con uno straordinario intreccio di valori e di interessi del bacino del Mediterraneo. È dunque avvertita l'esigenza di una rinnovata lettura interpretativa di quest'area geopolitica ("Conoscere il Mediterraneo, oggi" CAP. I). L'esplorazione in profondità della straordinaria ricchezza culturale, che quest'area ha prodotto, conservato e diffuso nei secoli ("Umanesimo Mediterraneo" CAP. II), tende appunto alla sua riproposizione all'interesse internazionale proprio da parte di una Città che nella sua nuova fisionomia istituzionale ("Città Metropolitana" CAP. III) può fondatamente proporsi come un centro di costante approfondimento, di ricerca e di diffusione nella società globalizzata degli invincibili valori della Humanitas Mediterranea, piattaforma ineludibile di ogni disegno politico per la tutela della dignità dell'uomo. Il contributo che l'Associazione "Giornate Mediterranee" ambisce ad assicurare alle istituzioni pubbliche consiste appunto nel tentativo di individuare ed esaltare propedeutiche, sommarie problematiche, il cui definitivo articolarsi esplorativo non può che essere affidato al mondo accademico e quindi alla valutazione ed alle definitive scelte politiche. Non si è ritenuto

di stendere una tessitura argomentativa illustrativa delle interconnessioni logiche ricorrenti tra le tematiche trattate nonché delle proiezioni teleologiche attorno al "senso" dell'opera e della sua destinazione, apparendo gli stessi desumibili, oltre che dalla razionale collocazione cronologica dei saggi medesimi, maggiormente dalla sistematica lettura interpretativa dell'intero testo. Il coinvolgimento dell'Università "Mediterranea" di Reggio Calabria, dell'Università degli Studi di Messina, dell'Università per Stranieri "Dante Alighieri" di Reggio Calabria e la partecipazione di autorevoli esponenti dell'Università "Sapienza" di Roma, dell'Università "Bocconi" di Milano e dell'Università "Cà Foscari" di Venezia legittimano il convincimento che "un primo passo" in tal senso è stato veramente tentato. Un tentativo, dunque, riecheggiante nella nostra mente l'incoraggiamento di Paul Valéry: "Le vent se lève... II faut tenter de vivre!"

Città Metropolitane e Smart Governance 2016-07-25 Rocco Papa Il volume raccoglie i risultati del progetto di ricerca "Governance Analysis Project (GAP) per la Smart Energy City. L'attuazione delle Smart City nelle aree metropolitane in Europa e in Italia" svolto nell'ambito del PON "Smart Energy Master per il governo energetico del territorio" presso l'Università Federico II di Napoli (TeMa Lab del Dipartimento di Ingegneria Civile, Edile e Ambientale). Il tema delle Smart Cities ha assunto negli ultimi anni una crescente rilevanza nel dibattito scientifico e nella prassi operativa nazionale ed internazionale configurandosi come una delle opportunità per ripensare le città e più in generale la vita delle comunità urbane. Le prime riflessioni, ricerche e progetti sul tema sembrano convergere verso

l'idea che uno sviluppo urbano "intelligente" sia frutto non soltanto delle pur necessarie e imprescindibili dotazioni infrastrutturali (capitale fisico) e di una loro continua innovazione, ma anche della qualità del capitale umano, sociale e dell'ambiente naturale, intesi come fattori strategici per lo sviluppo. Una città «smart» è, prima di tutto, una città capace di soddisfare efficacemente i bisogni dei suoi cittadini nel rispetto delle regole imposte dal contesto ambientale. È in tale dibattito che si inquadra il progetto GAP la cui finalità è quella di affrontare il tema della Smart City alla luce della riorganizzazione amministrativa delle grandi città del nostro Paese promossa dalla L. 56/2014. Con un approccio di tipo scientifico, il volume restituisce un quadro completo ed aggiornato di come le città metropolitane italiane ed europee stanno declinando il tema della smart city e ciò grazie alla costruzione di un ampissimo screening rappresentato da oltre 1.000 iniziative tra ricerche, progetti, interventi, tecnologie, ecc .. Inoltre un elemento di originalità della ricerca è rappresentato dal fatto che ad un'analisi compiuta attraverso fonti indirette, è seguita una fase di confronto con gli "attori" (e di ciò si fornisce un'ampia illustrazione nel volume nel quale vengono, tra l'altro, riportati ampi stralci delle interviste effettuate). Ciò ha consentito di restituire un quadro più aderente al vero di quanto oggi si sta sperimentando nelle città italiane ed europee, al di là di facili entusiasmi per interventi e progetti etichettati come "smart", ma per i quali non sempre possono essere individuati contenuti e metodi innovativi. Il volume è articolato in 16 capitoli di cui: due capitoli presentano il confronto tra le 12 città metropolitane italiane, istituite dalla L.56/2014,

