*Story of" prentice hall literature timeless voices timeless themes*,Self motivation is extremely necessary in loosing weight. Because obesity is more a family problem and not an individual problem, the whole family can switch to eating healthy food and exercising regularly. This can make the weight control program a success. Parents can play a major role by boosting the self esteem of their children by concentrating on their strengths and encouraging them, instead of targeting the weight problem. The whole family should eat meals together, instead of eating individually while watching a movie. This helps all the members to focus on the food and the quantity being eaten. If the teenager isn't getting support from his family members, he/she can join support groups which can help towards the goals.

After the adolescent has lost weight, it is very important that he/she maintains it. In majority of the cases, people shift back to their old eating habits after loosing weight. That is the reason why obesity is more of a lifetime issue. So the main aim of any weight loss program must be make the adolescent like healthy food. He/she must also be made to exercise regularly, irrespective of the weight.

prentice hall literature timeless voices timeless themes~Obesity can be caused due to complex reasons including biological, genetic, cultural and behavioral factors. Usually a person gets obese when he/she consumes more calories than the body burns. Also there are fifty percent chances of becoming obese when both one of the parent is obese and when obesity has affected both the parents, the chances increases to eighty percent. One percent of obese people can have that fat because of health reasons, as obesity can be caused due to few medical disorders. The causes of obesity in adolescence are overeating, family history, bad eating habits, little or no exercise, medical illness, low self esteem, medications, depression, emotional problems, stressful life, and family problem.

Obesity can cause many major problems. Some of them are diabetes, sleeping disorders, high blood pressure, breathing problems, emotional problems and increase in heart disease risk. Teenagers are more prone to get emotional problems. Because of the weight, they develop low self esteem. They get into depression, obsessive compulsion disorder and anxiety.

Adolescents who want to tackle the obesity problem should approach a pediatrician who will thoroughly evaluate the cause. If no physical disorder is to be blamed, the weight is reduced by limiting the calorie intake and increasing physical activity. The doctor can advice a weight management program and change the eating habits of the teenager, slowly. The patient must avoid oily, fatty, fast and junk food. The potions must be reduced in order to decrease the calorie intake. If the adolescent has developed emotional problems because of obesity, an adolescent psychiatrist can collaborate with the pediatrician in order to make a comprehensive plan for treatment. ##### Accounting Terms – Profit & Loss and Other Terms

Different fields of study make use of certain terms that are not easily understood by others. If you're an accounting student or a professional accountant, you know the different terms used in accounting. One very popular term is profit & loss.

So, do you know what the term means? To start with, you have to determine what profit means. Profit can be referred to as net earnings or net income. Businesses can either sell services or even products. Profit will come from the sales of these services and products. If the costs of running a business are controlled, it can add up to the profits.

Profits are also called ROI or return on investment. However, this term is often limited to securities like bonds or stocks. But still, some companies use ROI to mean short or long term business outcomes. Taxable income is another term for profit.

#### Challenge prentice hall literature timeless voices timeless themes..Church Accounting Software

The church is a respected institution since it commands the people's general faith. It is always given utmost respect. The secular welfare and religious functions of the church are performed through the faith of its constituents. Church activities need funding and the funds come from Christians all over the world. Are you aware that the Christian contributions can reach billions?

That's true and with such great amount of money, the church should make use of accounting. One way to do this is through a church accounting software. The church should be accountable for their people's money; church officials should therefore monitor where all the money came from and where it is being spent.

The church is a large institution and so are its financial transactions. In order to manage the accounts, the church will need a skilled force of financial experts. However, that would mean additional cost to the church since they have to pay for the services. It can consume so much time and money.

As you can see accounting or accountancy careers can provide you with a lot of opportunities as an accountant.

Aside from the tasks mentioned earlier, controllers also take charge in budgeting and financial planning. Businesses, big or small, need accountants. However, in the case of very small businesses, owners can do the accounting tasks. Bigger or larger businesses need accounting personnel to handle all the accounting works. As the business expands, it needs to hire additional employees. It is also the task of the accountant to determine if the company can afford to hire additional employees without negatively affecting the growth of profits.

Accounting involves a lot of paper work. Professional accountants need to prepare tax returns which are very much complicated than income tax returns of individuals. The chief accountant of the company is also responsible for setting broad objectives for the company's growth and development. Their aim is to gain more profits because this will be the proof for the success of the business.

First step, log on to the internet. Job sites are all over the web and so you can definitely find an accounting job there. Most of the sites allow jobseekers to sort the job openings through location. After that, you can simply search by using 'accounting' as the keyword. If you surf the net, you can also find websites that focus mainly on accounting jobs. These sites can truly help you in looking for the perfect accounting job. If you can find a job online, then there's no need to check out other resources.

