## Encore Adulthood

2016-04-06 Phyllis Moen The Baby Boomer generation is facing a time of heightened uncertainty. Blessed with unprecedented levels of education, health, and life expectancy, many hope to contribute to society after their retirement. Yet they must also navigate ambiguous career exits and retirement paths, as established scripts for schooling, parenting, and careers continue to unravel. In *Encore Adulthood*, Phyllis Moen presents the realities of the "encore" life stage - the years between traditional careers and childraising and old age. Drawing on large-scale data sets and interviews with Boomers, HR personnel, and policymakers, this book illuminates the challenges that Boomers encounter as they transition from traditional careers into retirement. Beyond data analysis, Moen discusses the personal impact for Boomers' wellbeing, happiness, and health when they are unable to engage in meaningful work during their encore years, as well as the potential economic loss that would occur when a large, qualified group of people prematurely exit the workforce. Moen concludes with proposals for a range of encore jobs that could galvanize Boomers to take on desirable and sought-after second acts, emphasizing meaningful work over high-paying jobs and flexibility over long hours. An important analysis of an understudied and new life stage, *Encore Adulthood* makes an important contribution to the existing scholarship on careers, work, and retirement.

## *The Encore*

2017-10-03 Charity Tillemann-Dick In this "heartrending, passionate, and surprisingly humorous account of the conjunction between art and death" (Andrew Solomon, New York Times bestselling author), acclaimed opera singer Charity Tillemann-Dick recounts her remarkable journey from struggling to draw a single breath to singing at the most prestigious venues in the world after receiving not one but two double lung transplants. Charity Tillemann-Dick was a vivacious young American soprano studying at the celebrated Franz Liszt Academy of Music in Budapest when she received devastating news: her lungs were failing, her heart was three and a half sizes too big, and she would die within five years. Medical experts advised Charity to abandon her musical dreams, but if her time was running out, she wanted to spend it doing what she loved. In just three years, she endured two double lung transplants and had to slowly learn to breathe, walk, talk, eat, and sing again. With new lungs and fierce determination, she eventually fell in love, rebuilt her career, and reclaimed her life. More than a decade after her diagnosis, she has a chart-topping album, performs around the globe, and is a leading voice for organ donation. Weaving Charity's extraordinary tale of triumph with those of opera's greatest heroines, *The Encore* illuminates the indomitable human spirit and is "an uplifting story of overcoming significant odds to fulfill a dream" (Kirkus Reviews).

## *Purpose and a Paycheck*

2019-02-05 Chris Farrell Purpose and a Paycheck tells the compelling story of how a growing movement of older entrepreneurs and part-time workers are creating a stronger and more vibrant economy. People 65 and older will account for 20 percent of the population in 2030, up from 13 percent in 2000. Many prognosticators blame the aging population for the stagnating economy, citing that as more people retire, they will stop working as relatively fewer working people have to support growing numbers of dependent elderly. Purpose and a Paycheck debunks this line of thought by showing how a growing movement of elderly entrepreneurs and part-time workers are creating conditions for a stronger economy. Growing numbers of Americans are no longer retiring in the traditional sense, and the numbers are striking such as: the labor force participation rate of men 60 years and over has risen nearly one-third from a low of 26 percent in 1996 to 35 percent in 2014, the comparable rate for women is from 15 percent to 25 percent, and 25.5 percent of new business ventures in 2016 were started by the 55-to-64-year-old age group, up from 14.8 percent in 1996. America's aging society and workforce is redefining work for all generations and is a strong force in shaping the U.S. economy and society, alongside globalization, automation, and climate change. Reframing aging will result in faster rates of economic growth and higher living standards for all of

us in addition to a more fulfilling and financially secure second half of life for our aging population.

## Financial Capability and Asset Holding in Later Life

2014-12-29 Nancy Morrow-Howell With today's availability of Social Security and Medicare, we typically think of the older years as a stage in life where people are supported financially. However, of the more than 40 million old adults currently living in the US, many are struggling financially living below or near the poverty line. They are lacking the assets necessary to see them through a period of life that is often longer than expected and that requires more health and long-term care. While financial vulnerability can be most pronounced in old age, it is often created across decades, revealing itself in later years when there is little opportunity to reverse a lifetime of disadvantage. The concept of Financial Capability refers to both an individual and structural idea that combines a person's ability to act with their opportunity to act in their best financial interests. In *Financial Capability and Asset Holding in Later Life: A Life Course Perspective* the concept of Financial Capability is used to underscore the importance of acquiring knowledge and skills while addressing policies and services than can build financial security. The volume assembles the latest evidence on financial capability and assets among older adults using a life course perspective, arguing that older adults need financial knowledge and financial services in order to build secure lives, and that this process needs to begin before it is too late to make effective changes and choices. Broken into three parts, the book's chapters - written by leading experts in the field - blend together empirical findings, economic and social theory, and case studies. Part 1 opens the book with a conceptual and empirical overview of financial capability and assets among older adults using a life course perspective. Part 2 presents chapters addressing financial vulnerability of diverse racial and ethnic groups, people with disabilities, and immigrants. Part 3 includes chapters describing current policies, programs, and innovations, including a review of important issues of working and caregiving in later life, and a detailed assessment of "age-friendly" banking principles, banking products, services, and policies.

And no one observed them, no one listened to them, no one recognized who they were. They exited no trace, no clue, no proof. They faded into the night, with the African Star.
