## *Minutemen*

2006 Jim Gilchrist This book is a first-hand account from the frontlines, and what it says will shock you. Jim Gilchrist teams up with Jerome Corsi, the co-author of *Unfit for Command* - the book that derailed John Kerry's presidential campaign - to describe in vivid detail how the nation's southern border has disintegrated into a Wild West of human trafficking, drug smuggling, and violent gangs. Readers of this disturbing and timely book will learn how: Mexico encourages the mass emigration of millions of impoverished peasants, and why the Mexican government will stop at nothing to keep the border open; The Catholic Church uses its power and influence to subvert immigration laws, and why Church leaders are speaking out in favor of amnesty; American taxpayers are forced to pay the staggering economic and cultural price tag of illegal immigration, and why our government wants to keep the true costs hidden from the public. Like their Revolutionary War predecessors who defended America against a hostile foreign power, today's Minutemen have risen up to answer their nation's call against another invasion. *Minutemen* is their story, as well as an urgent call to arms to all of their countrymen.

## **The Great Oil Conspiracy**

---

2014-11-11 Jerome R. Corsi "Jerry Corsi may just be the best investigative journalist working today and this incredible book proves it."—Roger Stone, New York Times bestselling author A shocking investigation revealing why greedy oil companies are lying to the American people. At the end of World War II, U.S. intelligence agents confiscated thousands of Nazi documents developed by German chemists unlocking the secrets of how oil is formed. When the Nazis took power, Germany had resolved to develop enough

synthetic oil to wage war successfully, even without abundant national oil reserves. For decades, these confiscated German documents remained largely ignored in a United States where petro-geologists and petro-chemists were convinced that oil was a "fossil fuel" created by ancient decaying biological debris. Clearly, big U.S. oil companies had no financial interest in explaining to the American people that oil was a natural product made on a continual basis deep within the earth. If there were only so many fossils in geological time, there could only be so much oil. Big oil could then charge more for a finite, rapidly disappearing resource than for a natural, renewable, and probably inexhaustible one. Once oil is understood as an abundantly available resource, there is no reason hydro-carbon fuels cannot indefinitely propel the development and production of cheap energy reserves the United States needs to maintain its dominant position in the emerging global economy. *The Great Oil Conspiracy*, updated for this paperback release with a new chapter by Dr. Corsi, explains how German chemists had cracked the code to synthetic oil, and why the U.S. government is trying to keep their findings from you to this day. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. *The Obama Nation*

2008-08-05 Jerome R. Corsi In this thoroughly researched and documented book, the #1 New York Times bestselling co-author of *Unfit for Command: Swift Boat Veterans Speak Out Against John Kerry* explains why the extreme leftism of an Obama presidency would leave the United States weakened, diminished and divided, why Obama must be defeated -- and how he can be. Barack Obama stepped onto the national political stage when the then-Illinois State senator addressed the 2004 Democratic National Convention. Soon after Obama was elected to the U.S. Senate, author Jerome Corsi began researching Obama's personal and political background. Scrupulously sourced with more than 600 footnotes, *The Obama Nation* is the result of that research. By tracing Obama's career and influences from his early years in Hawaii and Indonesia, the beginnings of his political career in Chicago, his voting record in the Illinois legislature, his religious training and his adoption of Christianity through to his recent involvement in Kenyan politics, his political advisors and fundraising associates and his meteoric campaign for president, Jerome Corsi shows that an Obama presidency would, in his words, be "a repeat of the failed extremist politics that have characterized and plagued Democratic Party politics since the late 1960s." In this stunning and comprehensive new book, the reader will learn about: Obama's extensive connections with Islam and radical politics, from his father and step-father's Islamic backgrounds, to his Communist and socialist mentors in Hawaii and Chicago, to his long-term and close associations with former Weather Underground heroes William Ayers and Bernadette Dohrn -- associations much closer than heretofore revealed by the press. Barack and Michelle's 20-year-long religious affiliation with the black-liberation theology of former Trinity United Church of Christ Reverend Jeremiah Wright, whose sermons have always been steeped in a rage first expressed by Franz Fanon, Stokely Carmichael and Malcolm X, a rage that Corsi shows has deep meaning for Obama. Obama's continuing connections with Kenya, the homeland of his father, through his support for the candidacy of Raila Odinga, the radical socialist presidential contender who came to power amid Islamist violence and church burnings. Obama's involvement in the slum-landlord

