The Psychological Science of Money 2014-07-10 Erik Bijleveld Money. The root of all evil? Arguably. Essential to our lives? Certainly. A main driver of human thought, emotion, and action? Absolutely--and psychology and its related fields are getting closer to understanding its complex role in human behavior and in society. The Psychological Science of Money brings together classic and current findings on the myriad ways money affects brain, mind, and behavior to satisfy not only our needs for material gain, but also for autonomy and self-worth. Leading experts trace the links between early concepts of value and modern symbolic meanings of wealth, in addition to identifying the areas of the human brain that together act as its financial center. This cross-disciplinary analysis helps clarify the neuroscience behind pathological gambling, the critical role of time in financial decisions, and the impact of money on diverse personal activities and interpersonal relationships. Included in the coverage: Materiality, symbol, and complexity in the anthropology of money. The (relative and absolute) subjective value of money. Conscious and unconscious influences of money: two sides of the same coin? A life-course approach to dealing with monetary gains and losses Motivation and cognitive control: beyond monetary incentives. An integrative perspective on the science of getting paid. The psychological science of spending. The unique role of money in society makes The Psychological Science of Money a singularly fascinating resource with a wide audience among social psychologists, industrial and organizational psychologists, economists, sociologists, anthropologists, and public policymakers.

Tempted for Us 2009-07-01 John E. McKinley This is an approach to Christ's impeccability and temptation through exploring and evaluating the theological models that have been developed from the early church to the present day. Drawing from tradition and the relevant biblical evidence, John McKinley argues that Jesus was truly tempted in ways that are closely relevant to the temptations common to us. Having been tempted for us in this way, Jesus can provide true help as the credible example to follow and truly sympathetic ally in the fight against sin. Key to understanding how Jesus remained unable to sin and sharply vulnerable to temptation is the role of the Holy Spirit.

Alien Interview 2008-01-01 Lawrence R. Spencer The content of this book is the letter, Top Secret interview transcripts and personal notes received from the late Matilda O'Donnell MacElroy, an Army Air Force nurse who stationed at the Roswell Army Air Field 509th Bomb Group. Her letter asserts that this material is based on a series of interviews she conducted with an extraterrestrial being as part of her official duty as a nurse in the U.S. Army Air Force. During July and August she interviewed a saucer pilot who crashed near Roswell, New Mexico on July 8th, 1947. The being identified itself as an officer, pilot and engineer of The Domain Expeditionary Force, a race of beings who are using the asteroid belt in our solar system as a intergalactic base of operations.

The Classical Tibetan Language 1992-01-01 Stephan V. Beyer Among Asian languages, Tibetan is second only to Chinese in the depth of its historical record, with texts dating back as far as the eighth and ninth centuries, written in an alphabetic script that preserves the contemporaneous phonological features of the language. The Classical Tibetan Language is the first comprehensive description of the Tibetan language and is distinctive in that it treats the classical Tibetan language on its own terms rather than by means of descriptive categories appropriate to other languages, as has traditionally been the case. Beyer presents the language as a medium of literary expression with great range, power, subtlety, and humor, not as an abstract object. He also deals comprehensively with a wide variety of linguistic phenomena as they are actually encountered in the classical texts, with numerous examples of idioms, common locutions, translation devices, neologisms, and dialectal variations.

Islam and Evolution 2021-05-03 Shoaib Ahmed Malik This book attempts to equip the reader with a holistic and accessible account of Islam and evolution. It guides the reader through the different variables that have played a part in the ongoing dialogue between Muslim creationists and evolutionists. This work views the discussion through the lens of al-Ghazālī (1058-1111), a widely-known and well-respected Islamic

intellectual from the medieval period. By understanding al-Ghazālī as an Ash'arite theologian, a particular strand of Sunni theology, his metaphysical and hermeneutic ideas are taken to explore if and how much Neo-Darwinian evolution can be accepted. It is shown that his ideas can be used to reach an alignment between Islam and Neo-Darwinian evolution. This book offers a detailed examination that seeks to offer clarity if not agreement in the midst of an intense intellectual conflict and polarity amongst Muslims. As such, it will be of great interest to scholars of Science and Religion, Theology, Philosophy of Religion, Islamic Studies, and Religious Studies more generally. *Winner of the International Society for Science & Religion (ISSR) book prize 2022 (academic category)*

