The SuperCollider Book

2011-04-15 Scott Wilson The essential reference to SuperCollider, a powerful, flexible, open-source, cross-platform audio programming language. SuperCollider is one of the most important domain-specific audio programming languages, with potential applications that include real-time interaction, installations, electroacoustic pieces, generative music, and audiovisuals. The SuperCollider Book is the essential reference to this powerful and flexible language, offering students and professionals a collection of tutorials, essays, and projects. With contributions from top academics, artists, and technologists that cover topics at levels from the introductory to the specialized, it will be a valuable sourcebook both for beginners and for advanced users. SuperCollider, first developed by James McCartney, is an accessible blend of Smalltalk, C, and further ideas from a number of programming languages.

Free, open-source, cross-platform, and with a diverse and supportive developer community, it is often the first programming language sound artists and computer musicians learn. The SuperCollider Book is the long-awaited guide to the design, syntax, and use of the SuperCollider language. The first chapters offer an introduction to the basics, including a friendly tutorial for absolute beginners, providing the reader with skills that can serve as a foundation for further learning. Later chapters cover more advanced topics and particular topics in computer music, including programming, sonification, spatialization, microsound, GUIs, machine listening, alternative tunings, and non-real-time synthesis; practical applications and philosophical insights from the composer's and artist's perspectives; and "under the hood," developer's-eye views of SuperCollider's inner workings. A Web site accompanying the book offers code, links to the application itself and its source code, and a variety of third-party extras, extensions, libraries, and examples.

Comparative Children's Literature
2005-03-05 Emer O'Sullivan WINNER OF THE 2007 CHLA BOOK AWARD! Children's literature has transcended linguistic and cultural borders since books and magazines for young readers were first produced, with popular books translated throughout the world. Emer O'Sullivan traces the history of comparative children's literature studies, from the enthusiastic internationalism of the post-war period - which set out from the idea of a supra-national world republic of childhood - to modern comparative criticism. Drawing on the scholarship and children's literature of many cultures and languages, she outlines the constituent areas that structure the field, including contact and transfer studies, intertextuality studies, intermediality studies and image studies. In doing so, she provides the first comprehensive overview of this exciting new research area. Comparative Children's Literature also links the fields of narratology and translation studies, to develop an original and highly valuable communicative model of translation. Taking in issues of children's 'classics', the canon and world literature for children, Comparative Children's Literature reveals that this branch of literature is not as genuinely international as it is often fondly assumed to be and is essential reading for those interested in the consequences of globalization on children's literature and culture.

Gemmotherapy, and the Scientific Foundations of a Modern Meristemotherapy
2020-08-27 Marcello Nicoletti This book reports on the current state of meristemotherapy (also called gemmotherapy or budtherapy) and its possible future directions. Meristemotherapy focuses on the growth of plants, and is based on analytical studies, pre-clinic research, clinical trials and activity tests. The book investigates the determination of preparation methods, collateral effects, posology, and administration methods.

Ancient Graffiti in Context
2010-10-18 Jennifer Baird Graffiti are ubiquitous within the ancient world, but remain underexploited as a form of archaeological or historical evidence. They include a great variety of texts and images written or drawn inside and outside buildings, in public and private places, on monuments in the city, on objects used in daily life, and on mountains in the countryside. In each case they can be seen as actively engaging with their environment in a variety of ways. Ancient Graffiti in Context interrogates this cultural phenomenon and by doing so, brings it into the mainstream of ancient history and archaeology. Focusing on different approaches to and interpretations of graffiti from a variety of sites and chronological contexts, Baird and Taylor pose a series of questions not previously asked of this evidence, such as: What are graffiti, and how can we interpret them? In what ways, and with whom, do graffiti communicate? To what extent do graffiti represent or subvert the cultural values of the society in which they occur? By comparing themes across time and space, and viewing graffiti in context, this book provides a series of interpretative strategies for scholars and students of the ancient world. As such it will be essential reading for Classical archaeologists and historians alike.

The Secret Behind The Forbidden Door
Alice was always curious about the old mansion at the end of the street. She had heard stories about the mysterious owner, who never came out of his house. He was said to be a recluse, a genius, or a madman, depending on who you asked. Alice wanted to know more about him, and what he was hiding behind the locked door on the second floor. One day, she decided to sneak into the mansion, hoping to find some clues. She was not prepared for what she saw behind the forbidden door.

Deliver Us

2011-05-27 Luigi Meneghello Originally published in 1963, and today considered a landmark in twentieth century Italian literature, Luigi Meneghello's Deliver Us is the memoir, not of an extraordinary childhood, but of the very ordinary one the author shared with most of his generation, when Italy was a rural country under the twin authorities of Church and Fascism. His boyhood begins in 1922, the year of Mussolini's March on Rome, and ends when Meneghello, 21, goes up into the hills to join the partisans. Called a romanzo—a story, although not a novel, as that term usually suggests—the book is a genre all of its own that mixes personal and collective memory, amateur ethnography, and reflections on language. Meneghello's sharp insights and narrative skill come together in an original meditation on how words, people, places, and things shape thought itself. Only loosely chronological, Deliver Us proceeds by themes—childhood games, Fascist symbols, religious precepts, and the rites of poverty, of death, of eros, and of love. Meneghello's ironic musings and profoundly honest recollections make an utterly unsentimental human comedy of that was the whole world to his dawning consciousness.

Ella Minnow Pea
2010-05-22 Mark Dunn An epistolary novel set on a fictional island off the South Carolina coastline, 'Ella Minnow Pea' brings readers to the hometown of Nevin Nollop, inventor of the pangram 'The Quick Brown Fox Jumps Over the Lazy Dog'. Deified for his achievement in life, Nevin has been honored in death with a monument featuring his famous phrase. One day, however, the letter 'Z' falls from the monument, and some of the islanders interpret the missing tile as a message from beyond the grave. The letter 'Z' is banned from use. On an island where the residents pride them-selves on their love of language, this is seen as a tragedy. They are still reeling from the shock when another tile falls. And then another... In his charming debut, first published in 2001, Mark Dunn took readers on a journey through the eyes of Ella Minnow Pea, a young woman forced to create another clever turn of phrase in order to save the islanders' beloved language.

Obsolete Objects in the Literary Imagination

2008-10-01 Francesco Orlando Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's Mimesis. Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in history, at the end of eighteenth-century industrialization, when the functional becomes the dominant value of Western culture. Roaming through every genre and much of the history of Western literature, the author identifies distinct categories into which obsolete images can be classified and provides myriad examples. The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.

The Translator as Writer
2007-11-15 Susan Bassnett Over the last two decades, interest in translation around the world has increased beyond any predictions. International bestseller lists now contain large numbers of translated works, and writers from Latin America, Africa, India and China have joined the lists of eminent, bestselling European writers and those from the global English-speaking world. Despite this, translators tend to be invisible, as are the processes they follow and the strategies they employ when translating. The Translator as Writer bridges the divide between those who study translation and those who produce translations, through essays written by well-known translators talking about their own work as distinctive creative literary practice. The book emphasises this creativity, arguing that translators are effectively writers, or rewriters who produce works that can be read and enjoyed by an entirely new audience. The aim of the book is to give a proper prominence to the role of translators and in so doing to move attention back to the act of translating, away from more abstract speculation about what translation might involve.