empire of the Chicago political fixer Tony Rezko, who helped to bankroll Obama's initial campaigns and to purchase of Barack and Michelle's dream-home property. The background and techniques of the Obama campaign's cult of personality, including the derivation of the words "hope" and change." Obama's far-left domestic policy, his controversial votes on abortion, his history of opposition to the Second Amendment, his determination to raise capital-gains taxes, his impractical plan to achieve universal health care, and his radical plan to tax Americans to fund a global-poverty-reduction program. Obama's naïve, anti-war, anti-nuclear foreign-policy, predicated on the reduction of the military, the eradication of nuclear weapons and an overconfidence in the power of his personality, as if belief in change alone could somehow transform international politics, achieve nuclear-weapons disarmament and withdrawal from Iraq without adverse consequences, for us, for the Iraqis or for Israel. Meticulously researched and documented, *The Obama Nation* is the definitive source for information on why and how Barack Obama must be defeated -- not by invective and general attacks, but by detailed arguments that are well-researched and fact-based.

### Why Israel Can't Wait

2009-08-18 Jerome R. Corsi The new Israeli government headed by Prime Minister Benjamin Netanyahu has repeatedly declared that a primary foreign policy objective is to prevent Iran from obtaining nuclear weapons capability. Israel is a "one-bomb state," such that one atomic weapon, even a relatively low-yield bomb of the type the United States dropped on Hiroshima or Nagasaki in World War II, would destroy the modern Jewish state as we know it today. The Obama administration has repeatedly declared the intention of following up on the campaign promise to negotiate directly with Iran. This represents a fundamental policy shift from the Bush administration's efforts to apply international sanctions through the United Nations in an effort to force Iran to quit enriching uranium. Consistently, Iran has insisted upon the nation's right as a signatory to the Non-Proliferation Treaty to pursue the "full fuel

cycle," code words for Iran's determination to advance uranium enrichment technology in Iran under Iranian control. In recent months, top Iranian government and military figures have issued warnings that the time is getting short, such that Iran might well have the capability to develop and deliver at least one nuclear weapon by the end of 2009 or the beginning of 2010. At the same time, the international community has expressed doubt that the Iranian government will make any serious concessions on their atomic program. In press conferences and speeches, President Obama has openly acknowledged the U.S. government now believes Iran is pursuing a nuclear weapons program. At the end of the Bush administration, the international press credibly reported that the Olmert government in Israel was denied fly-over rights in Iran in order to launch a military strike on Iran. Known as the "Sampson Option," an Israeli first-strike on Iran's nuclear facilities becomes increasingly likely to the extent Israel feels isolated from the world community and concludes there is no chance the Obama administration will ever be able to induce Iran to stop enriching uranium, regardless how seriously the president intends to push direct negotiations as a strategy. We have already seen two wars launched by Israel against terrorist surrogates financed and supported by Iran: the 2006 war against Hezbollah in Lebanon and the 2008 war against Hamas in the Gaza Strip. Now, a war between Israel and Iran is on the near horizon, possibly fated to occur before the end of 2009.

ECONOMIC TAKEOVER -- FROM THE #1 NEW YORK TIMES BESTSELLING AUTHOR OF THE OBAMA NATION AND THE LATE GREAT USA Between President George W. Bush's "new world order" and the unprecedented governmental growth and massive redistribution of wealth under President Barack Obama, the United States risks losing the greatest middle class ever created in the history of the world. In his groundbreaking new book, Dr. Jerome R. Corsi blows the whistle on a movement to undercut the fundamental principles of limited government that our Founding Fathers fought for and died for trying to establish. As policy-makers manipulate the economic panic of our times to advance a globalist agenda that threatens American sovereignty, we must protect our independent and self-governing nation and preserve the decades of economic power and military strength we have enjoyed since the end of World War II . In America for Sale, Corsi explains the globalists' plan to put America on the chopping block. While the radical Left promotes socialism and the radical Right champions unbridled free trade, valuable jobs are being outsourced, our national borders erased, and our dollar destroyed before our very eyes. Foreign investors are buying up U.S. assets, from financial-services firms to public infrastructure such as highways. We are on our way to a European Union-type North American common market and a one-world government. With constructive solutions for resisting the global New Deal, reversing our dependence on foreign oil, and strengthening our middle class, Corsi shares important and practical strategies to help American families survive an imminent economic depression. The United States can be a major player in the world economy without sacrificing our sovereignty, the strength of our national domestic economy, or the dollar. America is for sale -- unless taxpayers stand up and say "NO!" to the globalist political agenda that threatens our great nation's freedom.

