Injustice in Person

2015-06-04 Rabeea Assy In common law jurisdictions, litigants are free to choose whether to procure legal representation or litigate in person. There is no formal requirement that civil litigants obtain legal representation, and the court has no power to impose it on them, regardless of whether the litigant has the financial means to hire a lawyer or is capable of conducting litigation effectively. Self-representation is considered indispensable even in circumstances of extreme abuse of process, such as in 'vexatious litigation'. Intriguingly, although self-representation is regarded as sacrosanct in common law jurisdictions, most civil law systems take a diametrically opposite view and impose obligations of legal representation as a condition for conducting civil litigation, except in low-value claims courts or specific tribunals. This disparity presents a conundrum in comparative law: an unfettered freedom to proceed in person is afforded in those legal systems that are more reliant on the litigants' professional skills and whose rules of procedure and evidence are more formal, complex, and adversarial, whereas legal representation tends to be made obligatory in systems that are judge-based and offer more flexible and informal procedures, which would seem, intuitively, to be more conducive to self-representation. In Injustice in Person: The Right to Self Representation, Rabeea Assy assesses the theoretical value of self-representation, and challenges the conventional wisdom that this should be a fundamental right. With a fresh perspective, Assy develops a novel justification for mandatory legal representation, exploring a number of issues such as the requirements placed by the liberal commitment to personal autonomy on the civil justice system; the utility of plain English projects and the extent to which they render the law accessible to lay people; and the idea that a high degree of litigant control over the proceedings enhances litigants' subjective perceptions of procedural fairness. On a practical level, the book discusses the question of mandatory representation against the case law of English and American courts and also that of the European Court of Human Rights, the International Criminal Tribunal for the former Yugoslavia, and the Human Rights Committee.

Model Rules of Professional Conduct

2007 American Bar Association. House of Delegates The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Beyond Assessment of Quality of Life in Schizophrenia

2016-06-14 A. George Awad This book fills a significant research gap in how to integrate quality of life data into relevant clinical care plans, and to broaden its applicability to pharmaco-economic studies of antipsychotic medications and health policy decision-making. It also presents an argument for reformulating the concept of health-related quality of life in schizophrenia as a bio-psycho-social construct, which provides an opportunity to better explore the many factors underpinning the concept itself. Internationally renowned experts from different scientific backgrounds and scopes of expertise each make arguments for the need to invigorate quality of life as a concept in schizophrenia, by broadening its usefulness for clinical and research efforts. The book represents an important addition to the extensive contributions of its editors, Dr. A. George Awad and Dr. Lakshmi N.P. Voruganti, to the field of quality of life.