con riferimento alle sperimentazioni in atto (cap. 1) e agli indicatori di smartness (cap. 14); un capitolo (cap. 15) illustra come 5 città europee (Amsterdam, Barcellona, Berlino, Bristol e Bruxelles) stanno interpretando il modello Smart City; un capitolo (cap. 16) illustra le sperimentazioni in atto in 3 città metropolitane italiane (Milano, Venezia, Bologna) raccontate direttamente da coloro che stanno portando avanti gli interventi (tecnici di enti locali o associazioni); i restanti capitoli sono dedicati ognuno ad una delle 12 città metropolitane analizzate (Milano, Torino, Genova, Venezia, Bologna, Firenze, Roma, Napoli, Bari, Reggio Calabria, Palermo e Catania).

A 150 anni dall'unificazione amministrativa italiana. La coesione politico-territoriale 2017-01-09 Leonardo Ferrara Nel 1865 furono emanate le leggi di unificazione amministrativa del Regno d'Italia. In occasione del centocinquantesimo anniversario, il Dipartimento di Scienze Giuridiche dell'Università di Firenze ha organizzato un progetto di studi sulle trasformazioni che nell'ultimo cinquantennio hanno interessato gli apparati e le attività dell'amministrazione della Repubblica, vista nel suo articolato governo locale e nella sua appartenenza all'Unione europea. Le ricerche hanno coinvolto, nell'arco di quasi due anni, più di centocinquanta studiosi di Università italiane. I risultati sono stati presentati il 15 e 16 ottobre del 2015 a Firenze, la città che centocinquanta anni prima era stata Capitale d'Italia e che nel 1965 aveva ospitato il convegno celebrativo del centenario delle stesse leggi di unificazione amministrativa. 2015-02-23T00:00:00+01:00 Veronica Vecchi Il libro aspira a fornire al lettore una visione a 360 gradi della nuova programmazione comunitaria, a livello nazionale, europeo e internazionale, e gli strumenti di management necessari a presentare un progetto e gestirlo. Il volume è strutturato in quattro blocchi. Il primo blocco – policy – introduce alla programmazione comunitaria, fornendo le coordinate per l'orientamento nell'attività dell'Unione Europea. Il secondo blocco – analisi – introduce alcuni elementi quali: la matrice di finanziabilità, il quadro logico, e le regole con cui impostare la propria attività progettuale ricorrendo ai finanziamenti comunitari. Il terzo blocco – strumenti – fornisce le leve utili per la sottomissione di proposte e la gestione successiva dei progetti aggiudicati. L'ultimo blocco, infine, si occupa dell'analisi costi benefici dei progetti e della disciplina sugli aiuti di Stato.

La pianificazione urbanistica 2022-02-17 Alberto Zucchetti Gli strumenti urbanistici, che la legge urbanistica nazionale del 1942 indicava nei piani regolatori territoriali, nei piani regolatori comunali, nelle norme sull'attività costruttiva edilizia e nei regolamenti edilizi comunali, sono notevolmente proliferati nel corso degli anni in seguito anche alla normativa comunitaria, alla normativa statale di settore (si pensi, ad esempio, alle leggi ambientali che incidono sull'assetto territoriale), alle leggi regionali che qualificano le tipologie di pianificazione con terminologie non certo uniformi, ma che variano da Regione a Regione. Tale proliferazione ha comportato nuove problematiche relative non solo all'uso del

territorio e allo sviluppo delle città (si pensi all'introduzione del recente concetto di “sviluppo sostenibile”), ma anche al rapporto tra leggi (statali e regionali) e piani urbanistici, nonché al rapporto tra piani dello stesso “livello”, di natura uguale o di natura differente. In questo volume si intendono affrontare, seppure in termini sintetici, le principali problematiche che riguardano la pianificazione territoriale, esaminando analiticamente i principali strumenti urbanistici attuali che compongono la pianificazione generale, la pianificazione attuativa e quella in particolari settori.

