Animal Symbolism in Ecclesiastical Architecture 1896 Edward Payson Evans

The Symbolism of Freemasonry (Esprios Classics) 1882 Albert G. Mackey A legend differs from an historical narrative only in this—that it is without documentary evidence of authenticity. It is the offspring solely of tradition. Its details may be true in part or in whole. There may be no internal evidence to the contrary, or there may be internal evidence that they are altogether false. But neither the possibility of truth in the one case, nor the certainty of falsehood in the other, can remove the traditional narrative from the class of legends. It is a legend simply because it rests on no written foundation. It is oral,

The Signs and Symbols of Primordial Man 1913 Albert Churchward Albert Churchward's famous study of Ancient Egyptian myths and symbology reveals how their mythological culture evolved over thousands of years, influencing other civilizations. The author was among the first Western scholars to investigate the connection between the religious symbols, deities and traditions of Egypt, and those

societies. By studying the hieroglyphic texts preserved in the monuments and papyrus of the Egyptian society, Churchward uncovered the origins of legendary stories, the roles of Gods like Horus and Ptah, and the emergence of important symbols such as the triangle, cross and swastika. The religious and cultural influence of this ancient society, whose dynasties stretched across millennia, is revealed to be of staggering magnitude. This book pieces together the connections between Egyptian lore and that of the Hebrews, the Freemasons, the Mayans and various tribal societies. The depth of Churchward's enquiry is enormous; hundreds of drawings, symbols, and photographs accompany the narrative, that the reader may discover the myriad connections and wide-ranging influence of the Egyptians from antiquity onward. theatrical, performative quality. She perceives the tension between implied oral performance and real visual artifact as a fundamental aspect of thirteenth- and fourteenth-century poetics. In this generously illustrated volume, Huot examines manuscript texts both from the performance-oriented lyric tradition of *chanson courtoise*, or courtly love lyric, and from the self-consciously literary tradition of Old French narrative poetry. She demonstrates that the evolution of the lyrical romance and *dit*, narrative poems which incorporate thematic and rhetorical elements of the lyric, was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics. Huot first investigates the nature of the vernacular book in the thirteenth

centuries, analyzing organization, page layout, rubrication, and illumination in a series of manuscripts. She then describes the relationship between poetics and manuscript format in specific texts, including works by widely read medieval authors such as Guillaume de Lorris, Jean de Meun, and Guillaume de Machaut, as well as by lesser-known writers including Nicole de Margival and Watriquet de Couvin. Huot focuses on the writers' characteristic modifications of lyric poetics; their use of writing and performance as theme; their treatment of the poet as singer or writer; and of the lady as implied reader or listener; and the ways in which these features of the text were elaborated by scribes and illuminators. Her readings reveal how medieval poets and book-makers conceived their common project, and how they distinguished their respective roles.

Art and Rhetoric in Roman Culture 2014-10-02
Jaś Elsner Rhetoric was fundamental to education and to cultural aspiration in the Greek and Roman worlds. It was one of the key aspects of antiquity that slipped under the line between the ancient world and Christianity erected by the early Church in late antiquity. Ancient rhetorical theory is obsessed with examples and discussions drawn from visual material. This book mines this rich seam of theoretical analysis from within Roman culture to present an internalist model for some aspects of how the Romans understood, made and appreciated their art. The understanding of public monuments like the Arch of Titus or Trajan's Column or of imperial statuary, domestic wall painting, funerary altars and sarcophagi, as well as of intimate items like children's dolls, is greatly enriched by being placed in relevant

A Cultural History of Tarot 2019-08-22 Helen Farley The enigmatic and richly illustrative tarot deck reveals a host of strange and iconic mages, such as The Tower, The Wheel of Fortune, The Hanged Man and The Fool: over which loom the terrifying figures of Death and The Devil. The 21 numbered playing cards of tarot have always exerted strong fascination, way beyond their original purpose, and the multiple resonances of the deck are ubiquitous. From T S Eliot and his 'wicked pack of cards' in "The Waste Land" to the psychic divination

of Solitaire in Ian Fleming's "Live and Let Die"; and from the satanic novels of Dennis Wheatley to the deck's adoption by New Age practitioners, the cards have in modern times become inseparably connected to the occult. They are now viewed as arguably the foremost medium of prophesying and foretelling. Yet, as the author shows, originally the tarot were used as recreational playing cards by the Italian nobility in the Renaissance. It was only much later, in the 18th and 19th centuries, that the deck became associated with esotericism before evolving finally into a diagnostic tool for mind, body and spirit. This is the first book to explore the remarkably varied ways in which tarot has influenced culture. Tracing the changing patterns of the deck's use, from game to mysterious oracular device, Helen Farley

A Book of the Beginnings
2007-09-01 Gerald Massey
After enjoying years as a popular journalist and poet, intellectual and freethinker Gerald Massey turned his vast studies in the field of Egyptology into A Book of the Beginnings, a bold statement that the origin of all civilization lays in ancient Egypt. His assertions, radical at the time-indeed, almost a century before the discovery of three-million-year-old human remains in Africa-resonate loudly today, when molecular biology is making corresponding discoveries alongside the still-raging creation-versus-evolution controversy. In Volume I, Massey lays the foundation of the Egypt-centric position through a scholarly comparative analysis of language, names and

selves in God In his bestselling book *Falling Upward*, Richard Rohr talked about ego (or the False Self) and how it gets in the way of spiritual maturity. But if there's a False Self, is there also a True Self? What is it? How is it found? Why does it matter? And what does it have to do with the spiritual journey? This book likens True Self to a diamond, buried deep within us, formed under the intense pressure of our lives, that must be searched for, uncovered, separated from all the debris of ego that surrounds it. In a sense True Self must, like Jesus, be resurrected, and that process is not resuscitation but transformation.
