**Dancing with the Gods** 2021-09-13 Monidipa Mukherjee This book is an ode to the mythological heritage of Bharatanatyam. To Be Like Gods 2010-01-01 Matthew G. Looper The Maya of Mexico and Central America have performed ritual dances for more than two millennia. Dance is still an essential component of religious experience today, serving as a medium for communication with the supernatural. During the Late Classic period (AD 600-900), dance assumed additional importance in Maya royal courts through an association with feasting and gift exchange. These performances allowed rulers to forge political alliances and demonstrate their control of trade in luxury goods. The aesthetic values embodied in these performances were closely tied to Maya social structure, expressing notions of gender, rank, and status. Dance was thus not simply entertainment, but was fundamental to ancient Maya notions of social, religious, and political identity. Using an innovative interdisciplinary approach, Matthew Looper examines several types of data relevant to ancient Maya dance, including hieroglyphic texts, pictorial images in diverse media, and architecture. A series of case studies illustrates the application of various analytical methodologies and offers interpretations of the form, meaning, and social significance of dance performance. Although the nuances of movement in Maya dances are impossible to recover, Looper demonstrates that a wealth of other data survives which allows a detailed consideration of many aspects of performance. To Be Like Gods thus provides the first comprehensive interpretation of the role of dance in ancient Maya society and also serves as a model for comparative research in the archaeology of performance.

Nomai Dance Drama 1999-11-30 Susan M. Asai Nomai dance drama, an artistic expression combining sacred, communal, economic, and cultural spheres of community life in the district of Higashidorimura, is a performing tradition that provides an identity to agriculturally based villages. It has retained features characteristic of the music, drama, and sacred practices of medieval Japan. N=omai singing exhibits traits linked to Buddhist chanting. The instrumental music originates from folk Shinto. This study highlights the social and cultural value n=omai has for the residents in villages that perform it by providing the historical context in which it is examined, as well as its current performance practices. As this work explores the aspects of agricultural Japanese society, revealed through a dance drama, it will appeal to music and drama

scholars as well as students of Japanese culture and history. After establishing the historical lens from which to view n^D=omai drama, the theatrical and musical aspects are discussed in detail. Photographs and musical examples enhance this thorough, well-organized study.

Celebrity Gods 2012-02-29 Benjamin Dorman Celebrity Gods explores the interaction of new religions and the media in postwar Japan. It focuses on the leaders and founders (kyōsō) of Jiu and Tenshō Kōtai Jingū Kyō, two new religions of Japan's immediate postwar period that received substantial press attention. Jiu was linked to the popular prewar group Ōmotokyō, and

its activities were based on the millennial visions of its leader, a woman called Jikōson. When Jiu attracted the legendary sumo champion Futabayama to its cause, Jikōson and her activities became a widely-covered cause célèbre in the press. Tenshō Kōtai Jingū Kyō (labeled odoru shūkyō, “the dancing religion,” by the press) was led by a farmer’s wife, Kitamura Sayo. Her uncompromising vision and actions toward creating a new society—one that was far removed from what she described as the “maggot world” of postwar Japan—drew harsh and often mocking criticism from the print media. Looking back for precursors to the postwar relationship of new religions and media, Benjamin Dorman explores the significant role that the Japanese media traditionally played in defining appropriate and acceptable social behavior, acting at times as mouthpieces for government and religious authorities. Using the cases of Renmonkyō in the Meiji era and Ōmotokyō in the Taishō and Shōwa eras, Dorman shows how accumulated images of new religions in pre-1945 Japan became absorbed into those of the immediate postwar period. Given the lack of formal religious education in Japan, the media played an important role in transmitting notions of acceptable behavior to the public. He goes on to characterize the leaders of these groups as “celebrity gods,” demonstrating that the media, which were generally untrained in religious history or ideas, chose to fashion them as “celebrities” whose antics deserved derision. While the prewar media had presented other kyōsō as the antithesis of decent, moral citizens who stood in opposition to the aims of the state, postwar media reports presented them primarily as unfit for democratic society. *Celebrity Gods* delves into an understudied era of religious history: the Allied Occupation and the postwar period up to the early 1950s. It is an important interdisciplinary work that considers relations between Japanese and Occupation bureaucracies and the groups in question, and uses primary source documents from Occupation archives and interviews with media workers and members of religious groups. For observers of postwar Japan, this research provides a roadmap to help understand issues relating to the Aum Shinrikyō affair of the 1990s.

