the discipline for new students. Brown and Ainley provide systematic coverage of the classical concerns of International Relations theory - power, national interest, foreign policy and war - alongside analysis of the impact of globalization on security, governance and the world economy. The authors actively avoid using a singular theoretical lens to conduct their survey, instead evaluating and using many throughout this book to further illustrate the nuances of the discipline. This is all while maintaining the focus on the discipline's focus on real world events, with case studies ranging from the recent rise of China and

Russia to the global economic downturn, to teach students how the discipline can be applied to understanding the central and difficult questions that the world faces today. Clear and accessible, but also critical and penetrating, this book is an essential text for undergraduate International Relations students today.

Managing People in Organizations

2018-10-06 Thomas Klikauer This new and engaging core textbook offers a unique line manager perspective that presents students with HRM topics and issues that they will be

confronted with once they enter the world of work in a managerial role. It is a concise text that focuses on providing students with all they need to know to equip them with a comprehensive understanding of the role the (non-HR) manager plays in the day-to-day running of an organization. The author's deep understanding and wide-ranging knowledge of the subject matter means that the text is firmly founded on the latest research, while the case studies, topical and international examples, and experiential exercises that form a fundamental part of the book ensure that theory is always clearly applied to real-world

practice. This text is an essential companion for MBA and postgraduate students who are studying modules on Human Resource Management or Managing People but who are non-HRM specialists and do not require the exhaustive detail found in other HRM texts. It is also suited for use alongside upper-level undergraduate modules on these topics on mainstream business degrees.

The Political Economy of Southeast Asia

2020-03-03 Toby Carroll "This is not only the best collection of essays on the political economy of Southeast Asia, but also, as a singular achievement of the "Murdoch School", one of the rarest of books that demonstrates how knowledge production travels across generations, institutions and time periods, thereby continually enriching itself. No course on Southeast Asia can afford to miss it as its core text." (Professor Amitav Acharya, American University, USA) "This book – the fourth in a path-breaking series – demonstrates why a critical political economy approach is more crucial than ever for

understanding Southeast Asia's transformation.

Across a wide range of topics, the book explains how capitalist development and globalisation are reshaping the societies, economies and politics of a diverse group of countries, casting light on the deep sources of economic and social power in the region. This is a book that every student of Southeast Asia needs to read." (Professor Edward Aspinall, Australian National University, Australia) "This book does what a work on political economy should do: challenge existing paradigms in order to gain a deeper understanding of the processes of social

transformation. This volume is distinctive in three ways. First, it eschews methodological nationalism and focuses on how the interaction of national, regional, and global forces are shaping and reshaping systems of governance, mass politics, economies, labor-capital relations, migration, and gender relations across the region. Second, it is a bold effort to show how the “Murdoch School,” which focuses on the dynamic synergy of internal class relations and global capitalism, provides a better explanatory framework for understanding social change in Southeast Asia than the rival “developmental

state” and “historical institutionalist” approaches. Third, alongside established luminaries in the field, it showcases the younger generation of political economists doing pathbreaking work on different dimensions of the political economy of the region." (Walden Bello, State University of New York at Binghamton, USA, and Former Member of the Philippines’ House of Representatives) "This very timely fourth edition explores Southeast Asia’s political economy within the context of hyperglobalisation and China’s pronounced social-structural impacts on international politics, finance and economics over

the past decade and a half. The volume successfully adopts a cross-cutting thematic approach, while also conveying the diversity and divergences among the Southeast Asian states and economies. This will be an important resource for scholars of International Relations and Comparative Politics, who need to take an interest in a dynamic and increasingly significant part of Asia." (Professor Evelyn Goh, Australian National University, Australia) "This ambitious collection takes a consistent theoretical approach and applies it to a thematic, comparative analysis across Southeast Asia. The yield is impressive:

the social, political and economic forces constituting the current conjuncture are not simply invoked, they are thoroughly identified and explained. By posing the deceptively simple questions of what is happening and why, the authors demonstrate the reciprocal relation between theory-building and empirical inquiry, providing a model of engaged scholarship with global resonance. Bravo!" (Professor Tania Li, University of Toronto, Canada) "Counteracting the spaceless and flattened geography of much literature on uneven development, this book delivers a forensic examination of the unevenness

of geographical development in Southeast Asia and the relations of force shaping capital, state, nature and civil society. This is the most compelling theoretical and empirical political economy book available on Southeast Asia." (Professor Adam David Morton, University of Sydney, Australia) "A vital book for all scholars, students and practitioners concerned with political economy and development, this volume combines cutting-edge theory with rich and wide-ranging empirical analysis. It is terrific to see the continued success of this book with this fully revised fourth edition." (Professor Nicola Philips,

Kings College London, UK) "The Political Economy of Southeast Asia has become a leading reference for students of the region. With its breadth of geographic scope, timely themes, clarity of prose and rigour of analysis, Carroll, Hameiri and Jones have ensured that with this fourth edition the volume will continue its landmark status. The book, which brings together prominent experts in the field, will not only be of immense interest to scholars studying Southeast Asia, but also those seeking to understand the multifaceted nature of the political economy of uneven development in contemporary capitalism."

(Professor Susanne Soederberg, Queen's University, Canada) "The Asia Research Centre at Murdoch University has long produced leading analyses of the social, economic and political developments in Southeast Asia. This volume carries on that wonderful tradition. It brings together top-class scholars to challenge our assumptions about one of the most dynamic parts of the world. This collection is a crucial read for anyone interested in understanding trends in Southeast Asia's development today and into the future." (Professor Richard Stubbs, McMaster University, Canada) "This fourth volume in a

distinguished series provides a welcome and timely update of the Murdoch School's distinctive approach to understanding the evolving political economy of Southeast Asia. Its theoretical depth and wide empirical scope will be of great value to scholars, students and practitioners seeking a systematic understanding of the political economy dynamics in the Asian region and, more broadly, of states and regions embedded in a complex, unstable global political economy." (Professor Andrew Walter, University of Melbourne) This all-new fourth edition of *The Political Economy of Southeast Asia* constitutes a state-of-the-art,

comprehensive analysis of the political, economic, social and ecological development of one of the world's most dynamic regions. With contributions from world-leading experts, the volume is unified by a single theoretical approach: the Murdoch School of political economy, which foregrounds struggles over power and resources and the evolving global context of hyperglobalisation. Themes considered include gender, populism, the transformation of the state, regional governance, aid and the environment. The volume will be of interest to scholars and students across multiple disciplines, including political economy,

development studies, international relations and area studies. The findings of contributors will also be of value to civil society, policymakers and anyone interested in Southeast Asia and its development.
