Electronic Commerce: From Vision To Fulfillment 3Rd Ed. 2006 Elias M Awad

Electronic Commerce 2005 Elias M. Awad This briefer text gives students an overview of managerial and technical concepts of e-commerce. The material follows a life cycle approach to show students the entire process of e-commerce from "vision" or strategic planning to "fulfillment" for delivery of products and services with the goal of customer satisfaction.

ESSENTIALS OF E-COMMERCE TECHNOLOGY 2009-11-03 V. RAJARAMAN This book is designed to acquaint the readers with major aspects of e-commerce with particular emphasis on technology such as cryptography, e-payment and mobile payment security. The book presents a layered architecture of e-commerce systems with six layers. The physical layer (the bottommost layer) described first, provides the basic communication infrastructure needed by e commerce. The next layer described is the logical layer consisting of Local Area Networks, the Internet, Intranet, etc. which provide connectivity. The layer above is the network services layer which provides e-mail and World Wide Web applications. Above this is a very important messaging layer of e-commerce which provides facilities for exchanging messages securely using the communication infrastructure. Here various methods of encryption, public key infrastructure and digital signature are discussed. It is also explained as to how the messaging layer is used to exchange structured electronic documents, using XML. The next layer called middleman services layer, describes the design of home page of an organization and elaborates

credit card, e cash, smart card, etc. The topmost layer is on applications, namely, B2C, B2B and C2C e commerce which are defined and described at the beginning of the book. As use of mobile phones and mobile network is rapidly increasing, a whole chapter is devoted to explain m-commerce. Of special interest are detailed discussions of Wireless Application Protocol, security issues and payment methods. A complete chapter is also devoted to new developments in multimedia information goods such as e-books, MP3 compressed audio and digital quality video. A unique feature of these goods is the method of delivery which also uses the mobile Internet infrastructure. Finally, the legal framework of e-commerce provided by the Information Technology Act 2000 (and the amended act of 2008) is explained. This book with its numerous student-friendly features is an ideal text for undergraduate and postgraduate students of Computer Science and Information Technology (BSc and MSc), Computer Applications (BCA and MCA), and for undergraduate engineering students of Computer Science and Engineering and Information Technology. Besides, it would be useful to professionals for quickly understanding the basics of e-commerce. Key Features : • Gives detailed discussions of security and payment schemes in e-commerce. • Discusses essentials of m-commerce technology including WAP protocol and mobile security. • Discusses e-commerce of multimedia such as e-books, MP3 audio and video on demand. • Provides learning aids such as chapter summaries, over 300 review questions and 350 objective type questions.

Electronic Commerce 2018 2017-10-12 Efraim Turban This new Edition of Electronic Commerce is a complete update of the leading graduate level/advanced undergraduate level textbook on the subject. Electronic commerce (EC) describes the manner in which transactions take place over electronic networks, mostly the Internet. It is the process of electronically buying and selling goods, services, and information. Certain EC applications, such as buying and selling stocks and airline tickets online, are reaching maturity, some even exceeding non-Internet trades. However, EC is not just about buying and selling; it also is about electronically communicating, collaborating, and discovering information. It is about e-learning, e-government, social networks, and much more. EC is having an impact on a significant portion of the world, affecting businesses, professions, trade, and of course, people. The most important developments in EC since 2014 are the continuous phenomenal growth of social networks, especially Facebook, LinkedIn and Instagram, and the trend toward conducting EC with

mobile devices. Other major developments are the expansion of EC globally, especially in China where you can find the world's largest EC company. Much attention is lately being given to smart commerce and the use of AI-based analytics and big data to enhance the field. Finally, some emerging EC business models are changing industries (e.g., the shared economy models of Uber and Airbnb). The 2018 (9th) edition, brings forth the latest trends in e-commerce, including smart commerce, social commerce, social collaboration, shared economy, innovations, and mobility.

the main focus of eCommerce Fundamentals, but we still take time to explore how to leverage the power of Online for brick-and-mortar retail, hybrid brick-and-mortar, and non-governmental organizations (NGO). The book takes a synergistic approach that emphasizes business process engineering in a Lean/Six Sigma framework. eCommerce Fundamentals shows you how to thrive in business, not just survive. You are introduced to concepts in online commerce that not only level the field against competitors, but more importantly empowers you and your organization to leave them in the dust. There are a handful of key takeaways that alone are worth the read, and that hold the potential to radically transform the success and effectiveness of your business. They represent best practice thinking and innovative breakthroughs, such as in traffic generation strategies, leveraging niche content, conversion enhancement and personalizing user/customer experience (UX/CX). In the conclusion, "the Human(H) -digital(d) Apex (Hd)tm" is introduced, a next generation in UX/CX that "ingrains humanity in the digital world". Organizational development and entrepreneurial management is touched on relative to building a thriving eCommerce business. A lot of ground is covered in eCommerce Fundamentals and by design it is not a 300 or 400 page text book. Business process engineering is personal, and needs to be right-sized and right-fitted to your specific business situation. Let's write the next 100 pages together as we collaborate on how you too can apply the power of Online and accomplish your entrepreneurial vision and mission, and realize your person dreams along the way! When you have finished reading eCommerce Fundamentals, please see the special consultation offer at the close of the book.

Proceedings of the 3rd Universitas Lampung International Conference on Social Sciences (ULICoSS 2022) 2023-05-03 Ryzal Perdana This is an open access book. The 3rd Universitas Lampung International Conference on Social Sciences (ULICoSS) 2022 (ULICoSS) 2022 is an international conference organized by the Institute for Research and Community Services, Universitas Lampung, Indonesia. The event took place on 6th - 7th September 2022 in Bandar Lampung City, on the Indonesian island of Sumatra. This event will adopt a hybrid working model, combining an in-person event with an online meeting via Zoom. Attendees and presenters are expected to interact in this way, using technology to connect to global networks. As has been widely stated in the literature, a number of reports and papers have examined the pandemic's negative effects, with the majority of work to date focusing on COVID-19's negative impact on psychological well-being. Thus, social adjustment is required for resilience in order to adapt to and change in the face of adversity. In other words, it is clear that social adjustment, which includes the specific behaviors and abilities that people use to deal with daily problems and adapt to changing circumstances, is critical for global resilience today. As such, this international conference, which will