Deep State Jerome R. Corsi, Ph.D. meticulously details the psychological torment he was subjected to in what the media has simply called, "The Mueller Investigation." In late 2018, in an FBI closed conference room with no windows, Dr. Corsi was confronted for hours upon hours at a time by detailed questioning about events that occurred in 2016. Dr. Corsi's inquisition was worthy of the Gestapo or KGB, designed to break even the most cooperating witness. Over a period of two months, three of Mueller's top prosecutors and an army of FBI agents—up to nine government officials at a time—questioned Dr. Corsi with his attorney, David Gray. Throughout this harrowing ordeal, Dr. Corsi handed over his personal computers, his cell phone, all of his email accounts, his Twitter account, and his Google account. Finding no "smoking gun," Mueller's prosecutors blew up the meetings. Dr. Corsi refused to lie to the prosecutors to give them the ammunition they needed to prosecute Roger Stone, and as a result he was told he would be charged with a criminal offense for lying to the FBI and the Special Prosecutor. At seventy-two years of age, Dr. Corsi was subjected to extreme mental anguish, imagining that he may never see his family again as a free man. Rather than conducting an honest investigation, Mueller's Special Prosecutors reinforced a prefabricated narrative aiming to charge President Trump with Treason. *Silent No More: How I Became a Political Prisoner of Mueller's "Witch Hunt"* exposes the inner workings of this governmental escapade, and clearly states why Mueller has no case against the President. Dr. Corsi creates a compelling case indicating that the entire matter is an investigation in search of a crime—to force lying testimony from witnesses if that's what it takes to achieve Deep State political objectives.

### *Obama and Kenya*

2016-07-29 Matthew Carotenuto Barack Obama's political ascendancy has focused considerable global attention on the history of Kenya generally and the history of the Luo community particularly. From politicians populating the blogosphere and bookshelves in the U.S and Kenya, to tourists traipsing through Obama's ancestral home, a variety of groups have mobilized new readings of Kenya's past in service of their own ends. Through narratives placing Obama into a simplified, sweeping narrative of anticolonial barbarism and postcolonial "tribal" violence, the story of the United States president's nuanced relationship to Kenya has been lost amid stereotypical portrayals of Africa. At the same time, Kenyan state officials have aimed to weave Obama into the contested narrative of Kenyan nationhood. Matthew Carotenuto and Katherine Luongo argue that efforts to cast Obama as a "son of the soil" of the Lake Victoria basin invite insights into the politicized uses of Kenya's past. Ideal for classroom use and directed at a general readership interested in global affairs, *Obama and Kenya* offers an important counterpoint to the many popular but inaccurate texts about Kenya's history and Obama's place in it as well as focused, thematic analyses of contemporary debates about ethnic politics, "tribal" identities, postcolonial governance, and U.S. African relations.

### *Relieving Pain in America*

2011-10-26 Institute of Medicine Chronic pain costs the nation up to \$635 billion each year in medical treatment and lost productivity. The 2010 Patient Protection and Affordable Care Act required the Department of Health and Human Services (HHS) to enlist the Institute of Medicine (IOM) in examining pain as a public health problem. In this report, the IOM offers a blueprint for action in transforming prevention,

care, education, and research, with the goal of providing relief for people with pain in America. To reach the vast multitude of people with various types of pain, the nation must adopt a population-level prevention and management strategy. The IOM recommends that HHS develop a comprehensive plan with specific goals, actions, and timeframes. Better data are needed to help shape efforts, especially on the groups of people currently underdiagnosed and undertreated, and the IOM encourages federal and state agencies and private organizations to accelerate the collection of data on pain incidence, prevalence, and treatments. Because pain varies from patient to patient, healthcare providers should increasingly aim at tailoring pain care to each person's experience, and self-management of pain should be promoted. In addition, because there are major gaps in knowledge about pain across health care and society alike, the IOM recommends that federal agencies and other stakeholders redesign education programs to bridge these gaps. Pain is a major driver for visits to physicians, a major reason for taking medications, a major cause of disability, and a key factor in quality of life and productivity. Given the burden of pain in human lives, dollars, and social consequences, relieving pain should be a national priority.
