Crisis Negotiations 2020-07-16 Michael J. McMains Crisis Negotiations: Managing Critical Incidents and Hostage Situations in Law Enforcement and Corrections, the sixth edition, is an invaluable resource for mitigating, managing, or responding to high risk negotiation incidents. This revision includes the current research on negotiating high-risk incidents in the classroom and the field. It includes an applied analysis of the value of psychopathology to high-risk perpetrators. It refines the "empirical eclecticism" introduced in the fourth edition to provide a conceptual basis for crisis negotiations. The authors include summary bullet points at the end of each chapter for easy reference when negotiators are in the field and a review of the literature since the last edition appeared. Their discussion of the strategic planning process involved in high-risk negotiation incidents focuses clearly on the critical questions negotiators need to ask themselves about any high-risk incident and provides a practical approach to the psychology of individuals that engage in high-risk incidents. Known as "the bible" to experienced professionals in the field, this sixth edition of Crisis Negotiations is vital for practitioners as well as for criminology, criminal justice or psychology courses in crisis management, applied psychology, and special operations in law enforcement and corrections. Instructors will find it well supported by ancillary materials including discussion questions, slide presentations, and a test bank, as well as case studies and self-assessment quizzes for students, making it easy to develop a first-time course or to integrate it into an existing course.

Crisis Management for Law Enforcement 2014 James Smith Crisis Management for Law Enforcement explores the knowledge base and procedures necessary for a law enforcement leader to plan, mitigate, and respond to a crisis and the subsequent consequences. A feature of the textbook is that actual events are

explored in a Lessons Learned section. This not only provides the law enforcement leader with lessons in what he or she should do, but also addresses those actions he or she should not take. Situational awareness is explored from a strategic and tactical standpoint to provide the leader an understanding of the value of both. Crisis Management also provides tactical situational awareness and guidance for the onsite leader in tactical decision making. Essential information is provided to allow the law enforcement leader to function in the dynamic and evolving environment of terrorism, WMD, natural disasters, and public disorder. The dynamics of leadership during a crisis are discussed. The problems inherent in evacuations, emergency sheltering, sheltering in place, and access issues are discussed and problems such as interagency interfaces, Law Enforcement Incident Management System, and NIMS are addressed. Decision making is explored with legal concepts involving "who is in charge," forcible evacuations, scene access, and interagency operations. This textbook provides an overview and essential information for the law enforcement leader to identify the areas in which additional information, study, planning, and education are required. A pdf combining the teacher's manual and test bank is available. The test bank is also available in Word (broken down by chapter) and in Blackboard-compatible files.
