The book "Analyzing Casual Conversation" by Suzanne Eggins and Diana Slade, first issued in 1997, develops a organized model for the examination and portrayal of casual conversation in English. The scholars assert that notwithstanding its at times aimless look and ostensibly unstructured material, casual conversation is a highly structured undertaking and performs a crucial role in the social construction of reality. The work goes through genuine instances of casual conversations entailing participants varying in age, gender, ethnicity, and socio-economic class¹². Pulling on understandings from sociology, linguistics, and critical semiotics, the work equips readers with the analytic skills to portray the layers of structure and critical interpretive structures to clarify the 'social work' that occurs on through chat.
