Management 2020 Stephen P. Robbins "This course and this book are about management and managers. Managers are one thing that all organizations--no matter the size, kind, or location--need. And there's no doubt that the world managers face has changed, is changing, and will continue to change. The dynamic nature of today's organizations means both rewards and challenges for the individuals who will be managing those organizations. Management is a dynamic subject, and a textbook on it should reflect those changes to help prepare you to manage under the current conditions. We've written this 14th edition of Management to provide you with the best possible understanding of what it means to be a manager confronting change and to best prepare you for that reality. But not every student aspires to a career in management. And even if you do, you may be five or ten years away from reaching a managerial position. So you might rightly feel that taking a course in management now may be getting ahead of the game. We hear you. In response to these concerns, we've added new material to this book that is important and relevant to everyone working in an organization--manager and non-manager alike. Our "Workplace Confidential" pages identify, analyze, and offer suggestions for dealing with the major challenges that surveys indicate frustrate employees the most. You should find these pages valuable for helping you survive and thrive in your workplace." Surprisingly, this topic has rarely been addressed in business programs. Inclusion in an introductory management course appeared to us to be a logical place to introduce these challenges and to provide guidance in handling them"--

This new, even better edition contains 10 brand new rules to take you further, faster.In Wired to Care, top business strategist Dev Patnaik tells the story of how organizations of all kinds prosper when they tap into a power each of us already has: empathy, the ability to reach outside of ourselves and connect with other people. When people inside a company develop a shared sense of what's going on in the world, they see new opportunities faster than their competitors. They have the courage to take a risk on something new. And they have the gut-level certitude to stick with an idea that doesn't take off right away. People are Wired to Care, and many of the world's best organizations are, too.

I Moved Your Cheese 2013-09-02 Deepak Malhotra The author of Negotiating the Impossible “tackles our assumptions about business and life with humor, zest, and wisdom in this delightful fable” (Daniel H. Pink, New York Times bestselling author). If you were a mouse trapped in a maze and someone kept moving the cheese, what would you do? In a world where most mice dutifully accept their circumstances, ask no questions, and keep chasing the cheese, Deepak Malhotra tells an inspiring story about three unique and adventurous mice—Max, Big, and Zed—who refuse to accept their reality as given. I Moved Your Cheese reveals what is possible when we finally discard long-held and widely accepted assumptions about how we should live our lives. After all, achieving extraordinary success, personal or professional, has always depended on the ability to challenge assumptions, reshape the environment, and play by a different set of rules—our own. But rejecting deeply ingrained beliefs is not easy. As Zed explains, “You see, Max, the problem is not that the mouse is in the maze, but that the maze is in the mouse.” “Deepak Malhotra allows you to glimpse a world of your own making without the limits and barriers that others create.” —Stephen R. Covey, New York Times bestselling author of The 7 Habits of Highly Effective People “A magnificent story with a powerful message. As someone who has encouraged scores of professionals into breaking through the maze and defining their own pursuits, I find this to be a gem of a book.” —Vinod Khosla, cofounder, former CEO and Chairman, Sun Microsystems, and founder, Khosla Ventures “This book’s message is both profound and durable. Malhotra has left the maze, and so can we.” —Foreword Reviews