Il nichilismo dell'Unione Europea 2019-07-24 Diego Fusaro Nel 1940, Martin Heidegger tenne un celebre ciclo di lezioni che, destinate a sfociare nel monumentale studio su Nietzsche, vennero pubblicate con l'evocativo titolo di Der europäische Nihilismus, Il nichilismo europeo. Sulla scorta di un Nietzsche riletto in chiave ontologica, Heidegger individuava nel nichilismo l'ombra segreta dell'avventura storica dell'Europa Né Heidegger, né Nietzsche, forse, avrebbero potuto immaginare che il nichilismo europeo si istituzionalizzasse e assumesse la forma di quella civilissima barbarie che si presenta oggi con il nome seducente di Unione Europea.

Le sale cinematografiche rappresentano un patrimonio architettonico e culturale. La consapevolezza di tale patrimonio è indispensabile per avviare un processo di valorizzazione e di sviluppo. Da questi presupposti nasce l'esigenza di un'indagine sulle singole sale della Puglia con l'obiettivo di costituire un bagaglio di informazioni utili alla comprensione dello scenario attuale e alla programmazione di uno scenario futuro. La ricerca, promossa dall'Assessorato al Mediterraneo della Regione Puglia in collaborazione con il Politecnico di Bari, nata nell'ambito delle attività del Nucleo Tecnico regionale di Valutazione per l'esercizio cinematografico, è composta da quattro parti: la prima riguarda il "luogo" cinema analizzato nei suoi aspetti storici, tipologici, sociali e culturali; la seconda contiene il censimento degli esercizi cinematografici pugliesi (260 tra attivi e inattivi) eseguito attraverso la redazione di schede di catalogazione che contengono descrizioni, rilievi fotografici, disegni di progetto, immagini d'epoca e fotografiche d'autore; la terza propone riflessioni, valutazioni urbanistiche, economiche e legislative; la quarta presenta i contributi a firma di personalità che afferiscono al mondo del cinema. Questo lavoro di ricerca è un supporto indispensabile sia per la tutela e il recupero del patrimonio esistente sia per definire i parametri utili per la programmazione dell'esercizio cinematografico in Puglia.

It is very essential for a patient to consult with a skilled acupuncturist. A more personalized service will be provided by an expert, as well as added counseling for the patient. Moreover, an acupuncturist may prescribe herbal supplements to aid the patient in quitting efforts.

During treatment, filiform needles are inserted into specific points on the ear cartilage, as well as the hands and wrists. Normal procedures last for about 30 minutes. Body acupuncture can be used in combination with the ear and wrist needle placements. An acupuncturist may also utilize a mild electric current, to enhance the effect of the needles through the body.

*Guide la citt metropolitana nellunione europea programmazione comunitaria*\_\_\_The greatest advantage of this ancient Oriental procedure is the absence of side-effects during and after treatment. Unlike smoking cessation medications and nicotine replacement therapy products, acupuncture does not employ chemically manufactured substances. There is also no risk of weight gain during therapy. In conjunction with helping a patient quit smoking, it can also curb appetite, thus reducing food cravings. If you have tried several methods in smoking cessation to no avail, perhaps it is high time you consider the alternative method that is acupuncture. With the right practitioner and the right frame of mind, there is no reason why you won't be nicotine-free before long.

Before you decide to have a session with them, talk to the acupuncturist to know their credentials. This will also give you the opportunity to find out how much do they charge as this can be from \$45 to more than \$100 per session.

You can probably ask for the name and contact number of a previous client so you can ask this person how everything went. Remember, if it doesn't work out for you, don't be afraid to find someone else who can do a better job.

The most important thing to do during the session is to relax. If you feel an itch or something, tell the acupuncturist. The same goes if you are nervous or experience a burning sensation so the specialist will take out the needles.

### **What is acupuncture?**

Acupuncture has surged in popularity for the last few decades as brought on by the recent health trend. Mostly known as a traditional Chinese medical technique, acupuncture is seen as a homeopathic method of treatment. While alternative medicine does raise a lot of eyebrows for the scientifically-inclined, it does merit attention before being dismissed as a quack cure.