If the search for an accounting job online fails, your second step is to check out local papers. Local companies who are in need of accounting graduates will usually post an advertisement in the local paper and not on the internet. This only means that you can also find jobs through the local papers.

Take a close look at the classified ads section. Find the section about accounting jobs and there you have it. Sort through the job openings posted on the paper; get the address of the company, and the requirements. All the necessary contact information should be noted. Remember, you will be applying directly to the company and not an employment agency unless stated.

Study prentice hall literature timeless voices,timeless themes:The profit & loss of a certain company is determined by finance professionals through accounting. They can determine what created the profits as well as the losses. Accountants form some sort of business equation so justify the profits & losses of a business. By doing so, they

can easily tell a company's net worth.

It seems that by simply starting to define one accounting term, it eventually leads to defining other terms as well. Net worth is another term that is quite difficult to understand. It refers to the resulting amount after deducting the liabilities of a company from the assets. Private companies refer to net worth as owner's equity. Why owner's equity? Well, after deducting all the liabilities, what's left basically belongs to the owner. In the case of public companies, the profit of the business is returned as dividends to shareholders. As you can see, before owner or shareholders of a company can take hold of the profits, all liabilities must be deducted first.

##### **A Primer on Medical Acupuncture**

Have you ever had an uncontrollable urge to be pierced by a dozen needles? This is the image most people get when someone mentions the word "acupuncture". It comes as no surprise that most view this technique with suspicion, even downright horror. The fact is, however, that this relatively painless ancient Chinese technique has helped relieve the symptoms of millions of people. Properly used, it can help in the management of many medical conditions including chronic pain and fatigue.

How does needle puncture work?

Practitioners of Chinese traditional medicine believe in energy flows. This energy, called Qi, circulates around the body using pathways called meridians. Meridians run very close to the surface of the skin in certain areas and can be accessed by needles. Much like plumbing, these pipes can get blocked or go the wrong way, causing health problems. The insertion of needles at these points is aimed to help loosen blocks and normalize flow.

In the 5th or 7th treatment, this becomes more evident as your face looks more relaxed as though you just came from a vacation.

The end result is that you will look and feel 5 to 15 years younger but of course this depends on how well the patient has taken care of themselves outside the confines of the clinic.

To sum things up, facial acupuncture can do for you. It can eliminate fine lines and reduces wrinkles, improve your overall facial color and add luster to the skin, relaxes tension in the face and furrows in the brow, brightens the eyes and reduce dark circles and puffiness, improve muscle tone for sagging skin, enhance your natural radiance in the skin and eyes, slow the aging process within, promotes overall health and well being as well as relaxes and revitalizes the entire body.

A good massage would help give you a very relaxing sleep that night and an acupuncturist could help you with your sleep as well. You might immediately start to feel drowsy as soon as the right nerves are stimulated by the acupuncturists needles.

You might be asking yourself how you'd be able to relax if you're suffering from the pain of the needles attached to your body. What you might not realize is that because of the thinness of the needles, you would hardly feel anything. The most that many people claim they feel is a kind of tingling feeling where the needles are. And that is actually a sign that the process is working,

Hypertension is diagnosed by blood test and urinalysis. The kidney function will also be checked, along with blood cholesterol levels. Family history check is another important factor. Adolescents' eating habits, exercise levels, activities in school and home will also be studied thoroughly. High blood pressure is dealt with by weight reduction, healthy diet, and increase in physical activity. If hypertension is due to illness, the illness is treated first. These treatment measures will decrease the systolic blood pressure and diastolic blood pressure. It will also strengthen the heart and decrease the level of cholesterol in blood. This also helps to keep heart diseases at bay. The good thing is that only one percent of the adolescents, who have high blood pressure, need medication to bring back the blood pressure to normal.

**Infectious Mononucleosis**

Also known as mononucleosis or mono Pfeiffers disease or glandular fever, infectious mononucleosis can be identified by inflamed lymph glands and constant fatigue. The disease is named so as the amount of mononuclear leukocytes which belong to white cells increase in number. The cause of the disease is EBV (Epstein - Barr virus) or in some cases cytomegalovirus. Both these viruses belong to the family of herpes simplex. According to statistic majority of the adults in the United States are exposed to the virus Epstein – Barr, a very widespread virus. Although the virus does not show any visible effects in children but it does in adolescents which can lead to infectious mononucleosis in nearly fifty percent of cases of exposure to the virus.

*Power prentice hall literature timeless voices timeless themes*—An infant will have a normal blood pressure reading of 80/45, where as an adolescent will have a normal blood pressure reading of 110/70. Therefore, age, gender, and height are important factors when determining the normal blood pressure level. Adults will have a higher blood pressure than the infants and teenagers. Also, boys have a higher blood pressure when compared to girls and tall people have a higher blood pressure than short people. An adolescent is said to have high blood pressure when the blood pressure is more than the blood pressure of ninety percent of people of his/her age, gender and height.

