USURPERS, A New Look at Medieval Kings

2021-10-13 Michele Morriscal This examination of six usurper kings of England, and the people and circumstances surrounding them, is “A masterpiece of academic scholarship” (Midwest Book Review). In the Middle Ages, England had to contend with a string of usurpers who disrupted the British monarchy—and ultimately changed the course of European history by deposing England’s reigning kings and seizing power for themselves. Some of the most infamous usurper kings to come out of medieval England include William the Conqueror, Stephen of Blois, Henry Bolingbroke, Edward IV, Richard III, and Henry Tudor. Did these kings really deserve the title of usurper, or were they unfairly vilified by royal propaganda and biased chroniclers? This book examines the lives of these six medieval kings, the circumstances that brought each of them to power, and whether or not they deserve the title of usurper. Along the way readers will hear stories of some of the most fascinating people of medieval Europe, including Empress Matilda, the woman who nearly succeeded at becoming the first ruling Queen of England; Eleanor of Aquitaine, the queen of both France and England, who stirred her own sons to rebel against their father, Henry II; Richard II, whose cruel and vengeful reign caused his own family to overthrow him; Henry VI, Margaret of Anjou, Richard of York, and Edward IV, who struggled for power during the Wars of the Roses; the notorious Richard III and his monstrous reputation as a child-killer; and Henry VII, who rose from relative obscurity to establish the most famous royal family of all time: the Tudors.

The Wars of the Roses

2014-10-14 Dan Jones The author of the New York Times bestseller The Plantagenets and The Templars chronicles the next chapter in British history—the historical backdrop for Game of Thrones The inspiration for the Channel 5 series Britain’s Bloody Crown The crown of England changed hands five times over the course of the fifteenth century, as two branches of the Plantagenet dynasty fought to the death for the right to rule. In this riveting follow-up to The Plantagenets, celebrated historian Dan Jones describes how the longest-reigning British royal family tore itself apart until it was finally replaced by the Tudors. Some of the greatest heroes and villains of history were thrown together in these turbulent times, from Joan of Arc to Henry V, whose victory at Agincourt marked the high point of the medieval monarchy, and Richard III, who murdered his own nephews in a desperate bid to secure his stolen crown. This was a period when headstrong queens and consorts seized power and bent men to their will. With vivid descriptions of the battles of Towton and Bosworth, where the last Plantagenet king was slain, this dramatic narrative history revels in bedlam and intrigue. It also offers a long-overdue corrective to Tudor propaganda, dismantling their self-serving account of what they called the Wars of the Roses.

Shakespeare’s Kings

1999 John Julius Norwich Compares the historical kings with their portrayal in Shakespeare’s plays.

The Merchant of Venice

2022-12-15 William Shakespeare The Merchant of Venice is a play written by William Shakespeare. This comedy is believed to have been written between 1596 and 1598. In this 16th-century play, Antonio, a merchant in Venice, defaults on a substantial debt made by Shylock, a Jewish moneylender, who without mercy, demands a pound of his flesh. Shylock also wants to get even with Antonio for making anti-Semitic comments. Portia, now the wife of Antonio’s friend, Bassanio, finally saves Antonio. Bassanio, the best friend of Antonio, is a spendthrift who wasted all of his money in order to be seen as a respectable man. He is determined to marry Portia, a wealthy and intelligent heiress of Belmont. In the ensuing scenes, Portia’s speech about “the quality of mercy” plays an important part in the drama. Although the play’s main goal is to show the conflict between the right to property and the right to life, it also explains the ensuing minor clash between a parent’s will and a child’s right to choose.