### **Basic Procedure**

Basically, needles are inserted into the skin, each corresponding to one of the numerous pressure points located throughout the body. According to Traditional Chinese Medicine, by inserting a needle into the pressure point, an acupuncturist can manipulate the flow of chi or life force, thus relieving pain and gradually treating the patient. While most would say that the whole chi thing is a bunch of nonsense, science has suggested that with the needles inserted, the body's natural painkillers called endorphins are released, thus helping with pain relief.

*Best Seller : la citt metropolitana nellunione europea programmazione comunitaria*~If you look at the history of acupuncture, not much has changed since the needle technique used back then is still being used today. Even if various forms have developed through the years, one thing for sure is that it works.

In order for you to see how effective it is, you have to see a specialist who is not only qualified to treat your condition but also one is well trained.

### **The Soothing Effects of Acupuncture**

Acupuncture is an ancient form of Chinese medicine that has been practiced for thousands of years. Commonly used to treat bodily pains, acupuncture actually has a wide range of uses that range from addictions, to injuries, to disease prevention. If you are thinking about trying acupuncture, the following will give you a better idea of its many benefits.

**Fight la citt metropolitana nellunione europea programmazione comunitaria;**First step, log on to the internet. Job sites are all over the web and so you can definitely find an accounting job there. Most of the sites allow jobseekers to sort the job openings through location. After that, you can simply search by using 'accounting' as the keyword. If you surf the net, you can also find websites that focus mainly on accounting jobs. These sites can truly help you in looking for the perfect accounting job. If you can find a job online, then there's no need to check out other resources.

If the search for an accounting job online fails, your second step is to check out local papers. Local companies who are in need of accounting graduates will usually post an advertisement in the local paper and not on the internet. This only means that you can also find jobs through the local papers.

Take a close look at the classified ads section. Find the section about accounting jobs and there you have it. Sort through the job openings posted on the paper; get the address of the company, and the requirements. All the necessary contact information should be noted. Remember, you will be applying directly to the company and not an employment agency unless stated.

### **Reactions And Research**

Not everyone is impressed with acupuncture itself. Most western medical professionals have expressed either doubt or indifference to the oriental method while others have downright driven it down into the earth with criticisms and brutal skepticism. However, recent research shows the efficacy (or lack thereof) of acupuncture, and while more research has to be done, it has been proven to actually positively affect some, but not all, forms of ailments that it claims to cure.

So as the doors open to a new age of acupuncture, give it a try when you feel the need for pain relief and you will not be disappointed. As the Chinese have used it for many centuries, so should we.

Accountants can also work as professors, or as researchers in schools or colleges. They can also become reviewers. If you have a knack for teaching, then this career path is for you. Although you wont directly get experience as an accountant, you will see that this career path in accountancy can also provide you with great opportunities. You can also enter the government. Whether it is the local, state or federal government, you will see that they will constantly have openings for accounting jobs.

Being in the government can also produce a lot of great opportunities in your field. It will let you meet important people who can help you in advancing in your career and it will also provide you with great intensive training as an accountant.

Acupuncture has become a popular alternative to common remedies such as sleeping pills. It works at the nerve levels, relaxing and soothing your senses. Acupuncture is thought to be a safer route for insomnia because it brings back your natural sleeping cycle through natural means and not through chemicals, which can turn into an addiction. Using acupuncture for insomnia usually starts working after the very first session. The treatment is usually stretched out for a period of time, until your body returns to its natural sleeping cycle.

### **Infertility**

Studies show that acupuncture is a beneficial form of complementary therapy for women who are having undergoing treatments for fertility problem. Acupuncture is believed to relieve the anxiety of women undergoing fertility treatment. Also, acupuncture's success in aiding fertility is more pronounced in in-vitro fertilization. In addition, the rate of miscarriages has been found to be lower for women who do acupuncture.

Fifth, medical doctors do not believe in the potential of alternative medicine. This is not true because there are more doctors these days that are open to the idea that there are other ways to help patients aside from conventional medicine. In fact, some of them even recommend an acupuncturist if they know that what they have done is not effective.

Another myth is that every patient will undergo the four needle technique. This is not true and it will only be used when the specialist feels that the energy of the patient is virtually not moving as a last resort.