There are many risks associated with hypertension or high blood pressure. The risk of developing coronary heart disease increases proportionally. The arteries will develop greater resistance towards the blood flow, because of which the heart will pump blood harder. Stroke is also another risk. Adolescents who have had high blood pressure as a child, develop harmful effects on the blood vessels and heart till the time they turn twenty.

The causes of high blood pressure can be classified as primary and secondary. If the causes are definite, they are primary and if the cause is linked to some illness, it is secondary. Primary causes are high blood cholesterol levels, smoking, stagnant lifestyle and overweight. Secondary causes are obesity, immobility due to chronic illness, prescription drugs, intense pain due to burns or cancer and illegal drugs. High blood pressure can develop due to hereditary reasons.

The other virus called cytomegalovirus which also belongs to the family of herpes simplex causes the cells to become enlarged. According to statistics, about eighty percent of adolescents infected with this virus generally don't see any further symptoms. Although EBV has potential to develop infectious mononucleosis in adolescents the virus could make throat and blood cells its home for the lifetime. The virus has the capability to bounce back and reactive from time to time but the consolation is that it would reactivate without symptoms.

The condition usually lasts for 1-2 months. The symptoms may vary from one adolescent to other but may include inflamed lymph glands in areas such as groin, neck and armpits, fever, continuous fatigue, enlarged spleen, sore throat as a result of tonsillitis that can make things difficult to swallow and last but not the least minor liver damage that can lead to short-term jaundice. Some adolescents may also experience symptoms such as abdominal pain, petechial hemorrhage, muscle ache, headache, depression, loss of appetite, skin rash, weakness, dizziness, enlarged prostate, dry cough, swelled genitals and puffy and swollen eyes. Some parents are puzzled by the symptoms of mononucleosis as it may be similar to other medical conditions. It is safe to consult a doctor in such cases.

The viruses are usually transmitted to other people through saliva (the reason why it is also called kissing disease), blood, sharing drinks and sharing utensils. The symptoms usually last for 4-6 weeks and do not cross 4 months. The disease is diagnosable but requires a thorough medical history of the adolescent. The diagnosis also involves physical examination of the adolescent and is based on symptoms reported to the physician. The diagnosis is further supported by laboratory test like blood test, antibody test and test to count white blood cells.

Parents can get their children admitted in emotional growth schools, boot camps or wilderness programs, to solve the behavioral problems. These programs consist of non medical staff and confrontational therapies. But care must be taken as some of the programs can in turn harm children who are depressed and sensitive. Adolescents, who get caught due to criminal offense, should be taken special care of by their parents. It is best that the child face the consequences and learn a lesson from it. Depressed adolescents respond well to treatment if they are treated comprehensively and early. More than half of the adults are known to have depression when they were in their teens.

If you're already a CPA, you can serve the general public. You will be called a public accountant once there is already the so-called practitioner-client connection or relationship. Even those accountants who are not yet certified can already practice their profession. Oftentimes, CPAs join partnerships and they have a wide scope of clientele from the local area to the national and even international clients at times. Being a government accountant is another career. In this profession, you will be working for the government, whether local, state, or federal. The accounting methods used conventionally are also used in government accounting. You will make use of the method called double-entry systems and you will be using journals as well as ledgers. If you're a government accountant, you will be focusing more in rendering service. Government units are not very particular with profits because they are put up to serve the public. Fiduciary accounting is another type of accountancy careers. Here, accounting relies on trust. Executors, administrators, trustees, or any other person who is trustworthy can do fiduciary accounting. A fiduciary accountant keeps important records and he also prepares certain reports. The courts can authorize these fiduciary accountants to carry out their tasks.

**Anemia in Adolescents**

To understand what is anemia one should begin with breathing. The oxygen that is inhaled simply doesn't stop in lungs. It circulates though out the body and fuels the brains also. Oxygen travels to all parts of the body though bloodstream and to be precise in the RBCs I.e. red blood cells. Now, these RBCs are produced in the bone marrow of the body and they serve as boats carrying oxygen in the bloodstream. RBCs have something called hemoglobin, a protein which holds oxygen. To make adequate hemoglobin body requires iron in plenty. The iron is supplied by the foods that we take along with other nutrients. When these RBCs are fewer in number than what is needed anemia occurs in the body. There can be 3 primary reasons: RBCs are lost due to some reason, the production of RBCs is slower than what is needed and lastly the body is destroying the RBCs. Different types of anemia are linked to at least one of these causes.

There is a great consensus among the parents whether their children would outgrow asthma as they grow up. But the truth is it depends from child to child. While some children experience improvement in their teens others see asthma becoming even more severe. But almost half of the children who have asthma outgrow asthma as they grow although some symptoms may come back later.

