Motivating Language Theory

2017-09-07 Jacqueline Mayfield This book presents the findings, applications, and theoretical underpinnings of a unique leadership communication model: motivating language theory. Drawing from management, social science, and communication theories, motivating language theory demonstrates how leader-to-follower speech improves employee and organizational well-being and drives positive workplace outcomes (such as employee performance, retention, and job satisfaction) in a wide array of settings. It presents an integrated model based on empirical findings and theoretical developments from the past three decades to explore the three dimensions of motivating language: direction giving language, empathetic language, and meaning-making language. It will be a comprehensive source for its empirical relationships, generalizability, theoretical basis, and future directions for research and practice.

Managing With Power

1993-11-12 Jeffrey Pfeffer Although much as been written about how to make better decisions, a decision by itself changes nothing. The big problem facing managers and their organizations today is one of implementation—how to get things done in a timely and effective way. Problems of implementation are really issues of how to influence behavior, change the course of events, overcome resistance, and get people to do things they would not otherwise do. In a word, power. Managing With Power provides an in-depth look at the role of power and influence in organizations. Pfeffer shows convincingly that its effective use is an essential component of strong leadership. With vivid examples, he makes a compelling case for the necessity of power in mobilizing the political support and resources to get things done in any organization. He provides an intriguing look at the personal attributes—such as flexibility, stamina, and a high tolerance for conflict—and the structural factors—such as control of resources, access to information, and formal authority—that can help managers advance organizational goals and achieve individual success.