The seventh myth is that it is better for a medical doctor to perform acupuncture. This is wrong because the training is much different than that taught in medical school. Students who have an acupuncturist license train for 3,000 hours before they are allowed to practice this profession. So between an acupuncturist and a medical doctor, you should go with someone who has learned about this much longer.

### Happiness la citt metropolitana nell'unione europea programmazione comunitaria

Although there are risks if you decide to go undergo acupuncture, these can be avoided as long as the one doing it is a licensed professional who makes sure that the needles used are sterilized before they are inserted into the body.

These days, a lot of people in the medical field have accepted the fact that alternative medicine such as this can also help the patient which is why they may refer someone when it is needed.

So, if you are tired of experiencing the side effects of conventional medicine and want to try a holistic form of healthcare, why don't you see what acupuncture can do for you? It is painless and cost effective. In fact, it is just one of many you can try to help treat a chronic condition.

### **Liberation la citt metropolitana nell'unione europea programmazione comunitaria**

There are a lot of people who are overweight. For those who are obese, perhaps surgery is the best option but for those who can't, they can try to see if acupuncture can help take out the excess weight. Acupuncture is a form of holistic healthcare that uses needles to help treat a patient. Unlike the cartoon where the balloon will pop and all the air will go out, the needles that are inserted into the vital points will stimulate the body to release endorphins thus helping the person control their appetite. But before needles are inserted, the specialist will first ask the patient some questions and perform an examination. This is needed to understand the main cause for the person to be overweight.

### **Transformation la citt metropolitana nellunione europea programmazione comunitaria**

After the regular sessions, it is advisable to go back for follow up treatment. It should be every 2 weeks for the next 2 months and then once a month later on.

Aside from needles, most clinics use herbs in the form of masks, poultices and moisturizers. Before you use it, check with your doctor to make sure there is no allergic reaction to any forms of medication that you are taking. After the first facial acupuncture treatment, you will usually see an increased glow to one's complexion which the Chinese say an increased Qi or blood flow to the face. It becomes more open, the wrinkles start to disappear and the skin appears more toned.

Now that you've taken up a course in accountancy, you probably know that there are various types of careers in accountancy waiting for you after you've graduated. If you pass the CPA examination, you will have higher chances in securing a position as a professional accountant.

Accounting in itself is considered an art. It involves analysis and interpretation of financial data. Do you believe that individuals and businesses need accounting one way or another? Aside from business establishments, individuals also make use of accounting in their everyday life. For instance, when you compute or evaluate your expenses, income, and other financial information, that is already considered accounting. Accounting is very important and because of that, it is considered an indispensable business tool. Big and small businesses, as well as individuals, need accounting.

Accounting is of several types and therefore, when you decide to look for an accountancy career in the future, you will notice that there are also several types of accountancy careers available.

**The Best la citt metropolitana nellunione europea programmazione comunitaria,** A group of children in the US participated in a test to see how effective acupuncture is among children. There are 22 respondents and each of them was given the treatment once every other day for four months.

After the treatment 20 out of the 22 respondents showed remarkable improvement. In fact 2 of them had cerebral blood flow. The only thing that did not change prior to treatment and after was the blood flow between the left

and right cerebrum as it showed no differences.

Aside from traditional acupuncture to help children with autism, a preliminary study in Hong Kong is trying to see if tongue acupuncture can produce better results.

Right after each acupuncture session, you will feel a bit tired and may need to rest. Some people feel an increase in their energy levels. The response to acupuncture is very individual. In some cases there is immediate relief of symptoms. For some patients, the beneficial effects may only be noticed after undergoing a few sessions. Do not be alarmed and keep your acupuncturist updated on what you are feeling to ensure everything is going as expected. You need never fear the thought of needles ever again. Acupuncture is a beneficial treatment with a long history of effectiveness. It is used to complement current medical therapy and should not replace currently existing medications or treatments.

The safe application of this once exclusively Chinese therapy can now be experienced by chronic disease sufferers worldwide.

A course of acupuncture therapy will last anywhere from a few weeks to a few months. This depends upon the complexity of the particular medical condition. Results also vary, so it is important to have a frank discussion with the acupuncturist regarding expected results and their time frame. In general, the patient will begin to feel beneficial effects after three or four session. Certain specific conditions will actually get a little worse before improving so keeping informed is key.

