The Romance of Reality

2022-06-28 Bobby Azarian Why do we exist? For centuries, this question was the sole province of religion and philosophy. But now science is ready to take a seat at the table. According to the prevailing scientific paradigm, the universe tends toward randomness; it functions according to laws without purpose, and the emergence of life is an accident devoid of meaning. But this bleak interpretation of nature is currently being challenged by cutting-edge findings at the intersection of physics, biology, neuroscience, and information theory—generally referred to as “complexity science.” Thanks to a new understanding of evolution, as well as recent advances in our understanding of the phenomenon known as emergence, a new cosmic narrative is taking shape: Nature’s simplest “parts” come together to form ever-greater “wholes” in a process that has no end in sight. In *The Romance of Reality*, cognitive neuroscientist Bobby Azarian explains the science behind this new view of reality and explores what it means for all of us. In engaging, accessible prose, Azarian outlines the fundamental misunderstanding of thermodynamics at the heart of the old assumptions about the universe’s evolution, and shows us the evidence that suggests that the universe is a “self-organizing” system, one that is moving toward increasing complexity and awareness. Cosmologist and science communicator Carl Sagan once said of humanity that “we are a way for the cosmos to know itself.” *The Romance of Reality* shows that this poetic statement in fact rests on a scientific foundation and gives us a new way to know the cosmos, along with a riveting vision of life that imbues existence with meaning—nothing supernatural required.

Conscious Communications

2017-08-22 Mary Shores Whether we realize it or not, the words we use dictate and control our lives. The persistent messages we repeat can frame our thoughts and trap us into a mind-set that is difficult to break. This mind-set often manifests itself with statements like “I can’t,” “I’m not good enough,” and “I’ll never find the [insert the blank] I want.” Many times, we don’t stop to consider the profound impact that these negative, limiting words have on our mentality, life choices, and the path of possibility that we manifest. After gathering years of research and personal experience with how words affect individuals mentally and emotionally, business owner and communications specialist Mary Shores realized that there is a life-changing theme persistent throughout ancient traditions and spiritual foundations that is supported by scientific professionals. They all agree on one recurring truth: Words have the power to create and transform. Mary took her discoveries and created easy-to-follow, step-by-step practices that can transform each area of your life. Based on two decades of research, Mary teaches how you can create new neural pathways simply by changing your words. You can align your words, thoughts, and actions to produce the results you want. *Conscious Communications* can show you how! *Conscious Communications* is your guide to creating a life in alignment with your dreams and desires. With thoroughly tested exercises, research, advice, and personal stories, you will begin to experience the tremendous impact of words and how to utilize the right ones to unleash and unlock the power to create a new reality.

The Impersonal Life

2017 Joseph Benner To you, who, through long years and much running to and fro, have been eagerly seeking, in books and teachings, in philosophy and religion, for you know not what—Truth, Happiness, Freedom, God; To you whose Soul is weary and discouraged and almost destitute of hope; To you, who many times have obtained a glimpse of that “Truth” only to find, when you followed and tried to reach it, that it disappeared in the

beyond, and was but the mirage of the desert; To you, who thought you had found it in some great teacher, who was perhaps the acknowledged head of some Society, Fraternity or Religion, and who appeared to you to be a “Master,” so marvelous was the wisdom he taught and the works he performed;—only to awaken later to the realization that that “Master” was but a human personality, with faults and weaknesses, and secret sins, the same as you, even though that personality may have been a channel through which were voiced many beautiful teachings, which seemed to you the highest “Truth;” And here you are, Soul weary and enhungered, and not knowing where to turn— To you, I AM come. Likewise to you, who have begun to feel the presence of that “Truth” within your Soul, and seek the confirmation of that which of late has been vaguely struggling for living expression within; Yes, to all you who hunger for the true “Bread of Life,” I AM come. Are you ready to partake?