Making Sense of the Divine Name in the Book of Exodus 2017-05-01 Austin Surls The obvious riddles and difficulties in Exod 3:13-15 and Exod 6:2-8 have attracted an overwhelming amount of attention and comment. These texts make important theological statements about the divine name YHWH and the contours of the divine character. From the enigmatic statements in Exod 3:13-15, most scholars reconstruct the original form of the name as "Yahweh," which is thought to describe YHWH's creative power or self-existence. Similarly, Exod 6:3 has become a classic proof-text for the Documentary Hypothesis and an indication of different aspects of God's character as shown in history. Despite their seeming importance for "defining" the divine name, these texts are ancillary to and preparatory for the true revelation of the divine name in the book of Exodus. This book attempts to move beyond atomistic readings of individual texts and etymological studies of the divine name toward a holistic reading of the book of Exodus. Surls centers his argument around in-depth analyses of Exod 3:13-15, 6:2-8 and Exod 33:12-23 and 34:5-8. Consequently, the definitive proclamation of YHWH's character is not given at the burning bush but in response to Moses' later intercession (Exod 33:12-23). YHWH proclaimed his name in a formulaic manner that Israel could appropriate (Exod 34:6-7), and the Hebrew Bible quotes or alludes to this text in many genres. This demonstrates the centrality of Exod 34:6-7 to Old Testament Theology. The character of God cannot be

discerned from an etymological analysis of the word yhwh but from a close study of YHWH's deliberate ascriptions made progressively in the book of Exodus.

Peace in Christian Thought and Life 2015-03-30 Christopher Dorn Through insightful introductions and the judicious editing of 60 selections, Christopher Dorn's Peace in Christian Thought and Life captures the great sweep and wide divergences in the two-millennium argument of Christians among themselves over peace, war, violence, and the imperatives of the gospel. From the unyielding idealism of the early Christians to the scarred skepticism of the nuclear era, the book traces the deepening appreciation of human complexity against the perennial vision and pursuit of peace. For those who are wrestling with the complex calculus of war and peace, violence and social justice, Dorn's reader provides both historical breadth and theological depth. Learning to Spell 1997-08 Charles A. Perfetti This distinctive cross-linguistic examination of spelling examines the cognitive processes that underlie spelling and the process of learning how to spell. The chapters report and summarize recent research in English, German, Hebrew, and French. Framing the specific research on spelling are chapters that place spelling in broad theoretical perspectives provided by cognitive neuroscience, psycholinguistic, and writing system-linguistic frameworks. Of special interest is the focus on two major interrelated issues: how spelling is acquired and the relationship between reading and spelling. An important dimension of the book is the interweaving of these basic questions about the nature of spelling with practical questions about how children learn to spell in classrooms. A motivating factor in this work was to demonstrate that spelling research has become a central challenging topic in the study of cognitive processes, rather than an isolated skill learned in school. It thus brings together schooling and learning issues with modern cognitive research in a unique way. testing, children writing strings of letters as a teacher pronounces words ever so clearly. In parts

of the United States it can also bring an image of specialized wizardry and school room competition, the "spelling bee." And for countless adults who confess with self-deprecation to being "terrible spellers," it is a reminder of a mysterious but minor affliction that the fates have visited on them. Beneath these popular images, spelling is a human literacy ability that reflects language and nonlanguage cognitive processes. This collection of papers presents a sample of contemporary research across different languages that addresses this ability. To understand spelling as an interesting scientific problem, there are several important perspectives. First, spelling is the use of conventionalized writing systems that encode languages. A second asks how children learn to spell. Finally, from a literacy point of view, another asks the extent to which spelling and reading are related. In collecting some of the interesting research on spelling, the editors have adopted each of these perspectives. Many of the papers themselves reflect more than one perspective, and the reader will find important observations about orthographies, the relationship between spelling and reading, and issues of learning and teaching throughout the collection.

Technology of Darkness! What a strange expression. The Bible says: Lest Satan should get an advantage of us: for we are not ignorant of his

devices (2 Cor 2:11). In every locality, the enemy operates a technology of death, spiritual robbery and destruction. Every locality has its own spiritual powers controlling it. The enemy dribbles man according to his culture, traditions and environment. Ignorance of local wicked devices has destroyed so many destinies. This book is a warfare manual to help you destroy every local satanic technology. You have a very powerful weapon in your hands!

Indispensable Resource for Old Testament Studies" The present work is an attempt to evaluate the contents of the Old Testament and the Apocrypha against the vast background of knowledge that is now available for students of ancient Near Eastern life and culture. (From the Preface) With characteristic understatement, R. K. Harrison embarked on this massive attempt and produced a volume that for scrupulous detail, scholarly rigor, and sheer erudition has remained unmatched for nearly fifty years. Writing from his own apparently limitless scholarship combined with a conservative perspective, Harrison first reviews the entire history of Old Testament criticism and sets the Hebrew scriptures in their full historical and theological context. He then presents a detailed discussion of each Old Testament book, along with a lucid overview of the apocryphal books. Harrison's engagement of the perennial issues and problems of Old Testament scholarship make this classic text a vital foundation for a new generation of scholars. For contemporary Old Testament studies, this highly respected volume continues to be the essential point of departure."