Many parents have questions like whether their children can take part in sport activities. The answer is both yes and no. Some kids may get an asthma attack when they participate in exercises like running. But with proper management a teenager suffering from asthma can actively participate in sports. Special aerobic exercises can improve airway function. This strengthens the breathing muscles. Some of the ways that one can participate in sports is to follow the regimen of stretching the muscles prior to and after exercising, nose-breathe instead of breathing through the mouth and make sure that humidified air passes through the airways. Also parents should make sure that the adolescent has taken all prescribed medication supposed to be taken before they begin exercising. Carrying a reliever is a must for asthmatic teens which would come handy if asthma attack occurs. Asthmatic teenagers should make sure that they wear something over their mouth and nose to stop cold air from entering.

It is not easy for adolescent teens to attend school when they have asthma but it is not difficult also at the same time if proper coordination is made among the teenager, doctor, family and school employees. It is a good idea to consult teachers, nurses and other pertaining employees of the school and let them know that the teenager has asthma and may have special requirements. Also, let the school management know on medications the teenager regularly takes and how to help the teenager when an attack occurs. The school staff should be asked to treat the teen normally once the attack subsides. The physical education coach should also be informed about the condition so that he/she can let the kid stretch the muscles before any exercises or to deal with asthma attack induced due to exercises. Also, before admitting the teenager to a new school care must be taken to check the quality of air, irritants and allergens if any present in the school. The school staff should take considerations to avoid symptoms which could hamper the energy level kids. Also asthmatic teens should be assured from time to time that they are no different from others and asthma in any way does not slow them down, They need this emotional confidence otherwise they may have personality problems.

In TCM, practitioners adhere to the concept of Qi, or energy flow, and the meridians in which they travel. They use longer needles and insert them deeper in order to reach the acupuncture points. Modern science has found little evidence to prove the existence of these energy channels, but this is the technique that has been used effectively for thousands of years.

In medical acupuncture, the practitioners are graduates of western medical schools. Their application of needles is not based on the traditional acupuncture points, but on anatomic data. These acupuncturists use shorter needles and the insertions are shallower. They also tend to use fewer needles and leave them inserted for shorter periods of time. Adherents to TCM feel this is a watered-down version of the real thing. Nevertheless, many patients have felt relief of symptoms through this method.

Conditions for Puncture Application

There is a broad and extensive list of ailments which can be treated with acupuncture. The conditions run the gamut from asthma to constipation, anxiety to weight loss. Most TCM practitioners believe that any health condition results from an imbalance in Qi flow, therefore amenable to needle therapy. Western acupuncturists tend to have a more limited list of indications, the most common of which is undoubtedly control of pain.

Although the exact scientific basis is still unknown, recent theories seem to suggest involvement of complicated neurochemical effects in the brain, nerve to spinal cord impulse modulation, and microscopic connective tissue changes.

What risks and side effects are of concern?

The use of things not completely understood for the treatment of medical conditions is nothing new. Penicillin and aspirin were used for decades solely on the basis of their beneficial effects, without doctors knowing exactly how they worked. Results are what are truly important. However, it is equally important is to ensure that the technique is used safely.

Teenagers suffering from asthma often have allergic reaction to cold and get asthma attack is another example of allergies. Some kinds of allergies trigger multiple symptoms. Allergic reactions in very rare cases also produce severe reaction known as "anaphylaxis" for which the signs are difficulty in breathing, difficulty in swallowing, swelling in tongue, lips and throat and dizziness. This allergic reaction occurs as soon as the system is exposed to substances that trigger allergic reactions like peanut although some reactions are delayed by as much as four hours.

The reasons why people get allergies can be various and one of the reasons could be hereditary but that that does not necessarily mean that children are bound to get allergies from their parents. Some of the common allergens include food, airborne particles, insect bite and sting, medicines, chemicals etc. Food allergies typically occur in infants and usually vanish as the child grows. The list of food allergens includes milk & dairy products, wheat, soy, eggs, peanuts, and seafood. Some people are allergic to stings and bites of certain insects. The venom in the bite is the one which actually causes reaction and can be as serious as anaphylactic in some teens. Some teens are also allergic to airborne particles which are also known as environmental allergens. They are also the commonest of all the allergens. Examples of these allergens include dust mites, animal dander, mold spores, grass pollens, trees and ragweed. Some adolescents are also allergic to certain antibiotic medicines. Another common allergen is chemical, certain chemicals present in laundry detergents or cosmetics can cause rashes that are itchy in nature.

Allergists usually treat allergic problems. They may ask questions like symptoms of the allergy and whether it is hereditary. They may also prescribe certain diagnostic tests like blood or skin test depending on the type of allergy. The best way to treat allergies is to completely avoid the substances that cause allergies.
