2010-03-15 Moshe A. Milevsky Ph.D. This is the eBook version of the printed book. This element is an excerpt from Your Money Milestones: A Guide to Making the 9 Most Important Financial Decisions of Your Life (9780137029105) by Moshe A. Milevsky, Ph.D. Available in print and digital formats. Why millions of people should rent, not buy--and keep renting as long as possible! Many individuals should not own a house--or they should at least delay the purchase as long as possible. Anyone that followed this advice in the United States over the last few years, possibly the last few decades, would be much better off today. This is not just me dispensing hindsight. If you consider the spreading of resources over time, you can arrive at the same conclusion. But the reason is not as simple as you might think.

RENT VS. OWN

2012-03-09 Jane Hodges This guide to making the big decision by a real estate reporter is "a truly balanced look at an emotional subject . . . plenty of tips to keep you above water" (Mint.com). When it comes to real estate, renting vs. owning is always a big decision—not just whether to take the plunge, but when. The housing market can be volatile, and purchasing a home may be one of the biggest investment decisions you'll ever make. This guide offers a reality check that cuts through all the hype and helps you decide whether to buy now or keep renting. Expert finance and real estate reporter Jane Hodges, who has written for the Wall Street Journal, Seattle Times, and other top publications, explains how the housing market works and breaks down all the pros and cons of buying and renting—because contrary to popular belief, buying isn't the best choice in every situation. With dozens of success stories and cautionary tales from real-life renters and owners across the country, this indispensable manual gives confused consumers the tools to make the right decision for their budget, market, personal needs, and future.

THE WEALTHY RENTER

2016-09-10 Alex Avery A national bestseller! Why be house poor when you can rent rich? "Why rent when you can buy?" More than any other, this phrase captures the overwhelmingly unanimous promotion of home ownership to Canadians. Real estate agents, mortgage brokers, family, friends, and even the government promote ownership as a safe, attractive, and sure-fire path to personal wealth. This one-size-fits-all advice ignores the reality of Canada's housing market. Canadians deserve better advice. Faced with expensive house prices in a near-zero interest rate world, it's time Canadians heard the virtues of renting and seriously considered renting as an alternative to home ownership. Real estate analyst Alex Avery insists renting offers a simple, more affordable way to live, plus in Canada's frenzied housing market, going month-to-month is dramatically lower risk. He claims the reputation of home ownership as a wealth building strategy is unfounded and shows renters how to replace bricks-and-mortar with better investment opportunities.

THE WHITE COAT INVESTOR

2014-01 James M. Dahle Written by a practicing emergency physician, The White Coat Investor is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a "Backdoor Roth IRA" and "Stealth IRA" to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, limited liability company, S corporation, and C corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise for The White Coat Investor "Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place." - Allan S.
