## High-Performance Modelling and Simulation for Big Data Applications

2019-03-25 Joanna Kołodziej This open access book was prepared as a final publication of the COST Action IC1406 "High-Performance Modelling and Simulation for Big Data Applications (HiPSet)" project. Long considered important pillars of the scientific method, modelling and simulation have evolved from traditional discrete numerical methods to complex data-intensive continuous analytical optimisations. Resolution, scale, and accuracy have become essential to predict and analyse natural and complex systems in science and engineering. When their level of abstraction raises to have a better discernment of the domain at hand, their representation gets increasingly demanding for computational and data resources. On the other hand, high performance computing typically entails the effective use of parallel and distributed processing units coupled with efficient storage, communication and visualisation systems to underpin complex data-intensive applications in distinct scientific and technical domains. It is then arguably required to have a seamless interaction of high performance computing with modelling and simulation in order to store, compute, analyse, and visualise large data sets in science and engineering. Funded by the European Commission, HiPSet has provided a dynamic trans-European forum for their members and distinguished guests to openly discuss novel perspectives and topics of interests for these two communities. This HiPSet compendium presents a set of selected case studies related to healthcare, biological data, computational advertising, multimedia, finance, bioinformatics, and telecommunications.

## In the Presence of the Past

2013-03-11 R.T. Bienvenu The broad canvas covered by the articles in the present volume celebrates the diversity and richness of the writings of Frank Manuel during a scholarly career that spans over five decades. The subjects of the articles - ranging from science to utopia, from theology to political thought - mirror many of the themes Manuel has written about with erudition, flair and uncommon perception. It is only fitting that in paying tribute to such a defiant intellect each author brings to his treatment a distinct perspective and texture, the result of his own original forays into the history of ideas. Yet underlying all the essays is the conviction that the study of the intersection of individuals and ideas still yields a rich harvest. Presented to Frank on the occasion of his eightieth birthday, *In the Presence of the Past* honors a teacher, a friend and, above all, a scholar. R. T. Bienvenu and M. Feingold (eds). *In the Presence of the Past*. VII. Martin Peretz Frank Manuel: An Appreciation It was finally because of Frank Edward Manuel that I decided (however belatedly) to forgo a proper academic career. Since I had not left so much as a leafscar on the tree of the scholarly culture this is not a fact which anyone else would have reason to notice. It is also not, I am happy to add, something for which Manuel will be especially remembered.

## The Initiates

2013-03-01 Tienne Davodeau Winner of: Gourmand Magazine Best US Wine Book Translation Slate Cartoonist Studio Award nominee A graphic novel that explores the nature of one's vocation, this book offers a look at the daily devotion to craft in two dissimilar professions. Tienne Davodeau is a comic artist—he doesn't know much about the world of winemaking. Richard Leroy is a winemaker—he's rarely even read comics. But filled with good will and curiosity, the two men exchange professions, and Tienne goes to work in Richard's vineyards and cellar, while Richard, in return, leaps into the world of comics. Providing a true-life representation of how both professions work, this insightful book investigates two fascinating fields, exploring each man's motivations and ultimately revealing that their endeavors and aspirations are not much different.

## Waiting for Bojangles

2020-03-17 Olivier Bourdeaut An "oddball fairy tale" (The New York Times)—shortlisted for one of France's highest literary prizes—a dark, funny, and wholly charming novel about a young boy and his eccentric family, who grapple with the realities of mental illness in unique and whimsical ways. A young boy lives with his madcap parents, Louise and George, and an exotic bird in a Parisian apartment, where the unopened mail rises in a tower by the door and his parents dance each night to Nina Simone's mellifluous classic "Mister Bojangles." As his mother, mesmerizing and unpredictable, descends deeper into her own mind, it is up to the boy and his father to keep her safe—and, when that fails, happy. Fleeing Paris for a country home in Spain, they come to understand that some of the most radiant people bear the heaviest burdens. Told from the perspective of a young boy who idolizes his parents—and from George's journals, detailing his epic love story with his wife—*Waiting for Bojangles* is a "lighthearted and yet sorrowful tale" (San Francisco Chronicle) that will stay with you long after the books are closed. *Nature and Scripture*

2013-03-09 J.E. Force Dick Popkin and James Force have attended a number of recent conferences where it was apparent that much new and important research was being done in the fields of interpreting Newton's and Spinoza's contributions as biblical scholars and of the relationship between their biblical scholarship and other aspects of their particular philosophies. This collection represents the best current research in this area. It stands alone as the only work to bring together the best current work on these topics. Its primary audience is specialised scholars of the thought of Newton and Spinoza as well as historians of the philosophical ideas of the late seventeenth and early eighteenth centuries.