How Consciousness Creates Reality

2022-06-26 Claus Janew The main argument in this book is the undeniable openness of every system to the unknown. And the fundamental question goes: What does this openness produce? We are a part of the infinite universe and an incorporation of its wholeness. Both for us means an individualized reality, through which the universe expresses itself and on the other hand through which it is built up with. It also means our necessity, importance and indestructibility for the sum of its incorporations. Most connections among ourselves are hardly conscious for us. Meanwhile the infinitesimal structure of all consciousness guarantees not only the logical lack of inconsistency of these connections but also the freedom of choice of every individual. Our goal by no means can be to decide completely consciously. Responsibility contains spontaneity or rather trust in a meaningful working together of the forces. We increasingly become aware of our role in the entire relationship and we learn to contribute optimally to the value fulfillment of all individuals, ourselves included. Beyond the supposed differences between objective and subjective reality, we at some point of awareness comprehend that we create our reality out of our innermost depths.

Recognize the simplicity of all creation as step by step, Dr. Blackburn Losey answers these questions and more by weaving a straightforward yet comprehensive account of the universal construct, its relationship with sacred geometry, the manifestation of matter, consciousness and the harmonic relationship of all things beyond quantum physics from the essence and fabric of creation to this here and now. The Adventure of I

2013-05-23 Tania Kotsos *The Adventure of I* is one of the most complete, logical and practical books written about the power of the human mind, Universal Consciousness, the Laws and Principles of the Universe, and your ability to direct your mind and create the life you desire with the power of your will. This book will take you on a journey to the centre of your reality where you will discover the mighty I within, and in so doing, you will come to understand just what is meant by the greatest maxim of all time, ‘Know Thyself’. It is unlike other books on the subject in that it is

founded on what is called Top-Down-Living, which is to live life from the higher vantage point of your Real Self. Only by raising your degree of consciousness above the Physical Plane of your physical experience and the Mental Plane of your thoughts, desires and emotions, can you have directive power over them. Trying to change your physical experience at the degree of consciousness of the physical you is akin to manipulating an already printed photograph and expecting the changes to be reflected when you print it out again from the original negative. The Adventure of I teaches you how to change the 'original' so as to create lasting change in your life. You will gain an unparalleled understanding of the underlying mental nature of the Universe and how your mind creates your reality through It. You will discover the masculine and feminine principles of your mind and how they work together for the same purpose that is creation. You will learn precisely why your mind must, by definition, be one and the same with the One Universal Mind of The Absolute in Its entirety, for which nothing is impossible. You will learn about the seven Universal Laws and other Principles that govern everything and everyone in the Universe, and how to use the Higher Laws to master the Lower Laws and transcend the influence of polarity and rhythm in your life. You will learn practical techniques for consciously creating your experience of reality, one desire at a time, under the direction of your will and the knowing of your intuition. You will discover long-lost secrets about the nature of the Universe and your mind's central place within Its Omnipotence, and much more. Ultimately, The Adventure of I will empower you to utter the most profound statement, 'I AM I', with full authority, and in so doing, you will become the master of your destiny.

with meaning, and how to teach our children well. We are looking for a personal breakthrough, a turning point, a revelation that brings with it new meaning. The Book of Secrets—a crystalline distillation of insights and wisdom accumulated over the lifetime of one of the great spiritual thinkers of our time—provides an exquisite new tool for achieving just that. Because answers to the questions at the center of life are counterintuitive, they are often hidden from view, sequestered from our everyday gaze. In his ongoing quest to elevate our experience, bestselling author Deepak Chopra has isolated fifteen secrets that drive the narrative of this inspiring book—and of our lives. From "The World Is in You" and "What You Seek, You Already Are" to "Evil Is Not Your Enemy" and "You Are Truly Free When You Are Not a Person," The Book of Secrets is rich with insights. It is a priceless treasure that can transport us beyond change to transformation, and from there to a sacred place where we can savor the nectar of enlightenment.

The profit & loss of a certain company is determined by finance professionals through accounting. They can determine what created the profits as well as the losses. Accountants form some sort of business equation so justify the profits & losses of a business. By doing so, they can easily tell a company's net worth.