I Just Wanted More Land - Jabez 2001-12-31 Gary E. Gilley The meteoric rise in popularity of Bruce Wilkinson's compact book, *The Prayer of Jabez*, has taken the church, and the country, by storm. Having already sold millions of copies, it may become the best-selling Christian book of the last one hundred years. In this book, pastor and author Gary Gilley takes issue with Wilkinson's message. He believes the message, although well-meaning, is unbiblical and threatens to do incalculable damage to the church.

The Book of Ezekiel, Chapters 25-48 1998-06-19 Daniel I. Block This work completes Daniel Block's two-volume commentary on the book of Ezekiel. The result of twelve years of studying this difficult section of Scripture, this volume, like the one on chapters 1-24, provides an excellent discussion of the background of Ezekiel and offers a verse-by-verse exposition that makes clear the message of this obscure and often misunderstood prophet. Block also shows that Ezekiel's ancient wisdom and vision are still very much needed as we enter the twenty-first century.

The Letters of 2 Peter and Jude 2006-09-19 Peter H. Davids Filling a notable gap in scholarship on 2 Peter and Jude, Peter Davids artfully unpacks these two neglected but fascinating epistles that deal with the

confrontation between the Greco-Roman world and the burgeoning first-century Jesus communities. Davids firmly grasps the overall structure of these oft-maligned epistles and presents a strong case for 2 Peter and Jude as coherent, consistent documents. Marked by exceptional exegesis and sharp, independent judgments, Davids's work both connects with the latest scholarship and transforms scholarly insights into helpful conclusions benefiting Christian believers.

Prophecy and Hermeneutic in Early Christianity 2003-06-12 E. Earle Ellis 'Prophecy and Hermeneutic in Early Christianity' was written with the conviction that the New Testament presents to its readers not merely the opinions of Christian writers, but also the message of God mediated through faithful prophets. These prophets initiated and interpreted the first proclamation of the Christian faith - a proclamation that continues to enlighten and to guide the church, for it provides a key to the church's history and theology. The prophets in this study are the pneumatics, those early Christians who are characterized by spiritual gifts of inspired speech and discernment, who are coworkers of Paul engaged in preaching and teaching. While some were perverting their gifts and thereby causing strife in the church, Paul's companions had an active role in its missionary enterprise. Dr. Ellis examines the dispute between the two parties which threatened to destroy the unity and faith of the church. The pneumatics were involved in the formulation of a Christian theology of the Old Testament through their exposition and application of Scripture. Dr. Ellis describes and elaborates upon the interpretative principles which they used. He concludes with a critique of the older form criticism of the gospels and suggests some new directions for understanding the history of the transmission of the teaching of Jesus.

Neyrey This fascinating study not only provides an entirely new translation of both 2 Peter and Jude, but also offers stirring commentary on the text that takes the reader inside groups located at the very edges of Christianity. Jude, 2 Peter 1983 Richard Bauckham The Book of Job, among the greatest masterpieces of world literature, deserves a commentary alert both to the windings of its arguments and to the massive theological problem it raises: the conflict of faith and experience, that is, does it have to do primarily with the why of suffering, or is the chief issue rather the problem of the moral order of the world, of the principles on which it is governed? While many feel that Job is too long, full of windy and tedious words, Professor David J .A. Clines shows in detail how every element is essential and how only the interweaving of literary and theological perspectives can reveal the richness of the writing. To this end, he supplies a uniquely comprehensive General Bibliography (as well as pericope bibliographies), unrestricted by scholarly apartheid, which

includes works of sermons and popular devotions valuable for their theological and spiritual insights. A verse-by-verse commentary, this volume never loses sight of the forest for the trees and, especially in the Explanation sections, constantly surveys the progress of the Book of Job. A particular focus is the unraveling of the arguments and the identification of the distinctive viewpoints of the book's speakers. The textual Notes, which center on explaining why the English versions of Job differ so amazingly from one another, support the author's carefully worded Translation. In his Introduction, Professor Clines says: "Reading and close-reading the Book of Job, the most theologically and intellectually intense book of the Old Testament, is a perennially uplifting and not infrequently euphoric experience. The craftsmanship in the finest details, the rain of metaphors, the never-failing imagination of the poet are surpassed only by the variety and delicacy of the theological ideas and the cunning of this most open of texts confronting its readers with two new questions along with any answer."

The authors contend that despite its at times aimless appearance and apparently unstructured content, casual conversation is a highly structured task and performs a vital part in the social construction of reality. The work proceeds through genuine examples of casual conversations involving participants diverging in age, gender, ethnicity, and socio-economic class¹². Drawing on insights from sociology, linguistics, and critical semiotics, the publication equips readers with the analytical skills to portray the levels of structure and critical interpretive frameworks to elucidate the 'social work' that occurs on through chat.