In modern medicine, the use of traditional techniques with proven results has become a widely accepted practice. Acupuncture has proven its worth time and again. Modern practice guidelines make it effective, reproducible, and safe. It is a gift of healing form ancient sages that has the potential to bring relief to millions of people.

~~Preliminary studies have shown that acupuncture may provide symptomatic relief to children suffering from autism.~~

Although difficult at first, it is believed that it is rewarding in the long run. This is because while conventional therapy and treatment requires that the child stay still, acupuncture doesn't. Some say it's a quick prick at the vital points in the body.

A rest of about a month is generally advised and normal activities can be resumed after acute symptoms disappear. Also care should be taken to avoid physical activities which are heavy in nature and also activities or sports involving physical contacts should also be avoided. Care must also be taken to avoid eating sweet things in excess for few months.

#### **Menstrual Disorders in Adolescent Girls**

Adolescence is the time when there is sudden transformation in the body and many questions arises in the minds of the adolescents. Firstly they are not able to cope with the changes and secondly the changes bring along problems with them. The most challenging problems are related to menses, in girls. Menstrual conditions are many that may require physician's attention or any other healthcare professional's attention. The most common of the menstrual disorders are premenstrual syndrome, dysmenorrheal and amenorrhea.

Before the onset of the menses, females face many uncomfortable symptoms which last for a short period, stretching from few hours to few days. But some of them can be very intense and can disturb the normal functioning of the person. These symptoms are grouped as premenstrual syndrome. In usual cases, the symptoms come to a halt when the menses begin, but for some they may last even after the menstrual periods are over. Eighty five percent of the females experience some of the symptoms of premenstrual syndrome at one time or the other. Nearly forty percent experience the symptoms so intensely that their daily chores are affected by it and ten percent are disabled by it.

#### **Variations of Conventional Acupuncture**

Auriculotherapy or ear acupuncture is one of the variations of conventional acupuncture. In this practice, it is believed that the ear provides a map for all the major bodily organs. A specific area or point on the ear corresponds to a particular organ, such as the heart, kidneys, or liver. Thus, the needles are placed in particular points around the ear and on the ear cartilage.

Staplepuncture is a method used in smoking cessation, wherein staples are placed for a certain period anywhere on the ear area to provide stimulation.

Indeed there is growing evidence that this traditional Oriental practice can rival any modern forms of treatment. If you are one of the many people who are looking for a widely recognized and time honored therapeutic practice, acupuncture may just be the alternative treatment for you.

Acupuncture treatment for smokers should only be done by a license professional. You can do some research online to find out if they are accredited by the National Commission for Acupuncture and Oriental Medicine, ask how long they have been in the profession, find out how many smokers they have helped and how much will they charge. Once you have found one, you have to commit yourself to the program because both you and the acupuncturist have to work together to give up this habit.

Acupuncture can help smokers in the same way that it has helped addicts and alcoholics quit their addictions. You just have to try it even if you may not believe in it.

The Best la citt metropolitana nellunione europea programmazione comunitaria...Amenorrhea is the condition in which the female skips her menses for more than three consecutive menstrual cycles. Amenorrhea is also classified as primary amenorrhea and secondary amenorrhea. Primary amenorrhea develops from the onset of menstrual periods. In this condition, the adolescent might not get periods when she enters puberty. Secondary amenorrhea is a condition where periods become irregular after a period of time and not from the start.

There are many causes of amenorrhea such as ovulation abnormality, eating disorders, birth defects, anatomical abnormalities, malnourishment, anorexia, bulimia, pregnancy, over exercising, thyroid disorder, obesity and other medical conditions. Out of these ovulation abnormalities are a common cause for absent or irregular periods. It is a must that an adolescent start getting menses at least by the age of sixteen. If not, anatomical abnormality, birth defect and other medical conditions are the cause. Adolescents who participate in sports actively and are athletic have a lower body fat content because of which they have absent menses. Even because of malnourishment, the body is incapable of sustaining pregnancy. So in turn the body itself shuts down the reproductive system and menses. Extra fat cells in the body interfere with ovulation and that is the reason why obese female have irregular menses. Amenorrhea is treated by dietary modifications, ovulation inhibitors and hormone treatment.