It seems that by simply starting to define one accounting term, it eventually leads to defining other terms as well. Net worth is another term that is quite difficult to understand. It refers to the resulting amount after deducting the liabilities of a company from the assets. Private companies refer to net worth as owner's equity.

Why owner's equity? Well, after deducting all the liabilities, what's left basically belongs to the owner. In the case of public companies, the profit of the business is returned as dividends to shareholders. As you can see, before owner or shareholders of a company can take hold of the profits, all liabilities must be deducted first.

You have worked so hard to leave this behind so stick to the path and stay smoke free.

There are basically 14 pathways throughout the body where chi flows continuously. These are called the meridian points. In order for chi to course through the body unobstructed, there has to be a balance between the strengths of yin and yang. In ancient Chinese philosophy, yin and yang represent the forces of the universe- yin is for feminine, while yang is for masculine. Every single thing in the universe is believed to contain both yin and yang for harmony.

When the yin and yang are not balanced, chi cannot stream through the body liberally. Therefore, the meridian points through which chi courses through need to be stimulated. This is done by the insertion of hair-thin, disposable needles in specific areas on a person's body to induce bodily harmony and bring about healing.

Acupuncture treatment for smokers should only be done by a license professional. You can do some research online to find out if they are accredited by the National Commission for Acupuncture and Oriental Medicine, ask how long they have been in the profession, find out how many smokers they have helped and how much will they charge.

Once you have found one, you have to commit yourself to the program because both you and the acupuncturist have to work together to give up this habit.

Acupuncture can help smokers in the same way that it has helped addicts and alcoholics quit their addictions. You just have to try it even if you may not believe in it.

Facial acupuncture treatment needs to be done twice a week for about 45 minutes to 1 hour. For those who can't make two sessions in a week, they can opt for the 1 treatment that will last 90 minutes.

Diabetes is a disease where the human body is incapable of producing or utilizing insulin. Insulin is a hormone produced by the body in order to get energy by converting starches, sugar and other items. Since the insulin isn't used properly in diabetic people, the blood sugar level increases. This glucose buildup is found in blood and is then passed onto the urine and comes out of the body and the major source of body energy is lost.

Diabetes is a serious chronic disease and should be handled at proper time; otherwise it can create serious problems. It can pose a risk and can damage parts of the human body such as eyes, teeth, gums, blood vessels, nerves, and kidneys. This is the reason why diabetes is responsible in most of the cases of adult blindness, kidney failure and lower limb amputations. And if left untreated, it can cause stroke, heart disease and eventually, death. These problems are not only faced by adults, but also adolescents who get diabetes in their childhood. The important factor in treatment of diabetes is to keep the blood sugar level normal at all times.

The most important precautionary measure is to brush the teeth regularly after every meal. Since the food can be easily lodged in braces, it is a good idea to brush carefully with soft bristles toothbrush and fluoride toothpaste. In the morning, the adolescent must floss between the braces and teeth. Food stuffs which are sticky or hard must be avoided as they are very difficult to remove. Foods like caramel, chew candy, popcorn, and nuts must be avoided. Cleaning must be done by the orthodontist or general dentist, every five to six months.

The wisdom teeth or third molars can grow in people of the age fifteen to twenty five. These teeth cause problem, because most of the mouths are too small to adjust new teeth and hence they need to be removed. If the wisdom tooth has place to grow, without affecting other teeth, they can be left to themselves. But if the adolescent experiences pain, facial swelling, mouth infection and gum-line swelling, then they should be extracted immediately. They can also destroy the second molars and impact other tooth. Various gum and jaw diseases can be caused. There can be a tumor development; cysts development and plaque build up. Hence, a surgery is performed to remove the tooth or teeth. The gum tissue covering the wisdom tooth is removed and the connective tissue connecting the tooth to the bone is detached. The tooth is then removed and the opening is sutured. A general dentist can perform wisdom tooth surgery in the local office using anesthesia.