Henry V

1968 C. T. Allmand

The Oxford Illustrated History of the British Monarchy

1988 John Cannon This is the most authoritative account ever published of that most envied of British institutions: the monarchy. With over 400 illustrations – no less than one third of them in colour – it tells the full story of the monarchy, presenting a vivid picture not only of the lives of individual kings and queens, but also of the monarchy as a political and social force from Anglo-Saxon times to the present. The story begins in the fifth century; progressing through the Dark Ages, Ralph Griffiths describes the emergence of recognizable kingdoms in Scotland, Wales, and England. He then goes on to discuss the continental role of English monarchs from William the Conqueror to King John, and the refocusing of royal power in Britain from the thirteenth century with the extension of English rule to Wales, the consolidation of the Scottish kingdom, and the forging of a new relationship between monarch and nation. He also explains the way in which key traditions evolved, including the right of succession, coronations and marriages, oaths of loyalty and military service, the granting of lands and titles, and the propagation of a powerful image of royalty. John Cannon takes up the story from the reign of Henry VIII, and continues the exploration of these crucial themes. Guiding the reader through the governing monarchy of the Tudors and Stuarts and the changes that followed the loss of the throne in the Civil Wars, he goes on to look at the Hanoverians and the combination of personal rule and government by Parliament. Finally, he describes the emergence of the constitutional role of the crown in Queen Victoria’s reign, and the enduring basis this has bestowed upon today’s popular symbolic monarchy. Alongside this colourful and eventful tale of power and government, the book also looks at the many ways in which our social and cultural history has been shaped by monarchs and the image of royalty – as landowners, builders, sportsmen and women, patrons of the arts, and as the focus of court life, whether idealized or profane. The main account is interspersed with individual panels which focus in vivid detail on each monarch and on key general themes, such as the peerage, chivalry, and coronation rituals. The book is lavishly illustrated throughout, and the text is accompanied by a comprehensive body of reference material, including colour maps, an illustrated section on royal residences and tombs, a consolidated list of monarchs, genealogies, suggestions for further reading, and a full index.

Henry VII

1999-07-11 S.B. Chrimes Founder of the Tudor dynasty, Henry VII was a crucial figure in English history. In this acclaimed study of the king’s life and reign, the distinguished historian S. B. Chrimes explores the circumstances surrounding Henry’s acquisition of the throne, examines the personnel and machinery of government, and surveys the king’s social, political, and economic policies, law enforcement, and foreign strategy. This edition of the book includes a new critical introduction and bibliographical updating by George Bernard.

King Richard III

1882 William Shakespeare

The Life of King Henry the Fifth

1890 William Shakespeare

Edward III

2012-01-24 W. M. Ormrod Edward III (1312-1377) was the most successful European ruler of his age. Reigning for over fifty years, he achieved spectacular military triumphs and overcame grave threats to his authority, from parliamentary revolt to the Black Death. Revered by his subjects as a chivalric dynamo, he initiated the Hundred Years’ War and gloriously led his men into battle against the Scots and the French. In this illuminating biography, W. Mark Ormrod takes a deeper look at Edward to reveal the man beneath the military muscle. What emerges is Edward’s clear sense of his duty to rebuild the prestige of the crown, and through military gains and shifting diplomacy, to secure a legacy for posterity. New details of the splendor of Edward’s court, lavish national celebrations, and innovative use of imagery establish the king’s instinctive understanding of the bond between ruler and people. With fresh emphasis on how Edward’s rule was affected by his family relationships—including his roles as traumatized son, loving husband, and dutiful father—Ormrod gives a valuable new dimension to our understanding of this remarkable warrior king.

Mystery of the Missing Diamond

It was a gloomy and tempestuous night. The rain was falling heavily, and the wind was howling. In the center of the metropolis, there was an exhibition, where a priceless diamond was on display. The diamond was called the Star of Africa, and it was the greatest and most stunning diamond in the earth. It was secured by a advanced security mechanism, and a squad of equipped guards. No one could steal it, or so they assumed. But somebody did. Somebody managed to circumvent the protection, to avoid the guards, to shatter the glass, and to steal the diamond. And no one saw them, no one overheard them, no one recognized who they were. They departed from no trace, no clue, no testimony. They disappeared into the nightfall, with the African Star. And the mystery of the lost diamond started.

Lolita Henry Vi The English Monarchs Series Pdf, The BKM Solution Manual for Financial Accounting 5th Edition, by Paul D. Kimmel, Patricia D. Weygandt, and Jerry J. The field of Engineering Economics and Cost Estimation is a vital aspect of any engineering project. It involves current and upcoming economic factors, making it critical to obtain dependable estimates of future costs, benefits, and other economic parameters. Engineers often deal with projects whose scale, complexity, and uncertainty call for advanced approaches to planning and budgeting[1]. Various methods are used for cost estimation, including rough estimates, semi-detailed estimates, or detailed estimates, depending on the needs for the estimates[2]. Key concepts in this field include overhead costs, cost driver identification, cost allocation methods, capital budgeting, flexible budgeting, zero-based budgeting, budgets, and estimates. Several models are available for developing cost (or benefit) estimates, such as the per-unit model, the segmenting model, cost indexes, the power-sizing model, and learning curve cost estimating. The quality of a cost estimate usually increases as the resources allocated to developing the estimate increase.