The needles used in acupuncture are very small and you will probably feel a slight twitch when the needle goes in. They will be inserted carefully to  $\frac{1}{4}$  or an inch in depth and will stay there from 45 minutes to an hour depending on the condition of the patient.

If inserted properly, you should feel some cramping, distention, electric sensation or tingling which means that the treatment is working.

Needles used for acupuncture especially in the US are clean because they are required to be disposable. This prevents any chance that those who go for treatment will be contaminated by a communicable disease like hepatitis or HIV.

Collection of pieces of evidence is very important and also its documentation. Courtroom proceedings use the documented papers. Aside from that, forensic accountants also prepare the needed reports for the effective management of the concerned company or enterprise and reports for the litigation parties or agencies. In court proceedings, forensic accountants testify to provide depositions based on their findings.

Various agencies and companies hire the services of forensic accountants. Most of them are included in the agency staffs of law enforcements and criminal investigations. Criminals are prosecuted based on the money trail tracked by the accountants. CPA firms also have available forensic accountants in their staff to assist partnership and shareholder disputes, employee theft or fraud, business loss, and issues of professional negligence. Insurance companies also hire the services of forensic accountants to investigate some insurance claims.

The person can only be normal if there is harmony between the two which is what acupuncture is trying to achieve. This can only be restored by stimulating these acupuncture points so your Qi can be adjusted, balanced and harmonized.

Apart from using needles, practitioners also use friction, heat, impulses of electromagnetic energy and pressure to stimulate these points in order to balance the movement of energy in the body to reduce one's health.

An example of this is sonopuncture where an ultrasound device that transmits sound waves is applied to these points in the body. Some use a tuning fork and other vibration devices.

The second accountancy career that you may be able to land is serving as a public accountant. If you're already a CPA, you can serve the general public. You will be called a public accountant once there is already the so-called practitioner-client connection or relationship. Even those accountants who are not yet certified can already practice their profession. Oftentimes, CPAs join partnerships and they have a wide scope of clientele from the local area to the national and even international clients at times.

Being a government accountant is another career. In this profession, you will be working for the government, whether local, state, or federal. The accounting methods used conventionally are also used in government accounting. You will make use of the method called double-entry systems and you will be using journals as well as ledgers. If you're a government accountant, you will be focusing more in rendering service. Government units are not very particular with profits because they are put up to serve the public.

Fiduciary accounting is another type of accountancy careers. Here, accounting relies on trust. Executors, administrators, trustees, or any other person who is trustworthy can do fiduciary accounting. A fiduciary accountant keeps important records and he also prepares certain reports. The courts can authorize these fiduciary accountants to carry out their tasks.

These are then removed and replaced with ear tacs with adhesives to make sure they are in the same spot as the needles.

These ear tacs work by applying mild pressure whenever he or she feels hungry. It causes a mild endorphin release and helps the patient relax making it possible to use their willpower and resist the temptation to eat.

The patient will also have to reduce cravings on certain food by cutting down the intake. Some studies suggest that this can also lower insulin levels or lipid levels in the blood.

Life Lessons from la citt metropolitana nellunione europea programmazione comunitaria, Symptoms of depression in adolescents are eating disorders, weight change, irritable mood, excessive sleeping in daytime, excessive temper, criminal behavior, memory loss, fatigue, self preoccupation, sadness, difficulty in concentrating, worthlessness feelings, loss of interest, self hatred, obsession with death and thought & attempts of suicides. When these symptoms are being noticed for more than two weeks, it is important to get treatment for the adolescent.

Depression not only affects interpersonal relationships, but school performance as well. Depressed adolescents are more prone to take onto drugs and alcohol as an attempt to overcome their depression. Such problems require intensive treatment.

The doctor will take blood test and perform physical examination to determine the cause of depression. The adolescent can also be tested for substance abuse such as smoking, heavy alcohol consumption, marijuana smoking, and usage of other drugs. After the physical examination, psychiatric evaluation is also done to understand the cause of sadness, loss of interest and irritability. Depression can also lead to the development of other psychiatric disorders such as schizophrenia, mania and anxiety. It is also important to determine whether the adolescent poses a risk for himself/herself and others. Family and school personnel can provide valuable information about the adolescent to the doctor.