Dance With the Devil 2010-04-01 Sherrilyn Kenyon Zarek's Point of View: Dark-Hunter: A soulless guardian who stands between mankind and those who would see mankind destroyed. Yeah, right. The only part of that Code of Honor I got was eternity and solitude. Insanity: A condition many say I suffer from after being alone for so long. But I don't suffer from my insanity-I enjoy every minute of it. Trust: I can't trust anyone...not even myself. The only thing I trust in is my ability to do the wrong thing in any situation and to hurt anyone who gets in my way. Truth: I endured a lifetime as a Roman slave, and 900 years as an exiled Dark-Hunter. Now I'm tired of enduring. I want the truth about what happened the night I was exiled-I have nothing to lose and everything to gain. Astrid (Greek, meaning star): An exceptional woman who can see straight to the truth. Brave and strong, she is a point of light in the darkness. She touches me and I tremble. She smiles and my cold heart shatters. Zarek: They say even the most damned man can be forgiven. I never believed that until the night Astrid opened her door to me and made this feral beast want to be human again. Made me want to love and be loved. But how can an ex-slave whose soul is owned by a Greek goddess ever dream of touching, let alone holding, a fiery star?

Spell of Fate 2011-11-09 Mayer Alan Brenner The author of *Spell of Catastrophe* and *Spell of Intrigue* delivers “a winner . . . An off-the-wall kind of fantasy” in the third *Dance of Gods* adventure (*Interzone*). Trouble is converging on the imperial city of Peridol, and whatever dance the gods are planning, Maximillian the Vaguely Disreputable wants to stay out of it. No such luck, though—it’s up to Max and his friends the Great Karlini and the Creeping Sword to unseat the despotic gods, who treat the mortal realm like a giant chess board. But with the gods fighting amongst themselves, no one is going to win this battle anytime soon—until a long-forgotten player re-enters the dance . . . “I was utterly hooked . . . The nearest I can get to the general tenor is *The Man from U.N.C.L.E.* with magic rings instead of talking pens.” —*Interzone* “Like riding on a racing carousel.” —Kliatt

A. Chakraborty, *USA Today* bestselling author of *The City of Brass* “A darkly intricate, devastating, and utterly original story.” —R. F. Trees of Paradise and Pillars of the World 2001-09-15 Elizabeth A. Newsome “Based on a thorough analysis of the imagery and inscriptions of seven stelae erected in the Great Plaza at Copan, Honduras, by the Classic Period ruler 18-Rabbit-God K, this study argues that stelae were erected not only to support a ruler's temporal claims to power but more importantly to

express the fundamental connection in Maya worldview between rulership and the cosmology inherent in their vision of cyclical time. After an overview of the archaeology and history of Copan and the reign and monuments of 18-Rabbit-God K, Elizabeth Newsome interprets the iconography and inscriptions on the stelae, illustrating the way they fulfilled a coordinated vision of the king's ceremonial role in Copan's period-ending rites. She also links their imagery to key Maya concepts about the origin of the universe, expressed in the cosmologies and mythic lore of ancient and living Maya peoples." "Because previous scholarship has never assigned all seven monuments to a single period or the patronage of one ruler, the uniqueness of Newsome's study lies in the way it explicates the overall meaning and function of the stela series with respect to the long-term activities and agendas of one king."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Mimetic Desires 2022-11-30 Harshita Mruthinti Kamath Through an exploration of subjects such as Gandhi impersonators, performance artists, and ritual participants, *Mimetic Desires* makes an intervention toward understanding the phenomenon of impersonation and guising in South Asia and the world. This volume defines impersonation as the temporary assumption of an identity or guise in social and aesthetic performance that is perceived as not one's own, and guising as sartorial and kinetic play more generally. Interrogating the legitimacy of the purported dialectic between the "real/original" and "fake/dupe," *Mimetic Desires* refutes the ordering of identity along the lines of a binary or dichotomy that presupposes the myth of an original identity. By peeling back the layers of performative masks to reveal the process of the masquerade itself, we can see that those with the most social capital are often those with the most power and opportunities to impersonate "up" and "down" social hierarchies. The book's twelve chapters disclose sites and processes of sociopolitical power facilitated by normative markers of social status relating to race, ethnicity, gender, caste, class, and religion—and how those markers can be manipulated to express and enhance individual and group power. The first comprehensive study to focus on impersonation in South Asia, *Mimetic Desires* expands on previous scholarship on impersonation and guising in vernacular theatre, dance, public processions, and religious rituals. It is particularly in conversation with the robust scholarship on gender performance in South Asia's theatrical and dance forms. *Mimetic Desires* explores some of the contexts and forms of impersonation in South Asia, with its remarkable array of performing arts, to gain insight into the very human and quotidian practices of impersonation and guising.

Formulated by Lloyd M. Dunn and Douglas M. Dunn, the test is made to measure receptive vocabulary for Standard American English. It is fast and effortless to conduct, conserving precious time so that focus can be set on executing effective approaches.

The PPVT-4 evaluation subject matter includes a wide range of receptive vocabulary ranks, extending from pre-kindergarten through adulthood. The test questions broadly include words that portray 20 subject domains (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and educational vocabulary.

The evaluation offers two identical editions which contain different vocabulary items, making sure that the individual has not "mastered" the assessment. One form can be utilized before intervention implementation to evaluate people's vocabulary knowledge and the alternative edition can be used for re-evaluation to assess and note progress. The PPVT-4 also features a special Growth Scale Value (GSV) which is sensitive to minor changes in time.
