Space Battles which Transformed History

It had been the year 23, and the world was on the brink of conflict. The USA and Peoples Republic of China, the pair of global powers, were locked in a fierce contest, competing for resources, power, and dominance. They had both created sophisticated arms, including laser weapons, unmanned aerial vehicles, and satellites, which could strike any place, anytime. They had also secretly built space stations, that can fire atomic weapons, that can obliterate the earth. They were prepared to utilize these weapons, if ever needed. But they were not the only ones. There existed a 3rd entity, a hidden force, which had been observing them, waiting for them both, preparing for them. They were ETs, and they had come arrived to prevent them.