Treatment for depression for adolescent is similar to the treatment of depression for adults. Along with the treatment, the adolescent are given antidepressant medication and psychotherapy. Antidepressant medications include tricyclics, Prozac, selective serotonin reuptake inhibitors or SSRI. Some of the medicines increase the risk, so it is a good idea that parents discuss the possible risks with the doctor. Only some of the antidepressant medications are meant for children and adolescents. Adolescents with severe depression need to be hospitalized as they are more prone to kill themselves.

There are basically two types of diabetes that will affect an adolescent. It is type 1 diabetes and type 2 diabetes. Type 1 diabetes affects the immune system's function as the systems attacks the pancreas' insulin producing cells, also known as the beta cells. Because of this, the pancreas loses the ability to manufacture insulin. This is the reason why people with type 1 diabetes take insulin everyday. The symptoms are weight loss, increase in urination & thirst, blurred vision, tiredness and constant hunger. And if the adolescent isn't treated at the right time, he/she can slip in to diabetic coma which can endanger his/her life. In type2 diabetes, the body is incapable of properly using the insulin produced by the body and requires insulin from an external source, too. The symptoms of type 2 diabetes are similar to type 1 diabetes. The teenager feels sick, tired, nauseated, and thirsty. The wounds will recover very slowly; he/she will get infections frequently, will develop blurred vision and will experience weight loss.

Parents play a vital role in determining the problem. They should constantly observe their child for eating disorders or signs of depression. Although cigarette, drugs and alcohol should be avoided by all adolescents and children, it is even more important that youngster with diabetes should stay away from these things as they can worsen the situation. A person with diabetes, who switches to smoking, is at risk of developing cardiovascular diseases and circulatory problems. Consumption of alcohol can cause hypoglycemia or low blood sugar. It is the duty of the parents to make their child aware of the possible risk they would face if they start to smoke, drink

alcohol or take drugs.

Children and adolescents, who have diabetes, face many challenges while trying to lead a normal life. They have to think twice before doing simple things as going to a party, playing sports and even when staying over with friends. This is because they require to intake oral medication or insulin. Their blood sugar level must be checked many times through out the day. Also, at gatherings, they have to avoid many food items. Because of this they will feel different from the crowd and can feel left out. Not only does diabetes pose behavioral challenges, but also emotional challenges.

Diabetes is a disease where the human body is incapable of producing or utilizing insulin. Insulin is a hormone produced by the body in order to get energy by converting starches, sugar and other items. Since the insulin isn't used properly in diabetic people, the blood sugar level increases. This glucose buildup is found in blood and is then passed onto the urine and comes out of the body and the major source of body energy is lost.

Diabetes is a serious chronic disease and should be handled at proper time; otherwise it can create serious problems. It can pose a risk and can damage parts of the human body such as eyes, teeth, gums, blood vessels, nerves, and kidneys. This is the reason why diabetes is responsible in most of the cases of adult blindness, kidney failure and lower limb amputations. And if left untreated, it can cause stroke, heart disease and eventually, death. These problems are not only faced by adults, but also adolescents who get diabetes in their childhood. The important factor in treatment of diabetes is to keep the blood sugar level normal at all times.

## Church Accounting Software

The church is a respected institution since it commands the people's general faith. It is always given utmost respect. The secular welfare and religious functions of the church are performed through the faith of its constituents. Church activities need funding and the funds come from Christians all over the world. Are you aware that the Christian contributions can reach billions?

That's true and with such great amount of money, the church should make use of accounting. One way to do this is through a church accounting software. The church should be accountable for their people's money; church officials should therefore monitor where all the money came from and where it is being spent.

The church is a large institution and so are its financial transactions. In order to manage the accounts, the church will need a skilled force of financial experts. However, that would mean additional cost to the church since they have to pay for the services. It can consume so much time and money.

Different fields of study make use of certain terms that are not easily understood by others. If you're an accounting student or a professional accountant, you know the different terms used in accounting. One very popular term is profit & loss.

So, do you know what the term means? To start with, you have to determine what profit means. Profit can be referred to as net earnings or net income. Businesses can either sell services or even products. Profit will come from the sales of these services and products. If the costs of running a business are controlled, it can add up to the profits.

Profits are also called ROI or return on investment. However, this term is often limited to securities like bonds or stocks. But still, some companies use ROI to mean short or long term business outcomes. Taxable income is another term for profit.