Five times common than asthma is tooth cavities. The tooth above the gum line is made up of enamel, the hardest tissue within the human body. The tooth below the gum-line comprise of nerves, roots and dentin. Dentin is another type of tissue and isn't as hard as the enamel. The acid which leads to tooth decay is produced by bacteria. These acids, along with dietary sugar, attach the enamel and eat away the minerals within the enamel, until a cavity is formed. This is known as tooth cavity. The biggest prevention against dental cavities is brushing teeth twice a day and even better, after every meal with fluoride toothpaste and soft bristle toothbrush. Carbonated drinks must be avoided strictly and must be replaced with fruit juices and sugary

food must be avoided. Intake of fluoridated water also helps a lot or fluoride supplements can be used as replacement.

Aside from that, you should also make some lifestyle changes as there are trigger factors that have been known to cause migraines. Stress is number one on the list so you get enough rest and exercise as well as a balanced diet.

Patients who are suffering from migraine should also check if acupuncture is covered by their HMO. Most insurance providers and HMO's these days cover all or part of the cost but there are restrictions so you should check what is covered by your policy.

Once these spots are identified, these sharp needles are then inserted. Usually 5 needles are placed in various acupoints.

The needles used helps the body balance the serotonin levels since it is a neurotransmitter that affects blood vessels and has a role to play in migraines. In fact the more frequent these sessions are the better. It may even come to a point where the specific point of contact is no longer needed but the general stimulation itself.

The end result of undergoing acupuncture is amazing. If you experience 15 to 20 days of agonizing pain, this may be count down to only 8 days. You won't even need to use that much medication anymore as before.

For those who are working, this is good so that they are not absent from work that much and there won't be that much deductions in their salary.

Acne is one of the most common problems in adolescent teens affecting nearly seventeen million people in the United States. Acne is nothing but a disorder involving sebaceous glands and hair follicles. Acne results from the clogging of sebaceous glands leading to the formation of pimples and cysts. The condition usually begins with the onset of puberty. Going by the facts, as teens attain puberty the androgens also called male sex hormones are produced in high number leading to sebaceous glands becoming over active which results in sebum being produced in high proportions. Sebum, which is nothing but oil is produced by sebaceous glands which travel to the skin surface through hair follicles. But, skin cells block the follicles which results in oil also being blocked. When these hair follicles are blocked it results in the development of skin bacteria known as Propionibacterium Acnes within the follicles which in turn results in swelling of the skin called Acne. If the hair follicles are partially blocked it results in blackheads. If the follicles are completely blocked they result in whiteheads. But if these plugged follicles are not treated they ultimately burst causing the oil, bacteria and skin cells to spill all over the skin resulting in irritation and formation of pimples. Acne can be shallow as well as deep in various individuals depending on the nature of skin and amount of oil produced.

They use longer needles and insert them deeper in order to reach the acupuncture points. Modern science has found little evidence to prove the existence of these energy channels, but this is the technique that has been used effectively for thousands of years.

In medical acupuncture, the practitioners are graduates of western medical schools. Their application of needles is not based on the traditional acupuncture points, but on anatomic data. These acupuncturists use shorter needles and the insertions are shallower. They also tend to use fewer needles and leave them inserted for shorter periods of time. Adherents to TCM feel this is a watered-down version of the real thing. Nevertheless, many patients have felt relief of symptoms through this method.

Allergies in Adolescents

Allergies are reactions by immune system that are abnormal in nature to stuff that are usually harmless to majority of the people. When somebody is allergic to something the immune system of that person gets confused and thinks that the substance is detrimental to the body. The substances causing allergic reactions are known as allergens. The examples of allergens are dust, food, plant pollen, medicine etc. The body produces antibodies to protect itself from these allergens. The antibodies make certain cells present in the system to let chemicals to mix with the bloodstream and one of them is histamine. This chemical then acts on nose, eyes, skin, lungs, gastrointestinal tract and results in allergic reaction symptoms. Exposure to the same chemicals in future triggers same response to the antibodies again meaning every time one comes in contact with the same allergen, allergic reaction is produced in the body.
